LISTA DE ILUSTRAÇÕES

TABELAS:

Tabela 1-1: Estimativas das taxas de emissão decorrentes da operação do HUB para o cenário 2. 7
Tabela 1-2: Taxas de emissão decorrentes da operação da UPGN para o cenário 2 em sinergia com o HUB. 8
Tabela 1-3: Taxas de emissão decorrentes da operação da UPGN para o cenário 2 em sinergia com o HUB. 10
Tabela 1-4: Taxas de emissão decorrentes da operação do Porto do Açu para o cenário 2 em sinergia com o HUB. 11
Tabela 1-5: Taxas de emissão decorrentes da operação do TESUL para o cenário 2 em sinergia com o HUB. 14
Tabela 1-6: Taxas de emissão decorrentes da operação da UTP para o cenário 2 em sinergia com o HUB. 15
Tabela 1-7: Taxas de emissão decorrentes da operação da UTE Porto do Açu para o cenário 2 em sinergia com o HUB. 16
Tabela 1-8: Taxas de emissão decorrentes da operação do TESUL para o cenário 2 em sinergia com o HUB. 18
Tabela 1-9: Taxas de emissão decorrentes da operação do GLN para o cenário 2 em sinergia com o HUB. 21
Tabela 1-10: Taxas de emissão decorrentes da operação da UTE GNA I em sinergia com o HUB. 22
Tabela 1-11: Taxas de emissão decorrentes da operação da UTE GNA II para o cenário 2 em sinergia com o HUB. 23

1 CARACTERÍSTICAS DAS FONTES DE EMISSÃO DO CENÁRIO 2

Para a construção do cenário 2 se levou em conta as informações dos inventários de fontes contidos no Estudo de Impacto Ambiental da Unidade de Processamento de Gás Natural (UPGN) e Infraestrutura de Gasoduto (GASINF) - (ECOLOGY BRASIL, 2020).

Considera-se além da operação do HUB, a operação simultânea dos empreendimentos do Porto do Açu, da Unidade de Processamento de Gás Natural (UPGN), a Área de Estocagem de Produtos Líquidos do Gás Natural (LGN), o Terminal Sul, a Unidade de Tratamento de Petróleo (UTP) do Pátio Logístico, a UTE Porto do Açu II, Terminal de GNL, UTE GNA I e UTE GNAII. As características básicas dos empreendimentos citados podem ser observadas abaixo para o canário 2:

- **Tabela 1-1** - HUB de hidrogênio e Derivados de Baixo Carbono;
- **Tabela 1-2** e **Tabela 1-3** - Unidade de Processamento de Gás Natural (UPGN) e Área de Estocagem de Produtos Líquidos do Gás Natural (LGN): projetada para receber gás rico e gás pobre provenientes de campos do pré-sal. As emissões incluem chaminés (turbinas, fornos e geradores de emergência), unidade de remoção de gases ácidos, flare e groundflare;
- **Tabela 1-4** e **Tabela 1-5** - Porto do Açu (Terminal 1): porto logístico com movimentação de produtos siderúrgicos, minério, petróleo e cargas diversas. As emissões de poluentes atmosféricos são provenientes dos navios durante a espera e as manobras;
- **Tabela 1-6**- Terminal Sul (T2): terminal marítimo multiuso, destinado à movimentação de granéis sólidos e líquidos, além de abrigar empresas de prestação de serviços offshore. As emissões incluem a movimentação de navios, tanques e caldeiras. As caldeiras 1 e 2 e tanque não foram inclusos na modelagem, pois foram retiradas do projeto original;
- **Tabela 1-7** - Unidade de Tratamento de Petróleo (UTP) do Pátio Logístico: localizado na retro área do Terminal 1 do Porto do Açu, que deverá abrigar os processos de tratamento e estocagem de petróleo, com emissões fugitivas de tanques e equipamentos, além de 3 caldeiras a óleo (HFO 380);

- **Tabela 1-8** - UTE Porto do Açu II (UTE GNA III, UTE GNA IV e UTE GNA V): termelétrica a gás liquefeito composta de 5 blocos geradores com capacidade máxima de 660 MW, com possíveis emissões atmosféricas provenientes das chaminés das unidades de geração de energia (turbinas a gás natural);
- **Tabela 1-9** - Terminal Portuário de Importação e Regaseificação de GNL: terminal de importação e regaseificação de GNL por meio de navios FSRU atracados no píer e tanques de estocagem *onshore*;
- **Tabela 1-10** - UTE GNA I: constitui um dos dois blocos geradores da UTE Novo Tempo, com três turbinas a gás natural em ciclo combinado;
- **Tabela 1-11** - UTE GNA II: constitui o segundo dos dois blocos geradores da UTE Novo Tempo, com três turbinas a gás natural em ciclo combinado.

Tabela 1-1: Estimativas das taxas de emissão decorrentes da operação do HUB para o cenário 2.

APRESENTAÇÃO

Este documento apresenta a avaliação de impacto e plano de conservação para *Melocactus violaceus* Pfeiff., espécie ameaçada de extinção, encontrada na área de restinga no Complexo Industrial do Porto Açu, município de São João da Barra/RJ.

Para esta avaliação, o presente documento analisa os resultados apresentados no inventário florestal realizado nas áreas diretamente afetadas, bem como o diagnóstico da flora realizado na área de influência do empreendimento desenvolvido para compor o Estudo de Impacto Ambiental (EIA) durante o processo de licenciamento junto ao Instituto Estadual do Ambiente - INEA. As informações acerca do estado de conservação da espécie ameaçada de extinção e a legislação vigente, no que tange: 1) Os riscos da supressão de indivíduos para sobrevivência e conservação *in situ* da população da espécie; 2) As medidas de mitigação e compensação através da elaboração de um Plano de Ação e Conservação (item **5**) com sugestão de práticas para conservação in situ dessa espécie na região, além de sugestões de práticas para conservação *ex situ*.

O presente estudo foi elaborado pelo biólogo Dr. Marcelo da Costa Souza. A responsabilidade técnica pelo documento é de Marcelo da Costa Souza – Professor e Pesquisador da Universidade Federal Rural do Rio de Janeiro – Matrícula SIAPE: 1855169.

Marcelo da Costa Souza

2 RESPONSÁVEL TÉCNICO PELO ESTUDO

A empresa responsável pela elaboração deste estudo é Ambipar Response Control Environmental Consulting S.A, contratada pela Porto do Açu Operações S.A. As **Tabela 2-1** e **Tabela 2-2** a seguir apresentam os dados do empreendedor e do responsável técnico pela elaboração do estudo.

Tabela 2-1: Dados de identificação da empresa responsável pela elaboração do estudo.

Identificação da empresa responsável	
Razão social:	Ambipar Control Environmental Consulting S.A.
CNPJ:	10.550.896/0001-36
Endereço completo:	Rua Manoel Feu Subtil, nº 60, Edifício Wine, Sala 201, Enseada do Suá, Vitória - Espírito Santo - Brasil, CEP: 29050-400
Telefone:	(27) 3134-5350
Cadastro Técnico Federal (CTF)	3684796
Pessoa de contato:	Fabricio Resende Fonseca - fabricio.fonseca@ambipar.com

Tabela 2-2: Dados de identificação do responsável técnico pela elaboração do estudo.

Identificação do responsável legal	
Nome:	Marcelo da Costa Souza
Formação:	Biólogo, Doutor em Botânica
CRBio-RJ:	60064-02
Instituição:	Departamento de Botânica/Instituto de Ciências Biológicas e da Saúde – Universidade Federal Rural do Rio de Janeiro
Matrícula SIAPE:	1855169 (**ANEXO I**)
Currículo Lattes:	http://lattes.cnpq.br/7007199583077652
Telefone:	(21) 99381-5688
E-mail:	souza.mc@gmail.com
Cadastro Técnico Federal (CTF):	2011431 (**ANEXO II**)

3 MÉTODOS

As análises do presente estudo levaram em consideração a delimitação da área do empreendimento, que está localizado em ecossistema de restinga e abrange um total de 948.129,67 m^2 (**MAPA-PR T-AMBP-ENV-484-36-074**) e os remanescentes de vegetação encontrados no seu entorno, incluindo unidades de conservação.

O empreendimento Hub de Hidrogênio e Derivados de Baixo Carbono não se encontra inserido em nenhuma unidade de conservação, entretanto, em sua proximidade se destacam as seguintes UCs: Reserva Particular do Patrimônio Natural Caruara (RPPN Caruara) e o Parque Estadual da Lagoa do Açu (PELAG) (**MAPA-PR T-AMBP-ENV-484-36-024**).

3.1 PRINCIPAIS AMEAÇAS OCORRENTES NA ÁREA DE ESTUDO

A identificação das ameaças foi feita a partir da atualização de informações sobre os vetores de pressão incidentes sobre a vegetação da Mata Atlântica, com ênfase nas formações vegetais remanescentes na abrangência das áreas do entorno do empreendimento. O reconhecimento dos vetores de pressão foi orientado pelo Plano de Ação Nacional para Conservação da Flora Endêmica Ameaçada de Extinção do Estado do Rio de Janeiro (POUGY et al., 2018), particularmente para as ações e estratégias direcionadas para a Região Hidrográfica da Baixo Paraíba do Sul e Itabapoana – RH-IX.

A avaliação das ameaças sobre a população do *Melocactus violaceus* na área do empreendimento, considerou os dados primários coletados no inventário florestal e diagnóstico da flora apresentados no EIA e a análise de dados secundários sobre a espécie para região.

3.2 AVALIAÇÃO DE RISCO DE EXTINÇÃO PARA *MELOCACTUS VIOLACEUS*

A espécie *Melocactus violaceus* foi listada e categorizada como “Vulnerável” (VU) na Lista Nacional de Espécies Ameaçadas de Extinção da Portaria do Ministério do Meio Ambiente Nº 148, de 7 de junho de 2022 (MMA, 2022) e na Lista vermelha de Espécies Ameaçadas da IUCN – versão 2022-2 (IUCN, 2023).

O registro da ocorrência dessa espécie na área do empreendimento foi baseado nos resultados do inventário florestal e diagnóstico da flora do EIA.

Os registros de ocorrência válidos para o Brasil e para área do entorno do empreendimento foram obtidos em bancos de dados de herbários nacionais e internacionais (REFLORA, 2023; SPECIESLINK, 2023) e literatura científica específica (ZAPPI & TAYLOR, 2023).

Para avaliar a ocorrência da espécie em áreas sobre proteção legal, que permite estabelecer ponderações mais consolidadas sobre a certeza da conservação das populações da espécie sobre análise, foram considerados os registros botânicos e dados bibliográficos para Unidades de Conservação (UCs) da região de entorno do Complexo Industrial Porto Açu.

A tomada de decisão sobre a avalição do impacto da supressão sobre a espécie ameaçada de extinção encontrada na área considerou:

- Número total de indivíduos na área do empreendimento e no seu entorno;
- Ocorrência de indivíduos na região (municípios de São João da Barra, Campos dos Goytacazes e Unidades de Conservação);
- Impacto da supressão sobre a população;
- Estratégia para garantir a preservação das populações na região (critérios e indicações de procedimentos) com a elaboração do Plano de Ação e Conservação (descrito no item **5** deste texto) atendendo a especificidade da espécie.

O refinamento da análise de população mínima viável levou em consideração principalmente a classificação da vegetação e a situação atual das áreas remanescentes no entorno da área do empreendimento.

O Plano de Ação e Conservação, que relaciona-se diretamente com as medidas de mitigação, compensação e controle recomendadas na análise do inventário florestal, principalmente no que tange ações de Resgate de Germoplasma e Reposição Florestal, foi elaborado conforme previsto no Art. 5o da Instrução Normativa No 02, de 10 de julho de 2015 (MMA, 2015) que dispõe sobre medidas de mitigação e compensação quando da ocorrência de espécies ameaçadas da fauna e da flora para licenciamento de empreendimentos que prevejam supressão da vegetação e nos Art. 3o e 8o da Portaria MMA No 43, de 31 de janeiro de 2014, e Art. 1o e 2o da Portaria MMA No 443, de 17 de dezembro de 2014 do Ministério do Meio Ambiente (MMA, 2014a,b) apresentando estratégias para: a) marcação e georreferenciamento de todos os indivíduos da espécie ameaçada dentro do perímetro de supressão; b) monitoramento de sua fenologia e resgate de germoplasma; c) produção de mudas dessas espécies em viveiro; d) plantio de

mudas da espécie ameaçada; e) atividades de pesquisa para melhor conhecimento da espécie ameaçada encontrada no local e real conservação de sua população. Estas estratégias estão descritas no item **5** deste estudo.

4 ANÁLISE E CONTEXTUALIZAÇÃO DAS INFORMAÇÕES LEVANTADAS

4.1 PRINCIPAIS AMEAÇAS OCORRENTES NA ÁREA

O Rio de Janeiro é um dos estados brasileiros com maior porcentagem de áreas remanescentes do bioma Mata Atlântica (SOS MATA ATLÂNTICA/INPE, 2002), por este motivo é um território estratégico para a conservação da biodiversidade de plantas (BERGALLO et al., 2009). Atualmente, estas áreas continuam sob grande pressão e elevada vulnerabilidade, particularmente quando considerados os estoques de áreas naturais protegidas (SANTOS et al., 2009). Entre os principais vetores de pressão, que incidem sobre a flora endêmica ameaçada de extinção do Estado do Rio de Janeiro, estão as elevadas taxas de urbanização, as atividades agropecuárias extensivas, o corte ilegal de madeira e a invasão de espécies exóticas (POUGY et al., 2018).

O município de São João da Barra está inserido na Região Hidrográfica Baixo Paraíba do Sul e Itabapoana (RH-IX), que apresenta intensa ocupação e uso do solo gerando significativa alteração no território e na cobertura de vegetação original dessa região. Atualmente, as áreas de pastagens cobrem cerca de 65% do seu território e constituem o principal uso atribuído ao solo. Em grande parte da região, a pecuária adveio aos ciclos do café e da cana-de-açúcar. A RH-IX apresenta importante ocupação pelos setores de petróleo e gás com o Complexo Portuário do Açu e Complexo Logístico e Industrial de Farol/Barra do Furado, representando grande importância econômica. Porém, são responsáveis por causar sérios danos ambientais e pela destruição de ecossistemas (POUGY et al., 2018).

As Restingas são ecossistemas que sofrem grandes pressões de ameaça, destacando-se como principal vetor a ocupação por adensamento populacional e expansão imobiliária impulsionada pelo turismo de veraneio. A Região dos Lagos vem apresentando nas últimas quatro décadas um ritmo de crescimento bem acima da média estadual e mesmo nacional, em decorrência dos royalties da exploração de petróleo na plataforma continental, mas sobretudo por sua vocação para o

turismo em sua orla marítima, que influenciou toda sua infraestrutura urbana (RIBEIRO e OLIVEIRA, 2009).

Na região de São João da Barra, as principais ameaças à biodiversidade do ecossistema de Restinga são: remoção da vegetação nativa para instalação de loteamentos residenciais e industriais (MACIEL, 1984); atividades turísticas, que ocorrem no verão, com utilização da faixa de praia e dunas com a circulação de veículos, carros, motocicletas, quadriciclos etc.; utilização da vegetação nativa para pastoreio de bovinos e caprinos (ASSUMPÇÃO & NASCIMENTO, 2000).

4.2 ANÁLISE E CONTEXTUALIZAÇÃO DA ESPÉCIE AMEAÇADA

As informações sobre preferências de habitat, distribuição geográfica, registros de coletas e aspectos ecológicos da espécie ameaçada de extinção encontrada na área do empreendimento são apresentadas a seguir. As análises destas informações, juntamente com os dados dos inventários dos indivíduos na área de supressão e no seu entorno, serviram de suporte para o direcionamento das metodologias específicas e definições de ações para sua conservação apresentadas no Plano de Ação e Conservação (item **5**).

No total foram encontrados 1568 indivíduos de *M. violaceus* na área do empreendimento passíveis de supressão, sobre a formação arbustiva aberta não inundável (**MAPA-PRT-AMBP-ENV-484-36-097**).

A3

***Melocactus violaceus* Pfeiff. (Cactaceae) – "coroa-de-frade"** (**Figura 4-1**).

Categoria: VU (vulnerável).

Critério: A2c.

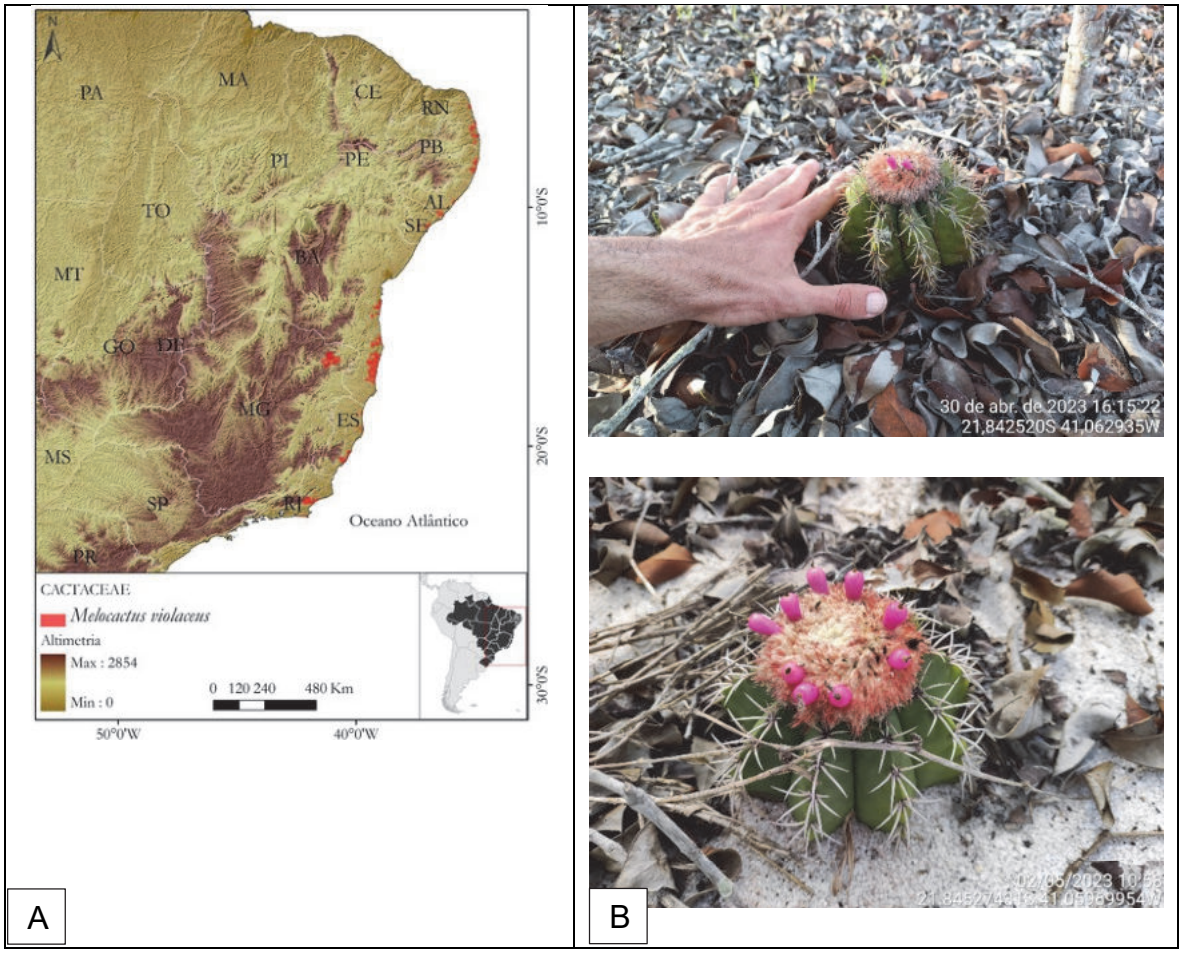

Figura 4-1: Melocactus violaceus Pfeiff. (Cactaceae). A. Mapa de distribuição (CNCFLORA, 2012). B. Indivíduos encontrados na área direta afetada pelo empreendimento.

Melocactus violaceus é uma planta suculenta, pertencente à família Cactaceae, endêmica do Brasil, distribuindo-se pelos domínios da Mata Atlântica e Caatinga, sobre áreas de Campos Rupestres, Carrascos e Restingas (ZAPPI & TAYLOR, 2023). Até o momento foram registradas ocorrências para os estados de Alagoas, Bahia, Ceará, Paraíba, Pernambuco, Rio Grande do Norte, Sergipe, Espírito Santo, Minas Gerais e Rio de Janeiro (ZAPPI & TAYLOR loc. cit.). Apesar de ter uma ampla distribuição e ocorrer em áreas protegidas, é uma espécie ameaçada pela perda de hábitat, sendo que algumas subpopulações já desapareceram pelo avanço de áreas agrícolas e expansão urbana (CNCFLORA, 2012).

As Restingas, área de ocorrência do *M. violaceus*, estão sendo degradadas, principalmente, pela retirada de areia, queimadas e especulação imobiliária. Desta forma, estima-se que houve um declínio na população natural de *M. violaceus* de pelo menos 30%, sendo assim categorizada como “Vulnerável” (VU) e com alto risco de extinção na natureza (CNCFLORA, 2012). Vale ressaltar, que nos últimos anos, as áreas de Restingas do município de São João da Barra tiveram um incremento na sua área de cobertura (MAPBIOMAS 2023).

A espécie também está contida na lista de espécies da CITES devido a alta incidência de coleta ilegal de espécimes para comercialização como citado no Plano de Ação Nacional para Conservação das Cactáceas (ZAPPI et al., 2011).

A busca nas bases de dados virtuais disponíveis para os herbários nacionais e internacionais (REFLORA, 2023; SPECIESLINK, 2023) retornou 206 registros, sendo 82 deles disponíveis no Reflora e 124 no Specieslink. Alguns desses registros podem ser de duplicatas enviadas a mais de uma coleção ou em um mesmo banco de dados em ambas as bases. Uma busca mais refinada para o estado do Rio de Janeiro, retirando os dados duplicados, foram localizadas 21 coletas provenientes do Estado. Estes registros estão divididos entre 10 municípios. A maior quantidade de coletas foi feita nos municípios de Araruama, Arraial do Cabo e Carapebus com quatro registros para cada. Nenhum registro foi encontrado para o município de São João da Barra.

Certamente, a riqueza e distribuição dessa espécie na natureza está subestimada se formos levar em consideração apenas os registros depositados nos herbários. Os registros de cactos em herbários ainda são pequenos e isso acontece devido ao processo de herborização dos espécimes ser de fato trabalhoso, sendo assim evitada a coleta em muitos estudos florísticos (GONZAGA & SANTOS, 2013).

O registro de ocorrência da espécie para as restingas de São João da Barra, a partir de dado bibliográfico, foi feito para a RPPN Caruara (Plano de Manejo). Outras referências bibliográficas citam a ocorrência de *M. violaceus* para o Parque Nacional da Restinga de Jurubatiba (ARAUJO, 2000; PEREIRA et al., 2004; OLIVEIRA & KONNO, 2021).

Considerando o quantitativo da população desta espécie na área do empreendimento e áreas adjacentes, bem como os registros de ocorrência no estado do Rio de Janeiro, o presente documento recomenda ações necessárias para mitigar as ameaças incidentes sobre populações locais e que garantam a conservação da diversidade genética da espécie.

Ações recomendadas:

- Transplante de 100% dos indivíduos resgatados das áreas a serem suprimidas para áreas da RPPN Caruara;
- Coletas de propágulos para testes de produção de mudas no viveiro de restinga da RPPN Caruara e nas coleções de Jardins Botânicos do Rio de Janeiro;
- Reintrodução e monitoramento de plantios em áreas designadas no Plano de Ação e Conservação;
- Preservação dos indivíduos da população nas formações de restinga remanescentes nas áreas que não houver intervenção construtiva;
- Introdução de mudas em coleções vivas para conservação *ex situ* (Jardins Botânicos).

4.3 CONCLUSÕES DA ANÁLISE

Levando em consideração a área de ocorrência de *Melocactus violaceus*, seu estado de conservação e as condições encontradas nas populações presentes na região de São João da Barra associada ao empreendimento, a implantação do Hub de Hidrogênio e Derivados de Baixo Carbono não deve apresentar risco à sobrevivência dessa espécie *in situ*. Para minimização deste risco devem ser executadas as ações propostas no Plano de Ação e Conservação (Item **5**), garantindo assim a preservação dessa espécie na Área de Influência Direta do empreendimento.

5 PLANO DE AÇÃO E CONSERVAÇÃO PARA *MELOCACTUS VIOLACEUS*

5.1 INTRODUÇÃO

A análise de impacto sobre a espécie ameaçada de extinção encontrada no local do empreendimento (Item **4**) indicou a elaboração deste Plano de Ação e Conservação, que reúne as estratégias e ações para a preservação de populações mínimas viáveis desta espécie. O referido plano segue as diretrizes previstas no Art. 5o da Instrução Normativa No 02, de 10 de julho de 2015 (MMA, 2015) que trata de medidas de mitigação e compensação que assegurem a conservação de espécies da fauna e flora ameaçadas de extinção no âmbito do licenciamento ambiental. Além dos Art. 3o e 8o da Portaria MMA No 43, de 31 de janeiro de 2014, e Art. 1o e 2o da Portaria MMA No 443, de 17 de dezembro de 2014 do Ministério do Meio Ambiente (MMA, 2014 a,b) e Resolução CONEMA No 80, de 24 de maio de 2018 (Rio de Janeiro, 2018), que listam as espécies ameaçadas de extinção e imunes ao corte em nível nacional e estadual, tratando de medidas para sua conservação.

Como resultados para as ações a serem desenvolvidas é esperado: 1) realização de testes para produção de mudas em viveiro; 2) transplante de indivíduos em áreas de restauração e seu monitoramento; e 3) introdução de mudas em coleções vivas para conservação *ex situ*.

5.2 ESTADO DE CONSERVAÇÃO DAS ESPÉCIES

Os principais impactos a serem observados são a conversão de habitat e supressão da vegetação, que afetam diretamente a população de *M. violaceus* inventariada no local. Essa espécie consta na Lista Oficial de Espécies da Flora Ameaçadas de Extinção (MMA, 2022) e na Lista Vermelha de Espécies Ameaçadas da IUCN – versão 2022-2 (IUCN, 2023), sob as categorias e critérios citados abaixo, estando imunes ao corte:

- ***Melocactus violaceus* Pfeiff. (Cactaceae) – VU A2c**

O critério "A" da IUCN corresponde, de forma geral, ao declínio populacional (passado, presente e/ou projetado), fragmentação e declínio, ou flutuações, em relação a extensão geográfica (IUCN, 2001). Assim, são sugeridas quatro ações para a efetiva conservação *in situ* e *ex situ* dessa espécie. Essas ações visam garantir sua preservação nas áreas adjacentes ao empreendimento com fisionomia vegetal similar a que sofrerá o impacto, além de práticas de incentivo à pesquisa. As quatro ações são apresentadas de forma geral, sendo discriminadas as particularidades para a espécie, quando necessário.

5.3 AÇÕES SUGERIDAS

5.3.1 Ação 1 – Localização, Marcação e Resgate dos Indivíduos

O inventário florestal realizado em 100% da área direta afetada pelo empreendimento, localizou e georreferenciou os indivíduos de *M. violaceus*. Porém, há necessidade de marcação e resgate das plantas que serão atingidas na área de supressão.

Essa prática tem por objetivo apresentar o número de indivíduos presentes na área de supressão que deverão ser objeto de ações de mitigação por transplante de indivíduos nas ações dos programas de recomposição de restinga na RPPN Caruara e em outras áreas adjacentes.

As plantas resgatadas serão avaliadas em relação aos seguintes caracteres: i) diâmetro e altura do cladódio; ii) diâmetro e altura do cefálio; iii) número de costelas (divisões radiais do cladódio); vi) caracterização do microambiente em que foram encontrados (sol e sombra). Essas informações serão importantes para direcionar as plantas para aclimatação na fase do transplante, garantindo maior sucesso de sobrevivência.

Dentre os Objetivos de Desenvolvimento Sustentável (ODS) estabelecidos pelas Nações Unidas, esta ação está diretamente relacionada ao ODS 11 (Cidades e Comunidades Sustentáveis) e 15 (Vida terrestre).

5.3.2 Ação 2 – Coleta e destinação das sementes

A coleta de sementes deverá ser realizada em indivíduos adultos. A mesma deverá ser realizada por equipe especializada e o material coletado deve ser encaminhado para o viveiro de mudas da RPPN Caruara que ficará a cargo de todas as etapas seguintes. Essas etapas compreenderão todo o processo desde o recebimento do material reprodutivo, beneficiamento, armazenamento e realização de testes de germinação em diferentes substratos e em potes plásticos devidamente tampados.

Sendo assim, sugere-se que a maior parte do peso líquido total (90%) dos diásporos sejam confiados ao viveiro de mudas da RPPN Caruara e o restante do peso (10%) ao Cactário do Jardim Botânico do Rio de Janeiro ou Jardim Botânico da Universidade Federal Rural do Rio de Janeiro – JBUFRRJ. A destinação para os Jardins Botânicos vem colaborar com a conservação *ex situ* e fortalecer com a Estratégia Global de Conservação de Plantas (GSPC - Botanic Gardens Conservation International, 2011) onde estabelece que 75% das espécies de plantas ameaçadas de extinção devem estar conservadas em coleções *ex situ* e que, pelo menos, 20% da flora ameaçada seja utilizada em programas de recuperação e restauração de habitats (COSTA & BAJGIELMAN, 2016).

De forma geral, as coletas dos frutos ocorrerão nos indivíduos adultos em frutificação durante o resgate para transplante, proporcionando também o resgate da carga genética das plantas manejadas. As sementes deverão ser coletadas imediatamente após atingir sua maturidade fisiológica, visando garantir maior vigor e porcentagem de germinação. O material reprodutivo deverá ser transportado em embalagens devidamente identificadas.

Para o beneficiamento, as sementes serão imersas em solução de água destilada, onde será adicionada quatro gotas de detergente neutro. A solução será mantida

sob agitação por aproximadamente dois minutos, facilitando a remoção da mucilagem. Transcorrido o tempo de agitação, com o auxílio de uma pequena peneira, as sementes serão retiradas da solução e lavadas com água até a total remoção da mucilagem e do detergente. Após o processo de lavagem, as sementes serão colocadas em uma placa forrada com papel filtro sobre uma bancada até secar.

Esta ação está inserida nos ODS 11 (Cidades e Comunidades Sustentáveis) e 15 (Vida Terrestre).

5.3.3 Ação 3 – Transplante de Indivíduos

O transplante dos indivíduos resgatadas deverá ser em áreas de fitofisionomia semelhante à área do empreendimento (formação arbustiva aberta não inundável). Áreas adjacentes deverão ser consideradas para o transplante, buscando-se ambientes em processo de restauração ambiental para enriquecimento. Dentre as áreas adjacentes ao empreendimento com elevado potencial para as ações de reintrodução é recomendado a RPPN Caruara, que apresenta um programa bem estabelecido de restauração na unidade de conservação. No caso de outras áreas ou Unidades de Conservação, o transplante deverá ser acompanhado por técnicos da RPPN Caruara devido a *expertise* da Reserva em restauração de restinga em São João da Barra.

Para o plantio deve ser considerado a proximidade das moitas (até 30cm), que apresentam locais com condições mais adequadas para o sucesso de aclimatação e sobrevivência do *Melocactus violaceus* (CAITANO et al., 2022), já que o sombreamento gerado pelos arbustos possibilita temperatura mais amena, maior aporte de nutrientes e umidade.

Após o plantio é necessário o monitoramento dos indivíduos transplantados por um período de dois anos após os seis primeiros meses de manutenção inicial, que compreende a irrigação e controle de pragas e ameaças antrópicas como pisoteio de animais domésticos ou comerciais (bovinos e equinos) e fogo. Deverão ser

apresentados relatórios de percentual de sobrevivência dos indivíduos após o transplante com imagens da área onde os exemplares foram transplantados. Pode-se ter como referência para estas práticas os projetos já executados em vegetação de restinga na região pela companhia Gás Natural Açu (GNA).

Está ação contribuirá para os ODS 11 (Cidades e Comunidades Sustentáveis) e 15 (Vida Terrestre).

5.3.4 Ação 4 – Incentivo à Pesquisa

Atividades de pesquisa são recomendadas para ampliação do conhecimento da biologia da espécie e busca de novas populações. De forma geral, faltam informações acerca de tamanho das subpopulações, polinização, dispersão, interações ecológicas e ameaças incidentes sobre essa espécie. Neste contexto, como preconizam as diretrizes do Pacto da Mata Atlântica (RODRIGUES et al., 2009), o esforço de conservação e restauração deve necessariamente passar pela atualização do conhecimento científico, buscando um referencial teórico para sustentar as ações.

Assim, é recomendado o estímulo de trabalhos de campo com coleta de dados para as diversas áreas de estudos da Botânica e Ecologia, buscando preencher as lacunas no conhecimento ecológico sobre a espécie, principalmente sobre a persistência e resiliência das populações em fragmentos de restinga. Neste caso o estímulo viria através de investimento na região em estudos de estrutura populacional para a espécie.

Pesquisas com germinação e desenvolvimento de mudas no viveiro da RPPN Caruara devem ser estimuladas para garantir o sucesso na produção de mudas de *M. violaceus* que em caso de sucesso poderão ser utilizadas em trabalhos de restauração ambiental na região do empreendimento.

Ressalta-se a importância deste incentivo à pesquisa estar associado a garantia de divulgação dos resultados alcançados através de publicações científicas.

Esta prática está de acordo com as metas da Convenção da Diversidade Biológica – CDB (BRASIL, 2000), Metas de Aichi de Biodiversidade (MMA, 2017) e da Estratégia Global para Conservação de Plantas – GSPC (BOTANIC GARDENS CONSERVATION INTERNATIONAL, 2011), que incluem a necessidade de ampliação do conhecimento da biodiversidade (integrando gestão do conhecimento, capacitação, governo e sociedade) e medidas para sua conservação e utilização de forma sustentável. Além disso, está diretamente relacionada ao ODS 4 (Educação de Qualidade), 11 (Cidades e Comunidades Sustentáveis) e 15 (Vida Terrestre).

5.4 CONSIDERAÇÕES FINAIS

Levando em consideração a Análise e Contextualização das Informações Levantadas para a espécie *Melocactus violaceus*, entende-se que a implantação do Hub de Hidrogênio e Derivados de Baixo Carbono não deve apresentar risco à sobrevivência dessa espécie *in situ*. Para minimização deste risco devem ser executadas as ações propostas no Plano de Ação e Conservação apresentado, garantindo assim a preservação dessa espécie na Área de Influência Direta do empreendimento.

A partir das ações designadas neste Plano de Ação e Conservação é esperado um incremento populacional da espécie nas áreas de transplante, contribuindo para sua conservação. Além disso, essas ações contribuem para o cumprimento da oitava meta da Estratégia Global para a Conservação de Plantas (GSPC - BOTANIC GARDENS CONSERVATION INTERNATIONAL, 2011), onde estabelece que 75% das espécies de plantas ameaçadas de extinção devem estar conservadas em coleções *ex situ* e que, pelo menos, 20% da flora ameaçada seja utilizada em programas de recuperação e restauração de habitats (COSTA & BAJGIELMAN, 2016). Também estão de acordo com o 9° artigo da Convenção sobre a Diversidade Biológica – CDB (BRASIL, 2000) que trata de ações relacionadas ao estabelecimento e manejo de bancos de germoplasmas, jardins botânicos, entre outros, para a conservação de componentes da biodiversidade fora de seus habitas naturais.

Assim, é altamente recomendada a realização de todas as quatro ações supracitadas, a fim de atenuar os impactos sofridos pela população dessa espécie na área do empreendimento e seu entorno.

8 ANEXOS

ANEXO I: Matrícula SIAPE do responsável técnico pela elaboração do estudo.

ANEXO II: Cadastro Técnico Federal (CTF) do responsável técnico pela elaboração do estudo.

ANEXO I:

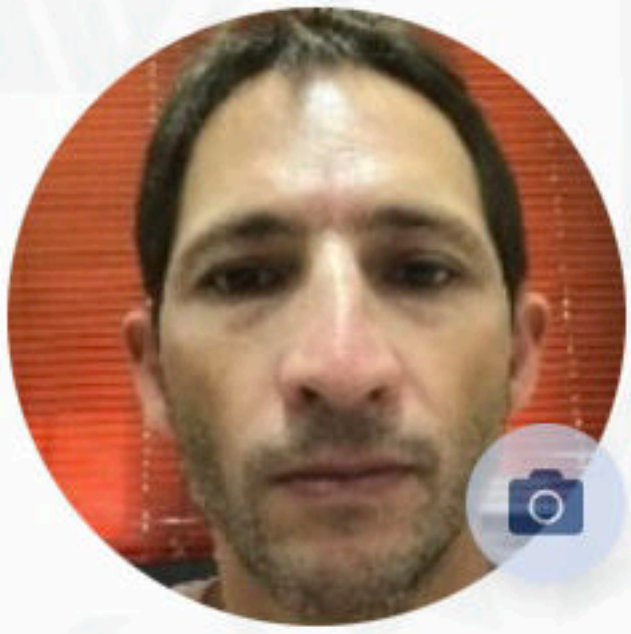
Matrícula SIAPE do responsável técnico pela elaboração do estudo.

República Federativa do Brasil

UNIV. FEDERAL RURAL DO RIO DE JANEIRO

MARCELO DA COSTA SOUZA

PROFESSOR DO MAGISTERIO SUPERIOR



Função
COORDENADOR(A)

Matrícula
1855169

CPF
083.055.627-35

Naturalidade
RIO DE JANEIRO - RJ

Data de Nascimento
20/03/1979

RG
6006402 / CRBIO / RJ

Titulo de Eleitor
1019 9222 0302

Filiação
MARIA LUCIA DA COSTA SOUZA

ANEXO II:

Cadastro Técnico Federal (CTF) do responsável técnico pela elaboração do estudo.

Ministério do Meio Ambiente
Instituto Brasileiro do Meio Ambiente e dos Recursos Naturais Renovaváveis

CADASTRO TÉCNICO FEDERAL DE ATIVIDADES E INSTRUMENTOS DE DEFESA AMBIENTAL

COMPROVANTE DE INSCRIÇÃO

Data de última atualização:	02/08/2023	Data de validade:	02/08/2025

CPF: 083.055.627-35

NOME: MARCELO DA COSTA SOUZA

LOGRADOURO: ESTRADA TEODORETO DE CAMARGO

N.º: 707	COMPLEMENTO: CASA

MUNICÍPIO: RIO DE JANEIRO	UF: RIO DE JANEIRO

Ocupações e áreas de atividades declaradas:

Biólogo

Realizar consultoria e assessoria na área biológica e ambiental

02/08/2023

TERMOS DA INSCRIÇÃO NO CTF/AIDA

A inscrição no Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA constitui declaração, pela pessoa física, do cumprimento de exigências específicas de qualificação ou de limites de atuação que porventura sejam determinados pelo respectivo Conselho de Fiscalização Profissional.

A inscrição no CTF/AIDA não desobriga a pessoa física da obtenção de:

i) licenças, autorizações, permissões, concessões, ou alvarás;
ii) documentos de responsabilidade técnica, qualquer o tipo e conforme regulamentação do respectivo Conselho de Fiscalização Profissional;

iii) demais documentos exigíveis por órgãos e entidades federais, distritais, estaduais e municipais para o exercício de suas atividades; e

iv) do Comprovante de Inscrição e do Certificado de Regularidade emitidos pelo Cadastro Técnico Federal de Atividades Potencialmente Poluidoras e Utilizadoras de Recursos Ambientais - CTF/APP, quando esses também forem exigíveis.

O Comprovante de Inscrição no CTF/AIDA não produz qualquer efeito quanto à qualificação e à habilitação técnica da pessoa física inscrita.

Anexo 3-13

Coordenadas geográficas dos indivíduos de *Melocactus violaceus* registrados em campo.

Nº	Espécie	Latitude	Longitude
1	Melocactus violaceus	-21,84233601	-41,6087297
2	Melocactus violaceus	-21,842334	-41,6087297

Vitória - Espírito Santo - Brasil, CEP: 29050-400.
(27) 3134-5350

APRESENTAÇÃO

Este documento apresenta uma análise da suficiência amostral dos estudos pretéritos realizados na área de influência onde será instalado o Projeto HUB de Hidrogênio e Derivados de Baixo Carbono, localizado em São João da Barra, estado do Rio de Janeiro.

Este visa apresentar ao Instituto Estadual do Ambiente – INEA os estudos de fauna realizados na área de influência do projeto, justificando a realização do levantamento de fauna com a utilização de dados secundários, sendo dispensada a coleta de dados primários em campo, no âmbito do processo SEI-070002/002411/2023, uma vez que a área já é muito estudada inclusive com informações *in situ* recentes.

Cadastro Técnico Federal (CTF):	599690 (**ANEXO II**)

3 JUSTIFICATIVA

O estado da arte do conhecimento faunístico na região onde o empreendimento será instalado remota meados dos anos 2000 tendo como marco principal a implantação do Complexo Industrial Portuário do Açu teve início em 2007 (PESSANHA et al. 2015), onde houve um incremento na produção de estudos visando a liberação de áreas para a instalação dos empreendimentos previstos no projeto com o complexo.

Com o passar dos anos, muitos estudos foram elaborados, oferecendo valiosas informações sobre os aspectos ecológicos locais, principalmente no que diz respeito a fauna e flora. A maioria destes estudos são resultados de levantamentos que subsidiaram os processos de licenciamento ambiental, tais como EIA/RIMAS, e com o passar dos anos, acompanhamento de obras e resgates de fauna e flora frutos do cumprimento de programas ambientais e monitoramentos contínuos da fauna local.

A Ambipar Response Control Environmental Consulting atua na região do Complexo Portuário desde 2012, realizando vários estudos para diversos empreendimentos, adquirindo assim uma grande experiência no que tange a aspectos biológicos principalmente no que diz respeito a fauna e flora. Essa atuação, aliada a expertise técnica de sua equipe permitem uma análise pormenorizada dos dados produzidos sobre a fauna regional em uma escala temporal, adotando um olhar crítico sobre os dados produzidos disponíveis e realizando uma análise técnica destes frente a aspectos ecológicos sob a ótica da Avaliação de Impactos Ambientais (AIA).

Para a implantação de empreendimentos planejados no complexo portuário foram elaborados um total de 18 EIA/RIMAS, além de estudos pontuais de avaliação ambiental e da execução dos programas de monitoramento para avaliação da operação e manutenção das licenças de operação dos empreendimentos.

A compilação destes dados produzidos em uma escala temporal, aliada a uma análise adotando as listas taxonômicas e sistemáticas vigentes, as atuais listas de

espécies ameaçadas de extinção e confrontando os dados encontrados com informações disponíveis na literatura científica acerca do estudos sobre comunidades faunísticas e suas interrelações pode oferecer valiosas informações que atuarão como subsídio na Avaliação de Impactos Ambientais necessária ao processo da licenciamento Ambiental do empreendimento.

Desta forma, justifica-se aqui uma compilação de dados extraídos dos resultados de estudos realizados nas áreas circunvizinhas ao empreendimento HUB de Hidrogênio e Derivados de Baixo Carbono, adotando para isso os estudos produzidos nos últimos cinco anos frutos de processos de licenciamento ambiental.

Poderão ser utilizados nessa compilação as modalidades de estudos, a saber:

- Estudos de terceiros, realizados em empreendimentos colocalizados no Complexo Industrial Portuário do Açu;
- Teses e dissertações feitas em áreas próximas a região do empreendimento e que estejam disponíveis para uso público;
- Artigos científicos que apresentem informações sobre a fauna da região;
- Bases de dados de código aberto disponíveis na internet como: Taxeus, Wikiaves, Specieslink, Avibase, Catálogo Taxonômico da Fauna do Brasil, Birds of the World – Cornell Lab of Ornithology, SiBBR – Sistema de Informação sobre a Diversidade Brasileira.
- Banco de dados mantido pelo empreendedor contendo os registros de resgates e avistamentos de fauna em seus empreendimentos.

Todo material utilizado será referenciado, respeitando assim a fonte de produção da informação conforme normas vigentes da ABNT.

4 DESCRIÇÃO DO EMPREENDIMENTO

4.1 DESCRIÇÃO GERAL

O empreendimento corresponde à uma planta de produção de Hidrogênio e derivados de baixo carbono contendo as seguintes instalações: subestação, desmineralização de água, eletrólise, separação do ar, geração de amônia, geração de metanol, estocagem e expedição, estação de tratamento de água potável, estação de tratamento de efluente sanitário, estação de tratamento de efluentes industriais, prédios administrativos, refeitório, vestiários, estacionamento, arrumamento, tubovias internas e piperacks.

A área total estimada para a planta de produção, áreas de utilidades e demais áreas administrativas e apoio operacional é de 1.140.000 m².

4.2 DESCRIÇÃO DA ÁREA DE ESTUDO

O empreendimento será implantado nas proximidades de áreas já ocupadas por instalações existentes pertencentes a outros empreendimentos localizados no Setor Especial do Porto do Açu (SEPA), município de São João da Barra/Rio de Janeiro (AMBIPAR RESPONSE, 2023).

A área do empreendimento é composta por vegetação nativa representativa das classes Restinga em Regeneração e Restinga Tipo Arbustivo Aberto Não Inundado em estágio inicial e estágio médio, com base na Resolução CONAMA nº 417 de 23.11.2009) constituída principalmente pelos sistemas de Planícies Fluviomarinhas, sendo caracterizada por sedimentação de interface entre ambientes continentais e marinhos e/ou transicionais. Nesse sentido, o sistema predominante na área do Complexo Industrial Portuário do Açu (e todo seu entorno) são os feixes de cordões arenosos do rio Paraíba do Sul, que compreendem uma sucessão de feixes de restingas resultantes do empilhamento de cristas de cordões arenosos litorâneos de origem marinha e fluvial.

É importante salientar que a área onde se planeja instalar o empreendimento foi, durante seu histórico de ocupação, alvo de diversos usos e ocupação, iniciando seu processo de transformação com a chegada dos colonizadores europeus a baixada campista (compreendida entre as margens do rio Paraíba do Sul até o município de Quissamã) onde toda região foi alvo de diversas alterações na paisagem, principalmente no que diz respeito a sua dinâmica hídrica. Com o passar dos anos toda região área passou por processos ainda mais contundentes de alteração da cobertura original (SOFFIATI, 2005; LAMEGO, 2007). Os padrões fitofisionômicos das restingas da região do empreendimento sofreram interferências antrópicas que resultaram em um mosaico de formações vegetais profundamente alteradas pelo intenso processo de uso do solo, que na região se expressou por pequenos lotes, geralmente perpendiculares à linha de costa com atividades que repassam pela bovinocultura até o cultivo de cana-de-açúcar, abacaxi e quiabo, acarretando a descaracterização da cobertura vegetal original (AMBIPAR RESPONSE, 2023 – em fase de elaboração).

O padrão de pequenas e estreitas propriedades, citado acima, não se aplicou à antiga Fazenda Caruara, que se constitui da união de grandes glebas, propiciando a conservação do maior remanescente de restinga da região e seus ambientes associados com a presença das duas lagoas costeiras: Iquipari e Grussaí. Os importantes atributos ambientais gerados pela conservação dessa fazenda foram reconhecidos e concretizados com a criação da RPPN Caruara (Portaria INEA/RJ/PRES nº 357/12), a maior unidade de conservação particular destinada à conservação dos ambientes de restinga do Brasil (AMBIPAR RESPONSE, 2023 – em fase de elaboração.

As figuras a seguir ilustram de forma geral a área onde se pretende instalar o empreendimento onde São encontradas em alguns pontos formações de moitas nativas características da formação aberta de restinga. Há a predominância de grandes áreas abertas cobertas por gramíneas (**Figura 4-1** e **Figura 4-2**)

.

Figura 4-1: Características gerais da paisagem na região do complexo industrial portuário do Açu evidenciando a predominância de extensos campos abertos e presença de espécies exóticas.
Fonte: Porto do Açu (2023).

Figura 4-2: Visão parcial da paisagem na região do empreendimento evidenciando a formação de moitas e predominância de gramíneas.
Fonte: Ambipar Response (2023).

Existem ainda elementos arbóreos de maior porte, sendo grande parte referente a espécies exóticas como *Casuarina sp.* (casuarina) (**Figura 4-3**), *Acacia auriculiformis* (acácia), *Syzygium cumini* (jamelão) (**Figura 4-4**), *Terminalia catappa* (amendoeira-da-praia), e ainda outras plantas exóticas como a avelós *(Euphorbia tirucalli)* muito utilizada na forma de “cercas vivas” para a demarcação de terras na região.

Figura 4-3: Exemplares de casuarina (*Casuarina sp.)* encontradas no entorno do empreendimento.
Fonte: Ambipar Response (2023).

Figura 4-4: Exemplares de jamelão (*Syzygium cumini)* encontradas no entorno do empreendimento
Fonte: Ambipar Response (2023).

Existem no local canais de drenagem de formação artificial e canais de drenagem naturais estes interligam os banhados presentes no entorno do empreendimento, principalmente nos períodos de maior precipitação (**Figura 4-5** e **Figura 4-6**).

Figura 4-5: Ambiente alagadiço encontrado no entorno do empreendimento.

5 ANÁLISE DA SUFICIÊNCIA AMOSTRAL

A região do Complexo Industrial Portuário do Açu vem sendo estudada em relação aos seus componentes bióticos desde o início de seu planejamento, apresentando um grande leque de informações Estes estudos fornecem uma base sólida no conhecimento ecológico e ambiental da região, principalmente pela proximidade dos pontos de amostragem e pela similaridade com ambientes amostrados que apresenta características físicas como relevo geomorfologia similares, assim como ecossistemas bem próximos fisionomicamente.

Silveira e colaboradores (2019) afirmam que a planície do delta do rio Paraíba do Sul, localizada na porção nordeste do estado do Rio de Janeiro, apresenta uma extensa sucessão de feixes de cordões arenosos litorâneos, bem como pântanos, manguezais, lagoas e lagunas quaternárias. Desta forma, pode se afirmar que a região do Complexo Industrial Portuário do Açu apresenta homogeneidade em seus ambientes e fisionomias, não apresentando variações capazes de influenciar de forma significativa as funções ecológicas e serviços ecossistêmicos da fauna ocorrente na região (TETRA TECH, 2019). Esta informação é valiosa para compreender que todos os estudos aqui apresentados se encontram em áreas de restinga, que passaram por um mesmo histórico de ocupação e apresentam características similares.

A presente análise tem enfoque nos grupos Avifauna, Herpetofauna (anfíbios e répteis) e Mastofauna (terrestre e quirópteros).

Buscando uma análise mais próxima da realidade atual da região, apesar da existência do grande número de trabalhos realizados, conforme citado acima, limitou-se a compilação de estudos realizados nos últimos cinco anos na região. Os relatórios frutos destes estudos foram apresentados ao INEA e aprovados por seu corpo técnico.

É importante frisar que esta análise da suficiência amostral retrata os estudos identificados e listados abaixo e, que outros estudos poderão ser incluídos à medida

que forem compilados ou se tornem disponíveis durante a execução do estudo. A relação destes relatórios e estudos técnicos é apresentada a seguir:

1. Control (2019a) – Relatório do projeto de manejo de fauna durante a implantação da Usina Termelétrica Novo Tempo, São João da Barra, Rio de Janeiro;
2. Control (2019b) – 1º Relatório técnico do programa de monitoramento de fauna terrestre – implantação do Terminal Portuário de Regaseificação de GNL da Usina Termelétrica Novo Tempo;
3. Control (2019c) – 2º Relatório técnico do programa de monitoramento de fauna terrestre – implantação do Terminal Portuário de Regaseificação de GNL da Usina Termelétrica Novo Tempo;
4. Control (2020a) – 3º relatório técnico do programa de monitoramento de fauna terrestre – implantação do Terminal Portuário de Regaseificação de GNL da Usina Termelétrica Novo Tempo;
5. Control Ambiental (2020b) – Programa de monitoramento de fauna terrestre – implantação do Terminal Portuário de Regaseificação de GNL da Usina Termelétrica Novo Tempo;
6. Ecology (2020) – EIA/RIMA Unidade de Processamento de Gás Natural (UPGN) e Infraestrutura de Gasoduto (GASINF);
7. Mott MacDonald (2020) – EIA/RIMA Projeto SPOT Unidade de Tratamento de Petróleo (UTP);
8. Tetra Tech (2021) – RAS Projeto Usina Fotovoltaica Dunas - UFV Dunas.

O **MAPA-PRT-AMBP-ENV-484-36-061** e o **MAPA-PRT-AMBP-ENV-484-36-062** apresentam a localização geográfica dos sítios amostrais de fauna apresentados nos estudos realizados com as respectivas áreas de influência e a localização do empreendimento em tela.

5.1 RESULTADOS

Esta análise preliminar foi realizada a partir da leitura de oito documentos que apresentam dados de fauna coletados em áreas circunvizinhas ao empreendimento.

5.1.1 Período Amostral

Os estudos foram realizados entre os anos de 2019 e 2021, sendo que três fontes correspondem ao ano de 2019, quatro ao ano de 2020 e uma ao ano de 2021.

5.1.2 Tipos de Estudos

A maioria dos estudos consultados (N=7) corresponde a relatórios relacionados ao licenciamento ambiental de empreendimentos colocalizados próximos ao empreendimento em tela. Um dos estudos refere-se a um programa de manejo e conservação de fauna.

5.1.3 Métodos Utilizados

A partir da análise realizada foi observado que os métodos de busca ativa, câmera trap, livetrap (armadilhas de contenção viva para mamíferos) e redes de neblina (para quirópteros) foram empregados em seis dos oito estudos analisados.

Já os transectos foram utilizados cinco estudos. Pontos de escuta e as armadilhas de interceptação em queda – Pitfalls foram utilizadas em quatro dos levantamentos. Dois estudos utilizaram Listas de Mackinnon para o levantamento de aves.

Registros ocasionais para toda a fauna e resgate de fauna foram empregados em apenas um estudo cada. O **Gráfico 5-1** apresenta a relação dos métodos empregados.

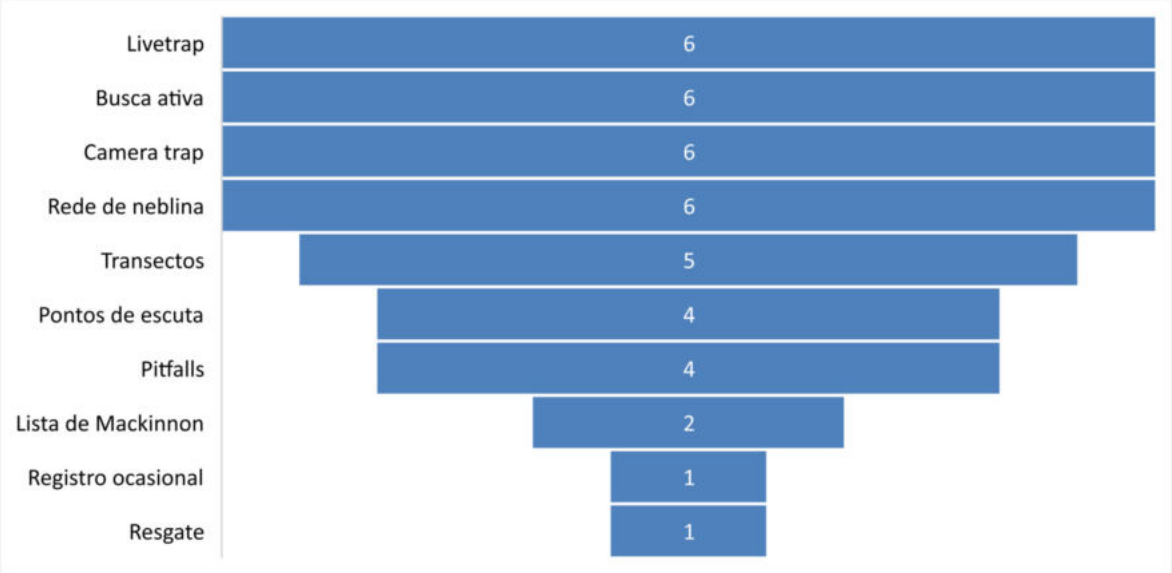

Gráfico 5-1: Relação dos métodos aplicados nos estudos consultados.

Analisando por documento, os estudos conduzidos por Control Ambiental (2019a; 2019b; 2019c; 2020a e 2020b) combinaram sete métodos na execução de seus estudos sendo aplicada desde a coleta manual (nas operações de resgate de fauna) quanto Livetrap, busca ativa, transectos, pontos de escuta*, pitfall traps, camera trap*, rede de neblina.

Ecology (2020) combinou as metodologias de livetrap, busca ativa, listas de Mackinnon, registros ocasionais, camera trap, rede de neblina para a realização de seus estudos. E, Mott MacDonald (2020) empregou livetrap, busca ativa, camera trap, rede de neblina em sua investigação da fauna da Região.

Tetra Tech (2021) empregou apenas dois métodos em campo Pontos de escuta, Listas de Mackinnon para o inventário da avifauna, visto que seu trabalho com a fauna regional e local forma baseados na compilação das informações coligidas por outros estudos.

É importante esclarecer que o uso das metodologias descritas é complementar e sua combinação aumenta as chances de uma maior detecção de exemplares crípticos e inconspícuos em campo.

5.1.4 Sazonalidade

A maioria dos estudos realizou amostras seguindo ciclos sazonais, tendo sido coletados dados tanto na estação seca quanto chuvosa.

Os estudos de Control Ambiental (2019a); Ecology (2020); Mot MacDonald (2020); englobaram um período sazonal sendo realizadas coletas de dados tanto nos meses referentes ao período chuvoso, quanto nos meses secos.

Já os resultados apresentados em Control Ambiental (2020a; 2020b) apresentam registros obtidos durante as estações chuvosas dos referidos anos. E, Control Ambiental 2019b; 2019c); Tetra Tech (2021) apresentam dados coletados na estação seca dos anos informados. A **Tabela 5-1** apresenta o período de amostragem e o número de campanhas realizadas.

Tabela 5-1: Período sazonal e número de campanhas realizado.

Sazonalidade	Número de campanhas (estudos)
Período chuvoso	7
Período seco	7

5.1.5 Riqueza de Táxons

Os estudos avaliados apresentaram valores de riquezas que variaram de 1 táxon (quirópteros) a 177 táxons (aves). A **Tabela 5-2**, o **Gráfico 5-2, Gráfico 5-3** e **Gráfico 5-4** apresentam uma síntese dos dados apresentados em cada estudo.

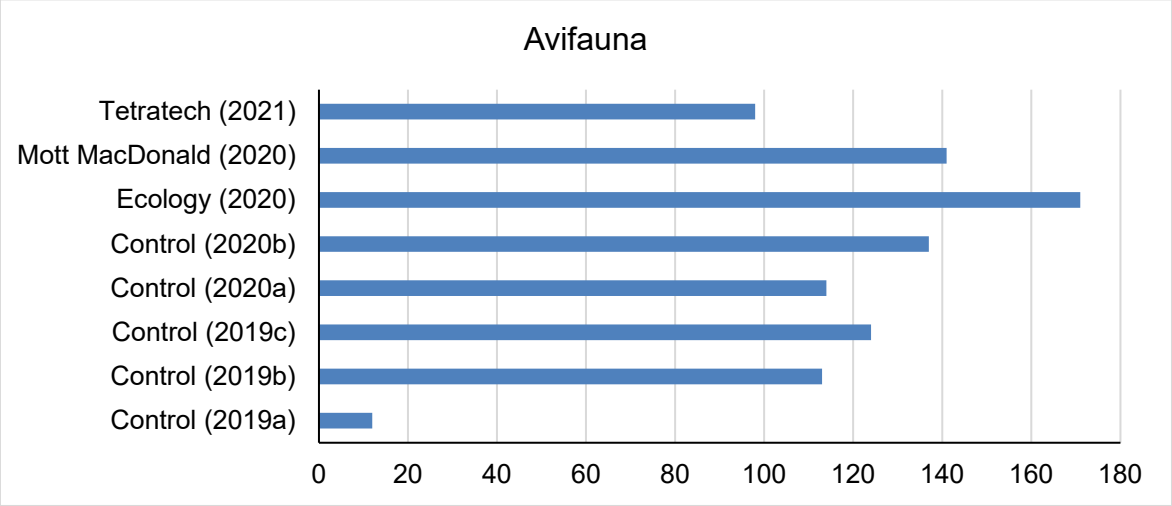

Gráfico 5-2: Riqueza de táxons de avifauna observados nos estudos analisados.

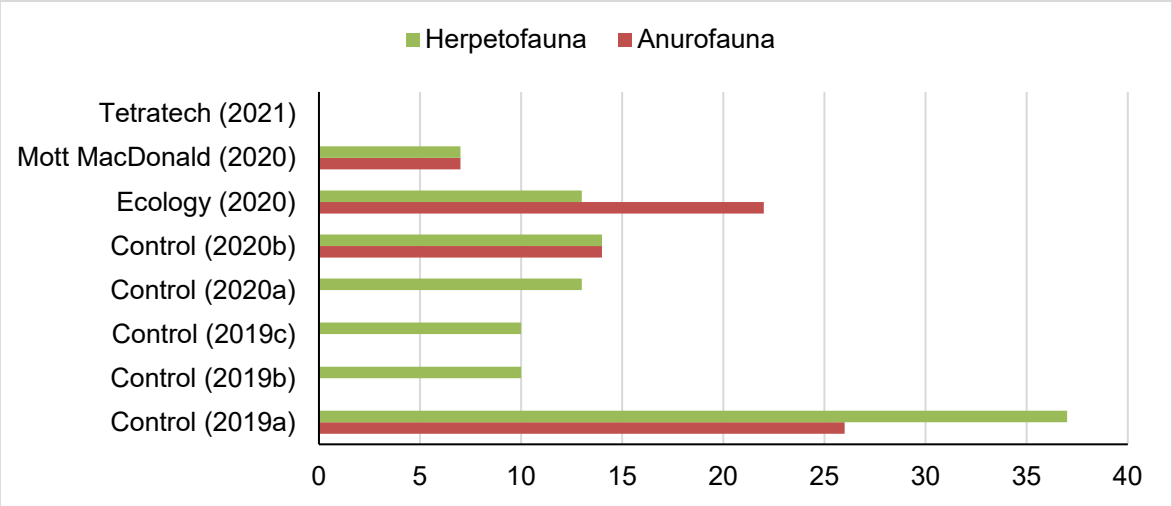

Gráfico 5-3: Riqueza de táxons de Anurofauna e Herpetofauna observados nos estudos analisados.

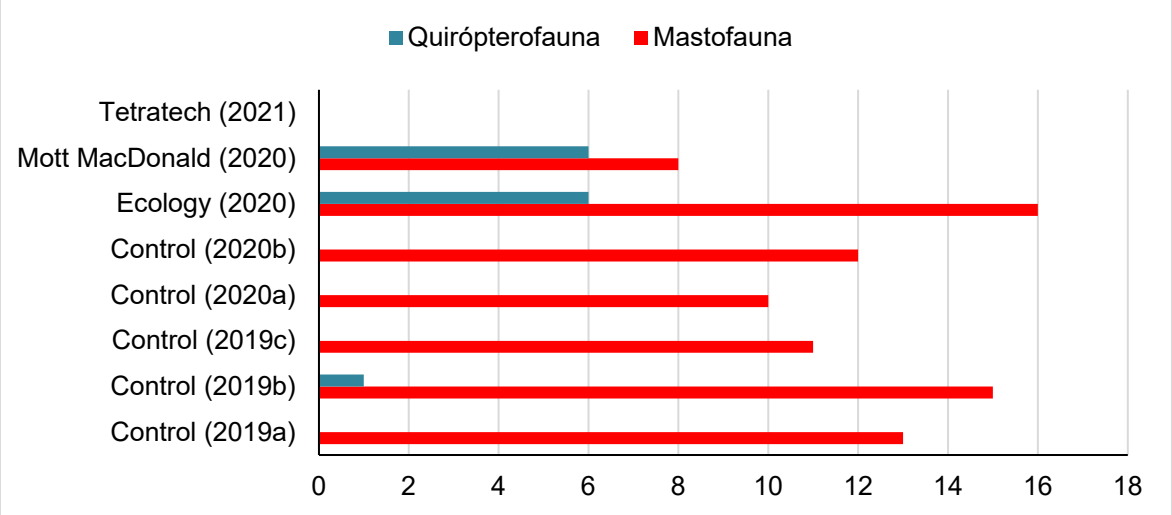

Gráfico 5-4: Riqueza de táxons de Mastofauna Terrestre e Quirópterofauna observados nos estudos analisados.

Tabela 5-2: Síntese dos resultados encontrados nos estudos analisados.

Estudo	Anurofauna	Herpetofauna	Avifauna	Mastofauna	Quirópterofauna
Tetra Tech (2021)	-	-	98	-	-
Mott MacDonald (2020)	7	7	141	8	6
Ecology (2020)	22	13	171	16	6
Control (2020b)	14	14	137	12	0
Control (2020a)	-	13	114	10	0
Control (2019c)	-	10	124	11	0
Control (2019b)	-	10	113	15	1
Control (2019a)	26	37	12	13	-

Legenda: " - " representa a ausência do grupo no estudo; " 0 " representa que mesmo com o grupo sendo alvo de estudo não se logrou êxito em registrar em campo.

Control Ambiental (2019a) apresenta em seus resultados 26 táxons da anurofauna, 37 táxons de herpetofauna, 12 da avifauna e 13 da mastofauna. Control Ambiental (2019b) apresenta 10 táxons de herpetofauna, 113 de avifauna 15 de mastofauna terrestre e um quiróptero. Control Ambiental (2019c) apresenta 10 táxons da herpetofauna, 124 da avifauna e 11 da mastofauna terrestre.

Os resultados contidos em Control Ambiental (2020a) apresentam 13 táxons de herpetofauna, 114 de avifauna e 10 táxons de mastofauna. Control (2020b) apresenta 14 táxons de anurofauna, 14 de herpetofauna, 137 de avifauna e 12 de mastofauna terrestre. Em Ecology (2020) são apresentados 22 táxons do grupo anurofauna, 13 da herpetofauna, 171 espécies de aves, 16 de mamíferos terrestre e seis quirópteros. No estudo de Mott MacDonald (2020) são listados sete táxons de anurofauna, sete táxons de herpetofauna, 141 de avifauna, oito de mastofauna terrestre e seis de quirópterofauna.

5.1.6 Espécies endêmicas e ameaçadas

A maioria dos estudos com exceção de Control Ambiental (2019a) apresentam informações sobre espécies endêmicas e ameaçadas em sua composição.

Em relação aos anfíbios foram registradas para a região 25 espécies consideradas endêmicas do bioma Mata Atlântica, são elas: *Rhinella ornata*, *R. pygmaea*, *R.*

crucifer, *Haddadus binotatus*, *Nyctimantis brunoi*, *Aplastodiscus arildae*, *Dendropsophus branneri*, *Boana albomarginata*, *B. semilineata*, *B. albopunctata*, *Dendropsophus anceps*, *D. decipiens*, *D. elegans*, *D. meridianus*, *D. pseudomeridianus*, *D. branneri*, *Scinax alter*, *Scinax cuspidatus*, *Scinax similis*, *Sphaenorhynchus planicola*, *Trachycephalus nigromaculatus*, *Physalaemus signifier*, *Chiasmocleis lacrimae*, *Stereocyclops parkeri* e *Pithecopus rohdei*. Não foram encontradas na região espécies de anfíbios ameaçadas de extinção.

Um total de 11 espécies de répteis são considerados endêmicos, são eles: *Acanthochelys radiolata, Gymnodactylus darwinii, Brasiliscincus agilis, Psychosaura macrorhyncha, Ecpleopus gaudichaudii, Glaucomastix littoralis, Strobilurus torquatus, Chironius laevicollis, Helicops carinicaudus, Bothrops jararacussu* e *Micrurus coralinus*. Uma única espécie ameaçada de extinção foi listada para a região do empreendimento em tela: *Glaucomastix littoralis* (lagarto-de-cauda-verde).

No que diz respeito as aves, foram registradas para a região onde o empreendimento será instalado 18 espécies endêmicas do Brasil e dentre estas 17 espécies são endêmicas da Mata Atlântica brasileira, não sendo encontradas em nenhum outro bioma. São estas: *Phaethornis idaliae*, *Chionomesa fimbriata*, *Picumnus cirratus*, *Celeus flavescens*, *Pulsatrix koeniswaldiana*, *Furnarius figulus*, *Cacicus haemorrhous*, *Agelasticus cyanopus*, *Myiornis auricularis*, *Myrmotherula axillaris*, *Thamnophilus ambiguus*, *Paroaria dominicana*, *Ramphocelus bresilius*, *Cyanerpes cyaneus*, *Tachyphonus coronatus*, *Cantorchilus longirostris*, *Cnemotriccus fuscatus* e *Hylophilus thoracicus*. São listadas para a região, cinco espécies ameaçadas de extinção, sendo: *Ciconia maguari*, *Anhinga anhinga*, *Pteroglossus aracari*, *Amazona rhodocorytha* e *Sporophila collaris*.

Para a mastofauna sete espécies são classificadas como endêmicas da Mata Atlântica. As espécies endêmicas registradas foram *Didelphis aurita*, *Cavia fulgida*, *Akodon cursor*, *Cerradomys goytaca*, *Euryoryzomys russatus, Oecomys catherinae, Sooretamys angouya.* Três espécies encontram-se categorizadas como ameaçadas de extinção: *Alouatta guariba*, *Cerradomys goytaca e Cuniculus paca*.

Não foram registrados quirópteros endêmicos ou ameaçados de extinção na região do empreendimento.

5.1.7 Síntese dos dados

A **Tabela 5-3** apresenta uma síntese dos dados aqui analisados.

Tabela 5-3: Síntese das informações extraídas dos relatórios consultados.

Autor	Ano	Estudo	Métodos	Sazonalidade	Riqueza registrada em campo

6 CONSIDERAÇÕES FINAIS

Com base na análise dos estudos pretéritos realizados nas regiões circunvizinhas do empreendimento HUB de Hidrogênio e Derivados de Baixo Carbono, é possível inferir que eles apresentam dados a respeito da fauna local, coletados com rigor científico por profissionais qualificados. Conclui-se também que estes dados foram coletados em áreas fisionomicamente similares a área do empreendimento e representam uma escala temporal coletada ao longo dos últimos cinco anos respeitando os ciclos sazonais da região.

Por fim considera-se que a listagem da fauna baseada nas amostragens já realizadas seja suficiente para representar a fauna da região, e que, quando estes dados forem correlacionados aos aspetos ecológicos e conservacionistas de cada táxon fornecerá uma base de dados sólida que será analisada frente aos resultados de outros estudos de comunidades, realizados em regiões que apresentem características similares a área em questão. Assim o produto deste levantamento poderá ser utilizado como subsídio da Avaliação de Impactos Ambientais referente ao empreendimento em tela, assim como a proposição de medidas mitigadoras e compensatórias referentes ao mesmo. Com base no exposto, há de se enfatizar que os estudos produzidos no Complexo do Açu correspondem a grande parte do ativo do empreendimento, preenchem a lacuna do conhecimento, além de participar das medidas de controle ambiental estabelecidas pelo órgão ambiental, e por isso, são considerados imprescindíveis como forma de caracterização altamente qualificada da fauna associada às áreas de influência e do projeto.

Cadastro Técnico Federal de Atividades Potencialmente Poluidoras e Utilizadoras de Recursos Ambientais – CTF/APP

Código	Descrição
21-27	Porte e uso de motosserra - Lei nº 12.651/2010: art. 69, § 1º
18-1	Transporte de cargas perigosas
18-74	Transporte de cargas perigosas - Lei nº 12.305/2010
18-14	Transporte de cargas perigosas - Resolução CONAMA nº 362/2005

Conforme dados disponíveis na presente data, CERTIFICA-SE que a pessoa jurídica está em conformidade com as obrigações cadastrais e de prestação de informações ambientais sobre as atividades desenvolvidas sob controle e fiscalização do Ibama, por meio do CTF/APP.

O Certificado de Regularidade emitido pelo CTF/APP não desobriga a pessoa inscrita de obter licenças, autorizações, permissões, concessões, alvarás e demais documentos exigíveis por instituições federais, estaduais, distritais ou municipais para o exercício de suas atividades

O Certificado de Regularidade emitido pelo CTF/APP não habilita o transporte e produtos e subprodutos florestais e faunísticos.

Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA

Código	Atividade
0003-00	Consultoria técnica

Conforme dados disponíveis na presente data, CERTIFICA-SE que a pessoa jurídica está em conformidade com as obrigações cadastrais do CTF/AIDA.

A inscrição no Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA constitui declaração, pela pessoa jurídica, de observância dos padrões técnicos normativos estabelecidos pela Associação Brasileira de Normas Técnicas – ABNT, pelo Instituto Nacional de Metrologia, Qualidade e Tecnologia – INMETRO e pelo Conselho Nacional de Meio Ambiente - CONAMA.

O Certificado de Regularidade emitido pelo CTF/AIDA não desobriga a pessoa inscrita de obter licenças, autorizações, permissões, concessões, alvarás e demais documentos exigíveis por instituições federais, estaduais, distritais ou municipais para o exercício de suas atividades, especialmente os documentos de responsabilidade técnica, qualquer o tipo e conforme regulamentação do respectivo Conselho de Fiscalização Profissional, quando exigíveis.

O Certificado de Regularidade no CTF/AIDA não produz qualquer efeito quanto à qualificação e à habilitação técnica da pessoa jurídica inscrita.

APRESENTAÇÃO

A Ambipar Response Environmental Consulting S.A. apresenta o Estudo de Tráfego elaborado para analisar a situação dos trechos viários que compõem a principal rota de acesso ao empreendimento com o implemento dos veículos que circularão em virtude da implantação e operação do HUB de Hidrogênio e Derivados de Baixo Carbono, inserido no Complexo Industrial do Porto Açu, município de São João da Barra/RJ.

1 ÁREA DE ESTUDO

A atividade que poderá promover alterações no comportamento do tráfego viário na região de interesse é a implantação do HUB de Hidrogênio e Derivados de Baixo Carbono. O empreendimento está localizado em São João da Barra (RJ) no Complexo do Porto do Açu, dentro do Distrito Industrial de São João da Barra (DISJB), conforme apresentado no **MAPA-PRT-AMBP-ENV-484-36-111**.

2 CARACTERIZAÇÃO VIÁRIA

O sistema viário de acesso ao empreendimento é composto de vias de diferentes características e hierarquias viárias, o que inclui rodovias federais, estaduais e municipais. Tendo em vista o uso do solo predominantemente rural, com presença significativa de áreas livres, e com a presença de polos geradores importantes como Porto do Açu, o tráfego de veículos se concentra em horários específicos de acordo com os padrões comerciais e de serviços mais comuns cujos períodos mais sobrecarregados se concentram principalmente nos horários de entrada e saída e de início e fim de expediente de serviços públicos. Entretanto devido as hierarquias viárias e a pouca diferença nas características de uso e ocupação do solo nesta área, iremos destacar somente as características de cada via que contribuem para o tráfego mais saturado e que vai contribuir para a geração de viagem para o empreendimento com concentração nos pontos previstos, tais pontos serão detalhados mais adiante.

De uma forma geral foi observado algumas inconsistências no padrão da sinalização existente, como ondulações transversais, falta de placas de proibido ultrapassar, falta de placas de curvas, placas de velocidade conflitantes, marcadores de alinhamento, etc., o que gera uma insegurança viária, com risco iminente de sinistros. Para exemplificar, ao longo da rota estudada verificou-se que curvas com o mesmo padrão, algumas possuem placas de advertência de existência da mesma e outras são ignoradas completamente. Ainda foi verificado que o pavimento está em bom estado, com poucos trechos com problemas como trincas, afundamento etc.

O **MAPA-PRT-AMBP-ENV-484-36-108** apresenta a rota marcada em contorno preto composta por três pontos amostrais as quais as características serão detalhadas neste estudo, e também as novas rotas de acesso (RJ-238, RJ-240, SB24 e SB32) ao Porto de Açu que estão em processo de implantação. No **ANEXO V** encontra-se o inventário técnico das rotas estudadas, não só a posição da sinalização, como também identificando as inconformidades à luz do Código de Trânsito Brasileiro (CTB).

A3

2.1 ESTRADA DE ACESSO AO PORTO AÇU

A via é composta de pista única com acostamento, duplo sentido de circulação, cada qual com 1 (uma) faixa de tráfego por sentido, com largura média 3,50 m de largura cada uma e acostamento variando entre 1,00 m e 1,20m. Ainda, a via não apresenta qualquer estrutura para o transporte ativo. A via possui sinalização horizontal e pavimento em bom estado. O **Quadro 2-1** apresenta as características da via em questão.

Quadro 2-1: Características físicas e operacionais – Estrada de Acesso ao Porto Açu.

Estrada de Acesso ao Porto Açu			
Largura média	10 metros	Faixas de Rolamento	1/sentido
Extensão aprox. (trecho)	660 metros	Sentido de Circulação	Bidirecional
Estacionamentos	Não possui	Pontos de ônibus	Não possui
Pavimentação		Trecho revestimento asfáltico	
Sinalização Horizontal		Existente em bom estado	
Sinalização Vertical		Necessita correção e manutenção	
Controle de Tráfego		Parada Obrigatória Rotatória	
Infraestrutura para ciclistas		Não possui	
Infraestrutura para pedestres		Não possui	

Ao longo da via percebe-se a presença de ondulações transversais, onde algumas estão em desacordo com o Código de Trânsito Brasileiro (CTB), (**Figura 2-1**) quanto a sinalização. Observou-se que em um dos trechos da área de estudo existem restrições de velocidade devido a existência de ondulações transversais, no entanto entre essas, em um trecho longo, não há regulamentação para o retorno da velocidade de projeto da via, o que técnica e legalmente, a via está regulamentada incorretamente com baixa velocidade. Isso pode gerar diversas tomadas decisões por parte dos usuários da via, tornando a via insegura. Também, foi verificado a inconsistência de controle da velocidade. A **Figura 2-2** apresenta a inconsistência descrita.

A **Figura 2-1**, **Figura 2-2**, **Figura 2-3**, **Figura 2-4** e a **Figura 2-5** apresentam algumas das inconsistências encontradas no trecho em estudo.

2.2 ESTRADA CAMPO DA AREIA

A via é composta de pista única com acostamento, duplo sentido de circulação, cada qual com 1 (uma) faixa de tráfego por sentido, com largura média 3,50 m de largura cada uma e acostamento variando entre 1,00 m e 1,20m. Ainda, a via não apresenta qualquer estrutura para o transporte ativo. A via possui sinalização horizontal e pavimento em bom estado. O **Quadro 2-2** apresenta as características da via em questão.

Quadro 2-2: Características físicas e operacionais – Estrada Campo de Areia.

Estrada Campo da Areia			
Largura média	10 metros	**Faixas de Rolamento**	1/sentido

2.3 RODOVIA RJ - 240

A via é uma rodovia estadual, classe 1. De uma maneira geral é composta de pista única com acostamento, duplo sentido de circulação, cada qual com 1 (uma) faixa de tráfego por sentido, com largura média 3,50 m de largura cada uma e

acostamento variando entre 1,00 m e 1,20m. A via passa por alguns trechos urbanos onde se verifica que as travessias de pedestres existentes não são advertidas para os motoristas, o que torna muito inseguro. Mesmo com alguns pontos de travessia de pedestres, a via não apresenta qualquer estrutura para o transporte ativo. A via possui sinalização horizontal e pavimento em bom estado. A sinalização vertical necessita de manutenção e correção ao longo da rodovia. O **Quadro 2-3** apresenta as características da via em questão.

2.4 RODOVIA BR-356

A via é uma rodovia federal, classe 1. De uma maneira geral é composta de pista única com acostamento, duplo sentido de circulação, cada qual com 1 (uma) faixa

de tráfego por sentido, com largura média 3,50 m de largura cada uma e acostamento variando entre 1,00 m e 1,20m. A via passa por alguns trechos urbanos, com presença de polos geradores importantes como escolas, condomínios e lojas onde se verifica que as travessias de pedestres existentes não são advertidas corretamente para a compreensão dos motoristas, o que torna muito inseguro. Mesmo com alguns pontos de travessia de pedestres, a via não apresenta qualquer estrutura para o transporte ativo. No trecho próximo ao IFES existe uma ampliação do acostamento em ambos os lados da via, mas não possui sinalização vertical, dessa forma ela necessita ser identificada para que não tenha problemas de segurança viária, pois tal trecho é pequeno para faixa de ultrapassagem e desaceleração/aceleração. A via possui sinalização horizontal e pavimento em bom estado. A sinalização vertical necessita de manutenção e correção ao longo da rodovia. O **Quadro 2-4** apresenta as características da via em questão.

Quadro 2-4: Características físicas e operacionais – Rodovia BR-356.

Rodovia BR-356 – Segmento entre a RJ-240 e Av. Alberto Lamego			
Largura média	10 metros	Faixas de Rolamento	1/sentido
Extensão aprox. (trecho)	15 km	Sentido de Circulação	Bidirecional
Estacionamentos	Não possui	Pontos de ônibus	Não possui
Pavimentação		Trecho revestimento asfáltico

3 PESQUISA DE FLUXO

As pesquisas classificadas e direcional de contagens volumétricas determinam a composição do fluxo de veículos, sentido e o volume de veículos que passam por um ponto ou intercessão, em um tempo determinado. As informações obtidas são necessárias para a elaboração de estudos de tráfego, para determinar e avaliar os desempenhos de tráfego, como atraso, nível de serviço, fila e razão volume por capacidade. Para o estudo em questão, tais performances serão necessárias, pois poderão ser comparadas com diversos cenários, seja na instalação ou na operação do empreendimento. Justifica-se a pesquisa de contagem em um único dia típico (terça-feira a quinta-feira), pois segundo o manual de Estudos de Tráfego do DNIT, que informa sobre estudos de capacidade, cujo objetivo é verificar as performances de tráfego, confirma o seguinte sobre amostra mínima para áreas urbanas:

> “A amostra mínima desejável é, portanto, a que representa o fluxo de um dia útil, no pico da manhã e da tarde, obtida por contagens de 2 a 4 horas em cada um dos períodos. Esta amostragem é normalmente suficiente, pois o fluxo médio não costuma variar muito de dia para dia. Uma maior precisão pode ser obtida no caso de se realizar contagens em vários dias úteis, extraindo-se o valor médio por período”.

Outrossim, o padrão de variação diário é afetado pelo uso do solo e pelos propósitos de viagem de acordo com Roger P. Roess et al. (Traffic Engineering, 5th Edition). Considerando a proximidade da praia, no período de veraneio ou feriado prolongado espera-se um incremento maior na sexta-feira, e nos fins de semana, porem em períodos fora do verão, a expectativa é uma maior uniformidade dos volumes durante o período de terça-feira a quinta-feira. A **Figura 3-1** apresenta uma maior uniformidade nos dias típicos de terça-feira a quinta-feira, para vias com características do estudo, ou seja, o fluxo médio não costuma variar muito de um dia para o outro.

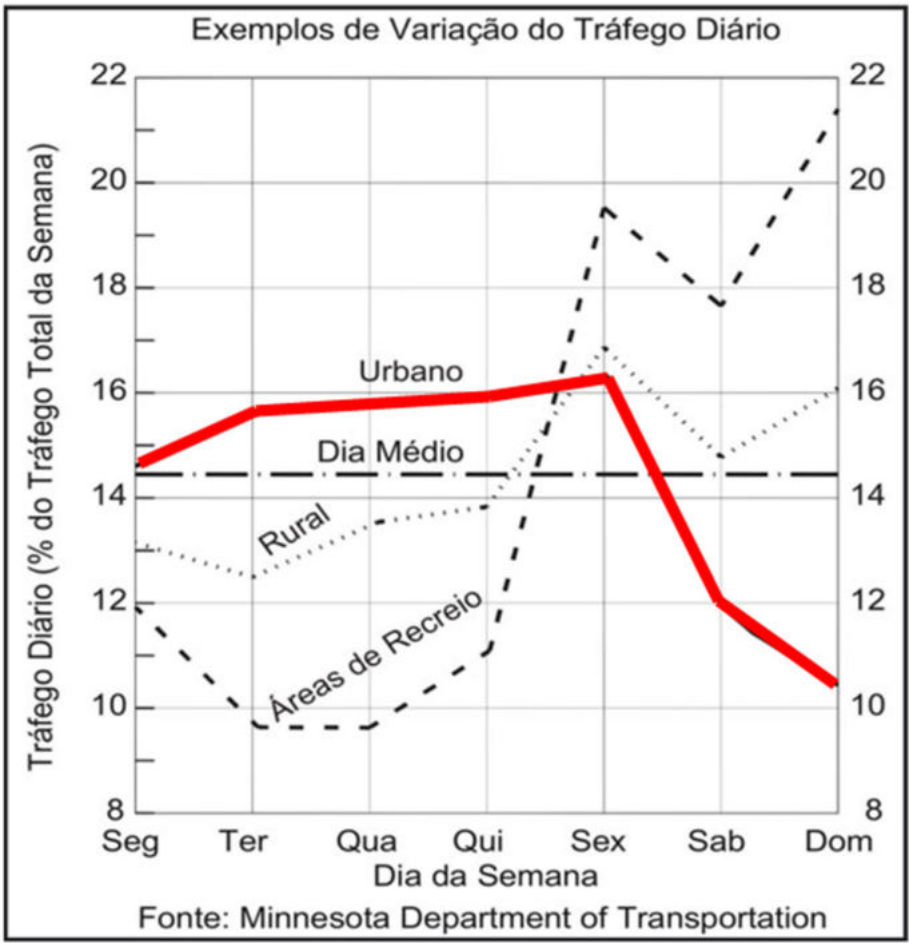

Figura 3-1: Variação do tráfego diário.

Para elaboração do estudo de tráfego foram realizados levantamentos de campo considerando uma malha amostral mínima de forma que atenda o estudo na área de interesse, para tanto foram feitas análise de campo e pesquisas de fluxos direcionais e classificadas, conhecido como pesquisa de contagem, que foram feitas por vídeos e tabuladas posteriormente. Pesquisou-se três pontos de contagem, todos em dois períodos, no período da manhã entre 8h e 10h e no período da tarde entre 16h e 20h. Os dias de pesquisa foram da seguinte forma: ponto de contagem 01 no dia 03/05/2023 (quarta-feira), pontos de contagem 02 e 03 no dia 25/04/2023 (terça-feira). Considerando as grandes distâncias entre os pontos de contagens e um tráfego com característica de rodovia não urbana, não se faz necessário que as pesquisas sejam elaboradas no mesmo dia, tal situação não compromete o resultado das performances de tráfego. As contagens de tráfego, que se encontram no **ANEXO I** (Pesquisa de Contagem), foram realizados nos pontos abaixo relacionados e demarcados nas **Figura 3-2** a **Figura 3-4**.

Tabela 3-1: Coordenadas dos pontos de contagem.

Ponto Crítico	X (m)	Y (m)
P01	288865,0258	7583999,1168
P02	277276,0943	7597459,9012
P03	264445,0879	7591311,9258

Figura 3-2: Localização dos pontos de contagem. Ponto 01 – Acesso ao Porto Açu.

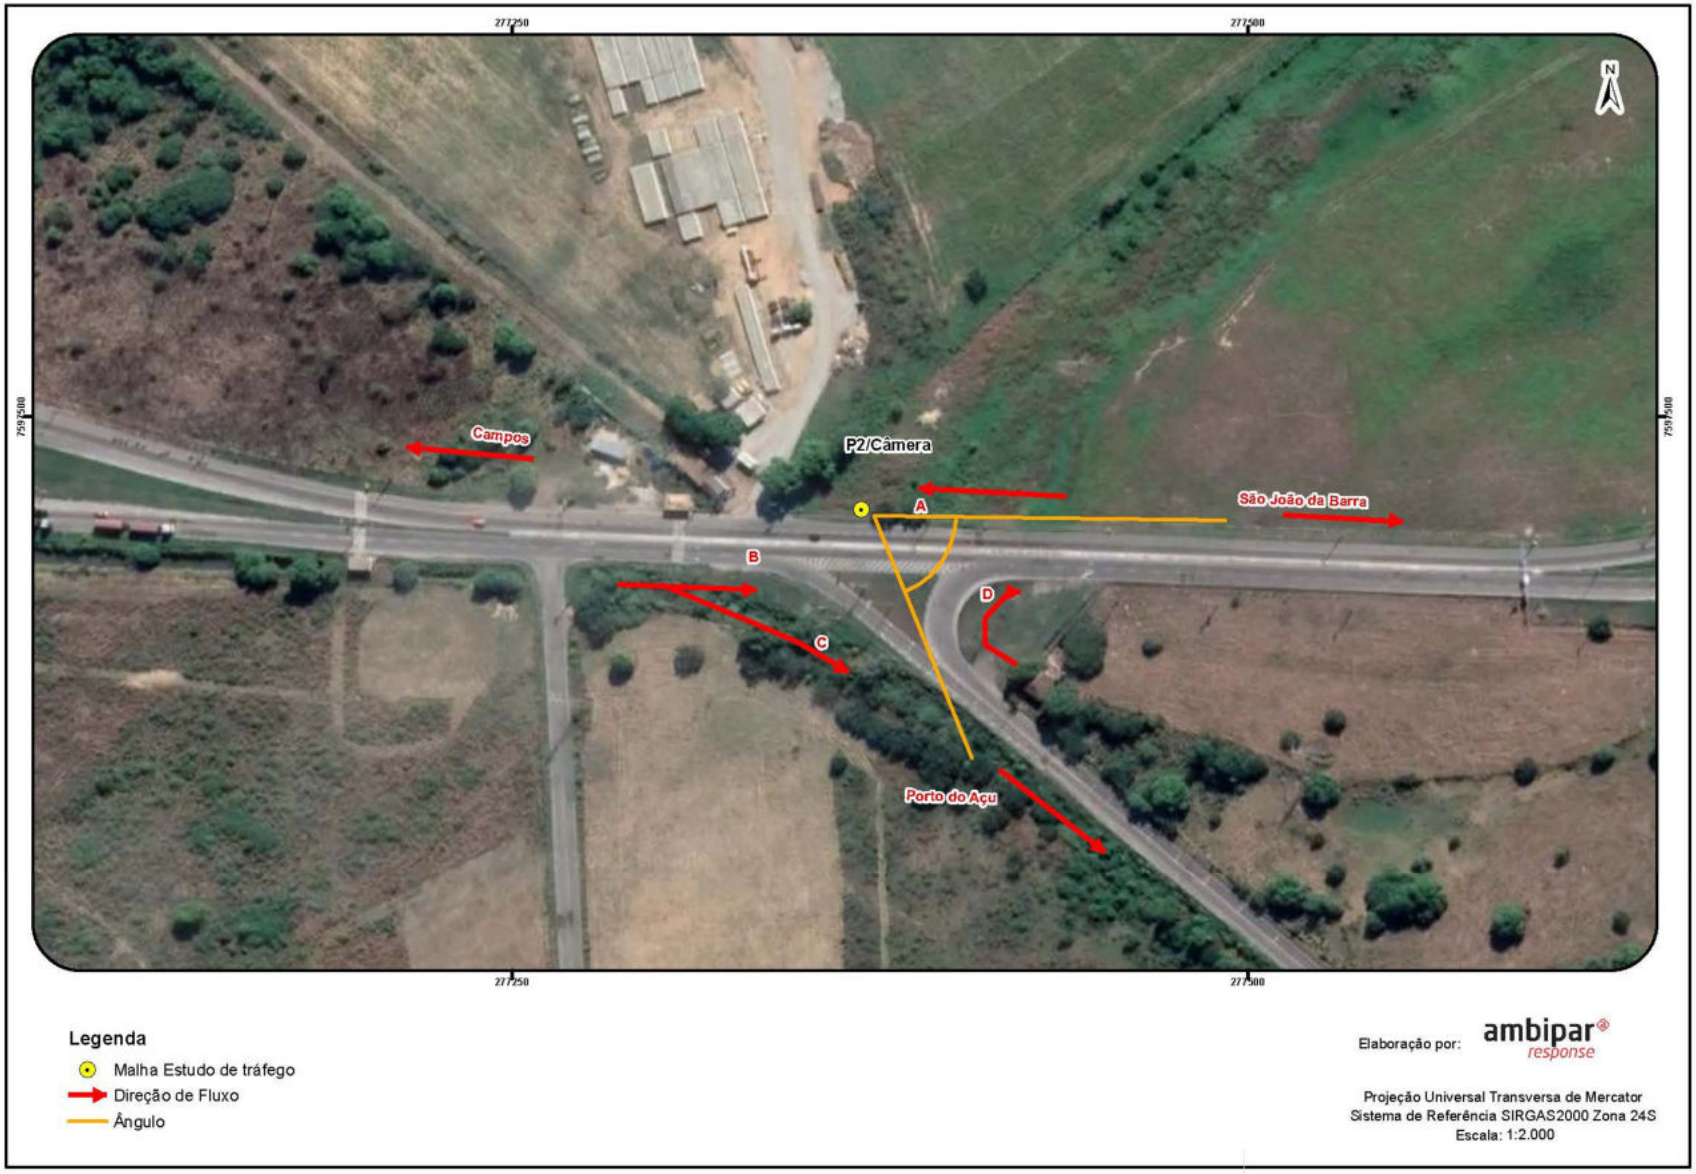

Figura 3-3: Localização dos pontos de contagem. Ponto 02 – Rodovia RJ-240 x Rodovia BR-356 (Trevo de acesso ao Porto).

Figura 3-4: Localização dos pontos de contagem Ponto 03 - Rodovia BR-356 x Av. Alberto Lamego (Trevo acesso a Campos - RJ).

Considerando as características geométricas e as distâncias entre os pontos de contagem, a hora pico a ser utilizada nas simulações será o pico de cada ponto de contagem, ao invés do pico em um único horário. Desta forma a hora pico do ponto de contagem 01 foi das 7h15 às 8h15 e 17h às 18h, a hora pico do ponto de contagem 02 foi de 7h30 às 8h30 e 17h15 às 18h15 e o ponto de contagem 03 foi de 7h45 às 8h45 e 17h às 18h.

Para fins de cálculo o **Quadro 3-1** apresenta o fator de equivalência dos veículos, que é o volume de tráfego veicular expresso em termos de unidades de carros de passeios (UCP). Considerando o porte dos caminhões, será utilizado nos cálculos o caminhão de 3 eixos.

Quadro 3-1: Fator de equivalência.

Tipo	Fator de Equivalência
Automóvel	1,00
Moto	0,33
Ônibus	2,00
Caminhão (2 eixos)	2,00
Caminhão (3 eixos)	3,00

Considerando os períodos de pico citado acima e o fator equivalência de autos, foi possível elaborar os **Quadro 3-2** e **Quadro 3-3** apresentam o volume das interseções nas horas picos, manhã e tarde, respectivamente. Tais volumes irão embasar os cálculos de performance.

Quadro 3-2: Volume na hora pico (UCP) – Período Manhã.

Movimento	Interseção01	Interseção 02	Interseção 03

H			343
I			222

4 METODOLOGIA DE CÁLCULO DE DESEMPENHO DO TRÁFEGO

Considerando as características físicas e operacionais de cada ponto de contagem 3 metodologias serão aplicadas, a saber: No ponto 01 será aplicada a metodologia de pista simples, no ponto 02 será a metodologia de junção de acesso à rodovia (On-ramp e Off-ramp), e a interseção 03, método das interseções não semaforizadas (interrompida), todas pelo Highway Capacity Manual (HCM 2010). O HCM é o manual de capacidade de rodovia que qualifica e quantifica indicadores de desempenho de uma via. Na engenharia de tráfego é a ferramenta mais utilizada por engenheiros de tráfego, além disso, quase em sua totalidade, os manuais de engenharia de tráfego elaborados pelo governo (DNIT) ou privado referenciam tal manual como base para qualquer estudo. De uma maneira geral os desempenhos do tráfego, pelo HCM 2010, são formados pelos níveis de serviço, atrasos em segundos, razão de volume/capacidade e filas de percentil 95, esse quando se tem algum controle de parada, como o ponto de contagem 03.

O conceito de nível de serviço é válido para cada ponto estudado e é uma forma qualitativa de mensurar a via, que vai do fluxo livre total, até o congestionamento de acordo com o seguinte:

- Nível de Serviço A: Condição de fluxo livre com baixos volumes e altas velocidades, pouca ou nenhuma restrição à liberdade de manobra devido à presença de outros veículos e os motoristas podem manter a velocidade com pouco retardamento. Comboios com menos de três veículos e demanda de ultrapassagem muito pequena. O volume de veículos é menor que 60% da capacidade da via.

- Nível de Serviço B: Fluxo estável com velocidade desejada iniciando retardamento devido a presença de outros veículos. Existe ainda a escolha de velocidade e da faixa de trânsito para a operação. O volume varia de 60% a 70% da capacidade da via.

- Nível de Serviço C: Fluxo estável com restrições para os motoristas na escolha de sua própria velocidade. A via possui uma demanda elevada de

ultrapassagem e acontece o encadeamento de comboios. O volume varia de 70% a 80% da capacidade da via.

- Nível de Serviço D: O regime é instável o comboio varia entre 5 a 10 veículos a demanda por ultrapassagem é muito elevada. O veículo é retido em 45% do tempo. O volume de veículos está entre 80% e 90% da capacidade da via. Esse é o nível de serviço aceitável.

- Nível de Serviço E: Manobras de ultrapassagens são impossíveis, a formação de comboios é intensa, regime totalmente instável, a capacidade é máxima. O volume atinge de 90% a 100% da capacidade da via.

- Nível de Serviço F: Fluxo congestionado, onde a demanda é maior que a capacidade de escoamento. O volume apresenta-se acima da capacidade da via.

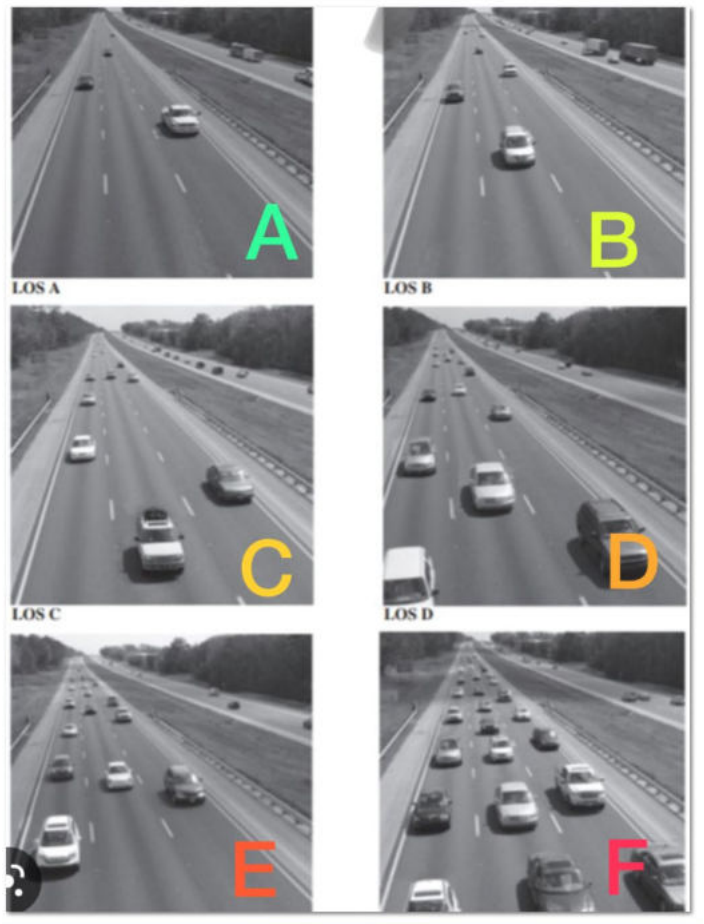

Figura 4-1: Nível de Serviço.
Fonte: Adaptado HCM 2010.

Considerando que o volume de veículos que passa por uma seção de uma via não é uniforme no tempo, se faz necessário estabelecer o fator de hora pico (FHP), que mede a flutuação e apresenta o grau de uniformidade do fluxo, que é dado pela fórmula: FHP = Volume da hora pico/ (4 x o volume do período de 15 min com maior fluxo de tráfego dentro da hora pico). Considerando as características da via (não urbana) e cálculos do FHP, que são apresentados no **ANEXO I** (pesquisa de contagem) a média para o período da manhã é de 0,85 e para o período da tarde é de 0,87.

Para fins de cálculo o fator de veículos pesados, constantes nos cálculos desempenho será zero, pois os volumes equivalentes em UCP, encontram-se calculados no **ANEXO I**.

4.1 PISTA SIMPLES

A rodovia no ponto 01 é classe 1. A metodologia de cálculo é influenciada por: a média de velocidade de viagem, o fator hora pico, o ajuste de veículos pesados, ajuste do greide e zona de não ultrapassagem. Para a simulação dos cenários será utilizado o software HCM-CALC, da Universidade da Florida. Todo o software é embasado no HCM 2010. A unidade do simulador é milhas/h. O **Quadro 4-1** apresenta o nível de serviço. As siglas do citado quadro encontram-se apresentadas na **Figura 4-2**, que apresenta a metodologia para cálculo do desempenho de uma pista simples.

Quadro 4-1: Nível de serviço para pista simples por classe da rodovia.

Nível de serviço	Classe I ATS (mi/h) PTSF (%)		Classe II PTSF (%)	Classe III PFFS (%)
A	>55	≤35	≤40	>91.7
B	>50 - 55	>35 - 50	>40 - 55	>83.3 - 91.7
C	>45 - 50	>50 - 65	>55 - 70	>75.0 - 83.3
D	>40 - 45	>65 - 80	>70 - 85	>66.7 - 75.0
E	≤40	>80	>85	≤66.7

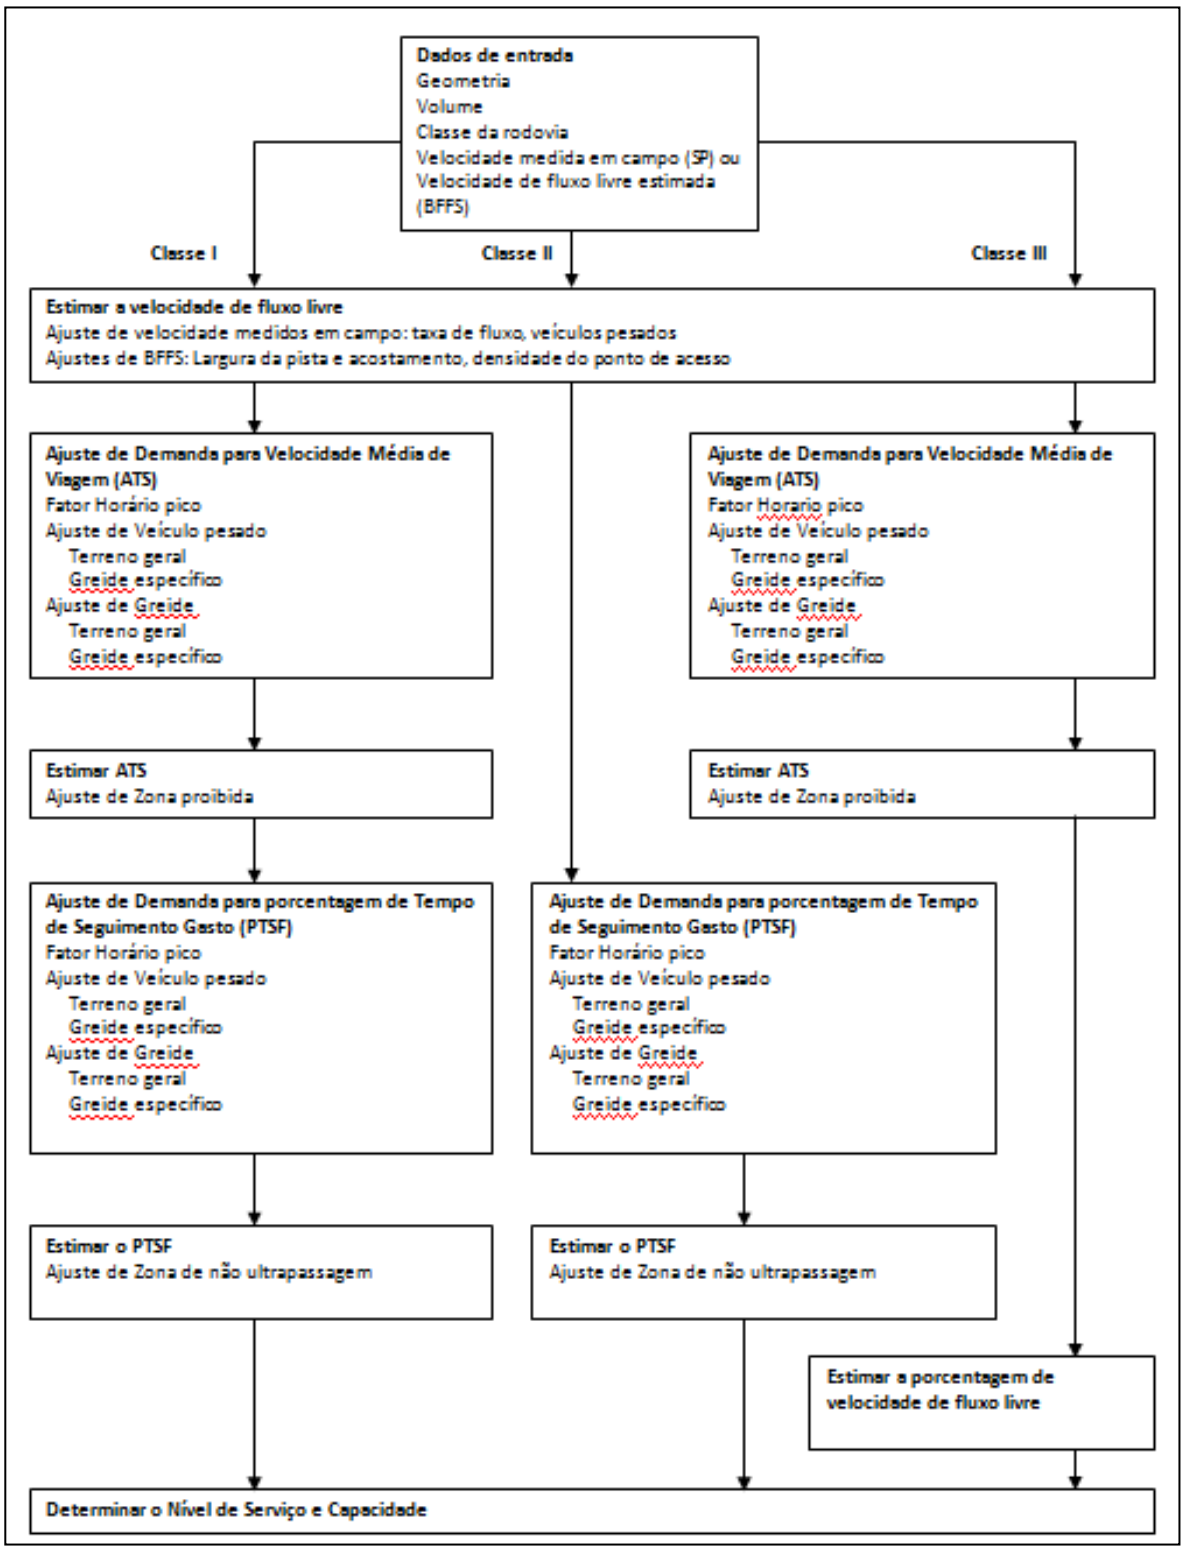

Figura 4-2: Nível de Serviço para pista simples.
Fonte: Adaptado HCM 2010.

4.2 JUNÇÃO DE ACESSO À RODOVIA (ON-RAMP E OFF-RAMP)

A rodovia no ponto 02 é classe 1. A metodologia de cálculo é influenciada por: a velocidade de Fluxo livre, velocidade do fluxo livre da rampa, o fator hora pico, o ajuste de veículos pesados e ajuste do greide, se houver. O ponto 02 será simulado também utilizando o software HCM-CALC, da Universidade da Florida, porém, uma simulação para a entrada na rodovia (On-Ramp) e outra para a saída da rodovia (Off-Ramp). A **Figura 4-3** apresenta a metodologia para cálculo. A **Tabela 4-1** apresenta o nível de serviço.

Tabela 4-1: Nível de serviço para junção de rodovias.

Nível de serviço	Densidade (ucp/mi/h)
A	≤10
B	>10 - 205
C	>20 - 28
D	>28 - 35
E	>35
F	Demanda excede capacidade

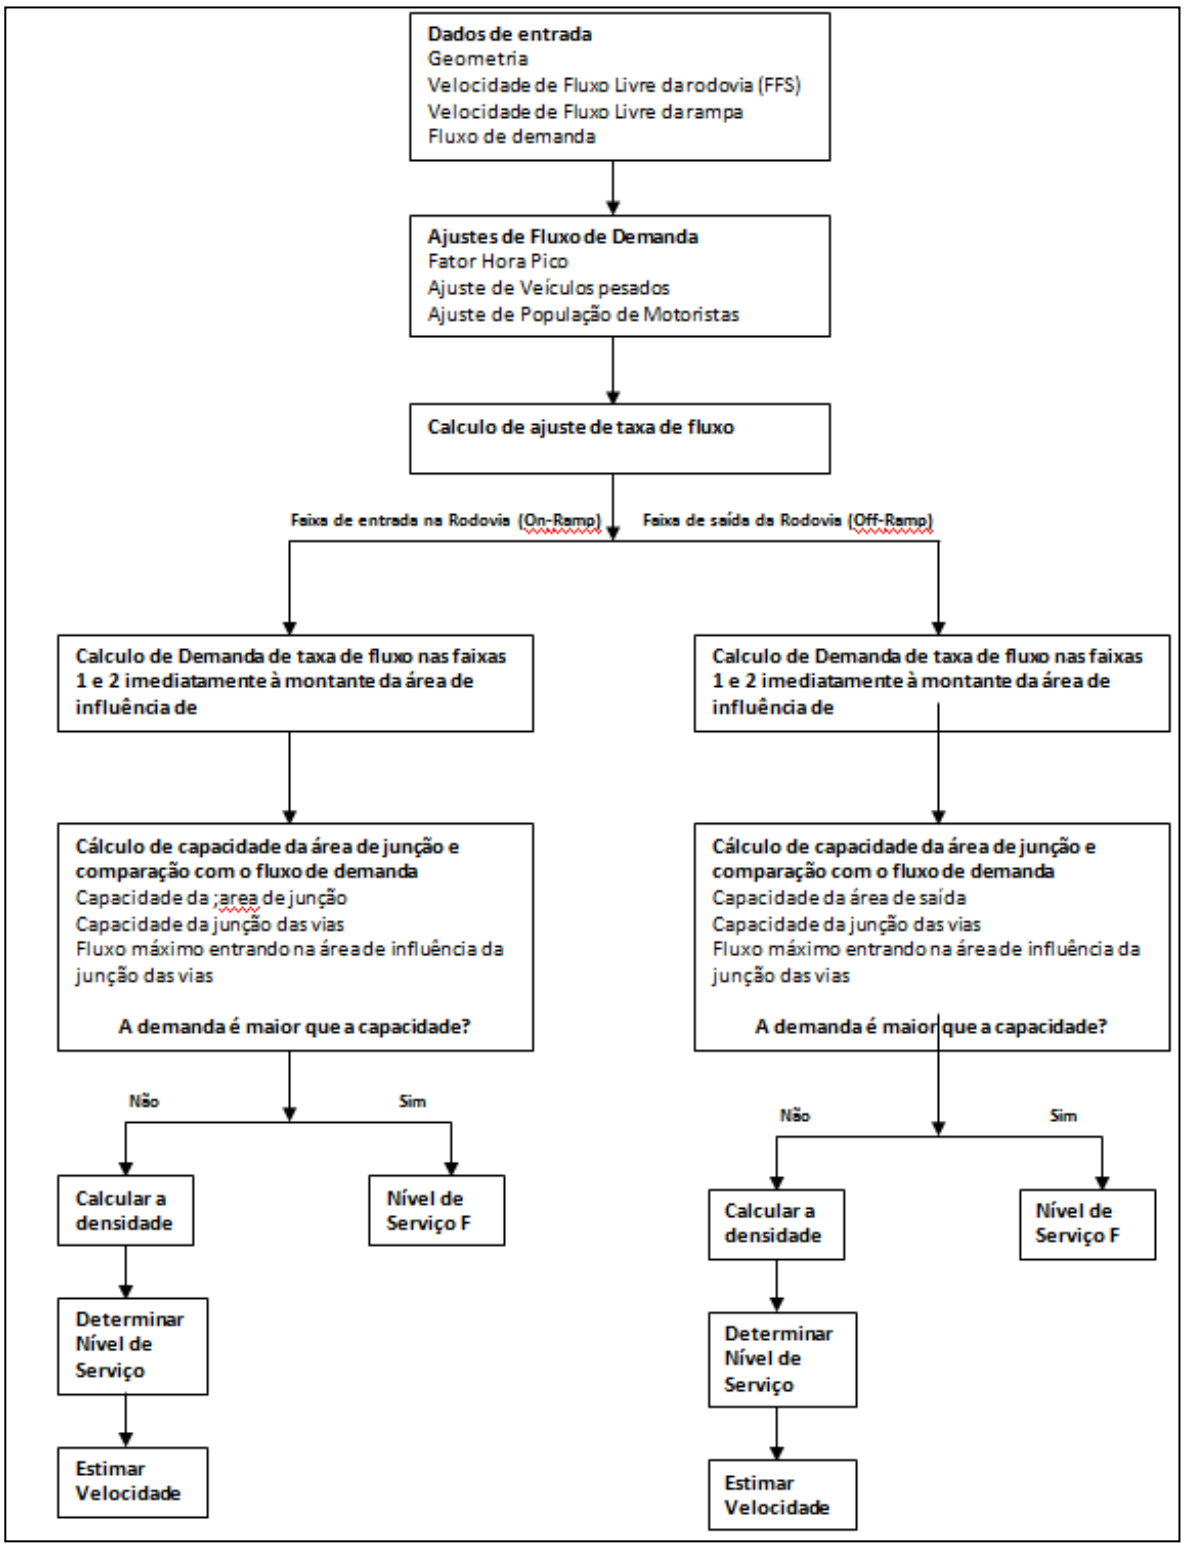

Figura 4-3: Nível de Serviço para junções de rodovias.
Fonte: Adaptado HCM 2010.

4.3 INTERSEÇÃO CONTROLADA POR PARE (TWSC)

Apesar do ponto 03 possuir uma geometria similar a uma rotatória, a mesma possui tratamento de sinalização horizontal (legenda Pare e retenção) e vertical (placa Pare) em seus pontos de junção de via, como um nó de interseção não semaforizada, descaracterizando a sua capacidade de rotatória. Desta forma o cálculo se dará como uma interseção interrompida, onde o controle das aproximações se priorizará em apenas em uma das vias que se encontram). A metodologia de cálculo é influenciada pela priorização do fluxo de tráfego, onde são priorizados os fluxos principais, cujos movimentos não experimentam demoras/atrasos, a distribuição de intervalos no fluxo de tráfego conflitante, que é a distribuição real de intervalos no fluxo de tráfego conflitante pelo qual o veículo controlado pode passar, a brecha crítica, que é o menor intervalo no fluxo de tráfego principal que permite um veículo da via secundária acessar a interseção, o tempo de seguimento que é o tempo médio tempo de seguimento é tempo de saída de um veículo da via secundária e a saída do seguinte em uma condição de fila contínua. O ponto 03 será simulado pelo software da família simtraffic, mais indicado para a simulação de interseções. O **Quadro 4-2** apresenta o nível de serviço para interseção controlada por Pare.

Quadro 4-2: Nível de serviço para interseção controlada por PARE (TWSC).

Controle de Atraso em s/veículos	Nível de Serviço pela razão Volume capacidade V/C ≤ 1	V/C>1
0 - 10	A	F
>10 - 15	B	F
>15 - 25	C	F
>25 - 35	D	F
>35 - 50	E	F
>50	F	F

5 ESTIMATIVA DE TRÁFEGO

Para melhor detalhamento a estimativa de tráfego será estudada em duas etapas a Instalação e operação. Os dados referentes a estimativa de tráfego foram embasados no documento Memorial Descritivo de Processo (10-MDE-1122019-000-P-PRM-002) e de informações complementares repassadas à consultoria pelo empreendimento.

Considerando que os volumes de veículos descritos não possuem a hora pico, poderá ser usado o fator K para estimar a hora mais carregada para caminhões e autos, visto que os ônibus fretados, que irão transportar os funcionários da obra, chegarão ao local no início do turno e voltarão somente no fim do turno. O DNIT descreve o seguinte sobre o fator K:

> "...pode-se determinar o volume horário a ser usado no projeto através do critério denominado "curva da enésima hora". Esta curva consiste na ordenação decrescente de todos os volumes horários anuais, expressos em percentagem do Volume Médio Diário (VMD), designado como fator K."

5.1 INSTALAÇÃO

Durante a instalação do empreendimento serão usados 75 ônibus fretados e 85 autos, por dia e 180 caminhões por mês, que considerando 30 dias de trabalho, nos dá um total de 6 caminhões por dia. Os ônibus fretados possuem local de estacionamento na obra, logo para fins de cálculo, o modal será computado apenas na entrada do pico da manhã e na saída do pico da tarde.

O fator K para a área de estudo será de 10%, logo teremos a seguinte estimativa de tráfego na fase de instalação:

- Ônibus fretados = 75
- Caminhões = 6x10% = 1
- Autos = 85x10% = 9

De acordo com o **Quadro 3-1**, teremos em UCP o total da seguinte forma:

- Ônibus fretados = 75 x 2 = 150 UCP/hora
- Caminhões = 1 x 3 = 3 UCP/hora
- Autos = 85x10% = 9

Considerando a geração (entrada) e produção (saída) teremos de acordo com o **Quadro 5-1** na instalação:

Quadro 5-1: Estimativa de tráfego (UCP) na hora pico - Instalação.

Período	Volume em UCP Geração (Entrada)	Volume em UCP Produção (Saída)
Manhã	162	12
Tarde	12	162

5.2 OPERAÇÃO

Durante a operação do empreendimento teremos 5 ônibus fretado, 50 automóveis leves e 70 caminhões/dia.

O fator K para a área de estudo será de 10%, logo teremos a seguinte estimativa de tráfego na fase de operação:

- Ônibus fretados = 5 ônibus
- Caminhões = 70x10% = 7
- Autos = 50 autos

De acordo com o **Quadro 3-1**, teremos em UCP o total da seguinte forma:

- Ônibus fretados = 5 x 2 = 10 UCP/hora
- Caminhões = 70x10% = 7 x 3 = 21 UCP/hora
- Autos = 50 autos

Considerando a geração (entrada) e produção (saída) teremos de acordo com o **Quadro 5-2** a estimativa de tráfego na operação.

Quadro 5-2: Estimativa de tráfego (UCP) na hora pico - Operação.

Período	Volume em UCP Geração (Entrada)	Volume em UCP Produção (Saída)
Manhã	81	21
Tarde	21	81

6 PERFORMANCE DO TRÁFEGO

6.1 CENÁRIO 01 – O TRÁFEGO ATUAL

Para avaliar a capacidade atual do sistema viário foi realizada uma microssimulação do tráfego com utilização dos softwares HCM-CALC para os pontos de contagem 01 e 02 e o SYNCRO 8 para o ponto de contagem 03.

Os relatórios completos de memória de cálculo, gerado pelos softwares, dos níveis de serviço atuais para os períodos da manhã e da tarde, encontram-se apresentado no **ANEXO II** referente ao Cenário 01.

O **Quadro 6-1** apresenta os resultados dos níveis de serviço referentes a situação atual dos pontos de contagem estudados.

Quadro 6-1: Resumo dos Níveis de Serviço - Cenário 01.

Período	Ponto 01	Ponto 02 Off-Ramp	Ponto 02 Off-Ramp	Ponto 03
Cenário 01 Manhã	C	A	A	B
Cenário 01 Tarde	C	A	A	B

Observa-se que no período da manhã e da tarde os pontos analisados estão com bom nível de serviço. O ponto 01 é o mais solicitado. O Fluxo é estável com restrições para os motoristas na escolha de sua própria velocidade. A via possui uma demanda elevada de ultrapassagem e acontece o encadeamento de comboios. O volume varia de 70% a 80% da capacidade da via.

6.2 CENÁRIO 02 – CENÁRIO 01 COM O INCREMENTO VEICULAR DA FASE DE INSTALAÇÃO

Para encontrar a performance de tráfego do Cenário 02, o mesmo será simulado a partir do cenário 01 adicionando o volume de tráfego gerado na fase de instalação. A estimativa de tráfego (UCP) na hora pico durante a instalação é apresentada no **Quadro 5-1** e a estimativa de tráfego (UCP) na hora pico durante a operação é

apresentada no **Quadro 5-2**. Os volumes da estimativa de tráfego foram aplicados diretamente nos movimentos dos pontos estudados, exceto no ponto 03 onde foi feita uma relação do volume estimado com os volumes existentes (**Quadro 6-2** e **Quadro 6-3**).

Quadro 6-2: Alocação do tráfego (UCP) – Cenário 02 - Período Manhã - Instalação.

Movimento	Interseção01	Interseção 02	Interseção 03
A	516+162 = 678	473+12 = 485	220+162=382
B	166+12 =178	393	661+12=673
C		204 + 162 =166	454
D		149+12= 161	221+2=223
E			894+10=904
F			464+107=571
G			447+107=554
H			238+2=250
I			227+55=282

Quadro 6-3: Volume na hora pico (UCP) – Cenário 02 - Período Tarde - Instalação.

Movimento	Interseção01	Interseção 02	Interseção 03
A	77+12=89	726+162=924	277+12=289
B	811+162=973	256	792+162=954
C		106+12=118	349
D		288+162=450	317+3=320
E			823+9=832
F			429+8=437
G			404+8=412
H			343+3=346
I			222+4=226

O **Quadro 6-4** apresenta os resultados dos níveis de serviço referentes ao cenário 01 (situação atual) e do cenário 02, para fins de comparação, dos pontos estudados. Os relatórios gerados pelo empreendimento encontram-se no **ANEXO IV** - Cenário 03.

Quadro 6-4: Resumo dos Níveis de Serviço - Cenário 01 e Cenário 02.

Período	Ponto 01	Ponto 02 On-Ramp	Ponto 02 Off-Ramp	Ponto 03
Cenário 01 Manhã	C	A	A	B
Cenário 01 Tarde	C	A	A	B
Cenário 02 Manhã	D	A	A	B
Cenário 02 Tarde	C	A	A	B

Nos cenários 01 observou-se que no período da manhã e da tarde os pontos analisados estão com bom nível de serviço.

No cenário 02, quando se incrementou a geração de tráfego do empreendimento na fase da instalação, verificou-se que a redução da performance de tráfego é considerada aceitável. O regime é instável o comboio varia entre 5 á 10 veículos a demanda por ultrapassagem é muito elevada. O veículo é retido em 45% do tempo. O volume de veículos está entre 80% e 90% da capacidade da via.

6.3 CENÁRIO 03 – CENÁRIO 01 COM O INCREMENTO VEICULAR DA FASE DE OPERAÇÃO

Para encontrar a performance de tráfego do Cenário 03, o mesmo será simulado a partir do cenário 01 adicionando o volume de tráfego gerado na fase de Operação. A partir do **Quadro 5-2** foi possível elaborar o **Quadro 6-5** e **Quadro 6-6** com o incremento veicular na fase de operação.

Quadro 6-5: Alocação do tráfego (UCP) – Cenário 03 - Período Manhã - Operação.

Movimento	Interseção01	Interseção 02	Interseção 03
A	516+81=597	473+21=494	220+81=301
B	166+21=187	393	661+21=682
C		204+81=285	454
D		149+21=170	221+4=233
E			894+17=945
F			464+54=518
G			447+54=501

O **Quadro 6-7** apresenta os resultados dos níveis de serviço referentes ao cenário 01 (situação atual), cenário 02 e cenário 03, para fins de comparação, dos pontos estudados. Os relatórios gerados pelo empreendimento encontram-se no **ANEXO IV** (Cenário 03).

Quadro 6-7: Resumo dos Níveis de Serviço - Cenário 01, Cenário 02 e cenário 03 - Operação.

Período	Ponto 01	Ponto 02 On-Ramp	Ponto 02 Off-Ramp	Ponto 03
Cenário 01 Manhã	C	A	A	B
Cenário 01 Tarde	C	A	A	B
Cenário 02 Manhã	D	A	A	B
Cenário 02 Tarde	C	A	A	B
Cenário 03 Manhã	C	A	A	B
Cenário 03 Tarde	C	A	A	B

No cenário 01 observou-se que no período da manhã e da tarde os pontos analisados estão com bom nível de serviço.

No cenário 02, quando se incrementou a geração de tráfego do empreendimento na fase da instalação, verificou-se que a redução da performance de tráfego é considerada aceitável.

No cenário 03, quando se incrementou a geração de tráfego do empreendimento na fase da operação, verificou-se que não houve redução significativa da performance de tráfego, mantendo as condições viárias originais.

7 CONCLUSÃO E RECOMENDAÇÃO

A sinalização horizontal analisada apresentou de uma forma geral com uma condição bastante favorável, porém as faixas de pedestres e ondulações transversais estão inconsistentes quanto ao Código de Trânsito Brasileiro.

A sinalização vertical se encontra de uma maneira geral bem inconsistente, principalmente quanto a cor, distâncias, ausência de sinalização, incompatibilidade, insuficiência de informação, padronização entre outros.

O pavimento se encontra em bom estado, com poucos pontos necessitando manutenção, e desgaste do pavimento e trincas leves foram os principais problemas encontrados.

Foi analisado três cenários, sendo o **cenário 01** o atual, que serviu de direcionamento e explicação para o que acontece em trechos de vias da área de estudo, o **cenário 02** onde foi possível compreender o quanto a geração de viagens do empreendimento, na fase de instalação, impacta na condição atual e finalmente o **cenário 03** onde foi simulado a geração de viagens do empreendimento na fase de Operação.

A partir da análise do desempenho de tráfego, verificou-se que as operações de tráfego nos pontos de pesquisas estão dentro da faixa aceitável (nível de serviço D ou melhor) e que a condição mais restritiva foi o nível de serviço D, na fase de instalação, o que do ponto de vista técnico é aceitável. Também, reflete de uma maneira geral, o comportamento de uma via rural, ou seja, as operações de tráfego que acontecem na região, não sofrem a interferência do comportamento natural de uma via urbana. Além disso, é previsto novas rotas de acesso (RJ-238, RJ-240, SB24 e SB32) ao Porto de Açu que estão em processo de implantação para suprir aumento na demanda futura de transporte e trânsito.

Finalizando os aspectos relacionados ao sistema viário, conclui-se que caso o empreendimento venha a se instalar nessa área não deve haver restrições específicas para a implantação do empreendimento.

Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA

Código CBO	Ocupação	Área de Atividade
2142-70	Engenheiro Civil (Transportes e Trânsito)	Prestar consultoria, assistência e assessoria

Conforme dados disponíveis na presente data, CERTIFICA-SE que a pessoa física está em conformidade com as obrigações cadastrais do CTF/AIDA.

A inscrição no Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA constitui declaração, pela pessoa física, do cumprimento de exigências específicas de qualificação ou de limites de atuação que porventura sejam determinados pelo respectivo Conselho de Fiscalização Profissional.

O Certificado de Regularidade emitido pelo CTF/AIDA não desobriga a pessoa inscrita de obter licenças, autorizações, permissões, concessões, alvarás e demais documentos exigíveis por instituições federais, estaduais, distritais ou municipais para o exercício de suas atividades, especialmente os documentos de responsabilidade técnica, qualquer o tipo e conforme regulamentação do respectivo Conselho de Fiscalização Profissional, quando exigíveis.

O Certificado de Regularidade no CTF/AIDA não produz qualquer efeito quanto à qualificação e à habilitação técnica da pessoa física inscrita.

Chave de autenticação	UYF26IMFDR3X8FKX

Anexo 4-1

Currículo da Equipe Técnica.

Fellipe Alves Ozorio do Nascimento

FORMAÇÃO

Formação Acadêmica:	• Bacharel em Ciências Biológicas (2018) pela Universidade Federal do Vale do São Francisco - UNIVASF e Mestre em Biologia Vegetal (2021) pela Universidade Federal de Pernambuco - UFPE
Idioma:	• Português (nativo) e Inglês (básico)
Informática:	• Microsoft Office e linguagem R (intermediário)
Conselho de Classe	• 125.009/05-D - CRBio 05

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S.A
Cargo:	• Analista Ambiental SR
Período:	• Julho/2022 até o momento
Principais Atividades:	• Apoio técnico e logístico, elaboração de estudos e relatórios ambientais, e execução de Monitoramentos e Inventários de Flora.

Empresa:	• Ambipar Response Control Environmental Consulting S.A
Cargo:	• Analista Ambiental PL
Período:	• Julho/2021 a Junho/2022
Principais Atividades:	• Apoio técnico e logístico, elaboração de estudos e relatórios ambientais, e execução de Monitoramentos e Inventários de Flora.

Empresa:	• Universidade Federal de Pernambuco (UFPE)
Cargo:	• Pesquisador/Bolsista
Período:	• Março/2019 a Julho/2021
Principais Atividades:	• Desenvolvimento do projeto de mestrado: “Efeito das mudanças climáticas sobre padrões de diversidade de plantas da caatinga”.

Empresa:	• Núcleo de Ecologia e Monitoramento Ambiental (NEMA)
Cargo:	• Pesquisador/Bolsista
Período:	• Junho/2016 a Outubro/2018
Principais Atividades:	• Atuação em atividades de resgate e monitoramento de flora, e geoprocessamento no âmbito do programa ambiental de conservação de Fauna e Flora, PBA 23, do Projeto de Transposição do Rio São Francisco (PISF). Além de execução de pesquisas de iniciação científica relacionadas ao monitoramento de plantas exóticas invasoras.

Empresa:	• Centro de Referência de Recuperação de Áreas Degradadas (CRAD)
Cargo:	• Pesquisador/Bolsista
Período:	• Junho/2016 a Outubro/2018
Principais Atividades:	• Atuação em atividades de resgate e monitoramento de flora, e geoprocessamento no âmbito do programa ambiental de conservação de Fauna e Flora, PBA 23, do Projeto de Transposição do Rio São Francisco (PISF). Além de execução de pesquisas de iniciação científica relacionadas ao monitoramento de plantas exóticas invasoras.

Empresa:	• Pontifícia Universidade Católica de Minas Gerais (PUC)
Cargo:	• Pesquisador/Bolsista
Período:	• Janeiro/2013 a Dezembro/2013

Principais Atividades:

- Atuação no desenvolvimento de pesquisa que buscou relacionar os fatores espaciais que afetam a qualidade da água dos reservatórios em cascata na bacia do Rio Grande que abrange diferentes municípios dos estados de Minas Gerais e São Paulo.

PRINCIPAIS TRABALHOS REALIZADOS

2023

- Elaboração do Monitoramento Ecológico na Restauração Florestal de Nascentes na bacia do Rio Doce em Minas Gerais e Espírito Santo. Cliente: Fundação Renova (PRT-AMBP-589).

- Elaboração dos capítulos de Flora do EIA/RIMA do HUB de Hidrogênio e Derivados de Baixo Carbono. Cliente: Porto do Açu (PRT-AMBP-484-36).

2022

- Elaboração do levantamento florístico e fitossociológico para avaliação dos ambientes de referência e avaliação das áreas de Condução da Regeneração Natural – CRN e suas modalidades de intervenção tendo como referência a Bacia do rio Piranga, Minas Gerais. Cliente: Fundação Renova (PRT-AMBP-585).

- Elaboração do Plano de Manejo da Fauna Silvestre para o Complexo Serra da Babilônia Solar, localizado no município de Morro do Chapéu, Bahia. Cliente: Rio Energy (PRT-AMBP-525).

2021

- Elaboração e execução do Monitoramento Ecológico da Restauração desenvolvido nos municípios de Mariana, Barra Longa, Rio Doce e Santa Cruz do Escalvado, estado de Minas Gerais. Cliente: Fundação Renova (PRT-AMBP-539).

- Elaboração do Estudo Ambiental para Atividades de Pequeno Impacto (EPI), contemplando também os Programas Ambientais, do Complexo Serra da Babilônia Solar, localizado no município de Morro do Chapéu, Bahia. Cliente: Rio Energy (PRT-AMBP-525).

- Execução de inventário florestal na área do Porto de Itaguaí, Rio de Janeiro. Cliente: Porto Sudeste (PRT-AMBP-448-03).

- Elaboração e execução do diagnóstico ambiental e fitossanitário dos plantios compensatórios da RUMO Malha Central S.A na região de entorno da Ferrovia Norte Sul. Cliente: RUMO Malha Central (PRT-CASM-487).

CURSOS E EVENTOS RECENTES

2020

- DATA SCIENCE DO ZERO com Python e R.

2019

- Curso de Campo: Ecologia e Conservação da Caatinga.

2018

- Escrita Científica.

- Modelos estatísticos e aplicação do software R como ferramenta em ecologia.

2017

- Modelagem de distribuição de espécies: conceitos e aplicações.

- Identificação de principais grupos de gramíneas do semiárido.

PREMIAÇÕES E TRABALHOS PUBLICADOS

Capítulos em Livros:

- Efeito do excremento de caprinos sobre a reprodução e vigor de *Encholirium spectabile* (Bromeliaceae) na Caatinga. *In*: Ecologia da Caatinga: perturbações antrópicas e resiliência da Caatinga. 1º ed. Recife-PE: NUPEEA, 2022.

- Eu nasci assim, eu cresci assim: Avaliação de uso de recurso foliar em diferentes técnicas de produção e plantio de mudas. *In*: Ecologia da Caatinga: perturbações antrópicas e resiliência da Caatinga. 1º ed. Recife-PE: NUPEEA, 2022.

- Influência da dispersão e fatores abióticos na estruturação de comunidades vegetais em afloramentos rochosos da caatinga. *In*: Ecologia da Caatinga: perturbações antrópicas e resiliência da Caatinga. 1º ed. Recife-PE: NUPEEA, 2022.

- Teoria do nicho ou teoria neutra: Qual delas explica a composição de comunidades de formigas em pequena escala na caatinga? *In*: Ecologia da Caatinga: perturbações antrópicas e resiliência da Caatinga. 1º ed. Recife-PE: NUPEEA, 2022.

Artigos Publicados em Periódicos:

- Pervasive impacts of climate change on the woodiness and ecological generalism of dry forest plant assemblages. Journal of Ecology. v. 1, p. 1-15, 2023.

- Limnological layers improve species distribution modeling of aquatic macrophytes at fine-spatial resolution. Acta Botanica Brasilica, v. 35, p. 1, 2021.

- Modeling the potential distribution of *Anamaria heterophylla* (GIUL. & V.C. SOUZA) V.C. SOUZA (Plantaginaceae) in the Caatinga. Oecologia Australis, v. 24, p. 76-87, 2020.

- Ampliação do conhecimento biogeográfico de *Pleurophora pulchra* (Lythraceae) com enfoque em biologia da conservação. Rodriguesia, v. 70, p. 1-11, 2019.

- Rastreamento de Tecnologias Utilizando o Gênero Spondias (Anacarddeaceae) nos últimos 20 Anos. Revista INGI - Indicação Geográfica e Inovação, v. 2, p. 95-108, 2018.

- Qualidade da água: uma análise espacial de fatores que afetam a qualidade da água dos reservatórios em cascata na bacia do Rio Grande. Sinapse Múltipla, v. 3, p. 103-111, 2014.

Resumos expandidos publicados em anais de congressos:

- Ações educativas como ferramenta para divulgação de saúde pública: Uma abordagem sobre a Hanseníase em escolas públicas de Juazeiro-BA e Petrolina-PE. *In*: X Mostra de Extensão da UNIVASF, 2016, Senhor do Bonfim-BA. Anais da X Mostra de Extensão da UNIVASF, 2016.

- Ações educativas sobre a hanseníase em escolas públicas dos municípios de Petrolina-PE e Juazeiro-BA. *In*: 7º CBEU - Congresso Brasiliro de Extensão Universitária, 2016, Ouro Preto - MG. Anais do VII Congresso Brasiliro de Extensão Universitária, 2016.

- A problemática do esgotamento sanitário nas escolas públicas de Petrolina-PE e Juazeiro-BA. *In*: III Workshop de Educação Ambiental Interdisciplinar, 2014, Petrolina-PE. III Workshop de Educação Ambiental Interdisciplinar. Petrolina-PE: Editora Franciscana, 2014. v. 1. p. 335-339.

Resumos publicados em anais de congressos:

- Composição de formigas epigéicas (hymenoptera: Formicidae) de um fragmento de Caatinga. *In*: II Simpósio do Bioma Caatinga, 2018, Juazeiro - BA. Anais do II Simpósio do Bioma Caatinga, 2018.

- Quanto mais, melhor: A complexidade ambiental influencia a diversidade de formigas de um fragmento de Caatinga?. *In*: II Simpósio do Bioma Caatinga, 2018, Juazeiro - BA. Anais do II Simpósio do Bioma Caatinga, 2018.

- Preditores ambientais e caracterização de nichos potenciais da espécie endêmica da Caatinga *Anamaria heterophylla* (GIUL. & V.C. SOUZA) V.C.. *In*: XIII Congresso de Ecologia do Brasil e III International Symposium of Ecology and Evolution, 2017, Viçosa - MG. Anias do XIII Congresso de Ecologia do Brasil, 2017.

- Modelagem de distribuição geográfica potencial de *Nicotiana glauc*a Graham na área do projeto de integração do rio São Francisco (PISF). *In*: XII Jornada de Iniciação Científica da X Semana de Ensino, Pesquisa e Extensão - SCIENTEX, 2017, Juazeiro. Anais da X SCIENTEX, 2017.

- Evolutionary inference and motif conservation between dengue, zika and chikungunya virus from the envelope protein gene. *In*: XXI Encontro de Genética do Nordeste - ENGENE, 2016, Recife - PE. Anais do XXI Encontro de Genética do Nordeste - ENGENE, 2016.

- Conserved motifs and evolutionary topology from epidermal fish mucus lectins. *In*: XXI Encontro de Genética do Nordeste - ENGENE, 2016, Recife - PE. Anais do XXI Encontro de Genética do Nordeste - ENGENE, 2016.

- EVOMOL: Evoluindo e amplificando o ensino-aprendizagem. *In*: IX Semana de Ensino, Pesquisa e Extensão - SCIENTEX, 2016, Juazeiro - BA. Anais da IX Semana de Ensino, Pesquisa e Extensão - SCIENTEX, 2016.

- Monitoria em botânica: Uma ferramenta no processo de ensino acadêmico. *In*: VIII SCIENTEX - Semana de Ensino, Pesquisa e Extensão da Universidade Federal do Vale do São Francisco, 2015, Petrolina - PE. Anais da VIII SCIENTEX - Semana de Ensino, Pesquisa e Extensão da Universidade Federal do Vale do São Francisco, 2015.

- Qualidade da água: Uma análise espacial de fatores que afetam a qualidade da água dos reservatórios em cascata do Rio Grande. *In*: Simpósio do ICH: Ensino, Pesquisa e Extensão, 2013, Belo Horizonte. Anais do Simpósio do ICH, 2013.

Flávia Guimarães Chaves

Bolsista de Programa de Capacitação Institucional do CNPq - Nível DC

Endereço para acessar este CV: http://lattes.cnpq.br/0058456568546264
ID Lattes: **0058456568546264**
Última atualização do currículo em 12/09/2022

Possui graduação em Ciências Biológicas pela Universidade do Estado do Rio de Janeiro (2007), mestrado (2010) e doutorado (2014) em Ecologia e Evolução (PPGEE) pela mesma instituição. Durante o doutorado, realizou estágio sanduíche no Cornell Lab of Ornithology na Cornell University (EUA) onde desenvolveu análises moleculares/genéticas no domínio de desenvolvimento de primers de microsatélites e sua aplicação na área do Comportamento Animal. Atualmente é Bolsista DTI-A em Biologia da Conservação no Instituto Nacional da Mata Atlântica (INMA) e professora voluntária do Programa de Pós-graduação em Ecologia e Evolução da UERJ onde ministra em colaboração as disciplinas Ecologia do Comportamento Animal e Biologia da Conservação. Faz parte do grupo acessor estratégico para a conservação de Tinamiformes, Galliformes, do GAT PAN Aves da Mata Atlântica junto ao ICMBio e do PAT Capixabas-Gerais. Tem experiência na área de Ecologia, com ênfase em Ecologia, Conservação, Comportamento animal e análises genéticas relativas à determinação de parentesco em Aves. Atualmente é responsável pelo monitoramento acústico passivo na Mata Atlântica da região Central Serrana do Estado do Espírito Santo. Tem experiência em trabalhos técnicos para elaboração de EIA, monitoramentos e análise de capacidade de suporte da avifauna nos biomas brasileiros: Mata Atlântica, Caatinga, Cerrado e Amazônia. **(Texto informado pelo autor)**

Formação acadêmica/titulação

2010 - 2014 Doutorado em Ecologia e Evolução (Conceito CAPES 6).
Universidade do Estado do Rio de Janeiro, UERJ, Brasil.
Título: Territorialidade e Ecologia Reprodutiva de Formicivora littoralis (Thamnophilidae) na Restinga da Massambaba, RJ , Ano de obtenção: 2014.
Orientador: Maria Alice dos Santos Alves.
Coorientador: Maurício B.Vecchi-UERJ e Michael Webster- Cornell University.
Bolsista do(a): Conselho Nacional de Desenvolvimento Científico e Tecnológico, CNPq, Brasil.
Palavras-chave: Territorialidade; Sistemas de acasalamento; Cuidado parental.

2013 - 2013 Doutorado em Ecologia e Evolução.
Universidade do Estado do Rio de Janeiro, UERJ, Brasil.
com **período sanduíche** em Cornell University (Orientador: Michael Webster).
Título: Territoriality and Breeding Ecology of the Restinga Antwren in Massambaba Restinga, Araruama, RJ, Ano de obtenção: 2013.
Orientador: Maria Alice dos Santos Alves.
Coorientador: Maurício B.Vecchi-UERJ e Michael Webster- Cornell University.
Bolsista do(a): Coordenação de Aperfeiçoamento de Pessoal de Nível Superior, CAPES, Brasil.

Palavras-chave: Cuidado parental; Territorialidade; Análise molecular; Mata Atlântica; comportamento.

2008 - 2010

Mestrado em Ecologia e Evolução (Conceito CAPES 6).

2003 - 2007

Universidade do Estado do Rio de Janeiro, UERJ, Brasil.
Título: Tática de forrageamento e Dieta de Formicivora littoralis (Aves: Thamnophilidae) na Restinga da Massambaba, Araruama/RJ, Ano de Obtenção: 2010.
Orientador: Maria Alice dos Santos Alves.
Bolsista do(a): Conservação Internacional do Brasil, CI BRASIL, Brasil.
Palavras-chave: Formigueiro-do-litoral; Conservação; Ecologia.
Grande área: Ciências Biológicas
Grande Área: Ciências Biológicas / Área: Ecologia / Subárea: Ecologia de Populações e Comunidades.
Grande Área: Ciências Biológicas / Área: Ecologia / Subárea: Ecologia de Aves / Especialidade: Educação Ambiental.
Graduação em Ciências Biológicas.
Universidade do Estado do Rio de Janeiro, UERJ, Brasil.
Título: Licenciatura plena.
Orientador: Maria Alice dos Santos Alves.
Bolsista do(a): Conselho Nacional de Desenvolvimento Científico e Tecnológico, CNPq, Brasil.

Pós-doutorado

2015 - 2018

Pós-Doutorado.
Universidade do Estado do Rio de Janeiro, UERJ, Brasil.
Bolsista do(a): Fundação Carlos Chagas Filho de Amparo à Pesquisa do Estado do RJ, FAPERJ, Brasil.
Grande área: Ciências Biológicas
Grande Área: Ciências Biológicas / Área: Ecologia / Subárea: Ecologia de Populações e Comunidades.
Grande Área: Ciências Biológicas / Área: Genética / Subárea: Genética Animal.

Formação Complementar

2019 - 2019 — Saúde e Segurança para Biólogos em campo. (Carga horária: 6h).
Conforme Assessoria, CONFORME, Brasil.

2019 - 2019 — NR06 - Equipamento de proteção individual (Uso e Conservação). (Carga horária: 1h).
Stratus Engenharia de Meio Ambiente e de Segurança do Trabalho, STRATUS, Brasil.

2019 - 2019 — NR10 - Segurança em instalações e serviços em eletricidade. (Carga horária: 8h).
Stratus Engenharia de Meio Ambiente e de Segurança do Trabalho, STRATUS, Brasil.

2012 - 2012 — Desenho Botânico. (Carga horária: 18h).
Instituto de Pesquisa Jardim Botânico do Rio de Janeiro, IP/JBRJ, Brasil.

2012 - 2012 — Sound Recording and Analysis.
Cornell University, CORNELL, Estados Unidos.

2012 - 2012 — RAPELD e Monitoramento da Biodiversidade - básico. (Carga horária: 40h).
Instituto Nacional de Pesquisas da Amazônia, INPA, Brasil.

2012 - 2012 — Gerenciamento de dados. (Carga horária: 16h).
Instituto Nacional de Pesquisas da Amazônia, INPA, Brasil.

2007 - 2007 — ArcGis. (Carga horária: 57h).
Embrapa Solos, EMBRAPA SOLOS, Brasil.

Atuação Profissional

Centro Universitário da Zona Oeste, UEZO, Brasil.

Vínculo institucional
2019 - 2021 — Vínculo: Auxílio divulgação do projeto, Enquadramento Funcional: Não se aplica
Outras informações — Atua montando voluntariamente as divulgações de ações de extensão realizada pela UEZO.

Instituto Nacional da Mata Atlântica, INMA, Brasil.

Vínculo institucional
2021 - Atual — Vínculo: Bolsista, Enquadramento Funcional: Bolsista PCI-DC
Outras informações — Bolsista PCI-DC no projeto Biodiversidade, conservação e perspectivas ao estudo dos ecossistemas rupícolas da Mata Atlântica.

Vínculo institucional
2018 - 2021

Vínculo: Bolsista, Enquadramento Funcional: Bolsista pesquisador, Carga horária: 40, Regime: Dedicação exclusiva.
Bolsista/Biologia da Conservação - Projeto Revisão da Lista de Espécies Ameaçadas do Estado do Espírito Santo.

Outras informações

Atividades

09/2021 - Atual
Pesquisa e desenvolvimento, Divisão de Ciência.
Linhas de pesquisa
Biodiversidade, conservação e perspectivas ao estudo dos ecossistemas rupícolas da Mata Atlântica

06/2018 - Atual
Pesquisa e desenvolvimento, Divisão de Ciência.
Linhas de pesquisa
Ecologia e Conservação de Aves em Mata Atlântica

Universidade do Estado do Rio de Janeiro, UERJ, Brasil.

Vínculo institucional

2018 - 2020
Vínculo: Professor voluntário na pós, Enquadramento Funcional: Professor voluntário na pós graduação, Carga horária: 0

Outras informações
Colaborador como Pesquisador no Laboratório de Ecologia de Aves coordenado pela Dra. Maria Alice dos Santos Alves. A colaboração consiste na co-orientação de alunos e participação voluntária em atividades de campo. Professora colaboradora voluntária nas disciplinas ministradas para a pós-graduação em Ecologia e Evolução: Ecologia do Comportamento Animal em conjunto com a Dra. Maria Alice dos Santos Alves Biologia da Conservação em conjunto com a Dra. Vanderlaine Menezes

Vínculo institucional

2019 - 2019
Vínculo: Professor voluntário na pós, Enquadramento Funcional: Professor voluntário na pós graduação

Outras informações
Professor voluntário convidado da disciplina Ecologia do Comportamento Animal pertencente à grade curricular do Programa de Pós-graduação em Ecologia e Evolução da Universidade do Estado do Rio de Janeiro.

Vínculo institucional

2015 - 2018
Vínculo: Colaborador, Enquadramento Funcional: Pós-doc, Carga horária: 40, Regime: Dedicação exclusiva.

Outras informações
Pós-doutora no Laboratório de Ecologia de Aves da Universidade do Estado do Rio de Janeiro. Atribuições: 1) Desenvolver o projeto de pesquisa "Estudo de Viabilidade Populacional para a conservação de Formicivora littoralis (Thamnophilidae), ave endêmica do estado do Rio de Janeiro e de restinga"; 2) Submeter artigos científicos; 3) Ministrar disciplinas na pós-graduação; 4) Orientar e co-orientar alunos de Iniciação Científica, Mestrado e Doutorado. 2016 - Professora colaboradora na disciplina Ecologia do Comportamento Animal junto ao Programa de Pós-graduação em Ecologia e Evolução (UERJ) - carga horária didática: 45h 2016 - Professora colaboradora na disciplina Biologia da Conservação pertencente ao quadro curricular do Programa de Pós-graduação em Ecologia e Evolução (UERJ) - carga horária didática: 60h. 2016 - Professora colaboradora na disciplina Tópicos em Conservação em Meio Ambiente - Vertebrados junto ao Programa de Pós-graduação em Meio Ambiente (UERJ) - carga horária didática: 3h

Vínculo institucional

2014 - 2016
Vínculo: Biólogo em campo voluntário, Enquadramento Funcional: Pesquisador em colaboração

Outras informações
Colaborador em Projetos de Pesquisa (Estratificação vertical de aves - REBIO União) junto ao laboratório de Ecologia de Aves

Vínculo institucional

2010 - 2014
Vínculo: Bolsista, Enquadramento Funcional: Bolsista PhD em Ecologia e Evolução, Carga horária: 40, Regime: Dedicação exclusiva.

Vínculo institucional

2008 - 2010
Vínculo: Bolsista, Enquadramento Funcional: Aluna de Mestrado, Carga horária: 40, Regime: Dedicação exclusiva.

Outras informações
Mestranda em Ecologia e Evolução

Vínculo institucional

2006 - 2007
Vínculo: Livre, Enquadramento Funcional: Iniciação Científica, Regime: Dedicação exclusiva.

Outras informações
Bolsista do CNPq

Atividades

03/2014 - Atual
Pesquisa e desenvolvimento, Instituto de Biologia Roberto Alcantara Gomes, Departamento de Ecologia.
Linhas de pesquisa
Biologia reprodutiva (parâmetros populacionais) de aves de Mata Atlântica
Genética e viabilidade de populações

08/2020 - 11/2020
Ensino, Ecologia e Evolução, Nível: Pós-Graduação
Disciplinas ministradas
Ecologia do Comportamento Animal

09/2019 - 11/2019
Ensino, Ecologia e Evolução, Nível: Pós-Graduação

2016 - 2018 Vínculo: Pesquisador, Enquadramento Funcional: Pesquisador
Outras informações Responsável técnico do projeto de pesquisa: "Por onde anda a Maria-do-Nordeste (Hemitriccus mirandae) no estado do Ceará? Um estudo de distribuição geográfica, tamanho populacional e reavaliação do status de conservação Em parceria com a Associação Caatinga, instituição responsável pelo desenvolvimento do projeto.

Habtec MottMac, HABTEC MOTTMAC, Brasil.

Vínculo institucional
2014 - 2016 Vínculo: Consultor autônomo, Enquadramento Funcional: Bióloga Consultora de Avifauna
Outras informações Atuando no Projeto Monitoramento e Recuperação de Aves do Complexo Petroquímico do Rio de Janeiro (COMPERJ) que inclui monitoramento mensal das aves e reintrodução de algumas espécies, dentre elas o chauá, Amazona rhodocorytha, espécie ameaçada de extinção.

Linhas de pesquisa

1. Biologia reprodutiva (parâmetros populacionais) de aves de Mata Atlântica
2. Genética e viabilidade de populações
3. Desenvolvimento de marcadores moleculares e realização de análises de paternidade em aves
4. Biodiversidade, conservação e perspectivas ao estudo dos ecossistemas rupícolas da Mata Atlântica
5. Ecologia e Conservação de Aves em Mata Atlântica

Projetos de pesquisa

2021 - Atual Viver aqui é estressante para a avifauna? Investigando a assimetria flutuante em duas áreas de ecossistemas rupícolas na Mata Atlântica
Descrição: Investigando a assimetria flutuante na avifauna após distúrbio antrópico..
Situação: Em andamento; Natureza: Pesquisa.

Integrantes: Flávia Guimarães Chaves - Coordenador / SILVA, GABRIELE ANDREIA DA - Integrante / Paulo Minatel Gonella da Silva - Integrante.

2019 - Atual Monitoramento de espécies da fauna ameaçadas de extinção na Mata Atlântica
Descrição: Monitorar populações de espécies de vertebrados da Mata Atlântica ameaçadas de extinção. O estudo focará em espécies de anfíbios, répteis, aves e primatas ameaçados de extinção, definidos pelas Portarias MMA nº 444 e 445 de 2014, que ocorrem na região central-serrana do Espírito Santo, de acordo com o Livro Vermelho da Fauna Brasileira Ameaçada de Extinção (ICMBio/MMA, 2018). Constam no referido Livro para a região de estudo, pelo menos, 25 vertebrados ameaçados de extinção, estando algumas espécies criticamente em perigo, duas das quais não tem sido encontradas há mais de 50 anos. Portanto, trata-se de uma região estratégica para a conservação de fauna ameaçada e envolve grupos taxonômicos contemplados em Planos de Ação Nacional para a Conservação das Espécies Ameaçadas de Extinção..
Situação: Em andamento; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (3) .

Revisão da Lista de Espécies Ameaçadas de Extinção do Espírito Santo
Descrição: A cada dia que se passa as coleções biológicas ficam mais disponíveis para o público em meios digitais e esse conjunto de informações é uma das principais ferramentas para diversas formas de se avaliar a biodiversidade no espaço. A avaliação do grau de ameaça de espécies de animais e/ou plantas é uma dessas análises baseada nos acervos biológicos existentes para uma determinada região e no conhecimento dos impactos em que as espécies estejam submetidas. Essa análise produz listas de espécies ameaçadas para uma determinada área, que por sua natureza dinâmica deverá ser atualizada de tempos em tempos, para que mantenham seu caráter de documento de política pública atualizado. Essas listagens em todo o mundo representam um documento político para tomadas de decisão baseado no conhecimento científico sobre a biodiversidade. Em virtude desse aumento na disponibilização das informações dos acervos biológicos com representatividade da biota capixaba, bem como um maior conhecimento sobre os impactos atuantes sobre as espécies ameaçadas, tais como o rompimento da barragem de rejeitos de mineração em Mariana/MG que afetou toda a biota do Rio Doce, e a febre amarela silvestre que atingiu populações de diversas espécies de primatas, é urgente que a lista da fauna e flora ameaçada de extinção no Espírito Santo seja revista. Assim, trabalhar as informações de ocorrência das espécies e os impactos em um mapeamento atualizado, possibilitará produzir uma nova lista de espécies candidatas mais condizentes com as realidades biológicas e antrópicas do estado. Após esse trabalho básico, a ser realizado pelos bolsistas contratados pelo projeto, serão convidados especialistas nacionais e internacionais, de diferentes grupos taxonômicos e diferentes especialidades, para realizar a avaliação de risco das espécies candidatas de forma virtual. Posteriormente, parte dos especialistas que participaram da consulta ampla participará de um Workshop presencial a fim de validar os graus de ameaça para todas as espécies que foram incluídas na consulta ampla nos diferentes graus de ameaça (Vulnerável, Em Perigo e Criticamente em Perigo). O resultado desse trabalho será publicado em um decreto do governo do estado do Espírito Santo, além de gerar uma base de dados robusta sobre a ocorrência de espécies no estado, e um livro de divulgação científica a ser lançado ao final do projeto.. **2016 - 2018**
Situação: Concluído; Natureza: Pesquisa.

Estudo de Viabilidade Populacional para a Conservação de Formicivora littoralis (Thamnophilidae), ave endêmica do estado do Rio de Janeiro e de restinga
Descrição: Projeto de pós-doc em desenvolvimento. O declínio de populações animais tem sido mais acentuado do que o de espécies. A diminuição/perda de populações resulta, primeiramente, em perda de diversidade genética e redução do potencial de evolução e em última instância, extinção/desaparecimento da espécie. A maior biodiversidade do planeta encontra-se na região neotropical, que é também a região com maiores taxas de modificação das paisagens. Neste contexto, os esforços de conservação são urgentes de modo a se interromper/frear os processos que levam à extinção de populações, sendo o manejo um elemento importante para mitigar esses processos. Na busca pela melhor estratégia de manejo para uma dada espécie, análises de viabilidade de populações (AVPs) vêm sendo amplamente realizadas. O objetivo deste projeto é realizar AVPs da única **2014 - 2017**

espécie de ave endêmica de restinga, Formicivora littoralis em diferentes cenários de pressão. Para isso, faz-se necessário atualizar a estimativa de tamanho da população e acessar a variabilidade genética da espécie, de forma a se investigar se há tendência a declínio. Este projeto está sendo desenvolvido por mim no Laboratório de Ecologia de Aves da Universidade do Estado do Rio de Janeiro (UERJ) e em colaboração com o Laboratório de Diagnósticos por DNA da UERJ e com o Laboratório de Genética Animal da Universidade Federal Rural do Rio de Janeiro (UFRRJ). Este projeto aborda um tema pouco explorado no Brasil, que é a aplicabilidade dos estudos ecológicos e genéticos no manejo e conservação de espécies..
Situação: Concluído; Natureza: Pesquisa.

Mapeamento e monitoramento de ninhos de Formicivora littoralis (Thamnophilidae) em área de restinga da Massambaba, RJ Auxílio à pesquisa concedido pela SAVE Brasil (BirdLife International). Ano 2008. Total: R$5.000.
Descrição: Localização e monitoramento de ninhos de Formicivora littoralis. O projeto visa localizar, mapear e monitorar ninhos de Formicivora littoralis. Serão realizafos percursos em uma grade de estudo previamente demarcada na Restinga da Massambaba. As buscas serão feitas em arbustos e árvores, bem como observado o comportamento dos pares reprodutores. Quando encontrado, cada ninho receberá um código, sendo registradas suas coordenadas geográficas com o uso de GPS. Os ninhos serão monitorados, consistindo de informações sobre atividade do ninho, fase de reprodução e sucesso reprodutivo. Auxílio SAVE Brasi, valor R$5.000,00. Equipe: Maria Alice S. Alves (coordenadora), Maurício B. Vecchi (Pós-doc/UERJ), Flávia Guimarães Chaves (Mestranda/UERJ) e Thiago Felipe da Silva Laurindo (Bacharelando/UERJ). **2008 - Atual**
Situação: Concluído; Natureza: Pesquisa.

Distribuição e ecologia de aves ameaçadas de extinção de Mata Atlântica no Rio de Janeiro: presente e futuro (no. 29/2008), proc. E-26/102.868/2008.
Descrição: A proposta visa preencher lacunas de conhecimento sobre as aves ameaçadas no estado do Rio de Janeiro. Serão realizados estudos ecológicos em escalas geográfica e local. Na escala geográfica, será feito o mapeamento da distribuição atual e futura, em um cenário de mudanças climáticas, das espécies de aves ameaçadas no estado do Rio de Janeiro, determinando-se possíveis mudanças nos padrões de diversidade de aves no estado. Na escala local, serão investigados aspectos importantes (abundância/densidade populacional, tamanhos territoriais, mapeamento de ninhos e descrição de comportamento reprodutivo) da ecologia de espécies alvo ameaçadas de extinção no estado. Além disso, serão promovidas ações de educação ambiental nas comunidades locais onde os estudos de caso serão realizados. Editalno. 29/2008, proc. E-26/102.868/2008. Valor: R$86.400,00. Equipe: Maria Alice S. Alves (coordenadora), Maurício B. Vecchi (Pós-doc/UERJ), Mariana Vale (Pós-doc/UERJ), Vanessa C. Tomaz (Doutoranda/UFRJ), Cristiane Medeiros e Medeiros (Mestranda/UERJ), Flávia G. Chaves (Mestranda/UERJ), Mariana Zannon (Mestranda/UERJ). **2007 - 2009**

Distribuição Geográfica e Uso do Hábitat do Formigueiro-do-litoral, Formicivora littoralis
Auxílios: Biodiversitas , valor: R$ 27.131,50. Fundação o Boticário de Proteção à Natureza, valor: R$ 14.992,36.
Descrição: Restingas sào ambientes associados à Mata Atlântica que se encontram bastante ameaçados, particularmente pela expansão imobiliária. A perda e degradação de habitat é particularmente importante como risco de ameaça de espécies endêmicas, o que é o caso do formigueiro-do-litoral Formicivora littoralis, considerada a única espécie de ave endêmica de restinga e que ocorre apenas no litorall norte do Estado do Rio de Janeiro. O presente projeto visa ampliar o conhecimento sobre a distribuição geográfica e o uso do hábitat de F. littoralis, através do mapeamento dos locais de ocorrência, caracterização do habitat e divulgação de informações sobre a espécie estudada à comunidade científica, estudantes, tomadores de decisões de políticas públicas e à sociedade em geral, particularmente a dos munícipios inseridos nas áreas de estudo. Pretende-se utilizar os resultados do projeto como subsídios para ações conservacionistas da espécie.. **2005 - 2006**
Situação: Concluído; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (1) / Mestrado acadêmico: (1) / Doutorado: (1) .

Programa de Ecologia de Longa Duração - PELD (SITE 5)
Descrição: O projeto de ecologia de aves na Restinga de Jurubatiba está inserido nos estudos do grupo de ecologia dos vertebrados da UERJ no Programa de Ecologia de Longa Duração (PELD, site-5 - CNPq;UFRJ) e tem como objetivos a) estudar a riqueza e a composição de espécies de aves em diferentes formações vegetais da restinga, b) realizar estudos ecológicos abordando interações populacionais, como por exemplo interações entre aves e espécies vegetais (polinização e frugivoria), interações entre aves e ectoparasitas e interações entre espécies de aves em termos de partilha de recursos como espaço e alimento, c) avaliar a variação espacial e temporal da comunidade de aves em termos de uso de diferentes formações vegetais e utilização de recursos (artrópodes e frutos), d) realizar estudos autoecológicos de espécies endêmicas e/ou ameaçadas de extinção. Para isso, estão sendo realizadas capturas com redes ornitológicas, transeçcões e observacões regulares. As aves são regularmente individualmente marcadas com anilhas metálicas e coloridas, dados de dieta das aves estão sendo coletados através de amostras de fezes e regurgitos estomacais pelo uso de tártaro emético. Serão estimados a produção de frutos e a disponibilidade de insetos em diferentes formações vegetais. Além da produção de conhecimento científico, este sub-projeto inclui a formação de recursos humanos a nível de Graduação e Pós-graduação (mestrado e doutorado) e interação com diferentes grupos do PELD com a finalidade de alcançar um conhecimento mais integrado do ecossistema da Restinga. Este projeto está inserido no escopo do projeto de Ecologia de Populações e Comunidades de aves em Mata Atlântica..
Situação: Em andamento; Natureza: Pesquisa.

Ecologia de Populações, Diversidade e Conservação de Aves em Mata Atlântica : sub-projeto - Dieta de Formicivora littoralis (Aves: Thamnophilidae) na área da Restinga da Massambaba/RJ: uma comparação entre sexos
Descrição: Os objetivos do projeto são: 1) determinar a composição de espécies de aves em diferentes formações vegetais de Mata Atlântica e ecossistemas associados; 2) estimar parâmetros populacionais e comunitários de aves em áreas de Mata Atlântica e ecossistemas associados, com diferentes graus de perturbação antrópica e em diferentes formações vegetais; 3) associar flutuações populacionais a estimativas da produtividade ambiental, através da disponibilidade de recursos (artrópodos e frutos); 4) realizar estudos ecológicos abordando interações populacionais, como por exemplo interações entre espécies aves (partilha de recursos), entre plantas e espécies de aves (visitantes florais e frugívoros), além de interações entre aves e parasitas (hemoparasitas e ectoparasitas) em biomas brasileiros, principalmente em Mata Atlântica; 5) realizar estudos sobre a biologia e a ecologia de espécies de aves particularmente endêmicas e/ou ameaçadas de extinção, incluindo estudos comportamentais em Mata Atlântica; 6) mapear espécies endêmicas e/ou ameaçadas de extinção e registrar em quais formações vegetais ocorrem em Mata Atlântica, principalmente no Estado do Rio de Janeiro; 7) utilizar técnicas genéticas moleculares para os estudos de ecologia comportamental (incluindo determinação do sexo) e de variabilidade genética de populações. Além da produção de conhecimento científico, este projeto visa também a formação de recursos humanos em nível de Graduação e Pós-graduação (mestrado e doutorado) e interação com diferentes grupos em programas de ecologia de longa duração, com a finalidade de alcançar um conhecimento mais integrado da Mata Atlântica e ecossistemas associados..
Situação: Em andamento; Natureza: Pesquisa.

Estrutura de comunidades de aves em florestas seca e úmida no nordeste da América do Sul. 2017. Tese (Doutorado em Ciências Biológicas (Zoologia)) - Universidade Federal da Paraíba.
3. Araújo, H.F.P.; **CHAVES, F. G.**; França, L.F.; Barbosa, M.R.V.; Rodrigues, R.C.. Participação em banca de André Ribeiro de Arruda. Efeito dos ambientes e da conservação sobre as Aves na Caatinga. 2017. Tese (Doutorado em Ciências Biológicas (Zoologia)) - Universidade Federal da Paraíba.

Qualificações de Doutorado

1. **CHAVES, F. G.**; MISSAGIA, C. C.; COSTA, R. C.; Rezende, C.F.. Participação em banca de Luis Gonzaga Salles Junior. Diversidade de aves costeiras associada aos impactos ambientais em ecossistemas litorâneos. 2021. Exame de qualificação (Doutorando em Ecologia e Recursos Naturais) - Centro de Treinamento e Desenvolvimento da Universidade Federal do Ceará.
2. **CHAVES, F. G.**; PERILLO, L.; LEITAO, R.; NEVES, F.. Participação em banca de Paulo Ricardo Siqueira. Gain of habitat-generalist species does not compensate for loss of forest-dependent species across a gradient of forest cover. 2021. Exame de qualificação (Doutorando em Ecologia (Conservação e Manejo da Vida Silvestre)) - Universidade Federal de Minas Gerais.

Trabalhos de conclusão de curso de graduação

1. **Chaves, Flávia Guimarães**; MACIEL, I. S.; ALVES, MARIA ALICE S.. Participação em banca de Louise de Magalhães Marien.Cuidado parental em Phaethornis idaliae (Aves: Trochilidae) Bourcier & Mulsant, 1856. 2020.
2. MATTA, R. F.; **CHAVES, FLÁVIA G.**; OLIVEIRA, C. S.. Participação em banca de Diego Alves de Lima Cavaliere.Distribuição e Variação Bioacústica do chororó-cinzento Cercomacra brasiliana (Thamnophilidae: Aves) no Estado do Rio de Janeiro. 2018. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Estadual do Norte Fluminense Darcy Ribeiro.
3. COSTA, L. M.; **CHAVES, F. G.**. Participação em banca de Caroline Nogueira Conde Reis.Ecologia térmica, atividade e uso do hábitat pelo lagarto Enyalius brasiliensis na Mata Atlântica do maciço da Tijuca, Rio de Janeiro, sudeste do Brasil. 2017. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade do Estado do Rio de Janeiro.
4. ALVES, MARIA ALICE S.; **CHAVES, FLÁVIA G.**; MISSAGIA, C. C.. Participação em banca de Keila Fernandes Henud.Dieta, morfometria e estratificação vertical de Dixiphia pipra (Aves: Pipridae) em uma área de Mata Atlântica. 2017. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade do Estado do Rio de Janeiro.
5. **CHAVES, F. G.**; SANTOS-NETO, E. B.; KAJIN, M.; AZEVEDO, A. F.. Participação em banca de Tamires Fernandes de Oliveira.Dieta do boto-cinza, Sotalia guianensis (Cetartiodactyla, Delphinidae) na Baía de Guanabara, RJ. 2016.
6. **Chaves, Flávia Guimarães**; SOUZA, F. C.; CARVALHEIRA, R. G.. Participação em banca de Lucas dos Santos Alves Pinheiro.Levantamento da Avifauna da Universidade Castelo Branco Campus Realengo, Rio de Janeiro. 2015. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Castelo Branco.
7. **Chaves, Flávia Guimarães**; CUNHA, A.; CARVALHEIRA, R. G.. Participação em banca de Bruno Fraga de Jesus.Levantamento da Avifauna em um trecho marginal à Lagoa de Marapendi, Rio de Janeiro. 2015. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Castelo Branco.
8. **Chaves, Flávia Guimarães**; MONSORES, D.; GUERRA, R.. Participação em banca de Vívian Caroline da Silva Pereira.Perfil da Avifauna do Parque Natural Municipal Chico Mendes. 2014. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Castelo Branco.
9. **Chaves, Flávia Guimarães**; Villar Freret. Participação em banca de Reinaldo de Teixeira Medeiros Júnior.Identificação do sexo usando o gene CHD-1 e análise morfométrica de machos e fêmeas de Hemitriccus nidipendulus (Aves: Rhynchocyclidae) na Restinga de Massambaba, Rio de Janeiro, Brasil.. 2012. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Veiga de Almeida.

Eventos

Participação em eventos, congressos, exposições e feiras

1. Oficina de Avaliação de Espécies da Fauna Silvestre para criação como animais de estimação Lista PET.Responsável por avifauna - Passeriformes. 2020. (Oficina).
2. I Workshop do projeto Rede de Compartilhamento de dados e divulgação da Mata Atlântica no estado do Espírito Santo.Projeto Revisão da Lista de Espécies Ameaçadas de Extinção do Espírito Santo. 2018. (Seminário).
3. 51st Animal Behavior Meeting. Territory size of the Restinga Antwren, Formicivora littoralis (Aves: Thamnophilidae). 2014. (Congresso).
4. 50th Animal Behavior Society Meeting. Partitioning of foraging habitat in male and female Restinga Antwrens. 2013. (Congresso).
5. 5 anos de PPGEE: A ecologia em evolução.Forrageamento do formigueiro-do-litoral, Formicivora littoralis: comparação entre sexos. 2011. (Simpósio).
6. 25th International Ornithological Congress. DNA extraction from feathers and egg shell of the Restinga Antwren (Passeriformes: Thamnophilidae), applied to sex determination. 2010. (Congresso).
7. 46 Annual Meeting of the Animal Behavior Society.Foraging tactics of Formicivora littoralis (Thamnophilidae) in Massambaba Restinga. 2009. (Encontro).
8. Encontro para Elaboração do Plano de Ação de Conservação do Formigueiro-do-litoral (Formicivora littoralis).Oficina para elaboração do PAN Formigueiro-do-litoral. 2009. (Oficina).
9. XVII Congresso Brasileiro de Ornitologia. Revisao do Levantamento da Avifauna do Parque Natural Municipal de Nova Iguacu - dados preliminares. 2009. (Congresso).
10. Conservação Ambiental na América Latina. 2008. (Outra).
11. Conservação Ambiental na América Latina. 2008. (Outra).
12. Plano de ação do formigueiro-do-litoral, Formicivora littoralis.Plano de Ação do formigueiro-do-litoral, Formicivora littoralis. 2008. (Encontro).
13. XVI Congresso Brasileiro de Ornitologia. Dieta de Formicivora littoralis (Aves: Thamnophilidae) na Restinga da Massambaba/RJ. 2008. (Congresso).
14. 16 Semana de Iniciação Científica da Universidade do Estado do Rio de Janeiro (UERJ).Dieta de Formicivora littoralis (Aves: Thamnophilidae) na área da restinga da Massambaba, RJ: uma comparação entre sexos. 2007. (Encontro).
15. I Simpósio em Ecologia - Ecologia Antártica, Mudanças Climáticas e o Ano Polar Internacional. 2007. (Simpósio).
16. IV EREBIO - Encontro Regional de Ensino de Biologia.Estratégias Didáticas para a abordagem de temas de Educação Ambiental na Escola. 2007. (Oficina).
17. Seminário: Diálogos sobre Metodologias em Educação Ambiental. 2007. (Seminário).
18. VIII Congresso de Ecologia do Brasil. Distribuição geográfica e abundância do formigueiro-do-litoral, Formicivora littoralis (Aves: Thamnophilidae). 2007. (Congresso).
19. Worshop Estratégias e Ações para a Conservação da Mata Atlântica do Estado do Rio de Janeiro.Workshop. 2007. (Encontro).
20.

17º UERJ Sem Muros - Feira de Ciências - Projeto Mostra Itinerante de Ciências e Biologia - Levando a Universidade à Escola.Levando a Universidade à Escola, 3º Espaço Ciência. 2006. (Oficina).

21. II Simpósio de Ecologia Teórica - Discutindo Ecologia Neotropical.II Simpósio de Ecologia Teórica - Discutindo Ecologia Neotropical. 2006. (Simpósio).

22. XVI EREB-SE Encontro Regional de Estudantes de Biologia do Sudeste.Contra a mente de exclusão: o instinto é coletivo, meu irmão!. 2005. (Encontro).

23. XXVI Encontro Nacional de Estudantes de Biologia.Escolas (de)formação: A(tua)ção?. 2005. (Encontro).

Organização de eventos, congressos, exposições e feiras

1. HUBBE, O. P. M. F. ; RODRIGUES, A. C. L. ; **CHAVES, F. G.** ; Freitas, J. ; SILVA, J. P. ; NORONHA, M. ; LACERDA, J. V. ; GUIMARAES, A. . IX Simbioma - Simpósio sobre a Biodiversidade da Mata Atlântica. 2020. (Congresso).

2. **CHAVES, FLÁVIA G.**. Ciência e Sociedade - Ciência para redução das desigualdades. 2018. .

3. **CHAVES, F. G.**. 26th International Congress for Conservation Biology. 2013. (Congresso).

Orientações

Orientações e supervisões em andamento

Trabalho de conclusão de curso de graduação

1. Laís Oliveira Santos. Assembléia de Aves da Região Costeira do estado do Ceará. Início: 2014. Trabalho de Conclusão de Curso (Graduação em Ciências Biológicas) - Universidade Federal do Ceará. (Orientador).

Orientações e supervisões concluídas

Dissertação de mestrado

1. Natanael Feitosa. Por onde anda a Maria-do-Nordeste (Aves: Hemitriccus mirandae) no estado do Ceará? Um estudo sobre distribuição geográfica, tamanho populacional e reavaliação do status de conservação. 2016. Dissertação (Mestrado em Ecologia e Recursos Naturais) - Universidade Federal do Ceará, . Coorientador: Flávia Guimarães Chaves.

Educação e Popularização de C & T

Entrevistas, mesas redondas, programas e comentários na mídia

1. **Chaves, Flávia Guimarães**; Laurindo, T.F.S. ; BARRETO, J. P. . Pense Verde - Veganismo - TV Diário Ceará. 2016.

2. **Chaves, Flávia Guimarães**; Silva, J.P. . Podcast: Fauna e Flora Ameaçadas de Extinção do Espírito Santo. 2020.

3. **CHAVES, F. G.**. Conheça o Mutum-do-sudeste, ave ameaçada de extinção - Jornal do Campo. 2022.

4. **CHAVES, F. G.**. Jornal do Meio Dia - TVE - Mutum-do-sudeste. 2022. (Programa de rádio ou TV/Entrevista).

5. **CHAVES, F. G.**. ES 24H - Mutum-do-sudeste, ave ameaçada de extinção, é reproduzido em cativeiro no INMA em Santa Teresa. 2022. (Programa de rádio ou TV/Entrevista).

6. **CHAVES, F. G.**. Jornal do Campo - Conheça arara-vermelha-gigante, que é a única da espécie no ES. 2022.

7. **CHAVES, F. G.**. Globo.com Beleza rara: apenas uma arara-vermelha-grande vive em todo o ES. 2022. (Programa de rádio ou TV/Entrevista).

8. **CHAVES, F. G.**. A gazeta - Santa Teresa tem única arara-vermelha gigante do Espírito Santo. 2022. (Programa de rádio ou TV/Entrevista).

9. **CHAVES, F. G.**; MANNA, L. R. ; BELLO, M. S. . Biólogos em campo: atuação na área de meio ambiente. 2021. (Programa de rádio ou TV/Mesa redonda).

Organização de eventos, congressos, exposições e feiras

1. **CHAVES, FLÁVIA G.**. Ciência e Sociedade - Ciência para redução das desigualdades. 2018. .

FORMAÇÃO

FORMAÇÃO ACADÊMICA

- **Mestre em Biologia Vegetal** pelo Programa de Pós-graduação em Biologia Vegetal – UFES (2016-2018)
- **Biólogo** pela Universidade Federal do Espírito Santo (UFES) – (2009-2015)
- **Bacharel em Environmental Science** (Short Degree programme) pela Saxion University of Applied Sciences – Holanda (2013-2014).
- **Técnico em química** pelo Instituto Federal do Espírito Santo – (2009-2011).

CURSOS PROFISSIONALIZANTES

- **IRATA N1** – WEES Treinamentos – Dez/2020
- **CBSP** – WestGroup – Fev/2021
- **HUET** – WestGroup – Fev/2021

INFORMÁTICA

- **Microsoft office** (Word, Power Point, Excel)
- **Programação em linguagem R**

IDIOMAS

- **Inglês** (fluente)
- **Espanhol** (intermediário)

EXPEPRIÊNCIAS PROFISSIONAIS NACIONAIS

- **Pesquisador DCTI**
  - Avaliação dos impactos dos contaminantes provenientes do rompimento da barragem de Fundão em Mariana/MG sobre a vegetação de restinga do Norte do ES (Rede Rio Doce Mar – UFES) (Mai 2021 – Jul 2022)
- **Consultor Técnico do Inventário Florestal Nacional na Amazônia** pelo Serviço Florestal Brasileiro (SFB/FAO) (Out-Dez 2018)
  - Identificação, registro e digitalização de espécies vegetais coletadas no Amazonas, Roraima e Acre. Trabalho realizado no herbário do Instituto Nacional de Pesquisas Amazônicas (INPA).

- **Consultor do Inventário Florestal Nacional do Espírito Santo** pelo Serviço Florestal Brasileiro (SFB/FAO) (2015-2017)
    - Identificação, registro e digitalização de espécies vegetais coletadas no em todo o estado do ES. Herbário VIES-UFES.

EXPERIÊNCIAS PROFISSIONAIS INTERNACIONAIS

- **Estágio (intership)** Rekel Water Company – Amsterdam, Holanda. 2014
    - Avaliação da viabilidade de aplicação do Conceito Waterharmonica para melhoria da qualidade de efluentes urbanos, redução da intensidade de alagamentos e desenvolvimento de áreas naturais na região metropolitana de São Paulo.

ARTIGOS CIÊNTIFICOS PUBLICADOS

- **Soil-associated drivers of plant traits and functional composition in Atlantic Forest coastal tree communities.** Jehová Lourenço Jr., Erica A. Newman, José A. Ventura, Camilla Rozindo Dias Milanez, Luciana Dias Thomaz, **Douglas Tinoco Wandekoken**, Brian J. Enquist. Ecosphere. **2021**.

- **Drivers of plant traits and forest functional composition in coastal plant communities of the Atlantic Forest.** Jehová Lourenço Jr, Erica A. Newman, Jose A. Ventura, Camilla Rozindo Dias Milanez, Luciana Dias Thomaz, **Douglas Tinoco Wandekoken**, Brian J. Enquist. BioRxiv. **2021**

- **Influence of climate seasonality on the accumulation of carbohydrates and cell wall polymers in organs of three tree species of a restinga forest.** Fabiano Caprini Volponi1, Ramon Negrão Santos Junior, Felipe Machado Barreto, Fernanda Bonini dos Reis, Carlos Augusto Pagotto Martins, Daniely Bindaco Hirata, **Douglas Tinoco Wandekoken**, Geraldo Rogério Faustini Cuzzuol, Paulo Cezar Cavatte. Scientia Florestalis. **2022**.

PRODUÇÃO TÉCNICA – CONSULTORIAL AMBIENTAL

- **ART Nº 2-61763/23-E -** Elaboração do Inventário Florestal para composição dos estudos ambientais para Licenciamento Ambiental do Hub de Hidrogênio Verde e Produtos Derivados, Porto do açu – São João da Barra/RJ, junto à **Ambipar Response Control Environmental** (Mai – Ago 2023)
    - Delimitação e Classificação de Fitofisionomias; Identificação e georreferenciamento de espécies ameaçadas de extinção e endêmicas; Elaboração de relatório técnico para protocolo junto ao INEA

- **ART XXXX** – Elaboração do capítulo de Flora do Plano de Manejo do Parque Estadual da Fonte Grande, Vitória/ES, junto à **Vitória Ambiental** (Mai – Jul 2023)
    - Classificação dos fragmentos de vegetação na UC e ZA; Delimitação das formas de uso e ocupação do solo; Georreferenciamento e elaboração de projeto de controle de espécies exóticas invasoras; Identificação das principais ameaças à vegetação e elaboração de plano de controle visando a integridade da vegetação.

- **ART Nº 2-59869/23-E –** Inventário florestal (censo das árvores isoladas) em duas Fazendas no Norte do ES (Pedro Canário e Montanha) junto à **2Tree** (Jun 2023)
    - Identificação de espécies vegetais para elaboração listagem florística, cálculos volumétricos para composição de relatório técnico.

- **ART Nº 2-58121/23-E -** Execução de inventário florestal e estudo florístico da LT 500 KV + LT 350 KV no espirito santo, junto à **Linha Ambiental** (Mar 2023)
    - Coleta de dados em campo; identificação de espécies vegetais; elaboração de relatório técnico com análise estrutural e volumétrica da vegetação; classificação dos fragmentos quanto aos estágios de regeneração.

- **ART Nº 2-58135/23-E** - Elaboração do EIA/RIMA (flora): avaliação de impactos, proposição de medidas e programas ambientais em área de extração de calcário em Cachoeiro de Itapemirim/ES junto à **CEPEMAR** (Jan 2023).
    - Diagnóstico florístico; Classificação de fisionomias e formas de uso e ocupação do solo; Identificação de espécies vegetais (herbáceas, arbustivas, arbóreas e epífitas); Elaboração do capitulo do EIA/RIMA abrangendo os impactos, medidas mitigadoras e programas ambientais.

- **ART Nº 20221000107179 –** Identificação de Espécies Vegetais em área de Transição Cerrado Caatinga – Janaúba/MG junto à **Voltalia Energia** (Jun-Nov 2022)
    - Identificação de espécies vegetais e elaboração de listagem florística

- **ART Nº 2-48455/22-E** - Monitoramento de flora nos fragmentos de vegetação do complexo siderúrgico da Vale, Vitória/ES, junto à **CEPEMAR** Soluções Ambientais (Mai-Dez 2022)
    - Coleta de dados referentes à vegetação nas parcelas permanentes em campo; elaboração de relatório técnico com dados atuais e pretéritos

- **ART Nº 2-48273/22-E –** Inventário florestal e Levantamento florístico em 72 ha de Floresta de tabuleiro, Sitio Cataia, Vila Velha/ES (Abr – Mai 2022)
    - Levantamento de dados em campo; Classificação quanto ao estágio de regeneração; Cálculo de volumetria; Elaboração de relatório técnico.

- **ART Nº 2-44306/21-E** – Estudo florístico dos pontos de implantação das estações elevatórias de esgoto bruto-EEEB, da companhia-CESAN na região de Grande Terra Vermelha, Vila Velha/ES (Mar 2022)
    - Caracterização vegetacional e à obtenção da autorização para corte de árvores isoladas

- **ART Nº 2-42772/21-E** – Levantamento florístico, fitossociológico em restinga em Aracruz, Linhares, São Mateus e Conceição da barra, num total de nove trechos, junto à **FEST e Fundação Renova** (Mar 2021 – Mai 2022)
    - Levantamento de dados em campo, identificação de espécies vegetais, elaboração de relatório técnico

- Taxonomista de campo – Inventários Florestais em Bioma Cerrado no Estado do Maranhão, junto à **Ambipar** e CCA: GVC, EPGVP, GVBN, UFVM, GNL (Jan 2021 – Dez 2021)
    - Levantamento de dados em campo, classificação de fitofisionomias, identificação de espécies, indicação de APP

- **ART Nº 2-41954/21 –** Inventário florestal em fragmento de floresta de restinga em Vila Velha/ES (Jun 2021)
    - Levantamento de dados em campo; Classificação quanto ao estágio de regeneração; Cálculo de volumetria; Elaboração de relatório técnico.

- **ART Nº 2-41600/21 –** Realização de inventário florestal em áreas de floresta nativa e áreas antropizadas no TIG-VALE (Terminal Ilha Guaíba) junto à **CEPEMAR soluções ambientais** (Mar 2021)
    - Levantamento de dados em campo; Delimitação de fisionomias; Classificação dos fragmentos quanto ao estágio de regeneração; Cálculo de Volumetria; Elaboração de relatório técnico.

- **ART Nº 5-41484/21 –** Elaboração de projeto executivo de reposição florestal em área de Cerrado na bacia hidrográfica do rio Mearim, Maranhão junto à **Control Ambiental Sustentabilidade e Meio Ambiente** (Mar 2021)
    - Levantamento de áreas para recomposição vegetal na bacia do Rio Mearim, Maranhão; Elaboração de relatório técnico com indicação de áreas prioritárias para restauração.

- **ART Nº 8-15606/21 –** Monitoramento da vegetação de Caatinga no complexo eólico Morro do Chapéu/BA junto à **ADL Consultoria e Engenharia** (Dez 2020)
    - Monitoramento de flora por levantamento florístico quali-quantitivo; Execução de levantamento de campo, com análise da vegetação, identificação de espécies e elaboração de listagem florística e caracterização de fisionomias; Elaboração de relatório técnico com enquadramento fitogeográfico, análises fitossociológicas e estatísticas.

- **ART Nº 2-36020/20-E** – Levantamento dos impactos sobre a vegetação nas unidades de conservação da Bacia do rio Doce (Continentais-1) após o rompimento da barragem da Samarco em Fundão, Mariana/MG, junto à **Gaia Meio Ambiente** (2019-2020).
    - Visita às unidades de conservação para coleta de dados; Realização de entrevistas; Elaboração de relatório técnico relatando os impactos diretos e indiretos sobre a vegetação nativa e cultivada, com proposição de medidas mitigadoras e compensatórias.

- **ART Nº 2-37498/20-E** - Responsável técnico pela elaboração e execução de PRAD (Projeto de recuperação de área degradada) em APP (Área de preservação permanente) às margens da lagoa Juara, Serra-ES (Ago-2020)
    - Caracterização do estágio de regeneração natural da vegetação pós supressão, elaboração da metodologia de recuperação, seleção de espécies adequadas para o plantio e acompanhamento da restauração da área.

- **ART Nº 2-35662/20-E** - Responsável técnico pelo levantamento botânico das áreas vizinhas ao empreendimento da Biancogrês Cerâmicas S/A em Serra-ES, junto à **Foco Soluções em Meio Ambiente** (Mar-2020)
    - Caracterização da vegetação através de análise fitossociológica, identificação de espécies vegetais, descrição de fisionomias. Confecção de relatório técnico contendo o estágio sucessional das áreas e lista florística para embasamento de áreas prioritárias para conservação e áreas para aplicação de PRAD.

- **ART Nº 8-13100/20** – Monitoramento do Manguezal na foz do rio Jequitinhonha, junto à **Aplysia Assessoria e Consultoria LTDA** (FEV 2020)
    - Monitoramento da vegetação através de levantamento fitossociológico em parcelas permanentes no manguezal, caracterização de fitofisionomias e identificação de espécies para lista florística. Elaboração de relatório técnico com foco na variação dos parâmetros da vegetação ao longo dos anos.

- **ART nº 8-13935/20** - Inventário florestal da estrada de acesso à região norte, ponte sobre o rio Jequitinhonha, junto à **VERACEL Celulose S/A** (JAN 2020).
    - Coordenação do diagnóstico da Flora por meio de inventário florestal. Execução do levantamento de campo referente à flora, com caracterização de fitofisionomias, análise fitossociológica, censo de árvores isoladas e elaboração de listagem florística.

Douglas Tinoco Wandekoken

Identificação das espécies de flora ameaçadas de extinção, exóticas e de importância econômica e ecológica.

- **ART Nº 6-02291/19** – Responsável técnico do grupo flora dos serviços de elaboração do relatório técnico simplificado (RAS) da LT 230 KV SE-Jaguatirica II Boa Vista, em Boa Vista/RR, junto à **Control Ambiental** (Dez-2019)
    - Caracterização da vegetação com indicação de fitofisionomias; Elaboração de diagnóstico, indicação de ADA, AID e AII; Descrição de impactos e proposição de medidas e programas específicos relacionados ao meio biótico (Flora).

- **ART Nº 8-13100/20** - Monitoramento do manguezal na foz do rio Jequitinhonha em Belmonte-BA, junto à **Veracel Celulose S/A e Aplysia - Soluções Ambientais** (Out-2019)
    - Monitoramento da vegetação através de levantamento fitossociológico em parcelas permanentes no manguezal, caracterização de fitofisionomias e identificação de espécies. Elaboração de relatório técnico com foco na variação dos parâmetros da vegetação ao longo dos anos.

- **ART N°:8-13935/20** - Coordenação do diagnóstico da Flora por meio de inventário florestal na região de abrangência da estrada da Veracel e ponte sobre o rio Jequitinhonha na Bahia, junto à **Veracel** e **CTA Serviços em meio ambiente** (Set-2019)
    - Execução do levantamento de campo referente à flora, com caracterização de fitofisionomias, análise fitossociológica, censo de árvores isoladas e elaboração de listagem florística. Identificação das espécies de flora ameaçadas de extinção, exóticas e de importância econômica e ecológica. Elaboração de relatório técnico com cálculos de supressão da vegetação (espécies suprimidas, volume de madeira), indicação de áreas de preservação permanente.

- **ART Nº 6-01429/19** - Coordenador dos trabalhos de campo do grupo flora dos serviços de elaboração do EIA/RIMA da UTE Jaguatirica II (Boa Vista-RR) – PRT-CASM-335-67, junto à **Control Ambiental** (Abr-2019).
    - Levantamento de dados primários, instalação de parcelas para realização de análise fitossociológica, caracterização de fitofisionomias e elaboração de relatório com lista florística.

- **ART Nº 2-31082/19-E** - Coordenador dos trabalhos de campo dos grupos de flora e fauna para elaboração do "Memorial descritivo da atividade de levantamento geofísico terrestre nos blocos PN-T-117, PN-T-118 E PN-T-119, bacia do Parnaíba, Maranhão, junto à **Control Ambiental** (Mar-2019).
    - Levantamento de dados primários relacionados ao meio biótico: registro e identificação de espécies de fauna e flora; caracterização de fitofisionomias; análise fitossociólogica; elaboração de relatórios.

Última atualização do currículo em 29/08/2023

Resumo informado pelo autor

Graduando em Engenharia Sanitária e Ambiental no IFES - campus Vitória, com admissão em 2018 e conclusão prevista para 2024.Graduado em Ciências Biológicas pela UFES - campus Vitória, nas modalidades Licenciatura e Bacharelado, concluídas em 2017 e 2013, respectivamente. Participou do programa Ciência sem Fronteiras na "Universiteit Antwerpen", Bélgica. Sócio fundador da Associação dos Meliponicultores do Espírito Santo (AME-ES). Educador ambiental na Estação Biologia Marinha Augusto Ruschi (EBMAR), em Santa Cruz. Possui experiência nas áreas: Botânica, Educação Ambiental, Educação Indígena Guarani, Meliponicultura, Apicultura e Agroecologia. Curso de Acesso por Cordas IRATA N1 (22/12/2020). CBSP Curso Básico de Segurança de Plataforma - Salvatagem (Fev/2021). HUET Treinamento de Escape em Helicóptero Submerso (Fev/2021). Capacitação para a Cadeia do Turismo de Observação de Baleias e Golfinhos (2022). Estágio na empresa Ética Engenharia (2023).

Nome civil

Nome Nilton Emmerick Oliveira Filho

Dados pessoais

Nascimento 06/12/1989 - Vitória/ES - Brasil

CPF 106.437.777-76

Formação acadêmica/titulação

2018 Graduação em Engenharia Sanitaria e Ambiental.
Instituto Federal de Educação, Ciência e Tecnologia do Espírito Santo, IFES, Vitoria, Brasil

2013 - 2017 Graduação em Ciências Biológicas.
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil
com **período sanduíche** em University of Antwerp (Orientador: Patrick Meire)
Título: A CONTRIBUIÇÃO DA ESCOLA INDÍGENA DE TRÊS PALMEIRAS NA MANUTENÇÃO DO CONHECIMENTO ACERCA DAS PLANTAS SAGRADAS GUARANI
Orientador: Patrícia Silveira da Silva Trazzi
Bolsista do(a): Conselho Nacional de Desenvolvimento Científico e Tecnológico

2009 - 2013 Graduação em Ciências Biológicas.
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil
Título: Composição Florística e Análise Fitossociológica de um componente de Floresta Ombrófila Densa situado na Reserva Biológica de Duas Bocas, Cariacica-ES, Brasil
Orientador: Luciana Dias Thomaz
Bolsista do(a): Conselho Nacional de Desenvolvimento Científico e Tecnológico

2005 - 2007 Ensino Médio (2o grau) .
Centro Educacional Charles Darwin, DARWIN, Brasil, Ano de obtenção: 2007

Formação complementar

2022 - 2022 Curso de curta duração em Curso de Avaliação de Risco Ambiental de Agrotóxicos para Abelhas. (Carga horária: 20h).
Instituto Brasileiro do Meio Ambiente e dos Recursos Naturais Renováveis, IBAMA, Brasília, Brasil

2021 - 2021 Curso de curta duração em Treinamento de Escape em Helicóptero Submerso - HUET. (Carga horária: 8h).
West Group Treinamentos Industriais Ltda, WESTGROUP, Brasil

2021 - 2021 Curso de curta duração em Curso Básico de Segurança de Plataforma (CBSP) - Salvatagem. (Carga horária: 40h).
West Group Treinamentos Industriais Ltda, WESTGROUP, Brasil

2020 - 2020 IRATA N1. . (Carga horária: 40h).
WEES Treinamentos, WEES, Brasil

2017 - 2017 Curso de curta duração em Biologia e Criação de Abelhas sem Ferrão. (Carga horária: 45h).
Scient&Veritas, S&V, Sete Lagoas, Brasil

2017 - 2017 Curso de curta duração em Meliponicultura Conservacionista. (Carga horária: 60h).
Scient&Veritas, S&V, Sete Lagoas, Brasil

Atuação profissional

1. Estação Biologia Marinha Augusto Ruschi - EBMAR

Vínculo institucional

2017 - Atual Vínculo: MEI , Enquadramento funcional: Educador Ambiental , Carga horária: 10, Regime: Parcial

2. Instituto Federal de Educação, Ciência e Tecnologia do Espírito Santo - IFES

Vínculo institucional

2023 - Atual Vínculo: Estagiário , Enquadramento funcional: Estagiário , Carga horária: 20, Regime: Parcial

Atividades

04/2023 - Atual Estágio, Ética Engenharia

Estágio:
Estágio curricular obrigatório

3. Universidade Federal do Espírito Santo - UFES

Vínculo institucional

2012 - 2015 Vínculo: Bolsista , Enquadramento funcional: Estagiário , Carga horária: 20, Regime: Parcial

Atividades

2016 - Atual Outro

Especificação:
Ecologia de ambientes costeiros e marinhos, restinga, manguezal, costão rochoso.

2015 - 2017 Outra atividade técnico-científica, Centro de Ciências Humanas e Naturais - CCHN

Especificação:
Estudos sobre educação indígena Guarani

Formação acadêmica/titulação

2019 - 2020 Especialização em Perícia e Auditoria Ambiental. (Carga Horária: 560h).
Alphamerica, ALPHA, Brasil.
Título: Sem monografia.

2011 - 2015 Graduação em Ciências Biológicas.
Centro Universitário São Camilo - Espírito Santo, USC, Brasil.
Título: INVENTÁRIO DE MAMÍFEROS NÃO VOADORES DA RESERVA PARTICULAR DO PATRIMONIO NATURAL MATA DA SERRA, VARGEM ALTA, ES..
Orientador: Helimar Rabello.

Formação Complementar

2019 - 2019 Educação Ambiental. (Carga horária: 14h).
UAI Tecnologia da Informação, UAITI, Brasil.

2019 - 2019 ?Mortalidade de vertebrados em empreendimentos viários: desenho amostral e. (Carga horária: 20h).
Núcleo de Ecologia de Rodovias e Ferrovias (NERF/UFRGS), NERF, Brasil.

2015 - 2015 Extensão universitária em Curso Teórico e Prático de Herpetologia (répteis). (Carga horária: 30h).
Habitatil Consultoria LTDA, HABITATIL, Brasil.

2013 - 2013 Cultivo de Orquideas. (Carga horária: 4h).
Centro Universitário São Camilo - Espírito Santo, USC, Brasil.

2012 - 2012 Técnicas de levantamento e captura de fauna. (Carga horária: 60h).
Habitatil Consultoria LTDA, HABITATIL, Brasil.

2012 - 2012 Licenciamento Ambiental. (Carga horária: 30h).
Portal Educação, PE, Brasil.

Atuação Profissional

Projetos de pesquisa

2013 - 2014
INVENTÁRIO DE MAMÍFEROS NÃO VOADORES E PROBLEMAS OCASIONADOS POR CÃES FERAIS NA APA MORRO BRANCO, VARGEM ALTA, ES.
Descrição: A Mata Atlântica estende-se do Rio Grande do Norte até o Rio Grande do Sul pela faixa litorânea e é detentora de uma altíssima biodiversidade e de um valioso banco genético. É de suma importância que seja realizado estudos que estabeleçam a real situação de conservação ambiental das áreas de Mata Atlântica, assim como avaliar os impactos ocasionados por cães ferais em área de mata, podendo assim colaborar para o aumento do conhecimento da biologia das espécies integrantes destas áreas O principal objetivo do trabalho e conhecer os impactos causados por cães e inventariar os mamíferos existentes na APA Morro Branco, em Vargem Alta. Em um período de 10 meses de trabalho (de Fevereiro a dezembro de 2014), foram registrados neste trabalho, 15 espécies de mamíferos não voadores distribuídas em 05 ordens e 11 famílias..
Situação: Concluído; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (1) / Especialização: (1) / Doutorado: (1) .

Integrantes: Luan Gonçalves Bissa - Coordenador / Helimar Rabelo - Integrante / Gilson Silva Filho - Integrante.
Financiador(es): Fundação de Amparo à Pesquisa do Espírito Santo - Bolsa.
Número de produções C, T & A: 1

2011 - 2012
INVENTÁRIO DE MAMÍFEROS NÃO VOADORES DA RESERVA PARTICULAR DO PATRIMONIO NATURAL MATA DA SERRA, VARGEM ALTA, ES.
Descrição: A Mata Atlântica estende-se do Rio Grande do Norte até o Rio Grande do Sul na faixa litorânea, pode ser dividida em dois corpos: Floresta Litorânea e Floresta de Montanha, ambas com um grande número de endemismos, detentora de uma altíssima biodiversidade e de um valioso banco genético. O estabelecimento de Unidades de Conservação em áreas remanescentes deste bioma, tem se tornado uma das principais estratégias para a manutenção da biodiversidade. Além da criação dessas unidades, também é necessário que sejam realizados estudos que estabeleçam a real situação de conservação ambiental das mesmas, colaborando para o aumento do conhecimento da biologia das espécies integrantes destas áreas. O principal objetivo deste estudo foi inventariar os mamíferos existentes na RPPN Mata da Serra, em Vargem Alta. Em um período de 11 meses de campo (de setembro de 2012 a agosto de 2013), foram registrados neste trabalho, 107 animais divididos em 15 espécies de mamíferos não voadores distribuídas em 05 ordens e 11 famílias..
Situação: Concluído; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (2) .

Integrantes: Luan Gonçalves Bissa - Integrante / Déborah Sampaio de Almeida - Integrante / Mariana dos Santos Dillem - Integrante / Helimar Rabelo - Coordenador / Geraldino de Souza - Integrante.

Formação acadêmica/titulação

2015 - 2019 Graduação em Ciências Biológicas.
Universidade Federal do Espírito Santo, UFES, Brasil.
Título: Estudo Descritivo e Comparativo da Dieta de Bothrops jararaca (Wied, 1824) e Bothrops leucurus Wagler in Spix, 1824 (Serpentes, Viperidae) no Espírito Santo, Brasil.
Orientador: Renato Silveira Bérnils.

2012 - 2014 Ensino Médio (2º grau).
Escola Estadual Ensino Fundamental e Médio Maria Ortiz, EEEFMMO, Brasil.

Formação Complementar

2018 - 2018 Extensão universitária em Biologia reprodutiva de Squamata: serpentes, lagartos e anfisbenas. (Carga horária: 40h).
Instituto Butantan, IBU, Brasil.

Atuação Profissional

Universidade Federal do Espírito Santo, UFES, Brasil.

Vínculo institucional
2018 - 2019 Vínculo: Bolsista, Enquadramento Funcional: Monitor de Zoologia de Invertebrados I e II, Carga horária: 20
Outras informações Monitor de aulas práticas e suplementação teórica na disciplina de Zoologia de Invertebrados I e II do Programa Integrado de Bolsas para Graduação / Projetos Especiais de Apoio ao Ensino da Pró-Reitoria de Planejamento da Universidade Federal do Espírito Santo, sob orientação do Prof.º Dr.º Renato Silveira Bérnils.

Vínculo institucional
2017 - 2018 Vínculo: Bolsista, Enquadramento Funcional: Aluno de Iniciação Científica, Carga horária: 20

CONCRESOLO ENGENHARIA LTDA, CONCRESOLO, Brasil.

Vínculo institucional
2020 - Atual Vínculo: Biológo, Enquadramento Funcional: Auxiliar Técnico
Atividades
09/2020 - Atual Serviços técnicos especializados , CONCRESOLO ENGENHARIA LTDA.
Serviço realizado
Auxiliar Técnico do Diagnóstico da Herpetofauna da Rodovia ES-465/368, Trecho Domingos Martins - Melgaço. O diagnóstico será executado através de duas Campanhas de Campo (Período Seco e Chuvoso), com duração de cinco dias efetivos cada.

LVS CONSULTORIA E ENGENHARIA AMBIENTAL LTDA, LVS, Brasil.

Vínculo institucional
2020 - Atual Vínculo: Biológo, Enquadramento Funcional: Responsável Técnico
Atividades
08/2020 - Atual Serviços técnicos especializados , LVS CONSULTORIA E ENGENHARIA AMBIENTAL LTDA.
Serviço realizado
Responsável Técnico pelo Inventário da Herpetofauna como subsídio à elaboração do Estudo de Impacto Ambiental (EIA) e seu respectivo Relatório de Impacto Ambiental (RIMA) do Loteamento Industrial Dalton Carlos Heringer, Viana, Espírito Santo.

Atividades
06/2021 - Atual Serviços técnicos especializados , CONSORCIO PROJEMAX - PACS.
Serviço realizado
Diagnóstico da mastofauna das rodovias ES-010/429, trecho: Pontal do Ipiranga - entre ES-429 (Palmital - P/BR-101). Extensão aproximada de 34,1 km / ES-010, trecho entr. ES-429 - Barra Nova (entr. ES-315). ; Extensão aproximada de 10,3 km. / ES-245/248, trecho entr. ES-248 (Arco Rodoviário de Linhares) - Linhares. ; Extensão aproximada de 6,7 km. / ES-429, trecho entr. BR-101 (Palmito) - Palmital (P/Urussuquara). Extensão aproximada de 17,9 km. ; Monitoramento de fauna atropelada. Identificação de hotspot de atropelamento, análise de dados no software Siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna,.

Projetos de pesquisa

2019 - Atual Herpeto Capixaba - Estado da Arte da Herpetologia na Mata Atlântica: Desbravando da Diversidade às Adversidades
Descrição: O Espírito Santo abriga uma grande diversidade de anfíbios e répteis e, mesmo em áreas intensivamente amostradas, novas espécies são descobertas com frequência, algumas já com algum grau de ameaça. Aliado ao fato da existência de muitas lacunas no conhecimento da herpetofauna capixaba, e das adversidades a que está sujeita, devido as ações antrópicas, foi fundado em 2017, o projeto intitulado "Estado da Arte da Herpetologia no Espírito Santo: Desbravando da Diversidade às Adversidades: o Herpeto Capixaba". A atuação do projeto consiste em três pilares: O primeiro é a produção científica feita através de projetos de pesquisa científica e de conservação, em diversas áreas do Espírito Santo e outras regiões do Brasil. O segundo pilar é a formação de jovens pesquisadores a partir de orientações, tutorias, cursos e de eventos sobre a herpetofauna. O terceiro consiste na difusão científica, em que há a divulgação de conteúdo científico autoral para a comunidade em geral..
Situação: Em andamento; Natureza: Pesquisa.

Integrantes: Rafael Scherrer Mathielo - Integrante / Jéssica Mascarello Graciano - Integrante / Aline Pereira Mota - Integrante / Thiago Silva-Soares - Coordenador / Letícia Watanabe - Integrante / Iasmin Regina Boroto Vieira - Integrante / Lorenzo Demonier - Integrante / Bryan da Cunha Martins - Integrante / Diego Henrique Santiago - Integrante / Rafael Gonçalves - Integrante / Gabriel Falquetto - Integrante / Tomas Lima - Integrante / Amanda Del'Maestro - Integrante.

2019 - Atual Levantamento da Herpetofauna da Reserva Biológica Córrego do Veado em Pinheiros Norte do estado do Espírito Santo, Brasil
Descrição: Estudo de levantamento e caracterização da herpetofauna em um fragmento de Mata Atlântica da "Reserva Biológica Córrego do Veado" no município de Pinheiros Norte

do Estado do Espírito Santo, Brasil..
Situação: Em andamento; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (2) / Especialização: (1) / Doutorado: (1) .

Integrantes: Rafael Scherrer Mathielo - Integrante / Thiago Silva-Soares - Coordenador / Iasmin Regina Boroto Vieira - Integrante / Lorenzo Demonier - Integrante.

2017 - 2018 História Natural das Serpentes da região da foz do rio Doce, Espírito Santo, Brasil
Descrição: Estudo da história natural de uma assembleia de Serpentes com ocorrência na região da Foz do Rio Doce localizada no município de Linhares entre os povoados de Regência e Povoação no estado do Espírito Santo, Brasil..
Situação: Concluído; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (1) / Doutorado: (1) .

Integrantes: Rafael Scherrer Mathielo - Coordenador / Renato Silveira Bérnils - Integrante.

Resumo informado pelo autor

Possui graduação em Engenharia Ambiental pela Associação Educacional de Vitória (2008). Pós Graduada em Engenharia de Segurança do Tabalho pela Multivix (2016). Tem experiência na área de Engenharia Sanitária e de Segurança do Trabalho, com ênfase em Controle de Resíduos.
(Texto informado pelo autor)

Nome civil

Nome Roberta Cardoso Louzada Puppin

Dados pessoais

Nascimento 26/12/1983 - Vitória/ES - Brasil

CPF 104.626.497-41

Formação acadêmica/titulação

2016 Especialização em Engenharia de Segurança do Trabalho.
Faculdade Multivix, MULTIVIX, Brasil

2017 Especialização em Docência do Ensino Superior.
Faculdade Multivix, MULTIVIX, Brasil

2003 - 2008 Graduação em Engenharia Ambiental.
Associação Educacional de Vitória, AEV, Brasil
Título: Avaliação das eficiências de Estações de Tratamento de Águas captadas do Rio Santa Maria da Vitória , Ano de obtenção: 2008
Orientador: Maria Alice Moreno Marques

Formação complementar

2013 - 2013 Curso de curta duração em NR 05 - CIPA. (Carga horária: 20h).
Cipatec Assessoria Técnica Ltda, CIPATEC, Brasil

2013 - 2013 Curso de curta duração em Programa de Desenvolvimento de Dirigentes - PDD/PAEX. (Carga horária: 96h).
Fundação Dom Cabral (ES), FDC, Brasil

2011 - 2011 Curso de curta duração em Formação de Auditor Interno de Sistema de Gestão da Qualidade e Ambiental. (Carga horária: 24h).
ProActive Consultoria Ltda, PROACTIVE, Brasil

2010 - 2010 Curso de curta duração em Gestão, Legislação Ambiental Brasileira e Responsabilidade Judicial. (Carga horária: 24h).
Associação Brasileira de Engenharia Sanitaria e Ambiental (ES), ABES, Brasil

2009 - 2009 Curso de curta duração em Sistema de Gestão Integrado - SGI (ISO 9001, 14001 e 18001). (Carga horária: 24h).
Bureau Veritas Sociedade Classificadora e Certificadora, BV, Rio De Janeiro, Brasil

Atuação profissional

1. Ambipar Response Control Environmental Consulting - AMBIPAR

Vínculo institucional

2023 - Atual Vínculo: Celetista , Enquadramento funcional: Gerente Técnico , Carga horária: 40, Regime: Dedicação exclusiva
Outras informações:
Gerenciamento de projetos com orientação técnica, operacional e financeira de estudos e projetos ambientais e responsável pelo acompanhamento de processos de licenciamento ambiental, atendimento de condicionantes e gestão de trabalhos de campo.

2. Consultoria Ambiental - CONSULTORIA

Vínculo institucional

2017 - 2022 Vínculo: Autônoma , Enquadramento funcional: Consultora Ambiental, Regime: Parcial
Outras informações:
Atuação com consultoria ambiental nas atividades de licenciamento ambiental de empresas de óleo e gás e na área de engenharia de segurança do trabalho.

3. Vitória Ambiental Engenharia e Tecnologia S/A - VA

Vínculo institucional

2007 - 2017 Vínculo: Celetista , Enquadramento funcional: Coordenadora de Meio Ambiente , Carga horária: 44, Regime: Integral
Outras informações:
Responsável pelo Monitoramento Ambiental (Atividades de campo, análise de dados e elaboração de relatório); Elaboração de Relatório de Inventário de Resíduos; Gerenciamento de Resíduos Industriais (Coleta, Transporte e Destinação Final, incluindo rastreabilidade de documentos e atendimento de requisitos legais pertinentes à este processo); Equipe técnica para atividades de exploração e produção de petróleo onshore (Atividades de campo, análise de dados e elaboração de relatório); Implantação de PGRS; Elaboração de projetos ambientais (RCA, PCA, RIU, PAE etc.); Participação em projetos de Segurança do Trabalho (PGR's.). Licenciamento Ambiental (Requerimento de Licenças Ambientais, Controle de Taxas, Elaboração de Relatórios, Publicação, Aquisição de Dados – elaboração de mapas e projetos, Interface junto ao órgão ambiental); Monitoramento e atendimento de condicionantes ambientais e de Segurança do Trabalho; Manutenção e implantação de Sistema Integrado de Gestão (ISO 9001 e ISO 14001); e demais atividades pertinentes à empresa e clientes, tais como: controle de documentação necessária para atendimento aos requisitos legais (ex.: Alvará, certificados ambientais – CTF/IBAMA, ANVISA, ANTT, ANP, CREA, etc.); e gerenciamento e controle de treinamentos de QSMS.

4. Magnum Tires - MT

Vínculo institucional

2007 - 2007 Vínculo: Celetista , Enquadramento funcional: Assistente de Meio Ambiente , Carga horária: 44, Regime: Integral
Outras informações:
Responsável pelo Gerenciamento Ambiental da empresa, englobando aspectos e passivos ambientais decorrentes do processo produtivo da indústria (resíduos sólidos, tratamento de efluentes, abastecimento de água, processos decorrentes da legislação em vigor).

5. Centro de Tecnologia em Aqüicultura e Meio Ambiente - CTA

Vínculo institucional

2005 - 2007 Vínculo: Celetista , Enquadramento funcional: Estagiária , Carga horária: 44, Regime: Integral
Outras informações:
Pesquisa Técnica, Monitoramento Ambiental, Relatórios Técnicos Ambientais (RCA's), Tratamento de Dados e Treinamentos de Educação Ambiental.

6. GRI – Gerenciamento de Resíduos Industriais - GRI

Vínculo institucional

2005 - 2006 Vínculo: Celetista , Enquadramento funcional: Auxiliar Administrativa , Carga horária: 44, Regime: Integral
Outras informações:
Gestão de resíduos industriais (controle administrativo e operacional da coleta, armazenamento e disposição final de resíduos industriais) na unidade da Vale/ES.

7. Secretaria Municipal de Meio Ambiente de Cariacica - SEMMA

Vínculo institucional

2004 - 2004 Vínculo: Servidor público , Enquadramento funcional: Estagiária , Carga horária: 44, Regime: Integral
Outras informações:
Estagiária - Fiscalização e Educação Ambiental

Última atualização do currículo em 11/01/2023

Possui graduação em Ciências Biológicas pelo Centro Universitário São Camilo - Campus Espírito Santo (2005), onde se especializou em estudos com herpetofauna, principalmente répteis. Em 2016 publicou o livro "Répteis da Restinga do Parque Estadual Paulo Cesar Vinha, Guarapari, Espírito Santo, Brasil", com dados coletados durante a graduação. Atualmente é biólogo autônomo e realiza pesquisas em colaboração com pesquisadores vinculados à diversas instituições como a Universidade do Estado do Rio de Janeiro, Universidade Federal do Espírito Santo - CEUNES, Museu Nacional do Rio de Janeiro e Museu de História Natural de Nova Iorque. Meu maior interesse científico se encontra relacionado à taxonomia de répteis, biogeografia e inventários no geral. **(Texto informado pelo autor)**

Formação acadêmica/titulação

2001 - 2005 Graduação em Habilitação em Ciências Biológicas.
Centro Universitário São Camilo - Campus Espírito Santo, SAO CAMILO, Brasil.
Título: Levantamento herpetofaunístico (serpentes) do Parque Estadual Paulo César Vinha.
Orientador: Helimar Rabello.

Formação Complementar

2005 - 2005 Extensão universitária em Serpentes. (Carga horária: 32h).
Instituto Butantan, IBU, Brasil.

2005 - 2005 ? Sistemática de quelônios. (Carga horária: 20h).
Pontifícia Universidade Católica de Minas Gerais, PUC Minas, Brasil.

2004 - 2004 ? Métodos Para o Estudo da Biologia Alimentar e Reprodutiva de Serpentes. (Carga horária: 20h).
Pontifícia Universidade Católica do Paraná, PUC/PR, Brasil.

2002 - 2002 ? Capacitação Técnica e Educação Ambiental Para At. (Carga horária: 40h).
Universidade Federal do Espírito Santo, UFES, Brasil.

Atuação Profissional

Universidade do Estado do Rio de Janeiro, UERJ, Brasil.

Vínculo institucional
2016 - Atual Vínculo: , Enquadramento Funcional:

Centro Universitário São Camilo, CUSC, Brasil.

Vínculo institucional
2004 - 2007 Vínculo: Professor contratado, Enquadramento Funcional: Professor convidado, Carga horária: 40
Outras informações Biólogo (Professor Convidado) - Curso de Biologia de Répteis Biólogo (Professor Convidado) - Curso de Montagem de Esqueletos Biólogo (Professor Contratado) - Curso

Teórico e Prático de Herpetologia Biólogo (Professor Convidado) ? Curso de ?Emergências em acidentes com animais peçonhentos?

Atividades

03/2004 - Atual
Estágios , Departamento de Zoologia.
Estágio realizado
Estagiário Responsável Pelo Levantamento da Herpetofauna ? I Expedição Científica do Rio Itapemirim/ TV Gazeta.

09/2009 - 09/2009
Ensino, Ciências Biológicas, Nível: Graduação
Disciplinas ministradas
Curso Teórico e Prático de Herpetologia

05/2007 - 05/2007
Ensino, Ciências Biológicas, Nível: Graduação
Disciplinas ministradas
Curso de ?Emergências em acidentes com animais peçonhentos?

08/2006 - 08/2006
Ensino, Ciências Biológicas, Nível: Graduação
Disciplinas ministradas
Curso Teórico e Prático de Herpetologia

09/2005 - 09/2005
Ensino, Ciências Biológicas, Nível: Graduação
Disciplinas ministradas
Curso de Montagem de Esqueletos

03/2005 - 07/2005
Estágios , Departamento de Zoologia.
Estágio realizado
Estagiário do Programa de Monitoria e Bolsista da Disciplina de Zoologia dos Vertebrados.

09/2004 - 09/2004
Ensino, Ciências Biológicas, Nível: Graduação
Disciplinas ministradas
Curso de Biologia de Répteis

03/2004 - 07/2004
Estágios , Departamento de Zoologia.
Estágio realizado
Estagiário do Programa de Monitoria da Disciplina de Zoologia dos Vertebrados.

BIOMA Etudos ambientais, BIOMA, Brasil.

Vínculo institucional

2006 - Atual
Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

01/2022 - Atual
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Diagnóstico da herpetofauna para compor o relatório de controle ambiental (RCA) na área de influência da central geradora hidrelétrica (CGH) Rio Novo I, a ser implantada no município de Rio Novo do Sul, ES.

01/2022 - Atual
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Diagnóstico da herpetofauna para compor o relatório de controle ambiental (RCA) na área de influência da central geradora hidrelétrica (CGH) Rio Novo II, a ser implantada no município de Rio Novo do Sul, ES.

11/2021 - Atual
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Execução do programa de resgate da herpetofauna durante a fase de supressão vegetal e fase de enchimento do reservatório na área de influência da central geradora hidrelétrica (CGH) Cachoeira Paraíso, no município de João Neiva.

06/2018 - Atual
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Execução de duas campanhas do programa de monitoramento da herpetofauna na área de influencia da central geradora hidroelétrica (CGH) Santa Luzia, no município de Rio Novo do Sul, ES.

06/2018 - Atual
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Execução do programa de resgate da fauna silvestre na área de influencia da central geradora hidroelétrica (CGH) Santa Luzia, no município de Rio Novo do Sul, ES.

05/2016 - 05/2018
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Execução de atividade de afugentamento de fauna terrestre em uma área de 48 hectares no município de Pinheiros (ES), onde será instalada a unidade Fabril da empresa Placas do Brasil.

06/2014 - 06/2015
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
EIA/RIMA - Coordenação do diagnóstico de fauna da rodovia ES-080 e execução do diagnóstico da herpetofauna ao longo da rodovia ES-080, Santa Teresa e Santa Leopoldina / ES.

10/2010 - 06/2015
Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Monitoramento da herpetofauna na área de influência do gasoduto Cacimbas-Catu, o programa será desenvolvido ao longo do traçadao do referido gasoduto, desde o município de Linhares-ES à Pojuca-BA..

08/2010 - 08/2010 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Estudo da comunidade de répteis na Área de Proteção Ambiental (APA) Pedra do Elefante. (Herpetofauna-Répteis).

08/2010 - 08/2010 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Resgate de fauna durante a fase de enchimento da PCG Santa Fé, Alegre, ES.

08/2010 - 08/2010 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Resgate de fauna no terminal aquaviário de Barra do Riacho.

12/2009 - 12/2009 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
EIA/RIMA ? Estudo da comunidade dos répteis para a Implantação da CGH Santa Luzia.

11/2007 - 04/2009 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Resgate de Fauna na Área de Implantação da PCH Santa Fé.

07/2007 - 07/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Estudo da comunidade de répteis para o licenciamento do Aterro Sanitário da Serra.

04/2007 - 04/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Diagnóstico Ambiental do Traçado da Linha de Transmissão de Mascarenhas ? Colatina / Colatina(herpetofauna-répteis).

04/2007 - 04/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Plano de Manejo do Morro do Penedo / Vila Velha (Herpetofauna - répteis).

04/2007 - 04/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Resgate de fauna em área de aterro. Rydien Mineração. Vila Velha (ES).

04/2007 - 04/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Diagnóstico Ambiental na Orla de Jacaraípe, localidade de Solemar (Herpetofauna-répteis).

10/2006 - 02/2007 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Coordenação de campo e atuação durante o Resgate de fauna na PCH de São João, Castelo/ES.

08/2006 - 08/2006 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Plano de Manejo da APA de Guanabara ? Anchieta - ES (herpetofauna-répteis).

05/2006 - 05/2006 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
Plano de Manejo Parque Natural Municipal Morro da Manteigueira, Vila Velha (ES) - Herpetofauna.

03/2006 - 03/2006 Serviços técnicos especializados , BIOMA Estudos Ambientais.
Serviço realizado
EIA/RIMA da MONTASA (Montanha Álcool e Açucar) S.A- Montanha / ES.

AB-3 Auditores e Consultores LTDA, AB-3, Brasil.

Vínculo institucional

2009 - 2009 Vínculo: Celetista, Enquadramento Funcional: Coordenador de campo em resgate de Fauna, Carga horária: 44

Bourscheid, Brasil.

Vínculo institucional

2006 - 2010 Vínculo: Celetista, Enquadramento Funcional: Biólogo, Carga horária: 44

Atividades

11/2011 - 09/2014 Serviços técnicos especializados , Bourscheid - RS - Brasil.
Serviço realizado
Elaboração de plano de resgate de répteis.; Estudo da comunidade de répteis para compor o EIA/RIMA do terminal de GNL Barra do Riacho.

07/2011 - 07/2011 Serviços técnicos especializados , Bourscheid - RS - Brasil.
Serviço realizado
EIA / RIMA ? Estudo da comunidade de répteis para o licenciamento do Terminal de GNL Barra do Riacho, Petrobras.

04/2008 - 03/2010 Serviços técnicos especializados , Bourscheid - RS - Brasil.
Serviço realizado
Monitoramento de Fauna, Gasoduto Cacimbas Catu (GASCAC), ES e BA - Petrobras.

06/2007 - 06/2007 Serviços técnicos especializados , Bourscheid - RS - Brasil.
Serviço realizado
Análise crítica das publicações relacionadas com a Unidade de Negócio (U N), RLAM -

Salvador/BA. **01/2007 - 01/2007**
Serviços técnicos especializados , Bourscheid - RS - Brasil.
Serviço realizado **08/2006 - 01/2007**
EIA / RIMA ? Estudo da herpetofauna para licenciamento do Gasoduto Flexivel da Bahia de Guanabara - RJ / Petrobras.
Serviços técnicos especializados , Filial Vitória.
Serviço realizado
Responsável pelo Programa de Prevenção de Acidentes com Animais Peçonhentos (Gasoduto GASCAV / Petrobras).

Centro de Tecnologia em Aqüicultura e Meio Ambiente, CTA, Brasil.

Vínculo institucional

2010 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

11/2014 - Atual Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Acompanhamento da supressão vegetal e execução das atividades de resgate de fauna terrestre e monitoramento da fauna resgatada (herpetofauna terrestre), durante as obras de implantação do Itaoca Terminal Marítimo - Itapemirim, ES.

12/2015 - 04/2018 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Execução do diagnóstico da herpetofauna para compor o RCA do contorno ferroviário de Itaúna. Avaliação de impactos e medidas mitigadoras. Elaboração de programas ambientais.

12/2015 - 04/2018 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Elaboração do programa de avaliação de impacto e monitoramento de fauna terrestre, referente a apresentação e execução de programa de avaliação de impacto e monitoramento de fauna terrestre, concedida a mineradora Samarco.

11/2015 - 04/2018 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Execução do programa de monitoramento do ouriço-preto (Chaetomys subspinosus), através de rádio-telemetria, para verificação de sucesso de translocação de indivíduos provenientes do resgate de fauna do Terminal Industrial IMETAME-ES/Aracruz-ES.

06/2015 - 04/2018 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Estudo da herpetofauna nas áreas de influencia da pequena central hidrelétrica (PCH) Cachoeira do Inferno, no município de São Mateus/ES.

11/2014 - 04/2018 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Execução do programa de monitoramento da herpetofauna na área de influência do Terminal Industrial IMETAME/Aracruz-ES.

10/2015 - 01/2016 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Execução do programa de monitoramento da fauna translocada da área se instalação do Terminal Industrial IMETAME/Aracruz-ES.

06/2014 - 07/2015 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Execução do programa de monitoramento da herpetofauna no Porto Sudeste, Itaguaí/RJ.

11/2013 - 06/2015 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
EIA/RIMA - Estudo da herpetofauna na área de influência da usina alcooleira bioenergética Boa Esperança e da usina termoelétrica, Boa Esperança / ES.

03/2011 - 01/2015 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Monitoramento da herpetofauna na área do Estaleiro JURONG Aracruz.

10/2011 - 09/2014 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Coordenação técnica do programa de resgate de fauna durante as obras de instalação do estaleiro Jurong de Aracruz (EJA) ? Aracruz /ES. Elaboração de relatórios parciais e final. Monitoramento mensal dos animais translocados para área de soltura durante o.

06/2011 - 09/2014 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Inventário da herpetofauna como subisídio ao processo de licenciamento ambiental (EIA/RIMA) da usina termelétrica sudeste 1, Guarapari - ES, / avaliação de impactos ambientais e proposição de medidas mitigadoras e compensatórias..

07/2010 - 08/2010 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
Complementação do Plano de Manejo da APP de Mata Paludosa na Área do Aeroporto.

07/2010 - 08/2010 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
EIA/RIMA - Caracterização da herpetofauna na área de influência da PCH São Luiz do Guandu (14 mw), Municipio de Laranja da Terrea/ES.

07/2009 - 08/2009 Serviços técnicos especializados , CTA - SERVIÇOS EM MEIO AMBIENTE E ENGENHARIA LTDA.
Serviço realizado
EIA/RIMA ? Estudo da comunidade da herpetofauna para licenciamento do Estaleiro JURONG de Aracruz (EJA).

Control Ambiental Engenharia e Planejamento, CONTROL AMBIENTA, Brasil.

Vínculo institucional

2011 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

04/2019 - Atual Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico do grupo herpetofauna dos serviços de monitoramento da fauna terrestre e do subprograma de monitoramento de Liolaemus lutzae e Leposternon scutigerum do projeto gasoduto rota 3.

04/2019 - 11/2020 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Execução do meio biótico (herpetofauna) da elaboração de relatório ambiental simplificado (RAS) do projeto ventos ? parte Jandaíra I e II, RN.

11/2019 - 07/2020 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pelo monitoramento da herpetofauna referente ao programa de monitoramento de fauna das obras do terminal de GNL de Gás Natural Açu (GNA) e UTE Novo Tempo GNA II, no Porto do Açu, São João da Barra, RJ.

12/2018 - 07/2020 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pelo monitoramento da herpetofauna referente ao programa de monitoramento de fauna das obras da UTE Novo Tempo GNA II, Gás Natural Açu (GNA), no Porto do Açu, São João da Barra, RJ.

06/2018 - 07/2020 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pela execução do monitoramento de fauna terrestre apresentado no plano de manejo de conservação de fauna da espécie Ameivula littoralis para a RPPN Caruara, no município de São João da Barra/RJ. (aditivo 2).

08/2017 - 07/2020 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pelo grupo de herpetofauna na execução do programa de monitoramento de fauna na linha de transmissão-230KV Serra da Babilônia ? Morro do Chapéu II ? BA.

06/2017 - 04/2018 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pela execução do monitoramento apresentado no plano de manejo de conservação de fauna para a espécie Ameivula littoralis para a RPPN Caruara, Porto do Açu, RJ.

04/2017 - 04/2018 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável técnico pela caracterização da herpetofauna para o estudo complementar para licenciamento da instalação do projeto de desenvolvimento da produção da fase II do campo de Gavião Caboclo ? GVC fase II.

12/2014 - 04/2018 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Responsável pelo monitoramento de fauna (herpetofauna) terrestre no município de São João da Barra, RJ, para empreendimentos vinculados ao Porto do Açu.

09/2011 - 08/2017 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Monitoramento da herpetofauna, Pátio Logístico e Operações Portuárias (LLX), Porto do Açu ? São João da Barra/RJ.

11/2016 - 06/2017 Serviços técnicos especializados , Control Ambiental Engenharia e Planejamento - ES.
Serviço realizado
Monitoramento de fauna (herpetofauna) para EIA e RIMA (eia/rima) de licenciamento ambiental de oleoduto, localizado entre a fazenda São Rafael e a estação Fazendo Alegre para a Petróleo Brasileiro s. a. ? Petrobras.

Criadouro Moriá, CM, Brasil.

Vínculo institucional
2006 - 2006 Vínculo: Rsponsável técnico, Enquadramento Funcional: Biólogo, Carga horária: 40, Regime: Dedicação exclusiva.

Atividades
01/2006 - 06/2006 Serviços técnicos especializados , Criadouro Moriá.
Serviço realizado
Manejo Reprodutivo e Alimentar de Répteis, Aves e Mamíferos.
10/2005 - 10/2005 Ensino,
Disciplinas ministradas
Trabalho de Educação Ambiental

PSG do Brasil, PSG, Brasil.

Serviço realizado
Plano de Manejo do Parque Municipal do Mestre Álvaro.

09/2008 - 01/2009 Serviços técnicos especializados , ENVIRONLINK/ JRUANO CONSULTORIA E SERV.
Serviço realizado
Plano de Manejo do Parque Municipal de Aricanga ? Aracruz / ES.

07/2008 - 07/2008 Serviços técnicos especializados , ENVIRONLINK/ JRUANO CONSULTORIA E SERV.
Serviço realizado
Plano de Manejo do Parque Municipal de Jacarenema.

VILA VELHA TERMOELÉTRICAS LTDA, IEMA, Brasil.

Vínculo institucional

2010 - 2015 Vínculo: Celetista, Enquadramento Funcional: Consultor

Outras informações Biólogo (Consultor)

Atividades

11/2010 - 06/2015 Serviços técnicos especializados , VILA VELHA TERMOELÉTRICAS LTDA.
Serviço realizado
Coordenador do estudo de impacto ambiental (EIA) do complexo termoelétrico Vila Velha (meio biótico): peixes, anfíbios, répteis, aves, mamíferos e flora.

11/2010 - 06/2015 Serviços técnicos especializados , VILA VELHA TERMOELÉTRICAS LTDA.
Serviço realizado
Inventário e diagnóstico da herpetofauna para compor o EIA da Vila Velha Termoeletricas elaboração de relatório avaliação de impactos ambientais sobre a fauna terrestre participação em reuniões.

11/2010 - 09/2014 Serviços técnicos especializados , VILA VELHA TERMOELÉTRICAS LTDA.
Serviço realizado
Inventário e diagnóstico da mastofauna para compor o EIA da Vila Velha Termoeletricas elaboração de relatório avaliação de impactos ambientais sobre a fauna terrestre participação em reuniões.

TXAI PRODUÇÕES DE VÍDEO SERV. EDUC. AMB. LTDA, SBT, Brasil.

Vínculo institucional

2010 - 2014 Vínculo: Técnico, Enquadramento Funcional: Responsável técnico

Atividades

08/2010 - 09/2014 Serviços técnicos especializados , TXAI Produções.
Serviço realizado
Responsabilidade técnica e acompanhamento integral durante as filmagens do programa aventura selvagem, SBT, apresentado pelo biólogo Richard Rasmussen.

ÚNICA CONSULTORES DE ENGENHARIA URBANA, ÚNICA, Brasil.

Vínculo institucional

2011 - 2014 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

03/2011 - 09/2014 Serviços técnicos especializados , ÚNICA CONSULTORES DE ENGENHARIA URBANA - ES - Brasil.
Serviço realizado
Herpetofauna / EIA/RIMA - Estudo da herpetofauna e mastofauna ao longo da ES-315, trecho São Mateus a Boa Esperança / ES ? São Mateus / ES.

Lenc Laboratório de Engenharia e Consultoria, LENC, Brasil.

Vínculo institucional

2011 - 2015 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2012 - 06/2015 Serviços técnicos especializados , LENC ? LABORATÓRIO DE ENGENHARIA E CONSULTORIA.
Serviço realizado
Estudo da herpetofauna (répteis) para elaboração do EIA/RIMA do projeto de reinjeção de água na estação Lagoa Parda ? Linhares e Aracruz/ ES.

09/2011 - 06/2015 Serviços técnicos especializados , LENC ? LABORATÓRIO DE ENGENHARIA E CONSULTORIA.
Serviço realizado
Levantamento complementar da comunidade de répteis para subsidiar a elaboração dos programas de monitoramento de fauna, flora e limnologia da região do Farol de São Tomé ? Campos dos Goytacazes / RJ.

09/2011 - 06/2015 Serviços técnicos especializados , LENC ? LABORATÓRIO DE ENGENHARIA E CONSULTORIA.
Serviço realizado
Caracterização da comunidade de Répteis na área de influência da estação de tratamento de óleo norte capixaba (ETI-NC), para elaboração de EIA/RIMA.

06/2011 - 09/2014 Serviços técnicos especializados , LENC ? LABORATÓRIO DE ENGENHARIA E CONSULTORIA.

Serviço realizado
Caracterização das comunidades de anfíbios e répteis na área de proteção ambiental (APA) de Conceição da Barra-ES.

Samarco Mineração - Matriz, SAMARCO, Brasil.

Vínculo institucional
2011 - 2011 Vínculo: Biólogo, Enquadramento Funcional: Consultor
Outras informações Elaboração de inventário da herpetofauna para o Plano de Manejo da área de Proteção Ambiental em Muniz Freire.

VITAL CONSULTORIA AMBIENTAL E SERVIÇOS LTDA, VITAL, Brasil.

Vínculo institucional
2012 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
11/2012 - 05/2018 Serviços técnicos especializados , Vital Consultoria Ambiental e Serviços.
Serviço realizado
Condução e salvamento de fauna na área do projeto de áreas verdes - paisagismo do terminal aquaviário de Barra do Riacho (TABR), município de Aracruz - ES.

LLX Sudeste Operações Portuárias, LLX SOP, Brasil.

Vínculo institucional
2013 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
09/2013 - 04/2018 Serviços técnicos especializados , LLX Açu.
Serviço realizado
Herpetofauna / Elaboração de plano - Elaboração do plano de manejo da espécie Ameivula littoralis para região da RPPN Fazenda Caruara, Porto do Açu, São João da Barra / RJ.

HABITATIL CONSULTORIA LTDA, HABITATIL, Brasil.

Vínculo institucional
2012 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
08/2017 - 02/2018 Serviços técnicos especializados , HABITATIL CONSULTORIA LTDA.
Serviço realizado
Monitoramento e Telemetria - Monitoramento de uma população de Caiman latirostris em área particular através de telemetria sem bases fixas. Captura e recaptura para coleta de dados biométricos e instalação de transmissores de telemetria. Linhares / ES.
05/2015 - 05/2015 Serviços técnicos especializados , HABITATIL CONSULTORIA LTDA.
Serviço realizado
Curso Teórico e Prático de Herpetologia ? Vargem Alta / ES.
06/2012 - 09/2014 Serviços técnicos especializados , HABITATIL CONSULTORIA LTDA.
Serviço realizado
Levantamento da herpetofauna (anfíbios e répteis) na área da RPPN Mata da Serra, para composição do plano de manejo.

Faculdade de Tecnologia FAESA, CET-FAESA, Brasil.

Vínculo institucional
2013 - 2013 Vínculo: Biólogo, Enquadramento Funcional: Professor Convidado
Outras informações Mini-curso (Serpentes - Origem e Evolução, Anatomia, História Natural e Diversidade) durante o I simpósio de ecossistemas do ES

AQUA-AMBIENTAL ? AQUICULTURA, OCEANOGRAFIA E MEIO AMBIENTE LTDA, AQUA-AMBIENTAL, Brasil.

Vínculo institucional
2013 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
03/2022 - Atual Serviços técnicos especializados , AQUA-AMBIENTAL ? AQUICULTURA, OCEANOGRAFIA E MEIO AMBIENTE LTDA.
Serviço realizado
Elaboração de plano de trabalho para solicitação de AMFs.; Coordenação do programa de resgate de fauna silvestre, na etapa de instalação do empreendimento de silvicultura de eucalipto, bloco VI ? FRISA (Fazendas São Joaquim da Água Preta e Dourada Una). ; Coordenação técnica, elaboração de relatórios e tombamento de material zoológico.
10/2020 - Atual Serviços técnicos especializados , AQUA AMBIENTAL LTDA - EPP.
Serviço realizado
Coordenação geral do estudo do meio biótico, Pinheiros, ES.; Diagnóstico da herpetofauna, para compor EIA/RIMA da fazenda São Lucas para expansão de plantio de eucalipto, Pinheiros, ES. ; Coleta de dados primários através de duas campanhas de campo (período

seco e chuvoso), preparação e destinação de material zoológico, Pinheiros, ES.; Elaboração de relatório técnico, Pinheiros, ES.
10/2020 - Atual
Serviços técnicos especializados , AQUA AMBIENTAL LTDA - EPP.
Serviço realizado
11/2016 - 04/2018
Coordenação geral do estudo do meio biótico, Pinheiros, ES.; Diagnóstico da herpetofauna, para compor EIA/RIMA da fazenda Paulista/Quimetal para expansão de plantio de eucalipto, Pinheiros, ES. ; Coleta de dados primários através de duas campanhas de campo (período seco e chuvoso), preparação e destinação de material zoológico, Pinheiros, ES.; Elaboração de relatório técnico, Pinheiros, ES.
Serviços técnicos especializados , AQUA-AMBIENTAL ? AQUICULTURA, OCEANOGRAFIA E MEIO AMBIENTE LTDA.
Serviço realizado
03/2016 - 04/2018
Coordenação e execução do programa de resgate e afugentamento de fauna silvestre durante a implantação do projeto de silvicultura Bloco II, Suzano Celulose, Montanha-ES.
Serviços técnicos especializados , AQUA-AMBIENTAL ? AQUICULTURA, OCEANOGRAFIA E MEIO AMBIENTE LTDA.
Serviço realizado
09/2013 - 04/2018
Coordenador e executor do afugentamento e resgate da fauna silvestre durante as atividades de supressão da vegetação na área de implantação do empreendimento Terminal Industrial IMETAME. Aracruz-ES.
Serviços técnicos especializados , AQUA-AMBIENTAL ? AQUICULTURA, OCEANOGRAFIA E MEIO AMBIENTE LTDA.
Serviço realizado
EIA/RIMA - Inventário da herpetofauna em propriedades rurais, para licenciamento nas áreas denominadas ?bloco 2? e ?bloco 3 da Suzano, Montanha/ES.

ACQUATOOL S/S LTDA, ACQUATOOL, Brasil.

Vínculo institucional

2013 - 2020 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2013 - 06/2020
Serviços técnicos especializados , ACQUATOOL S/S LTDA - ES - Brasil.
Serviço realizado
Plano de manejo - Inventário da herpetofauna para composição do plano de manejo do Parque Natural Municipal de Bicanga, Serra/ES.

DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO, DER, Brasil.

Vínculo institucional

2013 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

08/2022 - Atual
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Elaboração do plano de trabalho, coordenação geral do estudo, diagnóstico da herpetofauna, rodovia ES-448.; Monitoramento de fauna atropelada na área da pavimentação da rodovia ES-448, trecho de São Roque do Canaã ? Itaçu, município de São Roque do Canaã/ES identificação de hotspot de atropelamento. ; Analise de dados no software SIRIEMA, sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

08/2022 - Atual
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Elaboração do plano de trabalho e coordenação do programa de resgate de fauna silvestre na área da pavimentação da rodovia ES-448, trecho de São Roque do Canaã ? Itaçu, município de São Roque do Canaã/ES. ; Elaboração de relatórios, coordenação de equipe e tombamento de material zoológico.

06/2022 - Atual
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Elaboração de plano de trabalho e coordenação do programa de resgate de fauna silvestre durante a obra de pavimentação da rodovia ES-164, trecho Fazenda Unicafé ? interseção com a BR-259. ; Elaboração de relatório, coordenação de equipe e tombamento de material zoológico.

02/2022 - Atual
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Elaboração do plano de trabalho do programa de monitoramento de eficiência das passagens de fauna silvestre da rodovia ES-230, trecho: Vila Valério ? Fátima.

01/2022 - Atual
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Coordenação geral do estudo, monitoramento de fauna atropelada da rodovia ES-368,

Trecho Melgaço ? entr. Es-264 (Potratz) e programa de conservação da espécie de quelônio ameaçado de extinção: Hydromedusa maximiliani (cágado-da-serra). **01/2022 - Atual**
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **11/2021 - Atual**
Coordenação do programa de resgate de fauna silvestre durante a obra de implantação e pavimentação da rodovia ES-320, trecho: Santa Luzia de Mantenópolis a Barra de São Francisco; Elaboração de relatórios, tombamento de material zoológico, coordenação de equipe e responsabilidade técnica.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **11/2021 - Atual**
Coordenação do programa de resgate de fauna silvestre durante as obras de implantação e pavimentação da rodovia ES-248, trecho entr. ES-358 (p/ Pontal do Ipiranga) ? Vila de Povoação. ; Coordenação de equipe, elaboração de relatórios técnicos e tombamento de material zoológico.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **09/2021 - Atual**
Coordenação geral do estudo e execução do programa de monitoramento de eficiência das passagens de fauna silvestre da rodovia ES-230, trecho: Vila Valério ? Fátima. ; Elaboração de relatórios e coleta de dados de campo.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **09/2021 - Atual**
Coordenação do programa de resgate de fauna silvestre durante a obra de implantação e pavimentação da rodovia ES-368, trecho Melgaço ? entr. ES-264 (Potratz). ; Elaboração de relatórios, coordenação de equipe, tombamento de material zoológico e responsabilidade técnica.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **07/2021 - Atual**
Coordenação do programa de resgate de fauna silvestre durante a obra de implantação e pavimentação da rodovia ES-320, trecho: São José de Mantenópolis a Santa Luzia de Mantenópolis.; Elaboração de relatórios, coordenação de equipe, tombamento de material zoológico e responsabilidade técnica.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **07/2021 - Atual**
Coordenação geral do estudo e diagnóstico da herpetofauna da rodovia ES-230, trecho: Vila Valério ? Fátima; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **07/2021 - 12/2022**
Coordenação do programa de resgate de fauna silvestre durante as obras de implantação e pavimentação da rodovia ES-230, trecho: Vila Valério ? Fátima.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **03/2020 - 09/2022**
Coordenação do programa de resgate de fauna silvestre durante a obra de pavimentação da rodovia ES-060 ? Vila do Riacho x Regência; Coordenação geral, elaboração de relatórios técnicos e destinação de material zoológico.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **06/2021 - 11/2021**
Coordenação de resgate de fauna silvestre durante as obras de reabilitação e melhorias operacionais na Rodovia ES-341, trecho Ângelo Franchiani x Pancas. ; Coordenação de equipe, elaboração de relatórios, triagem de material zoológico e reuniões com órgão ambiental.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

Serviço realizado **03/2021 - 10/2021**
Coordenação geral do estudo e diagnóstico da herpetofauna da rodovia es-248, trecho entr. Es-358 (p/ Pontal do Ipiranga) ? Vila de Povoação. ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento; Analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.

11/2013 - 09/2014

Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna da rodovia ES-010, trecho: Vila do Riacho ? Regência, para compor estudo ambiental. ; Monitoramento da fauna atropelada ao longo da rodovia ES-010, trecho: Vila do Riacho ? Regência. ; Identificação de hotspot de atropelamento e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.
Serviços técnicos especializados , DEPARTAMENTO DE ESTRADAS DE RODAGEM DO ESTADO DO ESPÍRITO SANTO.
Serviço realizado
Coordenação e execução do resgate de fauna do projeto final de engenharia do corredor urbano de Jacaraípe, Rodovia ES-010, trecho: Av. Minas Gerais ? Nova Almeida / Serra ? ES.

CENTRO DE ATIVIDADES SOCIOAMBIENTAIS S/S LTDA, CASA AMBIENTAL, Brasil.

Vínculo institucional

2013 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

05/2013 - 04/2018 Serviços técnicos especializados , Centro de Atividades Socioambientais.
Serviço realizado
Monitoramento / Execução de duas campanhas do programa de monitoramento das populações de Arcovomer passarellii na área de influência do Terminal Aquaviário de Barra do Riacho (TABR), Aracruz-ES.

ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA, ECONSERVATION, Brasil.

Vínculo institucional

2014 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

11/2022 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Coordenação de campo do programa de afugentamento e resgate de fauna silvestre durante a supressão vegetal na planta de produção de aglomerante (silicato de sódio) na unidade da Vale em Tubarão (ES).

08/2022 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Coordenação e execução do programa de resgate de fauna silvestre terrestre (anfíbios, répteis, aves e mamíferos) na área de influência do Porto Central, em Presidente Kennedy/ES. ; Elaboração de relatórios técnicos, coordenação de equipe, triagem e tombamento de material zoológico.

05/2022 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Responsável técnico pela execução do diagnóstico da herpetofauna lagunar na área da Arcelormittal Tubarão localizado no município de Vitória/ES. Coleta de dados de campo e elaboração de relatório.

02/2021 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Responsável técnico na execução do programa de monitoramento da fauna terrestre (herpetologia) em atendimento às licenças de operação da UTE GNA I e do TGNL além de elaboração de procedimentos de monitoramento de fauna na RPPN Caruara.

11/2020 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Coordenador e responsável técnico do diagnóstico da herpetofauna para elaboração do EIA/RIMA do ramal ferroviário Anchieta/ES.

04/2020 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Monitoramento de fauna silvestre atropelada em um raio de até 5 km do entorno do porto central, Presidente Kennedy-ES. Elaboração de relatório técnico.

03/2020 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Responsável técnico pelo estudo da herpetofauna (coleta de dados primários e elaboração de relatorio). ; Busca de três espécies de anfíbios endêmicos (Scinax crospedospilos, Aparasphenodon brunoi e Trachycephalus nigromaculatus), e do lagarto ameaçado (Liolaemus lutzae).

12/2019 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.

Serviço realizado
Levantamento da herpetofauna e elaboração do relatório técnico do EIA/RIMA da usina termelétrica sudeste (UTE Sudeste), no município de Presidente Kennedy - ES.

08/2019 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Execução do monitoramento da herpetofauna referente ao empreendimento aterro sanitário Tamoios, Cabo Frio-RJ.

09/2016 - Atual Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Estudos de fauna terrestre (herpetofauna) em duas áreas do ES (Itapemirim e Presidente Kennedy), para avaliar a capacidade de suporte das áreas para receber a fauna resgatada no empreendimento do Porto Central a ser implantado em Presidente Kennedy.

10/2021 - 11/2021 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Responsável técnico pela execução do diagnóstico da herpetofauna lagunar na área da Arcelormittal Tubarão localizado no município de Vitória/ES. Coleta de dados de campo e elaboração de relatório.

11/2020 - 01/2021 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Responsável técnico pelo estudo de capacidade de suporte (herpetofauna) da RPPN Caruara/RJ utilizando análise de populações e comunidades nesta unidade de conservação, destino de diversos vertebrados provindos de atividades de resgate de fauna na região.

06/2017 - 07/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Execução de levantamento da herpetofauna na área de influência da central geradora hidrelétrica (CGH) ponte 2 para compor o relatório de controle ambiental (RCA) do referido empreendimento, no município de Alfredo Chaves - ES.

02/2017 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Levantamento da herpetofauna (anfíbios) para licenciamento ambiental da linha de transmissão 230 KV Linhares - São Mateus (ES).

01/2017 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Caracterização da herpetofauna na área de influência da CGH Alegre 1, município de Alegre-ES.

09/2016 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Caracterização da herpetofauna na área de influência da CGH Alegre 2, município de Alegre-ES.

08/2016 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Execução de resgate de fauna silvestre nas obras de duplicação da BR 101 no município de Iconha (ES), trecho denominado Contorno de Iconha.

05/2016 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Herpetofauna / execução e coordenação de resgate de fauna silvestre nas obras de duplicação da BR 101, trecho denominado contorno de Iconha. Iconha-ES.

09/2015 - 05/2018 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
Diagnóstico da herpetofauna para execução das adequações e complementações ao termo de referência referente ao EIA/RIMA do canal Caboclo Bernardo, Aracruz/ Linhares-ES.

02/2014 - 06/2015 Serviços técnicos especializados , ECONSERVATION ESTUDOS E PROJETOS AMBIENTAIS LTDA.
Serviço realizado
EIA/RIMA - Monitoramento da herpetofauna para licenciamento ambiental do ramal ferroviário Colatina - Linhares, ES.

2TREE CONSULTORIA LTDA, 2TREE, Brasil.

Vínculo institucional
2015 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades

12/2015 - 04/2018 Serviços técnicos especializados , 2TREE CONSULTORIA LTDA - ES - Brasil.
Serviço realizado
Herpetofauna / execução de diagnóstico da herpetofauna para compor estudo de impacto ambiental para implantação de silvicultura no bloco VI fazenda São Joaquim da água preta e Dourada Uma. Pedro Canário/Conceição da Barra-ES.

Criadouro Conservacionista Casa da Tartaruga, CASA DA TARTARUG, Brasil.

Vínculo institucional
2005 - 2005 Vínculo: Estagiário, Enquadramento Funcional: Estagiário Responsável pelo Setor de Répteis

OSX CONSTRUÇÃO NAVAL S.A., OSX, Brasil.

Vínculo institucional
2014 - 2018 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
04/2014 - 04/2018 Serviços técnicos especializados , OSX.
Serviço realizado
Execução do programa de conservação e monitoramento de fauna referente ao plano básico ambiental (PBA) da Unidade de Construção Naval do Açu (UCN Açu).

ELEMENTUS SOLUÇOES AMBIENTAIS LTDA, ELEMENTUS, Brasil.

Vínculo institucional
2015 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Outras informações Monitoramento de herpetofauna
Atividades
05/2020 - Atual Serviços técnicos especializados , ELEMENTUS SOLUÇOES AMBIENTAIS LTDA.
Serviço realizado
EXECUÇÃO DE MONITORAMENTO DA HERPETOFAUNA E ARCOVOMER PASSARELLII.
01/2019 - 06/2020 Serviços técnicos especializados , ELEMENTUS SOLUÇOES AMBIENTAIS LTDA.
Serviço realizado
PROGRAMA DE MONITORAMENTO DA HERPETOFAUNA PARA A FASE DE INSTALAÇÃO DO EMPREENDIMENTO USINA TERMELÉTRICA (UTE) PRESIDENTE KENNEDY E USINA TERMELÉTRICA (UTE) PRESIDENTE KENNEDY I.
10/2015 - 01/2019 Serviços técnicos especializados , ELEMENTUS SOLUÇOES AMBIENTAIS LTDA.
Serviço realizado
Programa de monitoramento da herpetofauna para a fase de instalação do empreendimento usina termelétrica (UTE) Presidente Kennedy e Usina Termelétrica (UTE) Presidente Kennedy I.

Quadrante Arquitetura e Urbanismo e Construção Civ, Quadrante, Brasil.

Vínculo institucional
2015 - Atual Vínculo: Consultor, Enquadramento Funcional: Consultor

ESTEL ENERGIA LTDA, ESTEL, Brasil.

Vínculo institucional
2017 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
05/2017 - Atual Serviços técnicos especializados , ESTEL.
Serviço realizado
Execução do levantamento da herpetofauna (répteis) para elaboração do relatório de controle ambiental (RCA) na área de influência da Central Geradora Hidrelétrica (CGH) Cachoeira Paraíso, no município de João Neiva/ES.

DIAMON BRASIL ENGENHARIA, OCEANOGRAFIA E CONSULTORIA LTDA, DIAMON, Brasil.

Vínculo institucional
2017 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
11/2017 - Atual Serviços técnicos especializados , Diamon Brasil Engenharia, Oceanografia e Consultoria.
Serviço realizado
Execução do programa de resgate de fauna na área de influência da Central Geradora Hidrelétrica (CGH) Santa Luzia.

Bicho do Mato instituto de pesquisa, BMIP, Brasil.

Vínculo institucional
2018 - 2020 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
1/2018 - 06/2020 Serviços técnicos especializados , Bicho do Mato.

Serviço realizado
Coordenação dos trabalhos de campo e atividades de campo, coleta de dados, triagem do material coletado, preenchimento das cadernetas de campo e elaboração de relatórios de campo do projeto.; avaliação de impactos e monitoramento da herpetofauna - incluindo crocodilianos e quelônios nos estados de Minas Gerais e Espírito Santo nas áreas afetadas pelo rompimento da barragem de Fundão ao longo do rio doce..

SCITECH ENVIRONMENTAL SCIENCE AND TECHNOLOGY LTDA, SCITECH, Brasil.

Vínculo institucional
2018 - 2020 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
01/2018 - 07/2020 Serviços técnicos especializados , Scitech.
Serviço realizado
Levantamento e inventário da espécie Arcovomer aff passarelli (rãzinha-de-carangueijo), na área de influência do terminal aquaviário de Barra do Riacho.; Monitoramento de fauna terrestre: serão monitorados os grupos de anfíbios, répteis, aves e mamíferos, além das formigas Atta robusta e Dinoponera lucida, na área de influência do terminal aquaviário de Barra do Riacho.

CPMAIS SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA, CPMAIS, Brasil.

Vínculo institucional
2018 - 2019 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
03/2018 - 04/2019 Serviços técnicos especializados , CPMAIS.
Serviço realizado
EXECUÇÃO DO MONITORAMENTO DA HERPETOFAUNA NA ÁREA DE INFLUÊNCIA DO COMPLEXO DE TUBARÃO-VALE S.A.

AVANTEC ENGENHARIA LTDA, AVANTEC, Brasil.

Vínculo institucional
2018 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
04/2018 - Atual Serviços técnicos especializados , AVANTEC Engenharia.
Serviço realizado
Levantamento da herpetofauna para elaboração do EIA/RIMA do projeto de implantação e pavimentação da Rodovia ES-320 trecho: Barra de São Francisco ? entr. com a ES-164 (São José de Mantenópolis).

ATOL CONSULTORIA AMBIENTAL LTDA, ATOL, Brasil.

Vínculo institucional
2018 - 2020 Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
04/2018 - 06/2020 Serviços técnicos especializados , ATOL.
Serviço realizado
Execução das atividades de manejo e resgate de fauna no decorrer das obras de duplicação da Rodovia BR-262, no trecho Marechal Floriano - Vitor Hugo/ES.

TEKBIO CONSULTORIA E SOLUÇÕES SUSTENTÁVEIS LTDA, TEKBIO, Brasil.

Vínculo institucional
2018 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
11/2018 - 08/2021 Serviços técnicos especializados , TEKBIO CONSULTORIA E SOLUÇÕES SUSTENTÁVEIS LTDA.
Serviço realizado
Coordenação do programa de monitoramento de fauna vertebrada terrestre na área da UHE Funil, compreendendo os municípios de Itatiaia e Resende no estado do Rio de Janeiro, e, São José do Barreio, Areias e Queluz no estado de São Paulo.
04/2018 - 04/2019 Serviços técnicos especializados , TEKBIO CONSULTORIA E SOLUÇÕES SUSTENTÁVEIS LTDA.
Serviço realizado
Estudo para compor EIA/RIMA da LT 500KV SE Estreito ? SE Cachoeira Paulista, que está localizada nos estados de MG e SP.

Prefeitura de Linhares, PM/L, Brasil.

Vínculo institucional
2018 - 2019 Vínculo: Biólogo, Enquadramento Funcional: Biólogo
Atividades
06/2018 - 06/2019 Serviços técnicos especializados , Prefeitura de Linhares.
Serviço realizado
Coordenação e responsabilidade técnica do programa de resgate de fauna silvestre

durante as obras de ampliação do aeroporto de Linhares, ES.

MGA ENGENHARIA E MEIO AMBIENTE LTDA, MGA, Brasil.

Vínculo institucional

2018 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2018 - Atual Serviços técnicos especializados , MGA Engenharia e Meio Ambiente.
Serviço realizado
Execução do levantamento da herpetofauna (répteis) para elaboração do relatório de controle ambiental (RCA) na área de influência das Centrais Geradoras Hidrelétricas (CGH?s) Rio Novo 1 e Rio Novo 2, no município de Rio Novo do Sul/ES.

MÁXIMA GESTÃO DE EMPREENDIMENTOS E SERVIÇOS AMBIENTAIS LTDA, MÁXIMA, Brasil.

Vínculo institucional

2018 - 2019 Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

10/2018 - 06/2019 Serviços técnicos especializados , Máxima Gestão de Empreendimentos e Serviços Ambientais.
Serviço realizado
Coordenação e responsabilidade técnica do programa de resgate de fauna silvestre na etapa de supressão vegetal durantes as obras de ampliação do aeroporto de Linhares/ES.

ALTA ENGENHARIA DE INFRAESTRUTURA LTDA, ALTA, Brasil.

Vínculo institucional

2019 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

02/2019 - Atual Serviços técnicos especializados , Alta Engenharia de Infraestrutura.
Serviço realizado
Coordenação do estudo de fauna vertebrada aquática e terrestre e execução do estudo da herpetofauna para o projeto de implantação e pavimentação da Rodovia ES-368, trecho Melgaço ? entr. ES-264 (Potratz).

Cepemar Meio Ambiente, CEPEMAR, Brasil.

Vínculo institucional

2019 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

03/2019 - Atual Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
Execução do programa de monitoramento da herpetofauna na área de influencia da Usina VII e programa de monitoramento de Caiman latirostris na Unidade de Tubarão.

07/2020 - 03/2022 Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
RESPONSÁVEL TÉCNICO PELA EXECUÇÃO DO PROGRAMA DE MONITORAMENTO DA HERPETOFAUNA,DO EMPREENDIMENTO ALPHAVILLE TRÊS PRAIAS, MUNICÍPIO DE GUARAPARI, ES.

02/2020 - 02/2022 Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
Responsável técnico pelos estudos da herpetofauna no programa de identificação e proposição de medidas reparatórias para eventuais impactos decorrentes do rompimento da barragem de fundão no bloco de unidades de conservação denominado Costeira 2.; Parque Natural Municipal Jacarenema, APA Lagoa Grande, APA das Tartarugas, Reserva de Desenvolvimento Sustentável Papagaio, Reserva de Desenvolvimento Sustentável Concha D?ostra, Monumento Natural Municipal Falésias de Marataízes, APA De Guanandy, Parque.

02/2020 - 02/2022 Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
Responsável técnico pelos estudos da herpetofauna no programa de identificação e proposição de medidas reparatórias para eventuais impactos decorrentes do rompimento da barragem de fundão no bloco de unidades de conservação denominado Costeira 1.

03/2019 - 02/2022 Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
Responsável técnico pelos estudos da herpetofauna no programa de identificação e proposição de medidas reparatórias para eventuais impactos decorrentes do rompimento da barragem de fundão no bloco de unidades de conservação denominado Costeira 2.; Área de Proteção Especial Ouro Preto Mariana, Parque Estadual do Rio Doce, APA Barra Longa, APA Nascente do Ribeirão do Sacramento, APA Dionísio, APA Santana do Paraíso,

APA Belo Oriente, APA Córrego Novo, APA Pingo D?água, APA Bom Jesus do Galho, APA Lag. **07/2020 - 09/2021**
Serviços técnicos especializados , CEPEMAR SERVIÇOS DE CONSULTORIA EM MEIO AMBIENTE LTDA.
Serviço realizado
COORDENAÇÃO DA EXECUÇÃO DO RESGATE DE FAUNA SILVESTRE DURANTE AS OBRAS DE IMPLANTAÇÃO DO ALPHAVILLE TRÊS PRAIS, GUARAPARI/ES.

CONSÓRCIO CONTRACTOR / SULCATARINENSE / ENECON, CONTRACTOR, Brasil.

Vínculo institucional

2018 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

10/2018 - Atual Serviços técnicos especializados , Consórcio Contractor.
Serviço realizado
Coordenação técnica do programa de resgate de fauna silvestre durante a obra de implantação e pavimentação da variante do Mestre Álvaro (contorno rodoviário da Serra) na Rodovia BR 101/ES; Elaboração de relatórios técnicos e envio de material zoológico para o INMA.

CONTRACTOR ENGENHARIA LTDA, CONTRACTOR, Brasil.

Vínculo institucional

2019 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

09/2019 - 04/2022 Serviços técnicos especializados , CONTRACTOR ENGENHARIA LTDA.
Serviço realizado
Coordenação e responsabilidade técnica do programa de resgate da fauna silvestre , durante a supressão de vegetação e remoção de solo orgânico da obra de pavimentação da Rodovia ES 379/165 trecho Castelo x Morro de Vênus e Morro de Vênus x Muniz Freire/ES.

02/2019 - 11/2020 Serviços técnicos especializados , CONTRACTOR ENGENHARIA LTDA.
Serviço realizado
Coordenação técnica do programa de resgate de fauna silvestre durantes as obras de implantação e pavimentação da Rodovia ES-181, entre Arraial do Café, distrito do município de Alegre, e o entr. com a Rodovia ES-484, no município de São José do Calçado. E.

TETRA MAIS CONSULTORIA LTDA, TETRA, Brasil.

Vínculo institucional

2019 - 2019 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

09/2019 - 11/2019 Serviços técnicos especializados , Tetra Mais Consultoria.
Serviço realizado
Execução de diagnóstico da herpetofauna para compor o relatório ambiental simplificado (RAS) do Complexo Eólico Iraúna no estado do Rio Grande do Norte. ; Elaboração de planilhas, tratamento estatístico e produção de relatório técnico.

FOREST ? MEIO AMBIENTE, FOREST, Brasil.

Vínculo institucional

2019 - 2021 Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

08/2019 - 10/2021 Serviços técnicos especializados , Forest - Meio Ambiente.
Serviço realizado
Responsabilidade técnica sob a execução de diagnóstico da herpetofauna para compor o RCA da rodovia intitulada ?Contorno da Barra do Sahy?, descrição dos impactos inerentes às atividades de implantação e operação da rodovia, proposição de medidas mitigado.

MINERAÇÃO SULU LTDA, MINERAÇÃO SULU, Brasil.

Vínculo institucional

2019 - Atual Vínculo: Consultor, Enquadramento Funcional: Consultor

Atividades

08/2019 - Atual Serviços técnicos especializados , Mineração Sulu.
Serviço realizado
Execução de resgate da fauna silvestre com ênfase no grupo da herpetofauna e mastofauna, durante a supressão de vegetação na área do empreendimento da Mineração Sulu LTDA, no município de Conceição do Castelo.

SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI, SOLIDUS, Brasil.

Vínculo institucional

2019 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2021 - Atual Serviços técnicos especializados , SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI.
Serviço realizado
Coordenação do plano de conservação das espécies ameaçadas de extinção Amazona rhodocorytha, Amazona farinosa, Tinamus solitarius, Callicebus personatus e Sapajus robustus na área de influência da rodovia ES-358 trecho Vila Valério x Guaxé ? LOTE 1.

02/2020 - Atual Serviços técnicos especializados , SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obra de pavimentação da Rodovia ES 358, trecho Vila Valério x Guaxé, Lote 2.

11/2019 - Atual Serviços técnicos especializados , SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI.
Serviço realizado
Coordenação geral do projeto de monitoramento de fauna da Rodovia ES 358, trecho Vila Valério x Guaxé, Lote 2; Monitoramento de répteis da Rodovia ES 358, trecho Vila valério x Guaxé, Lote 2.

11/2019 - Atual Serviços técnicos especializados , SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI.
Serviço realizado
Coordenação geral do projeto de monitoramento de fauna da Rodovia ES 358, trecho Vila Valério x Guaxé, Lote 1; Monitoramento de répteis da Rodovia ES 358, trecho Vila valério x Guaxé, Lote 1.

02/2020 - 08/2022 Serviços técnicos especializados , SOLIDUS SERVIÇOS E CONSTRUÇÕES EIRELI.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obra de pavimentação da Rodovia ES 358, trecho Vila Valério x Guaxé, Lote 1.

LVS CONSULTORIA E ENGENHARIA AMBIENTAL LTDA, LVS, Brasil.

Vínculo institucional

2020 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

01/2020 - Atual Serviços técnicos especializados , LVS Consultoria e Engenharia Ambiental.
Serviço realizado
Esponsável técnico pelo inventário da herpetofauna como subsidio à elaboração do estudo de impacto ambiental (EIA) e seu respectivo relatório de impacto ambiental (RIMA) do loteamento industrial Dalton Carlos Heringer, Viana-ES.

STONENGE CONSULTORIA E PROJETOS DE ENGENHARIA LTDA, STONENGE, Brasil.

Vínculo institucional

2020 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

04/2020 - Atual Serviços técnicos especializados , STONENGE CONSULTORIA E PROJETOS DE ENGENHARIA LTDA.
Serviço realizado
LEVANTAMENTO DA HERPETOFAUNA NA ÁREA DE INFLUÊNCIA DA IMPLANTAÇÃO E PAVIMENTAÇÃO DA RODOVIA ES-257, ARCO NORTE DO ANEL RODOVIÁRIO DE ARACRUZ/ES.

04/2020 - Atual Serviços técnicos especializados , STONENGE CONSULTORIA E PROJETOS DE ENGENHARIA LTDA.
Serviço realizado
LEVANTAMENTO DA HERPETOFAUNA NA ÁREA DE INFLUÊNCIA DA IMPLANTAÇÃO E PAVIMENTAÇÃO DA RODOVIA ES-466, TRECHO ENTR. ES-388 ? ENTR. BR-101 ? ENTR. BR- 262 (VIANA); Monitoramento de herpetofauna.

CONTECNICA CONSULTORIA TECNICA LTDA, CONTECNICA, Brasil.

Vínculo institucional

2020 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

05/2020 - Atual Serviços técnicos especializados , CONTECNICA CONSULTORIA TECNICA LTDA - ES - Brasil.
Serviço realizado
LEVANTAMENTO DA HERPETOFAUNA PARA O LICENCIAMENTO AMBIENTAL DO PROJETO DE REABILITAÇÃO/DUPLICAÇÃO DA RODOVIA ES-482, TRECHO ENTR. ES-101 (SAFRA) - CACHOEIRO DE ITAPEMIRIM/ES.

05/2020 - Atual Serviços técnicos especializados , CONTECNICA CONSULTORIA TECNICA LTDA - ES - Brasil.
Serviço realizado
LEVANTAMENTO DA HERPETOFAUNA PARA O LICENCIAMENTO AMBIENTAL DO PROJETO DE REABILITAÇÃO E DUPLICAÇÃO DA RODOVIA ES-488, TRECHO ENTR. ES-101 (FRADE) - CACHOEIRO DE ITAPEMIRIM/ES.

05/2020 - Atual Serviços técnicos especializados , CONTECNICA CONSULTORIA TECNICA LTDA - ES - Brasil.
Serviço realizado
LEVANTAMENTO DA HERPETOFAUNA PARA O LICENCIAMENTO AMBIENTAL DO PROJETO

DE REABILITAÇÃO DA RODOVIA ES-166, TRECHO ENTR. ES-482 (COUTINHO) - CASTELO/ES.

LUGARE ENGENHARIA LTDA, LE, Brasil.

Vínculo institucional

2020 - 2021 Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

12/2022 - Atual Serviços técnicos especializados , Lugare Engenharia.
Serviço realizado
Coordenação geral e diagnóstico da herpetofauna para a elaboração do estudo de viabilidade técnica, econômica e ambiental da rodovia ES-493, Divino de São Lourenço ? entr. ES-190 (Patrimônio da Penha) e elaboração de relatório técnico.

09/2021 - 12/2021 Serviços técnicos especializados , Lugare Engenharia.
Serviço realizado
Coordenação geral do estudo, execução do diagnóstico da herpetofauna e monitoramento da fauna silvestre atropelada na rodovia ES-481, trecho entr. ES-060 (Lameirão) ? entr. ES-060 (contorno de Guarapari). ; Coleta de dados de campo e elaboração de relatório técnico.

09/2021 - 11/2021 Serviços técnicos especializados , Lugare Engenharia.
Serviço realizado
Coordenação geral do estudo de fauna e execução do diagnóstico da herpetofauna para o projeto de minimização das cheias no município de Águia Branca, no estado do Espírito Santo. ; Coleta de dados de campo e elaboração de relatório técnico.

02/2021 - 09/2021 Serviços técnicos especializados , Lugare Engenharia.
Serviço realizado
Coordenação geral do estudo de fauna e execução do diagnóstico da herpetofauna para a elaboração do RCA do projeto de implantação e pavimentação da Rodovia ES-060 (acesso), trecho entr. BR-101 (Amarelos) ? entr. Es-060 (Praia do Sol), Guarapari/ES.

06/2020 - 09/2021 Serviços técnicos especializados , Lugare Engenharia.
Serviço realizado
Coordenação geral dos estudos do meio biótico e levantamento da herpetofauna na área de influência da implantação e pavimentação da Rodovia ES-360 trecho Rio Bananal ? entr. ES-245 (Governador Lindenberg), ES..

RDJ ENGENHARIA LTDA, RDJ, Brasil.

Vínculo institucional

2020 - 2021 Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

08/2021 - Atual Serviços técnicos especializados , RDJ Engenharia.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obras de implantação e pavimentação da rodovia ES-475 ? entr. com a ES-166 (Castelo) a Fazenda da Prata - Monte Pio.

07/2020 - 11/2021 Serviços técnicos especializados , RDJ Engenharia.
Serviço realizado
COORDENAÇÃO DO PROGRAMA DE RESGATE DE FAUNA SILVESTRE DURANTE AS OBRAS DE PAVIMENTAÇÃO DA RODOVIA ES-475 - FAZENDA DA PRATA - (CASTELO) - SÃO JOSÉ DE FRUTEIRAS (VARGEM ALTA).

02/2021 - 10/2021 Serviços técnicos especializados , RDJ Engenharia.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna da rodovia ES-475 - Castelo ? entr. da rodovia ES-166 a Fazenda da Prata (Monte Pio), para compor estudo ambiental. ; Monitoramento da fauna atropelada ao longo da rodovia ES-475 - Castelo ? entr. da rodovia ES-166 a Fazenda da Prata (Monte Pio). ; Identificação de hotspot de atropelamento e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

CONCRESOLO ENGENHARIA LTDA, CE, Brasil.

Vínculo institucional

2020 - 2021 Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

08/2020 - 12/2021 Serviços técnicos especializados , Concresolo Engenharia.
Serviço realizado
Coordenação geral do estudo do meio biótico e diagnóstico da herpetofauna da Rodovia ES-465/368, trecho Domingos Martins ? Melgaço, para compor estudo ambiental.; Monitoramento da fauna atropelada ao longo da Rodovia ES-465/368, trecho Domingos Martins ? Melgaço. Identificação de hotspot de atropelamento e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

VARGAS CONSULTORIA E SERVIÇOS LTDA, VC, Brasil.

Vínculo institucional

2020 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2020 - Atual Serviços técnicos especializados , Vargas Consultoria e Serviços.
Serviço realizado
Monitoramento de quelônios da barragem do Rio Jucu, braço norte, Domingos Martins e Viana e elaboração de relatórios técnicos. ; Monitoramento de anfíbios da barragem do Rio Jucu, braço norte, Domingos Martins e Viana e elaboração de relatórios técnicos.

A B RIBEIRO SERVIÇOS ME, ABR, Brasil.

Vínculo institucional

2020 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

11/2020 - Atual Serviços técnicos especializados , A B RIBEIRO SERVIÇOS ME.
Serviço realizado
Coordenação do resgate de fauna silvestre durante as obras de implantação da barragem do Rio Jucu braço norte. ; Coordenação de equipe, elaboração de relatórios técniccos, triagem e envio de material zoológico para instituição de pesquisa e reuniões com contratante e órgão ambiental.

Foco Soluções em Meio Ambiente, FSMA, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

09/2022 - Atual Serviços técnicos especializados , Foco Soluções em Meio Ambiente.
Serviço realizado
Coordenação e elaboração de plano de trabalho do monitoramento da fauna aquática (ictiofauna) na região de lançamento do efluente tratado da estação de tratamento de esgoto ? ETE Araças (ampliação).

06/2021 - Atual Serviços técnicos especializados , Foco Soluções em Meio Ambiente.
Serviço realizado
Elaboração do diagnóstico e impactos para a fauna (herpetofauna) do estudo de avaliação de impacto ambiental das fases de instalação e operação da trilha ecológica do Condomínio Três Praias Alphaville, Guarapari/ES.

01/2021 - Atual Serviços técnicos especializados , Foco Soluções em Meio Ambiente.
Serviço realizado
Coordenação geral do monitoramento de fauna e execução do monitoramento da herpetofauna na área do Alphaville Três Praias, Guarapari/ES.

01/2021 - 05/2022 Serviços técnicos especializados , Foco Soluções em Meio Ambiente.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obras de implantação do Alphaville Três Praias, Guarapari/ES.; Elaboração de relatórios técnicos, coordenação de equipe e tombamento de material zoológico.

ECR ENGENHARIA LTDA, ECR, Brasil.

Vínculo institucional

2020 - 2021 Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

12/2020 - 09/2021 Serviços técnicos especializados , ECR Engenharia.
Serviço realizado
Coordenação geral do estudo e execução do diagnóstico da herpetofauna para o EIA/RIMA do projeto de implantação e pavimentação da rodovia ES-466, subtrecho 02 ? entr. ES-388 - rod. ES-470, subtrecho 04 ? Av. Jaguarussu e subtrecho 05 - variante do Xuri.

CONTEK ENGENHARIA LTDA, CTK, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

02/2021 - 03/2022 Serviços técnicos especializados , Contek.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obras de pavimentação da rodovia ES-313 - entr° ES-130 (Pinheiros) - São João do Sobrado - ES-313, município de Pinheiros. ; Elaboração de relatórios, tombamento de material zoológico e coordenação de equipe.

GREENS CONSULT, GC, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

04/2021 - 10/2021 Serviços técnicos especializados , Greens Consult.

Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obras de construção do contorno norte de Aracruz, ES. ; Elaboração de relatório técnico, tombamento de material zoológico e responsabilidade técnica.

LOCKIN CONSTRUTORA EIRELI, LC, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador técnico

Atividades

05/2021 - 11/2021 Serviços técnicos especializados , Lockin Construtora.
Serviço realizado
Coordenação e responsabilidade técnica do programa de resgate de fauna silvestre durante as obras de reabilitação da rodovia ES-165, trecho BR-262 x Conceição do Castelo. ; Elaboração de relatórios, tombamento de material zoológico e coordenação de equipe.

CONSORCIO CONTEK - A. MADEIRA, CC-M, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

05/2022 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo, elaboração do plano de trabalho para solicitação de AMFs.; Responsável técnico pela execução do monitoramento da herpetofauna do projeto final de engenharia do corredor urbano de Jacaraípe, rodovia ES-010, trecho: Av. Minas Gerais ? Nova Almeida / Serra ? ES.

07/2021 - 07/2022 Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante as obras do projeto final de engenharia do corredor urbano de Jacaraípe, rodovia ES-010, trecho: Av. Minas Gerais ? Nova Almeida / Serra ? ES. ; Coordenação de equipe, elaboração de relatórios e tombamento de material zoológico.

CONSORCIO DYNATEST-ENGESUR/DER/ES, CDE, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para a implantação do arco rodoviário de Nova Venécia. ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para pavimentação da rodovia ES-344 trecho entr. Es-381 (Nova Venécia) ? entr. ES-358 (Vila Valério). ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna referete a implantação e pavimentação da rodovia ES-130 trecho variante de Montanha (entr. ES-130 ? entr. ES-209).; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna referete a implantação e pavimentação da rodovia ES-422 trecho UFES (São Mateus) ? entr. ES-421 (Santana).; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para implantação da rodovia ES-313 trecho arco rodoviário de Pinheiros (entr. ES-130 ? entr. ES-313) ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.

Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para implantação da rodovia ES-130 variante de Vinhático.; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para pavimentação da ES-426, trecho entr. ES-080 (Boa Vista) ? entr. ES-320 (Paulista). ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para reabilitação da ES-130, trecho divisa ES/MG (Cajubi) - Montanha. ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para reabilitação da ES-130, trecho Vinhático - Pinheiros.; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para reabilitação da ES-358, trecho Guaxe ? entr. BR-101. ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software SIRIEMA e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

07/2021 - Atual Serviços técnicos especializados , Consorcio.
Serviço realizado
Coordenação geral do estudo e diagnóstico da herpetofauna para reabilitação da ES-209/130, trecho Montanha - Vinhático. ; Monitoramento da fauna atropelada, identificação de hotspot de atropelamento, analise de dados no software siriema e sugestão de localização e tipos de mecanismos de redução de acidentes com a fauna.

SOLIDA EMPREENDIMENTOS LTDA, SE, Brasil.

Vínculo institucional
2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo
Atividades
08/2021 - Atual Serviços técnicos especializados , Solida Empreendimentos.
Serviço realizado
Avaliação de aplicabilidade de programa de resgate de fauna silvestre para a implantação do Condomínio Prainha Park empreendimento imobiliário.

CONSÓRCIO DBO ESSE, DBO, Brasil.

2022 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

06/2022 - Atual Serviços técnicos especializados , A. Madeira Indústria e Comercio.
Serviço realizado
Elaboração do plano de trabalho e coordenação do programa de resgate de fauna silvestre durante a terraplanagem, drenagem e obras de arte corrente, reabilitação/ ; pavimentação, obras complementares, obras de arte especiais e sinalização na rodovia ES-181, trecho Placa ? Anutiba- Muniz Freire, subtrecho 2 Anutiba ? Placa (entr. ES-482); Coordenação de equipe, elaboração de relatório e tombamento de material zoológico.

Consorcio ECS, ECS, Brasil.

Vínculo institucional

2022 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

03/2022 - Atual Serviços técnicos especializados , Consorcio ECS.
Serviço realizado
Elaboração de plano de trabalho para solicitação de AMFs e coordenação do programa de resgate de fauna silvestre durante as obras de implantação do emissário da ETE Nova Rosa da Penha. ; Responsabilidade técnica, elaboração de relatórios e tombamento de material zoológico.

UNIFORTE AMERICANA ENGENHARIA E CONSTRUTORA LTDA, UAEC, Brasil.

Vínculo institucional

2022 - Atual Vínculo: Consultor, Enquadramento Funcional: Coordenador geral

Atividades

01/2022 - Atual Serviços técnicos especializados , Uniforte Americana.
Serviço realizado
Coordenação do programa de resgate de fauna silvestre durante a obra de interligação da rede de distribuição de gás natural canalizado de Linhares/ES. ; Responsabilidade técnica, elaboração de relatórios e tombamento de material zoológico.

RG ADMINISTRAÇÃO E PARTICIPAÇÃO DE BENS LTDA, RG, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

11/2021 - Atual Serviços técnicos especializados , RG Administração e Participação de Bens.
Serviço realizado
Diagnóstico da herpetofauna para compor estudo de viabilidade técnica e ambiental, de área para instalação de armazém de estocagem da empresa RG Administração e Participação de Bens LTDA.

AMBIPAR RESPONSE CONTROL ENVIRONMENTAL CONSULTING S/A, AMBIPAR, Brasil.

Vínculo institucional

2021 - Atual Vínculo: Consultor, Enquadramento Funcional: Biólogo

Atividades

10/2021 - Atual

Serviços técnicos especializados , AMBIPAR.
Serviço realizado
Responsável técnico do grupo herpetofauna dos serviços de monitoramento da faunaterrestre e do subprograma de monitoramento de Liolaemus lutzae e Leposternon scutigerum do projeto Gasoduto Rota 3.

Projetos de pesquisa

2017 - Atual

A comunidade de repteis da Serra das Torres, sul do estado do Espírito Santo, sudeste do Brasil
Descrição: Entender a estrutura das comunidades é um dos temas centrais da ecologia. Alguns dos maiores problemas, entretanto, no entendimento da estrutura das comunidades é a ausência de informações sobre a composição de espécies de determinadas áreas. Na Mata Atlântica inúmeros fragmentos de importância ecológica reconhecidas permanecessem sem dados oficiais sobre as comunidades de répteis tornando-se verdadeiras lacunas de conhecimento para a ciência. O Monumento Natural Serra das Torres foi criado em 2010, e cobre uma área de 10.458,90 hectares de Mata Atlântica de encosta, localizado nos Municípios de Mimoso do Sul, Muqui e Atílio Vivacqua, no sul do estado do Espírito Santo e apesar da sua reconhecida importância para a conservação de espécies, nenhuma informação é conhecida sobre os lagartos e serpentes que compõem a fauna. Neste estudo propomos avaliar a estrutura da comunidade de répteis da MONA Serra das Torres e consequentemente gerar uma lista de espécies que possa contribuir para o manejo da Unidade..
Situação: Em andamento; Natureza: Pesquisa.

2016 - Atual

Integrantes: Thiago Marcial de Castro - Integrante / Jane C. F. de Oliveira - Coordenador.
A herpetofauna em um fragmento de floresta de tabuleiro no sul do estado do Espírito Santo
Descrição: O Brasil possui uma das faunas mais ricas das Américas e surpreendentemente, ainda pouco amostrada. Esta biodiversidade encontra-se distribuída de acordo com os diferentes biomas, e a Mata Atlântica é um dos maiores detentores de riqueza de espécies da herpetofauna devido principalmente, a diversidade de ecossistemas inseridos, como as restingas, manguezais e florestas de tabuleiro. No Espírito Santo, Estado coberto originalmente em toda sua extensão pelo Bioma Mata Atlântica, embora a fragmentação tenha eliminado parte das áreas verdes ainda encontramos importantes fragmentos de floresta devido ao seu estado de preservação, bem como pela área disponível. Neste estudo, nós estudamos a herpetofauna em um fragmento de floresta de tabuleiro no sul do estado do Espírito Santo (Mata do Ouvidor) e buscamos compreender alguns parâmetros das comunidades de anfíbios e de répteis deste remanescente..
Situação: Em andamento; Natureza: Pesquisa.
Alunos envolvidos: Graduação: (3) .

Integrantes: Thiago Marcial de Castro - Coordenador / Jane C. F. de Oliveira - Integrante / Helimar Rabello - Integrante / Rafael dos Santos - Integrante / Bruno Alekhine Barboza - Integrante.

EXPERIÊNCIA PROFISSIONAL

Cepemar - Maio/2022 a Out/2022
Cargo: Tecnico de controle de Meio Ambiente

- Realização de Monitoramento e avaliações ambientais na área da Vale - Porto Tubarão para cumprimento de condicionante ambiental
- Auxiliou na elaboração, tabulação e organização dos dados de campo

Ambipar Response Control - Maio/2023
Cargo: Auxiliar de campo

- Auxiliar de censo/identificação para estudo tecnico e elaboração de diagnóstico em projeto de licenciamento ambiental no Porto Açu
- Realizou tabulação e organização dos dados de campo
- Condutor habilitado para dirigir no Porto Açu

Associação Ateliê de Idéias - Set 2019 a Jun 2023

- Tabulação de dados de pesquisa e análise de dados em excel (VBA)
- Produção dos gráficos para apresentação

Flora Ambiental - Set 2019 a Jun 2023

- Organização dos dados de campo em excel para análise em R

Projeto "Monitores Ambientais da Orla de Aracruz"
Fev - Abril de 2023

- Cargo de supervisor de monitores ambientais
- Aulas de campo e ações de conscientização ambiental com usuários de praia
- Gerenciamento de equipe
- Ação de educação ambiental
- Comunicação com a comunidade
- Acompanhamento de desenvolvimento dos monitores ambientais
- Experiência com a iniciativa pública
- Produção de relatório

Vitória Industrial [Palestra - 30/11/2022

- Elaboração de palestra em Power Point
- Educação ambiental
- Ação para normas de saúde segurança e meio ambiente em iniciativa privada
- Tema: Poluição ambiental

FORMAÇÃO ACADÊMICA

Mestrado em Ecologia

Universidade Federal do Rio de Janeiro
Jan. de 2015 - Mai de 2017

Graduação em Ciências Biológicas

Faesa
Fev. de 2008 - Mai. de 2014

CURSOS COMPLEMENTARES

- THUET (Rely on Nutec - Jun 2023)
- CBSP (West Group - Jun 2023)
- Curso de Direção Defensiva
- Programas:
  - Excel
  - Power Point
  - Word
  - R estatística

IDIOMAS

Inglês - Fluente

Francês - Iniciante

VOLUNTARIADO

Estação de Biologia Marinha Augusto Ruschi
Out 2018 - Jan 2023

- Educador ambiental no projeto Arca de Noé
- Educador ambiental no projeto escola no manguezal em parceria com a prefeitura de Aracruz
- Planejamento de aula
- Gerenciamento de OPEX
- Realização de orçamento de produtos e serviços
- Elaboração e submissão de editais para captação de recursos financeiros
- Experiência na iniciativa publica

CISV - 2002 a 2020

- Planejamento das atividades diárias
- Desenvolvimento de habilidades em liderança, comunicação, cooperação e pró-atividade

ALESSANDRO TRAZZI PINTO

FORMAÇÃO

Formação Acadêmica:

- Mestrado em Engenharia Ambiental.
  Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil
  Título: Alterações de qualidade de água resultantes da criação de camarão de água doce, Ano de obtenção: 2005
- Especialização em Programa de Pós-graduação Em Engenharia Ambiental.
  Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil
  Título: Qualidade da Água em Tanques de Girinos de Ra-Touro *Rana catesbeiana* Shaw, 1802, Cultivados em Diferentes Densidades de Estocagem.
- Graduação em Ciências Biológicas.
  Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil, Ano de obtenção: 1995.

Idioma:

- Inglês - Compreende Razoavelmente, Fala pouco, Escreve Pouco, Lê Razoavelmente

Informática:

- Conhecimento básico no pacote office.

Conselho de Classe

- CRBio-ES nº 21590-2D

EXPERIÊNCIA PROFISSIONAL

Empresa: **Ambipar Response**
Cargo: Diretor Técnico
Período: Julho/2022 – Atual
Principais Atividades:

- Gestão técnica e institucional dos contratos de: licenciamento e monitoramento ambiental, Prontidão e Reposta em Emergências Ambientais, e atendimento a Fauna, Estudos de Licenciamento Ambiental, Qualidade do Ar e Ruídos, Serviços em Fauna e Flora, Comunicação Social e Socioeconomia, Comunidades Tradicionais, Educação Ambiental, Gestão e Planejamento Ambiental, Auditoria e Levantamento de Passivo Ambiental, Arqueologia, Monitoramentos Hidro biológicos e Oceanográficos. e especialmente em Serviços de Prontidão e Resposta em Emergências Ambientais e atendimento à Fauna.

Empresa: **CTA Serviços em Meio Ambiente Ltda**
Cargo: Diretor Técnico / Sócio-proprietário,
Período: 1994 - 2022
Principais Atividades:

- Diretor Técnico da divisão de Meio Ambiente, Treinamento em ranicultura , Treinamento em maricultura , Treinamento em Carcinicultura , Treinamento em meio ambiente, Consultoria técnica para estudos em aquicultura e meio ambiente, Gestão técnica e institucional dos contratos de: licenciamento e monitoramento ambiental, Prontidão e Reposta em Emergências Ambientais, e atendimento a Fauna, Estudos de Licenciamento Ambiental, Qualidade do Ar e Ruídos, Serviços em Fauna e Flora, Comunicação Social e Socioeconomia, Comunidades Tradicionais, Educação Ambiental, Gestão e Planejamento Ambiental, Auditoria e Levantamento de Passivo Ambiental, Arqueologia, Monitoramentos Hidro biológicos e Oceanográficos. e especialmente em Serviços de Prontidão e Resposta em Emergências Ambientais e atendimento à Fauna.

PRINCIPAIS TRABALHOS REALIZADOS

- Avaliação de passivo ambiental na área de operação do terminal da OILTANKING - 2021.
- Complementações do PACUERA da UHE Mascarenhas da empresa ENERGEST – 2021.
- Elaboração de (EIA-RIMA) para Ampliação da Capacidade Produtiva da Unidade Industrial Cariacica. par a empresa SIMEC – 2021.
- Elaboração do Relatório de Bioacústica do Programa de Monitoramento de Cetáceos para a empresa INSTITUTO O CANAL – 2021
- Elaboração dos Planos Ambientais no processo de transferência de licenciamento ambiental do Polo Cricaré para a empresa KARAVAN - 2021
- Monitoramento da Mitigação da Poluição Luminosa na área de influência do Porto de Ubu para empresa SAMARCO - 2021
- Assessoria técnica de implementação do Centro de Reabilitação de Fauna Marinha do Terminal Marítimo de Belmonte para a empresa VERACEL - 2020
- Assessoria Técnica no processo de licenciamento ambiental das PETROCITY - 2020
- Consolidação dos dados do Monitoramento Biológico e Ecotoxicológico da Lagoas da ARCELORMITTAL TUBARÃO - 2020
- Elaboração de Estudo de Conformidade Ambiental para Ampliação da Aciaria da SIMEC Cariacica - 2020
- Elaboração de PPAF e PMAVE nas atividades do Polo de Pargo. para a empresa PERENCO – 2020
- Elaboração de Projeto Executivo para implantação do Projeto de Monitoramento da Tartaruga-de-Pente e da Tartaruga-de-Couro por Telemetria Satelital para a PETROBRAS - 2020
- Manejo florestal na área de preservação permanente (APP) do rio Camburu e Cinturão Verde da PETROBRAS - 2020
- Monitoramento Ambiental do Canal de Vitória para a empresa PRYSMIAN - 2020
- Monitoramento da Qualidade da Água e Piracema na PCH Mucuri para a empresa SUZANO. - 2020
- Monitoramento de Quelônios e Cetáceos durante as obras de implantação do Porto da IMETAME – 2020

- Monitoramento de Quelônios e Cetáceos durante as obras de implantação do Porto da IMETAME. - 2020
- Monitoramento Qualidade da Água Marinha na área de implantação do Porto da IMETAME - 2020
- Prontidão de resposta à fauna, planejamento e execução de simulados, treinamento, monitoramento, captura e reabilitação de fauna para a PETROBRAS. - 2020
- Realização dos serviços do Plano de Resposta para a Fauna Contaminada para o Terminal da Brasken na Baía de Guanabara, Rio de Janeiro para a empresa AMBIPAR - 2020
- Monitoramentos Físico-Químico, Biológico e Ecotoxicológico da ARCELORMITTAL TUBARÃO e ARCELORMITTAL VEJA - 2019
- Plano de Manejo de Aves das Unidades Marítimas da Área da PETROBRAS - Bacia de Campos - RJ - 2019
-
- Plano de Manejo de Aves das Unidades Marítimas da Área Geográfica do Espírito Santo para PETROBRAS-UO-ES – 2019
-
- Plano de Proteção a Fauna em casos de acidente com vazamento de óleo no mar originado das atividades de produção e escoamento do Sistema de Produção de Petróleo e Gás Natural do Polo Pargo, para PERENCO PETROLEO E GÁS na Bacia de Campos/ RJ - 2019
- Serviço de Prontidão para resposta às espécies potencialmente afetadas durante as atividades de perfuração e produção de óleo e gás da PETRORIO, nos Campos de Polvo e Frade - Bacia de Campos / RJ - 2019
- Estudo Ambiental de Sísmica (EAS), respectivo Relatório de Impacto Ambiental de Sísmica (RIAS)e o Plano de Controle Ambiental de Sísmica (PCAS),) e atendimento as condicionantes para obtenção da Licença Prévia da Atividade de Pesquisa Sísmica Marítima 3D e 4D Multiazimute nas Concessões de Albacora, Marlim e Voador, na PETROBRAS - Bacia de Campos - 2018
- Projeto de Monitoramento de Praias para a PETROBRAS UO- BS, compreendidas entre os municípios de Saquarema a Paraty no estado do Rio de Janeiro (PMP-BS – Fase 2) - 2016
- Projeto de Educação Ambiental dos Trabalhadores (PEAT) da PETROBRAS – UO-RNCE – nas Bacias Potiguar e do Ceará - 2015
- Programa de Monitoramento de Desembarque Pesqueiro na área de influência do Terminal Marítimo da Veracel, nos municípios de Belmonte e Santa Cruz de Cabrália/BA. -, 2014
- Projeto de Monitoramento de Praias na área de influência do Terminal Marítimo da Veracel, município de Belmonte/BA. - 2014
- Monitoramento hidrobiológico e marinho na área de influência do empreendimento de instalação e operação do Terminal Norte Capixaba da PETROBRAS UN-ES - 2013

- Monitoramento Socioeconômico nas comunidades de influência direta do TNC – Terminal Norte Capixaba, da TRANSPETRO em São Mateus/ES – 2013

- Programa de Monitoramento de Desembarque Pesqueiro da área geográfica do Espírito Santo, para PETROBRAS UO-ES, Bacias do Espírito Santo e de Campos. – 2013

- Programa de Monitoramento de Desembarque Pesqueiro e Censo da Comunidade de Pesca na região de influência do Terminal de Ubu, da Samarco Mineração, Anchieta/ES - 2013

- Programa de Monitoramento de Desembarque Pesqueiro nas comunidades de influência direta do TNC – Terminal Norte Capixaba, para TRANSPETRO em São Mateus/ES – 2013

- Educação Ambiental dos Trabalhadores (PEAT) nas unidades marítimas P-47, FPSO-RJ, FPSO-RO, P-65 e unidades de manutenção e segurança para a PETROBRAS UO-BC/SMS/MA, (Cidade de Arraial do Cabo, Cidade de Casemiro de Abreu, Cidade de Quissamã e ARV 3. - 2013

- Relatório de Controle Ambiental do empreendimento Perfuração de Poço Exploratório de Petróleo e Gás - LOC 01 ES T 419 da PETROSYNERGY, localizado no município de São Mateus/ES. - 2013

- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental e atendimento as condicionantes para obtenção da Licença Prévia e Licença de Instalação do empreendimento 'Base de Apoio Logístico Offshore' C-PORT para EDSON CHOUEST a ser instalado no município de Itapemirim/ES - 2012

- Monitoramento da Ocorrência, da Distribuição de Cetáceos nas proximidades das Atividades de Perfuração dos Poços de Exploração de Petróleo e Gás na região rasa da Área Geográfica do Espírito Santo (AGES) e nas proximidades da plataforma de Cação para PETROBRAS - UO-ES - 2012

- Projeto de Comunicação Social Regional da PETROBRAS Bacia de Campos (PCSR-BC) - 2012

- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental (EIA/RIMA) e atendimento as condicionantes para obtenção da Licença Prévia e Licença de Instalação do empreendimento Itaoca Terminal Marítimo, terminal de apoio logístico às atividades offshore de exploração e produção de petróleo e gás, a ser instalado em Itapemirim – ES. - 2011

- Monitoramento de avifauna e mastofauna na área de influência do empreendimento de instalação e operação do Campo de Petróleo e Gás de Fazenda Alegre e do Terminal Norte Capixaba da PETROBRAS UN-ES. - 2011

- Programa de Comunicação Social do Terminal Ponta da Madeira, da Delphi, em São Luís/MA. - 2011

- Projeto de Monitoramento de Praias na área de influência do complexo da industrial da LLX Logística, em do Porto do Açu. - 2011

- Elaboração do Relatório de Controle (RCA) da Usina Termoelétrica Linhares II, da Diferencial Energia, município de Linhares/ES. - 2010

- Programa de Compensação da Atividade Pesqueira da área de influência do gasoduto Camarupim– Jubarte da PETROBRAS UO-ES. - 2010

- Programa de Monitoramento de Desembarque Pesqueiro da área de influência da PETROBRASUO-BC e UO-Rio. - 2010

- Projeto de Monitoramento de Praias compreendidas entre os municípios de Conceição da Barra(ES) e Saquarema (RJ), atendimento às condicionantes ambientais da Petrobras no âmbito do E&P-EXP/SMS e da UO-ES/SMS/MA - 2010

- Projeto de reflorestamento (PRAD) de 50ha na Floresta Nacional de Goytacazes, da TRANSPETRO, município de Linhares/ES. - 2010

- Relatório de Controle Ambiental do empreendimento Reentrada e Completação de Poços de Hidrocarbonetos localizados no Campo Marginal Rio Ipiranga, município de Linhares/ES - 2010

- Auditoria Ambiental de Conformidade Legal da empresa CST/Arcelor Brasil - 2009

- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental da Usina Termoelétrica Cacimbas, da Energética Capixaba, município de Linhares/ES - 2009

- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental da Usina Termoelétrica Escolha, da Energética Capixaba, município de Linhares/ES - 2009

- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental (EIA/RIMA) e atendimento as condicionantes para obtenção da Licença Prévia e Licença de Instalação do Projeto do ESTALEIROJURONG ARACRUZ, município de Aracruz/ES - 2009

- Estudo Técnico Visando a Delimitação e Definição da Unidade de Conservação na Região da Barra Nova, para TRANSPETRO, Município de São Mateus/ES. - 2009

- Relatório de Controle Ambiental da atividade de locação e perfuração dos poços exploratórios terrestres Girassol e Margarida, nos Blocos ES-T-401 e ES-T-410, localizados no município de São Mateus, ES. - 2009

- Relatório de Controle Ambiental da atividade de perfuração de dois poços de petróleo terrestres na bacia do São Francisco, Bloco BT-SF-2 (Contrato de Concessão da ANP), para PETROBRAS, no Estado de Minas Gerais. - 2009

- Auditoria ambiental com vistas à devolução do bloco POT-T-439 da KOCH PETRÓLEO BRASIL localizado no interior do estado do Rio Grande do Norte. - 2008

- Auditoria ambiental com vistas à devolução dos blocos BT-ES-28, BT-ES-32, BT-ES-34 e BT-ES-35localizados na bacia Sedimentar do Espírito Santo, para PETROBRAS – UN-ES, municípios de São Mateus e Caravelas/BA. - 2008

- Auditoria ambiental com vistas à devolução dos blocos ES-T 291, ES-T 305 e ES-T 363 localizados na bacia Sedimentar do Espírito Santo, para KOCH PETRÓLEO BRASIL, municípios de Conceição da Barra e São Mateus. - 2008

- Avaliação Ambiental Estratégica para implantação do Projeto do Estaleiro Jurong Aracruz município de Aracruz/ES. - 2008

- Diagnóstico socioeconômico da instalação da Unidade de Tratamento de Gás Sul Capixaba (UTG Sul), para PETROBRAS, em Anchieta/ES - 2008

- Programa de Acompanhamento e Salvamento de Fauna e do Programa de Resgate e Conservação da Flora Nativa na Faixa do Gasoduto Cacimbas / Catu – GASCAC para PETROBRAS. - 2008

- Relatório de Controle Ambiental de duas linhas de gás para PETROBRAS nos municípios de São Mateus e Jaguaré/ES - 2008

- Relatório de Controle Ambiental do Levantamento geofísico terrestre 2D no Bloco ES-T-318, para Brazalta Brasil, município de Conceição da Barra, ES. – 2008

- Levantamento de Passivos Ambientais na Área do Campo Marginal de Petróleo e Gás de Crejoá pra KOCH PETRÓLEO – 2007

- Monitoramento de ictiofauna, crustáceos do manguezal e bentos estuarinos na área de influência do empreendimento de instalação e operação do Terminal Norte Capixaba para PETROBRAS UN-ES - 2007

- Projeto de Educação Ambiental dos Trabalhadores (PEAT) da Balsa Guindaste de Lançamento (BGL-1 - Campo de Golfinho) para PETROBRAS UN-ES – 2007

- Projeto de Educação Ambiental dos Trabalhadores (PEAT) das Embarcações de Apoio do Campo de Golfinho para PETROBRAS UN-ES, 2007

- Projeto de Educação Ambiental (PEA) nos Municípios de Piúma e Itapemirim, localizados na área de influência do Campo de Jubarte da PETROBRAS UN-ES – 2007

- RCA – Relatório de Controle Ambiental do empreendimento Perfuração de Poço Exploratório de Petróleo e Gás 1-SD-001 ES, localizado no Bloco Exploratório BT-ES-305, para KOCH PETRÓLEOBRASIL, município de Conceição da Barra/ES. – 2007

- Relatório de Controle Ambiental do empreendimento Perfuração de Poço Exploratório de Petróleo e Gás 1-LIN-001 ES, localizado no Bloco Exploratório BT-ES-291, para KOCH PETRÓLEO BRASIL, município de Conceição da Barra/ES. – 2007

- Relatório de Controle Ambiental do empreendimento Perfuração de Poço Exploratório de Petróleo e Gás 4-COG-003 ES, localizado no Bloco Exploratório BT-ES-363, para KOCH PETRÓLEO BRASIL, município de São Mateus/ES. – 2007

- Relatório de Controle Ambiental do empreendimento Reentrada e Completação de Poços de Hidrocarbonetos localizados no Campo Marginal Crejoá, município de Conceição da Barra/ES. – 2007

- Relatório de Controle Ambiental do Programa Sísmico na Área do Bloco Exploratório ES-T 291 e305, localizados no município de Conceição da Barra /ES. – 2007

- Relatório de Controle Ambiental do Programa Sísmico nas Áreas dos Blocos Exploratórios ES-T363, localizado no município de São Mateus/ES – 2007

- Relatório de Controle Ambiental do Programa Sísmico 3D Inhambú, localizado no município de São Mateus/ES. – 2007

- Execução do Projeto de Educação Ambiental dos Trabalhadores (PEAT) do FPSO Seillean em operação no Campo de Golfinho. – 2006

- Acompanhamento dos impactos ambientais da atividade do Programa de Sísmica 3D Lagoa Parda sobre a lagoa Parda e um fragmento florestal em área adjacente à Reserva Biológica de Comboios. – 2005

- Auditoria ambiental para devolução do Bloco Exploratório Terrestre BT-ES-14 e BT-ES-15. - 2005

- Declaração de Impacto Ambiental do empreendimento Interligação da 3a Ponte à Avenida Carlos Lindenberg, município de Vila Velha, ES. – 2005

- Auditoria ambiental para avaliação do desempenho ambiental da Rodosol quanto a sua gestão ambiental. - 2004

- Auditoria ambiental para devolução do Bloco Exploratório Terrestre Cananéia. – 2004

- Auditoria ambiental para devolução do Bloco Exploratório Terrestre Norte de Fazenda Alegre. - 2004
- Avaliação da existência de passivos ambientais nos alagados interceptados pela construção da Rodovia do Sol - Trecho Contorno de Guarapari. - 2004

- Caracterização hidrobiológica da massa d'água e do sedimento das lagoas compreendidas dentro da área de influência do projeto de expansão da CST. - 2004

- Monitoramento de Ictiofauna, Crustáceos Estuarinos e Bentos do Manguezal nas áreas de influência direta do TNC - Terminal Norte Capixaba. - 2004
- Monitoramento hidrobiológico da massa d'água e do sedimento das lagoas compreendidas dentro da área de influência do projeto de expansão da CST. - 2004
- Monitoramento marinho biológico da monobóia do Terminal Norte Capixaba – TNC – 2004
- Auditoria ambiental para devolução do Bloco Exploratório Marítimo BES-2. – 2003
- Auditoria ambiental para devolução dos Blocos Exploratórios Marítimos BAS-60, BAS-85 e BAS-86. - 2003
- Declaração de Impacto Ambiental do empreendimento Sistema de Coleta da produção e Distribuição de Vapor do Campo de Fazenda Alegre – 2003
- Declaração de Impacto Ambiental para a operação da planta de fluido de perfuração e planta de granéis na Base de Apoio à Atividade Petrolífera, Supply Base, na Retroárea da PEIÚ, Vila Velha, ES. - 2003
- Plano de Gestão Sócio Patrimonial e Ambiental dos Reservatórios e Usinas Hidrelétricas da ESCELSA - 2003
- Estudo de Impacto Ambiental e Relatório de Impacto Ambiental do empreendimento de exploração de sal-gema no município de Conceição da Barra ES. - 2002
- Plano de Gestão Sócio-patrimonial e Ambiental dos Reservatórios das Hidrelétricas da ESCELSA - 2003.
- Extração, armazenamento e Expedição de Salmoura no município de Conceição da Barra/ES - 2002.
- Monitoramento Ambiental do Estuário do Rio Piraquê-açú - 2002.
- Operação da Planta de Fluidos de Perfuração da Baker Hughes do Brasil - 2002.
- Operação do Terminal de Armazenamento de Óleo Diesel Marítimo da Hiperpetro Terminal Marítimo - 2002.

CURSOS E EVENTOS RECENTES

Nome do curso	• Curso de curta duração em ICS 100: Introduction to the Incident Command System. (Carga horária: 2h). Federal Emergency Management Agency MAIN, FEMA, Washington, Estados Unidos. Ano: 2020

Nome do curso	• Curso de curta duração em ICS 200: Basic Incident Command System for Initial Response. (Carga horária: 4h). Federal Emergency Management MAIN, FEMA, Estados Unidos. Ano: 2020
Nome do curso	• Curso de curta duração em ICS 300: Intermediate ICS for Expanding Incidentes. (Carga horária: 16h). Witt O'Brien's, WOB Brasil, WOB BRASIL, Brasil. Ano: 2020
Nome do curso	• Curso de curta duração em ICS 320: Intermediate ICS for Mitigation Saff. (Carga horária: 16h). Witt O'Brien's, WOB Brasil, WOB BRASIL, Brasil. Ano: 2020
Nome do curso	• Curso de curta duração em Auditor Líder de Sistema de Gestão Ambiental – NBR ISO 14.001. (Carga horária: 48h). Stat-A-Matrix Institute, S-A-M.I., Estados Unidos. Ano 2010

PREMIAÇÕES E TRABALHOS PUBLICADOS

Nome da premiação ou trabalho publicado:	• Qualidade da Água em Tanques de Girinos de Rã-touro, Rana catesbeiana Shaw, Cultivados em Diferentes Densidades de estocagem. Revista Brasileira de Zootecnia / Brazilian Journal of AnimalScience., v.29, p.1903 - 1911, 2000.
Nome da premiação ou trabalho publicado:	• O Programa de Carcinicultura de Água Doce do Espirito Santo In: Aquicultura Brasil98, 1998., 1998. p.85 - 85.
Nome da premiação ou trabalho publicado:	• Programa de Maricultura do Espírito Santo In: Aquicultura Brasil98, 1998., 1998. p.165 - 165.
Nome da premiação ou trabalho publicado:	• Projeto Ranicultura - Cultivo Experimental de Ra-Touro RANA CATESBEIANA Shaw, 1802 e Difusão de Tecnologia de Cultivo no Espírito Santo In: AQUICULTURA BRASIL, 98, 1998., 1998. v.1. p.271 - 271
Nome da premiação ou trabalho publicado:	• Desempenho de Girinos de Ra-touro RANA CATESBEIANA Shaw, 1802, cultivados em Diferentes Densidades de Estocagem In: II INTERNACIONAL MEETING ON FROG RESEARCH ANDTECHNOLOGY, 1997., 1997. v.1. p.201 - 201
Nome da premiação ou trabalho publicado:	• Diagnostico tecnico-econômico da Atividade de Ranicultura no Estado do Espírito Santo In: TECHNOFROG, 97, 1997, 1997. v.1. p.223 – 223
Nome da premiação ou trabalho publicado:	• Qualidade da Água em Tanques de Girinos de Ra-touro RANA CATESBEIANA Shaw, 1802, cultivados em diferentes Densidades de Estocagem In: II Internacional Meeting on Frog Research and Technology,1997., 1997. v.1. p.218 - 218

Nome da premiação ou trabalho publicado:	• Aquicultura Sustentável. Jornal Aquicultura capixaba. Vitória/ES, v.7, p.2 - 2, 2005.

ALEXANDRE BRAGA COLI

FORMAÇÃO

Formação Acadêmica:	• Oceanógrafo, Mestre em Engenharia Oceânica, Doutor em Engenharia Costeira
Idioma:	• Português, Inglês
Informática:	• Office, AutoCAD, Project e Linguagens C, FORTRAN, VBA e MATLAB. Modelagem numérica com modelos Delft3D, SWAN, SWASH e VPLUMES.
Conselho de Classe	• AOCEANO 1624
Registro IBAMA	• CTF 2712196

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting
Cargo:	• Gerente Técnico Operacional
Período:	• Início em 09/2022
Principais Atividades:	• Gerenciamento de projetos com orientação técnica, operacional e financeira nos estudos marítimos, portuários, óleo e gás offshore, litorâneos, costeiros, estuarinos ou que envolvam corpos de água, além dos estudos de atendimento a emergências da AMBIPAR RESPONSE e estudos de risco (EAR, PGR, PAE, PEI e PRE).
Empresa:	• Oceano Digital
Cargo:	• Sócio, Diretor Executivo e Oceanógrafo Sênior
Período:	• 2013-2022
Principais Atividades:	• Modelagem costeira e processamento de dados meteoceanográficos: modelagem hidrodinâmica, propagação de ondas, morfodinâmica, dragagem e sedimentação de portos, dispersão de efluentes e derramamento de óleo, processamento a análise de dados, elaboração de programas computacionais, diagnósticos ambientais do meio físico.
Empresa:	• CP+
Cargo:	• Gerente Operacional
Período:	• 2011-2013
Principais Atividades:	• Gerente Operacional da Unidade de Modelagem Numérica na CP+ Meio Ambiente (UO-MOD) e Oceanógrafo Sênior em modelagem costeira e processamento de dados meteoceanográficos com trabalhos executados para licenciamento e engenharia costeira
Empresa:	• CEPEMAR
Cargo:	• Gerente de Projetos
Período:	• 2008-2011
Principais Atividades:	• Responsável pela criação e desenvolvimento do Núcleo de Modelagem Numérica da CEPEMAR Meio Ambiente (CPMOD) e Oceanógrafo Sênior em modelagem costeira e processamento de dados meteoceanográficos com trabalhos executados para licenciamento e engenharia costeira.
Empresa:	• LNEC
Cargo:	• Assistente de Investigação e Bolsista de Estudo da FCT
Período:	• 2001-2008

Principais Atividades:	• Trabalhos por contrato com modelagem numérica, modelo de propagação de ondas SWAN, transcrição de modelos em Pascal, VBA e C para Fortran e integrante da equipe de desenvolvimento da metodologia TRANSFER do LNEC. O Doutorado, com o tema de tese Estimação de Parâmetros de Estados de Mar ao Largo por Metodologia Inversa, foi desenvolvido no Departamento de Hidráulica e Ambiente, Núcleo de Portos e Estruturas Marítimas do LNEC em convênio com o Departamento de Engenharia Civil (DECivil) do Instituto Superior Técnico (IST), Universidade Técnica de Lisboa (UTL).
Empresa:	• UNIVERSIDADE DO ALGARVE
Cargo:	• Bolsista de Trabalho do FEDER
Período:	• 2000-2001
Principais Atividades:	• Assistente de Investigação do Fundo de Desenvolvimento Regional da União Europeia (FEDER / CCR–Algarve) pelo projeto EMERGE - Estudo Multidisciplinar do Estuário do Rio Guadiana, no Centro de Investigação de Ambientes Costeiros e Marinhos. Trabalhos de coordenação e execução de trabalhos de correntometria, maregrafia, hidrografia, batimetria e perfis de praia.
Empresa:	• PETCON (Planeamento, Engenharia, Transportes e Consultoria)
Cargo:	• Gerente e Coordenador de Campo
Período:	• 1997-2000
Principais Atividades:	• Gerente de projeto e coordenador dos trabalhos de campo dos projetos Estudo de Navegabilidade do Rio Grande, Bahia; Levantamentos Hidrográficos na Foz do Rio Salgado, Alcântara, Maranhão; Estudo Objetivando Definir as Causas do Assoreamento do Porto do Mucuripe, Fortaleza, Ceará.
Empresa:	• FURG (Universidade Federal do Rio Grande)
Cargo:	• Bolsista da CAPES/MCT
Período:	• 1995-1996
Principais Atividades:	• Mestrado em Engenharia Oceânica do Departamento de Engenharia Civil com o título Estudo do Clima de Ondas em Rio Grande.
Empresa:	• FURG (Universidade Federal do Rio Grande)
Cargo:	• Bolsista do Projeto Petrobras
Período:	• 1996
Principais Atividades:	• Bolsista do convênio da PETROBRAS com as Universidades Federais FURG - UFRGS - UFSC - UFPR, pelo projeto Estudos Ambientais em Áreas Oceânicas e Costeiras no Sul do País, no Departamento de Física, Sector de Oceanografia Física.
Empresa:	• UFSC (Universidade Federal de Santa Catarina)
Cargo:	• Bolsista do Projeto Petrobras
Período:	• 1995
Principais Atividades:	• Bolsista do convênio da PETROBRAS com as Universidades Federais FURG - UFRGS - UFSC - UFPR, pelo projeto Estudos Ambientais em Áreas Oceânicas e Costeiras no Sul do País, no Departamento de Engenharia Sanitária e Ambiental, Laboratório de Hidrologia Marinha.

EXPERIÊNCIA EM LICENCIAMENTO AMBIENTAL

PARTICIPAÇÃO EM ESTUDOS DE LICENCIAMENTO AMBIENTAL / EIA (IBAMA)

ANO	EMPREENDIMENTO	UF	CLIENTE	ESTUDO
2022	Terminal de Uso Privativo Urussuquara	ES	Petrocity	• LP Diagnóstico Físico Oceanografia; Modelagem Efluente Térmico e Salino e Derramamento de Óleo (PEI)

PRINCIPAIS TRABALHOS REALIZADOS

RELATÓRIOS TÉCNICOS

2022 OCEANO DIGITAL. Estudo de Modelagem de Óleo IFO 380 para a implantação do TUP Urussuquara, São Mateus (ES). Relatório Técnico RT OD 2022-208 A. Cliente: PETROCITY Portos.

2022 OCEANO DIGITAL. Estudo de Modelagem de Efluentes Termo-halinos da UTE-FSRU do TUP Urussuquara, São Mateus (ES). Relatório Técnico RT OD 2022-208 B. Cliente: PETROCITY Energia.

2021 OCEANO DIGITAL. Modelagem de Ondas (SWAN e SWASH) para o Estudo de Amarração de Navios do Porto de Imbetiba, Macaé (RJ). Relatório Técnico RT OD 2021-220 B Cliente: Tanque de Provas Numérico TPN-USP | PETROBRAS. Dez 2021.

2021 OCEANO DIGITAL. California Modelling Report: SWAN Modelling on Southern California, USA. Part 2. Relatório Técnico RT OD 2021-214b. Cliente: SURFLINE WAVETRAK INC.

2021 OCEANO DIGITAL. California Modelling Report: SWAN Modelling on Southern California, USA

2021 OCEANO DIGITAL. Modelagem Hidrodinâmica para Simulação de Manobrabilidade para o Novo Porto Terminais Portuários Multicargas e Logística, Paranaguá (PR). Relatório Técnico RT OD 2021-214a. Cliente: Novo Porto Terminais Portuários Multicargas e Logística Ltda

2021 OCEANO DIGITAL. Estudo de Modelagem Numérica do Transporte e Dispersão de Efluente do Emissário Submarino de Rio das Ostras, RJ. Relatório Técnico RT OD 2021-199. Cliente: CEPEMAR | BRKAMBIENTAL. Mar 2021.

2021 OCEANO DIGITAL. Modelagem Numérica do Transporte e Dispersão de Plumas de Dragagem (Hopper e Cutter) e Plumas de Descarte do Terminal Portuário Brites, Santos (SP). Relatório Técnico RT OD 2021-182B. Cliente: NP AMBIENTAL | Triunfo Participações.

2021 OCEANO DIGITAL. Estudo de Modelagem de Óleo IFO 380 para a implantação dos Terminais TPB (Terminal Portuário Brites) no Estuário de Santos, SP.). Relatório Técnico RT OD 2021-182C. Cliente: NP AMBIENTAL | Triunfo Participações.

2020 OCEANO DIGITAL. Estudo de Modelagem de Óleo para a implantação dos Terminais TPB (Terminal Portuário Brites) e TPL (Terminal Portuário Logístico) no Estuário de Santos, SP. Relatório Técnico RT OD 2020-182A. Cliente: NP AMBIENTAL | Triunfo Participações.

2020 OCEANO DIGITAL. Estudo de Modelagem para a implantação do Terminal Logístico Integrado do Paraná (TERLIP) no Estuário de Paranaguá: Hidrodinâmica para Simulação de Manobrabilidade de Navios. Relatório Técnico RT OD 2020-183. Cliente: Tanque de Provas Numérico TPN-USP .

2020 OCEANO DIGITAL. Estudo de Modelagem para a implantação do Terminal Logístico Integrado do Paraná (TERLIP) no Estuário de Paranaguá: Impacto na hidrodinâmica e taxas de Sedimentação. Relatório Técnico RT OD 2020-183B. Cliente: Tanque de Provas Numérico TPN-USP

2020 OCEANO DIGITAL. Modelagem de Transporte e Dispersão do Efluente Sanitário da ETE Nova Almeida, Serra (ES). Cliente: CEPEMAR/SERRA AMBIENTAL-CESAN. RT OD 2020-158. Maio 2020.

2019 OCEANO DIGITAL. Modelagem Numérica dos Efeitos da Dragagem de Extração de Areia para Engordamento da Curva da Jurema na Linha de Costa de Vitória. Cliente: VILLA RICA MINERAÇÃO. RT OD 2019-170. Dezembro 2019.

2019 OCEANO DIGITAL. Modelagem da Dispersão e Transporte de Efluente Térmico da FSRU – UTE São Marcos, Maranhão. Cliente: CONTROL AMBIENTAL | ENEVA. RT OD 2019-148. Novembro 2019.

2019 OCEANO DIGITAL. Modelagem da Dispersão e Transporte de Efluente Térmico e Salino da UTE São Marcos, Maranhão. Cliente: CONTROL AMBIENTAL | ENEVA. RT OD 2019-148. Novembro 2019.

2019 OCEANO DIGITAL. Modelagem da Dispersão e Transporte de Manchas Acidentais de óleo para o EIA da UTE São Marcos, Maranhão. Cliente: CONTROL AMBIENTAL | ENEVA. RT OD 2019-148ª.Outubro 2019.

2019 OCEANO DIGITAL. Modelagem da Influência do IMETAME Logística Porto no Transporte e Dispersão do Efluente Industrial da SUZANO: configuração Portuária Final, Aracruz, ES. Relatório Técnico RT OD 2019-172. Cliente: IMETAME Logística. Agosto 2019.

2019 OCEANO DIGITAL. Estudo de Modelagem do Transporte e Dispersão de Efluentes de Minério da VALE TIG na Ilha Guaíba, Mangaratiba, RJ. Relatório Técnico RT OD 2019-163. Cliente: CP+ | VALE TIG. Agosto 2019.

2019 OCEANO DIGITAL. Caracterização Morfodinâmica e Meteoceanográfica das Praias do Município da Serra. Seções: 3.3 – Estudo Morfodinâmico. 3.4 – Oceanografia Física. 3.7 – Modelagem Hidrodinâmica e de Transporte de Sedimentos. 3.6 – Análise da influência dos corpos hídricos. 3.9 – Avaliação das intervenções antrópicas. 3.10 – Determinação do Limite Seguro de Ocupação da Orla. 3.11 – Determinação da Retrogradação das Praias. Relatório Técnico RT OD-021-B. Cliente: Econservation | Prefeitura Municipal da Serra. Março de 2019.

2019 OCEANO DIGITAL. Modelagem do Transporte e Dispersão de Cloreto nas Lagoas 7 e 10 do Complexo de Tubarão/VALE, Vitória, ES. Relatório Técnico RT OD 2018 137. Cliente: CP+ |VALE. Janeiro 2019.

2018 OCEANO DIGITAL. Modelagem de ondas, hidrodinâmica, transporte de sedimentos e morfodinâmica do litoral do município da Serra, ES. Relatório Técnico RT OD-021-A. Cliente: Econservation | Prefeitura Municipal da Serra. Dez 2018.

2018a OCEANO DIGITAL. Modelagem da Influência do IMETAME Logística Porto no Transporte e Dispersão do Efluente Industrial da FIBRIA, Aracruz, ES. Relatório Técnico RT OD 2018-152-A. Cliente: IMETAME LOGÍSTICA. Dez 2018.

2018b OCEANO DIGITAL. Modelagem da Influência do IMETAME Logística Porto no Transporte e Dispersão do Efluente Industrial da FIBRIA: configuração portuária L1, L2 e L3, Aracruz, ES. Cliente: IMETAME LOGÍSTICA. RT OD 2018-152-B. Fevereiro 2019.

2018 OCEANO DIGITAL. Modelagem Hidrodinâmica das vias de acesso ao Terminal Portuário da Imetame, Aracruz, ES. Relatório Técnico RT OD 2018-153. Cliente: Tanque de Provas Numérico TPN-USP . Nov 2018.

2018 OCEANO DIGITAL. Estudo de Modelagem Hidrodinâmica do Terminal Portuário da JURONG, Aracruz, ES. Cliente: CP+ Meio Ambiente | JURONG. RT OD 2018-133. Julho 2018.

2018 OCEANO DIGITAL. Estudo de Modelagem do Transporte e Dispersão do Efluente da VALE na Praia Mole, Vitória, ES. Cliente: CP+ | VALE. RT OD 2018-128 | Fev 2018.

2018 OCEANO DIGITAL. Monitoramento de Perfis de Praia no Trecho Costeiro entre Guaibim e Ponta dos Garcez, BA: Ponto de Toque do Gasoduto. Relatório Técnico Consolidado: 31ª campanha. Março-2018. Cliente: Econservation | PETROBRAS. RT OD 2018-124c | Mar 2018.

2017 OCEANO DIGITAL. Monitoramento de Perfis de Praia no Trecho Costeiro entre Guaibim e Ponta dos Garcez, BA: Ponto de Toque do Gasoduto. Relatório Técnico Consolidado: 30ª campanha. Setembro-2017. Cliente: Econservation | PETROBRAS. RT OD 2017-124b | Out 2017.

2017 OCEANO DIGITAL. Estudo de Modelagem do Transporte e Dispersão de Efluentes Térmicos no Terminal Industrial IMETAME, Aracruz, ES. Cliente: ECP ENVIRONMENTAL SOLUTIONS | IMETAME. RT OD 2017-125 | Out/2017.

2017 OCEANO DIGITAL. Revisão e elaboração dos PBA´s para atender as condicionantes da Licença de Instalação do Terminal Portuário da IMETAME LOGISTICA, Aracruz, ES. Cliente Econservation:

2017 OCEANO DIGITAL. Estudo de Modelagem Numérica do Transporte e Dispersão de Óleo no Terminal da Portocel II, Aracruz, ES. Cliente: Econservation/PORTOCEL. RT OD 2017-84 | Abr 2017.

2017 OCEANO DIGITAL. Estudo de Modelagem Numérica das Plumas de Dragagem, Overflow e Descarte e Evolução do Depósito de Fundo do Bota-Fora: Terminal Industrial IMETAME, Aracruz, ES. Cliente: IMETAME LOGÍSTICA. RT OD 2017-107 | Mar 2017.

2017 OCEANO DIGITAL. Estudo de Modelagem Numérica do Transporte e Dispersão de Óleo no Terminal Marítimo de Ponta Ubu, Anchieta, ES. Cliente: CP+ Meio Ambiente | SAMARCO. RT OD 2017-99 | Fev 2017.

2016 OCEANO DIGITAL. Modelagem de Transporte e Dispersão de Óleo no Terminal Industrial da IMETAME, Aracruz, ES. WITT | O' BRIEN'S / IMETAME. RT OD 2016-102. Novembro de 2016.

2016 OCEANO DIGITAL. Modelagem de Transporte e Dispersão do Efluente da Evonik Degussa no Rio Riacho, Aracruz, ES. CP+ Soluções Ambientais / EVONIK. RT OD 2016-97. Dezembro de 2016.

2016 OCEANO DIGITAL. Monitoramento Hidrodinâmico da Pluma do Efluente Industrial da Fibria em Aracruz, ES. Campanha 1: 03 de Março de 2016. AMBILEV. RT OD 2016-90A. Junho de 2016.

2016 OCEANO DIGITAL. Modelagem de Transporte e Dispersão de Óleo no Terminal Portuário da Liquiport na Baía de Vitória, Vila Velha (ES). WITT | O`BRIENS / ODEBRECHT TRANSPORT. RT OD 2016-85. Junho de 2016.

2016 OCEANO DIGITAL. Modelagem da Plumas de Descartes e Evolução do Depósito de Fundo do Bota-fora do TMIB, SE. CTA / VLI. RT OD 2016-81. Setembro de 2016.

2016 OCEANO DIGITAL. Estimação da Concentração de Sólidos em Suspensão das Campanhas de ADCP Realizadas em Itueta e Mascarenhas. ECONSERVATION / AMBILEV / SAMARCO. NT OD 2016-72A. Janeiro de 2016.

2016 OCEANO DIGITAL. Analise das Propriedades da Água do Mar. Salinidade, Temperatura, Turbidez, Oxigênio Dissolvido e Clorofila-a entre Nova Viçosa (BA) e Vitória (ES). AMBILEV / SAMARCO. RT OD 2016-77B. Janeiro de 2016

2016 OCEANO DIGITAL. Tratamento e Análise de Dados Oceanográficos da Região Costeira e Oceânica da Foz do Rio Doce. Correntometria, Maregrafia e Hidrografia. AMBILEV / SAMARCO.

2016 OCEANO DIGITAL. Estimação de Sólidos em Suspensão a partir de Medições de ADCP. Projeto Dados Oceanográficos da Região Costeira e Oceânica da Foz do Rio Doce. AMBILEV / SAMARCO.

2016 OCEANO DIGITAL. Revisão e elaboração do PBA do Terminal Portuário Privativo para Embarque de Minério de Ferro de Presidente Kennedy, ES. ECONSERVATION: Programa de Monitoramento da Dragagem Marinha; Programa de Monitoramento da Dragagem Estuarina; Plano de Monitoramento da Morfodinâmica Da Costa.

2016 OCEANO DIGITAL. Diagnóstico da Qualidade dos Sedimentos Marinhos do Terminal de Barcaças da Barra do Riacho (ES). RHEA. RT OD 2015-71. Outubro de 2015.

2015 OCEANO DIGITAL. Modelagem Morfodinâmica do Terminal Portuário de Uso Múltiplo da NUTRIPETRO, Aracruz, ES. ECONSERVATION / NUTRIPETRO. RT OD 2015-66-A. Dezembro de 2015.

2015 OCEANO DIGITAL. Transporte e Dispersão de Óleo no Terminal Portuário de Uso Múltiplo da NUTRIPETRO, Aracruz, ES. ECONSERVATION / NUTRIPETRO. RT OD 2015-66-B. Dezembro de 2015.

2015 OCEANO DIGITAL. Modelagem Numérica das Plumas de Descarte e Depósito de Fundo do Bota-fora do Estaleiro Jurong. JURONG / ECONSERVATION. RT OD 2015-48. Junho de 2015.

2015 OCEANO DIGITAL. Estudo de Modelagem Numérica para Estimar a Taxa de Sedimentação nas Áreas do Terminal Especializado de Barra do Riacho, ES. CP+ Soluções Ambientais/PORTOCEL. RT OD 2015-26. Maio de 2015.

2015 OCEANO DIGITAL. Estudo para a Implementação de um Sistema Operacional de Monitoramento Meteoceanográfico no Porto Sudeste, Baía de Sepetiba, Itaguaí, RJ. PORTO SUDESTE. RT OD 2015-56. Março de 2015.

2015 OCEANO DIGITAL. Regime de Extremos de Ondas do Terminal de Transbordo São Mateus (ES). ODEBRECHT TRANSPORT S.A. RT OD 2015-47. Janeiro de 2015.

2014 OCEANO DIGITAL. Estudo de Modelagem de Transporte e Dispersão de Óleo e Fluido de Perfuração no Terminal Marítimo de Ponta de Ubu, Anchieta, ES. Relatório Técnico RT 0D 2014-12. CP+ Soluções Ambientais/BS-FLUIDOS. Julho 2014.

2014 OCEANO DIGITAL. Estudo de Modelagem Numérica da Alternativa de Capeamento para a Recuperação da Região Norte da Praia de Camburi, Vitória, ES. Relatório Técnico RT 0D 2014-08. ECONSERVATION/VALE. Junho de 2014

2014 OCEANO DIGITAL. Estudo de Modelagem de Transporte e Dispersão de Óleo na Estação de Transbordo do Terminal São Mateus (ES). Relatório Técnico RT 0D 2014-02. CP+ Soluções Ambientais/ODEBRECHT Transportes. Junho 2014.

2014 OCEANO DIGITAL. Estudo de Modelagem do Transporte e Dispersão de Efluentes na Base de Apoio Logístico Offshore da CPORT em Itapemirim, ES. Relatório Técnico RT 0D 2013-11 C-PORT BRASIL LOGÍSTICA OFFSHORE LTDA. Janeiro 2014

2013 OCEANO DIGITAL. Estudo de Modelagem Numérica das Lagoas Costeiras do Complexo Portuário do Açú, São João da Barra, RJ. Relatório Técnico CONTROL AMBIENTAL / LLX. RT 0D 07/2013. Novembro 2013.

2013 OCEANO DIGITAL. Estudo de Modelagem do Transporte e Dispersão de Óleo próximo ao Complexo Industrial do Porto de Tubarão e Praia Mole, Vitória, ES. Relatório Técnico CP+ / VALE. RT 0D 03/2013. Novembro 2013.

2013 OCEANO DIGITAL. Estudo de Modelagem Morfodinâmica dos Impactos da Construção do Cais Corrido do Atalaia, ES. CP+ / CODESA. Relatório Técnico. RT OD 01/13. Setembro 2013.

2013 CP+. Estudo de Sedimentação para a Área de Dragagem da Portocel: Terminal Especializado de Barra do Riacho. PORTOCEL. Relatório Técnico. CPM RT 102/13. Março 2013.

2012 CP+. Modelagem de Transporte e Dispersão de Óleo Combustível Marítimo no Terminal Portuário da IMETAME (ES). IMETAME LOGISTICA. Relatório Técnico. CPM RT 358/12. Dezembro 2012.

2012 CP+. Comparação entre o Estudo de Modelagem Numérica e as Medições Obtidas em Campo Rerentes à Dragagem de Manutenção do Porto de Tubarão. VALE. CPM RT 206/12. Setembro 2012.

2012 CP+. Modelagem de Transporte e Dispersão de Óleo Diesel na Baía de Vitória (ES) - Terminal Portuário da LIQUIPORT. LIQUIPORT. Relatório Técnico. CPM RT 314/12. Novembro 2012.

2012 CEPEMAR. Modelagem Numérica da Dispersão do Efluente Salino em Barra dos Coqueiros, Sergipe. Relatório Técnico VPN-VALE POTÁSSIO DO NORDESTE. CPM RT 207-12. Agosto de 2012.

2012 CEPEMAR. Estudo de Modelagem: Sedimentação do Porto de Tubarão e Capacidade de Suporte da Área de Disposição. VALE. CPM RT 203/12. Julho de 2012.

2012 CEPEMAR. Modelagem Numérica dos Efeitos da Dragagem de Extração de Areia na Baía do Espírito Santo (ES). RCA de Villa Rica. Villa Rica Mineração. CPM RT 053/12. Março 2012.

2011 CEPEMAR. Modelagem Numérica da Dragagem do Terminal da Imetame, Aracruz (ES). In: _____ EIA Estudo de Impacto Ambiental do Terminal Industrial Imetame. CPM RT 360/11. Dezembro de 2011.

2011 CEPEMAR. Modelagem Numérica do Efluente do Terminal da Imetame, Aracruz (ES), In: _____ EIA Estudo de Impacto Ambiental do Terminal Industrial Imetame. CPM RT 360/11. Dezembro de 2011.

PREMIAÇÕES E TRABALHOS PUBLICADOS

PREMIAÇÃO

2003 O trabalho Estimação de Regimes de Agitação Marítima em Locais Onde Não Existam Dados, apresentado nas 3as Jornadas Portuguesas de Engenharia Costeira e Portuária, foi vencedor do prêmio Adolpho Loureiro, concedido pela delegação portuguesa da International Navigation Association (PIANC).

COOPERAÇÃO CIENTÍFICA NA OTAN

2006 Trabalho realizado no Departamento de Oceanografia Militar do NURC (NATO Undersea Research Centre) sob supervisão do Doutor Daniel Conley. O objetivo foi aplicar a metodologia inversa desenvolvida na Tese de Doutorado aos dados de agitação marítima da OTAN para subsidiar futuras operações militares. Realizado em La Spezia, Itália, no período de 19 a 30 de Junho de 2006.

TESE, DISSERTAÇÃO E ARTIGOS COM ARBITRAGEM CIENTÍFICA

2008 Tese de Doutorado: Estimação de Parâmetros de Estados de Mar ao Largo por Metodologia Inversa, Lisboa, Portugal. Tese de Doutorado em Ciências da Engenharia, pelo Instituto Superior Técnico (IST), Universidade Técnica de Lisboa (UTL).

2000 Dissertação de Mestrado: Estudo do Clima de Ondas em Rio Grande, Rio Grande do Sul, Brasil. Dissertação de mestrado em Engenharia Oceânica pela Universidade Federal do Rio Grande, RS, Brasil.

2004 Caracterização e Propagação da Agitação Marítima na Praia de Porto Santo, Madeira. Fortes, C.J.; Capitão, R.; Neves, M.G.; Coli, A.B. Revista Recursos Hídricos – Hidráulica Marítima. Associação Portuguesa de Recursos Hídricos (APRH), Vol. 25(2), Setembro, pp. 25-42.

2004 Wave Characterization for the Diagnosis of Semi-Submerged Structures. Coli, A. B.; Santos, J. A.; Capitão, R. P.; Journal of Coastal Research. Special Issue No. 39 (ICS 2004 Proceedings, em publicação).

2004 Porto Santo Island: Offshore Wave Characterization and Propagation. Fortes, C.J.E.M.; Coli, A.B.; Neves, M.G.O.; Capitão, R.P.; Journal of Coastal Research. Special Issue No. 39 (ICS 2004 Proceedings, em publicação).

2002 Study of Harbour Infilling using Sand Tracer Experiments. Ferreira, O., Fachin S., Coli, A. B., Taborda R., Dias, J. and Lontra, G. Journal of Coastal Research. Special Issue No. 36 Fall 2002, pp. 283-289 (ICS 2002 Proceedings).

COMUNICAÇÕES EM CONGRESSOS CIENTÍFICOS

2008 Wind-Generated Sea Wave Climate Characterization at the Tagus Estuary. Capitão, R.; Santos, J.A.; Fortes, C.J. Pinheiro, L.; Coli, A.B.; ASME 27th International Conference on Offshore Mechanics and Arctic Engineering (OMAE 2008), Estoril, Portugal, 15 a 20 de Junho.

2007 Aplicação e Comparação com Dados Medidos do Modelo SWAN na Previsão da Agitação na Entrada do Estuário do Tejo. Capitão, R.; Santos, J.A.; Coli, A.B.; Fortes, C.J. 5as Jornadas Portuguesas de Engenharia Costeira e Portuária, Lisboa, Portugal, 11 e 12 de Outubro.

2007 Aplicación y Comparación con Datos Medidos del Modelo Swan en la Previsión del Oleaje en el Estuario del Tajo. Capitão, R.; Santos, J.A.; Coli, A.B.; Fortes, C.J.E.M (2007). IX Jornadas Españolas de Ingenieria de Costas y Puertos, San Sebastian, Espanha, 29-30 Maio.

2007 Estimation of Offshore Directional Spectra by Inverse Methodology at Porto Ferro, Sardinia. Coli, A.B.; Conley, D.C.; Santos, J.A.; Pires-Silva, A.A. 7th International Offshore and Polar Engineering Conference (ISOPE 2007). Lisboa, Portugal, 1 a 6 de Julho

2007 Wave Forecast at the Tagus Estuary by Using the SWAN Model. Santos, J.A.; Coli, A.B.; Capitão, R.; Fortes, C.J. 7th International Offshore and Polar Engineering Conference (ISOPE 2007). Lisboa, Portugal, 1 a 6 de Julho

2007 Improving the Determination of Wave Regimes in TRANSFER and MAR3G Methodologies Using SWAN Model. Capitão, R.; Fortes, C.J.; Carvalho, F.; Coli, A.B. 7th International Offshore and Polar Engineering Conference (ISOPE 2007). Lisboa, Portugal, 1 a 6 de Julho

2006 Previsão da Agitação Marítima no Estuário do Tejo Utilizando o Modelo SWAN. Santos, J.A.; Capitão, R.C.; Coli, A.B.; Fortes, C.J.; Freire, P. 8º Congresso da Água, Figueira da Foz, 13 a 17 de Março.

2006 Longshore Sediment Transport of an Estuarine Beach: Numerical Investigation. Oliveira, F.S.B.F.; Vargas, C.I.C.; Coli, A.B. Proceedings of 5th Symposium on the Atlantic Iberian Margin, Aveiro, Portugal, pp. 157-158.

2006 Wave Regime Characterization on the Portuguese Coast Using Hindcast and Wave Propagation Models. Capitão, R.C.; Fortes, C.J.; Carvalho, F.; Coli, A.B.; Pinheiro, L.V. 30th International Conference on Coastal Engineering (ICCE 2006), San Diego, Estados Unidos, 3 a 8 de Setembro. Vol.1, pp. 603-615.

2005 Estimação de Espectros de Agitação Marítima ao Largo por Metodologia Inversa. Coli, A.B.; Santos, J.A.; Pires-Silva, A.A. 4as Jornadas Portuguesas de Engenharia Costeira e Portuária, Angra do Heroísmo, 20 e 21 de Outubro.

2005 Sobre a Determinação da Agitação Marítima na Nazaré Utilizando Diferentes Modelos de Propagação de Ondas. Fortes, C.J.; Neves, M.G.; Capitão, R.C.; Coli, A.B.; Pinheiro, L.V. 4as Jornadas Portuguesas de Engenharia Costeira e Portuária, Angra do Heroísmo, 20 e 21 de Outubro.

2005 SOPRO - Caracterização da Agitação Marítima. Aplicações. Pinheiro, L.; Fortes, C.J.; Santos, J.A.; Neves, M.G.; Capitão, R.C.; Coli, A.B. 4as Jornadas Portuguesas de Engenharia Costeira e Portuária, Angra do Heroísmo, 20 e 21 de Outubro.

2005 SOPRO – Pacote Informático para a Caracterização da Ondulação em Portos. Pinheiro, L.V.; Fortes, C.J.; Santos, J.A.; Neves, M.G.; Capitão, R.P.; Coli, A.B.; Gonçalves, A. 7º Simpósio de Hidráulica e Recursos Hídricos dos Países de Língua Oficial Portuguesa. Évora, 30 de Maio a 2 de Junho.

2005 Analisis Comparativo de Regimenes de Agitación Maritima Calculados por Modelos de Predicción de Viento y Modelos de Propagación de Oleaje. Capitão, R.P.; Fortes, C.J.; Carvalho, F.; Coli, A.B. VIII Jornadas Españolas de Ingenieria de Costas y Puertos. Sitges, Espanha, 17 e 18 de Maio.

2004 Aplicação de Modelos Numéricos no Estudo de Propagação de Ondas Marítimas em Zonas Costeiras. Fortes, C.J.; Neves, M.G.; Coli, A.B.; Zózimo, A.C.; Covas, J.A. 7º Congresso da Água (APRH). Lisboa, Março.

2004 Wave Characterization for the Diagnosis of Semi-Submerged Structures. Coli, A. B.; Santos, J. A.; Capitão, R. P.; 8th International Coastal Symposium (ICS 2004), Itapema, Santa Catarina, Brasil, 6 pp.

2004 Porto Santo Island: Offshore Wave Characterization and Propagation. Fortes, C.J.E.M.; Coli, A.B.; Neves, M.G.O.; Capitão, R.P.; 8th International Coastal Symposium (ICS 2004), Itapema, Santa Catarina, Brasil, 6 pp.

2003 Estimação de Regimes de Agitação Marítima em Locais Onde Não Existam Dados. Coli, A.B. 3as Jornadas Portuguesas de Engenharia Costeira e Portuária, Aveiro, Portugal, comunicação em CD-ROM.

2003 Aferição do Método de Transferência de Dados de Agitação Marítima. Capitão, R.P.; Fortes, C.J.; Carvalho, M.M.; Coli, A.B. VII Jornadas Españolas de Ingenieria de Costas y Puertos, Almeria, Espanha, 10 pp.

2002 Extreme wave regime propagation to Douro's mouth: analysis by the numerical models BACKTRACK-REFSPEC and SWAN. Coli, A.B.; Santos, J.A.; Fortes, C.J.; Capitão, R.P.; Carvalho, M.M. Proceedings of Littoral 2002, Porto, Portugal, pp. 185-196.

2002 Metodologia de Propagação de Regimes do Largo para a Costa: Análises dos Modelos Backtrack-Refspec e Swan. Coli, A.B.; Santos, J.A.; Fortes, C.J.; Capitão, R.P.; Carvalho, M.M. 6º Congresso da Água, Porto, Portugal, resumos pp. 19 a 22.

2000 Field Study of Sand Transport into a Harbour (Fortaleza – Brasil) Using Dyed Sand. Fachin, S.; Ferreira, O; Coli, A.B.; Taborda, R.; Dias, J.A..; Freire, G.S.; Lontra, G.H. 1º Simpósio Brasileiro sobre Praias Arenosas, Itajaí, Brasil.

2000 Evaluation of Sediment Transport Processes in the Region of Fortaleza – Brazil. Silva, A.J.R.; Leitão, J.C.; Dias, J.A..; Coli, A.B.; Fachin, S.; Lontra, G.H. International Conference on Coastal Engineering 2000. Austrália.

1999 Estudo do Assoreamento do Porto de Fortaleza: Utilização de Traçadores Fluorescentes. Dias, J..A.; Fachin, S.; Ferreira, O; Coli, A.B.; Taborda, R.; Lontra, G.; Silva, A. Ramos, S. Anais VII Congresso da ABEQUA, Resumo Expandido. Porto Seguro, BA.

1998 Observations of Currents on South Brazilian Shelf Break. Ghisolfi R.D., Fetter A.F., Coli A.B., da Silva M.P. & Middleton J. Poster presentation at 1998 Ocean Science Meeting, San Diego, California.

1996 Caracterização das Alturas de Onda no Atlântico Sul Ocidental através da Altimetria TOPEX/POSEIDON, Coli, A. B. & Mata, M. M. VIII Simpósio Brasileiro de Sensoriamento Remoto, Salvador, BA.

1995 Perfil de Correntes no Canal ao Sul da Lagoa Mirim, Rio Grande do Sul, em uma Situação de Ciclogênese, Coli, A. B. & Santos, M. I. VIII Semana Nacional de Oceanografia, Rio Grande, RS.

1994 Caracterização das Alturas de Onda ao Largo do Rio Grande do Sul, Coli A. B. & Mata M. M. VII Semana Nacional de Oceanografia, Itajaí, SC.

1994 Localização de Frentes Oceânicas e Planejamento de Coletas Oceanográficas Através de Sensoriamento Remoto, Coli, A. B. & Garcia, C. A. E. III Congresso de Iniciação Científica UFPEL/FURG, Pelotas, RS.

FILLIPE TESCH

FORMAÇÃO

Formação Acadêmica:	• Tecnólogo em Saneamento Ambiental – Instituto Federal do Espírito Santo – 2006/2011 • Mestre em Engenharia Ambiental – Universidade Federal do Espírito Santo – Conclusão em 2015. • MBA em Gerenciamento de Projetos – Faculdade Centro Leste (UCL) – Previsão de conclusão em out/2019.
Idioma:	• Inglês técnico - UFES.
Informática:	• ArcGIS, Quantum GIS, AutoCAD, HEC-RAS, HEC-HMS, SWAT, Pacote Office, Project, TOTVS, Alterdata.
Registro Profissional:	• CREA-ES 024763/D • CRQ XXI 21200141

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S.A.
Cargo:	• Gerente Técnico
Período:	• Agosto/2020 – Atual
Principais Atividades:	• Planejamento, gestão, controle do portfólio de projetos relacionados aos escopos de recursos hídricos, áreas contaminadas, tratamento de efluentes e resíduos, geoprocessamento, outsourcing, tecnologia e inovação.

Empresa:	• Ambipar Response Control Environmental Consulting S.A.
Cargo:	• Coordenador de Projetos
Período:	• Novembro/2017 – Julho/2020
Principais Atividades:	• Planejamento, gestão, controle, desenvolvimento e execução de projetos, estudos, programas e planos ambientais, com foco no meio físico e temas ligados aos recursos hídricos, solos, geologia e clima; coordenação de equipes de campo de serviços de coleta de amostras, sondagem e topografia; articulação com clientes e órgãos reguladores organização e execução de reuniões; entre outros.

Empresa:	• Ambipar Response Control Environmental Consulting S.A.
Cargo:	• Analista Ambiental Sênior
Período:	• Junho/2015 – Outubro/2017
Principais Atividades:	• Desenvolvimento e execução de projetos, estudos, programas e planos ambientais, com foco no meio físico e temas ligados aos recursos hídricos, solos, geologia e clima; supervisão de equipes de campo de serviços de sondagem e topografia; articulação com clientes e órgãos reguladores organização e execução de reuniões; entre outros.

Empresa:	• Faculdade Centro Leste – UCL
Cargo:	• Professor
Período:	• Fevereiro/2015 – Julho/2015
Principais Atividades:	• Planejar, lecionar e avaliar alunos nas disciplinas “Hidráulica” e “Obras hidráulicas” no curso de Graduação em Engenharia Civil.

Empresa:	• Avantec Engenharia
Cargo:	• Tecnólogo em Saneamento Ambiental / Responsável Técnico
Período:	• Abril/2013 – Maio/2015
Principais	• Coordenação da equipe de meio ambiente; desenvolvimento de estudos, planos e

Atividades:	projetos nas áreas de meio ambiente, hidráulica, hidrologia e saneamento; modelagem hidrológica e hidrodinâmica de rios, lagos, lagoas e áreas costeiras; aplicação de ferramentas de geoprocessamento; elaboração de propostas técnicas e comerciais para licitações públicas e privadas; responsável técnico pelos serviços de saneamento ambiental; representante da diretoria para implantação do Sistema de Gestão da Qualidade (SGQ).
Empresa:	• CTA – Serviços em Meio Ambiente
Cargo:	• Analista Ambiental
Período:	• Fevereiro/2010 – Abril/2013
Principais Atividades:	• Coordenação das atividades de geoprocessamento; execução de análises ambientais e espaciais avançadas; execução de serviços de modelagem matemática; elaboração de relatórios técnicos e estudos ambientais; planejamento e condução de montagem de estações de monitoramento ambiental; execução e coordenação de monitoramento ambiental.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2021

- **PETROBRAS:** Coordenação do Projeto de Monitoramento de Desembarque Pesqueiro (PMDP) e Projeto de Espacialização da Pesca (PEP) das bacias Potiguar e do Ceará - Petrobras UO-RNCE
- **ENEVA:** Coordenação do serviço de Monitoramento de Macrofauna Bentônica na Baia de São Marcos, Itaqui, São Luís (MA)
- **PETROBRAS:** Coordenação do Serviços de Monitoramento da Fauna, Monitoramento de Ruídos e Monitoramento de Águas Superficiais, dos Sedimentos e de Aspectos Limnológicos para a obra de implantação do trecho terrestre do Gasoduto Rota 3

ANO: 2020

- **PETROBRAS:** Coordenação do Monitoramento de parâmetros de efluentes, corpo receptor e águas do entorno da FAFEN-SE em Aracaju-SE
- **ENEVA:** Coordenação da obtenção de Outorga para Captação de Água no Rio Insono;
- **Petrobras:** Coordenação dos serviços de operacionalização, inspeção e análise crítica do Sistema Integrado de Gerenciamento de Resíduos (SIGRE) no âmbito da UO-RNCE;
- **CTG DO BRASIL:** Coordenação do Monitoramento de Hidrossedimentométrico - UHE Jurumirim;
- **Porto do Açu Operações Portuárias:** Coordenação da execução dos programas de monitoramento de emissões sonoras dos empreendimentos Terminal Sul e Canal de Navegação no Porto do Açu;

ANO: 2019

- **ENEVA:** Coordenação da Elaboração de Plano de Controle Ambiental (PCA) visando obtenção de autorização de capina - UTE Jaguatirica – Roraima
- **PETRORECONCAVO:** Coordenação da Elaboração de relatório técnico fotográfico das unidades operacionais do Polo Riacho da Forquilha
- **ENEVA:** Coordenação da Elaboração de Plano Básico Ambiental (PBA) para Fase de Instalação da UTE Jaguatirica - Roraima
- **ENEVA:** Coordenação dos Serviços de Levantamento Fundiário – Roraima – UTE Jaguatirica II
- **OLAM:** Assessoria Técnica para Processo de Licenciamento Ambiental da Fábrica de Café Solúvel da OLAM

ANO: 2019

- **Açu Petróleo:** Coordenação da Elaboração e desenvolvimento de levantamentos sócio territoriais relativos à área fundiária para a implementação do Oleoduto Açu-Barra do Furado
- **OLAM:** Elaboração de Parecer Técnico Ambiental referente ao Projeto de Implantação de Fábrica de Café Solúvel
- **ENEVA:** Coordenação do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) para o licenciamento da UTE Jaguatirica II
- **ENEVA:** Coordenação do Estudo de Recursos Hídricos - UTEs Jaguatirica
- **ENEVA:** Coordenação da Elaboração do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) da UTE SÃO MARCOS
- **ENEVA:** Coordenação da Obtenção de Certidões de Uso e Ocupação do Solo para Sísmica Terrestre nos Blocos PN-T-117, 118 e 119
- **ENEVA:** Coordenação da Elaboração de Relatórios de Controle Ambiental (RCAs) para sísmica terrestres nos Blocos PN-T-117, 118 e 119
- **Porto do Açu Operações Portuárias:** Coordenação do Programa de Monitoramento de Áreas Alagáveis do Porto do Açu;
- **Petrobras:** Coordenação dos Serviços de Diagnóstico Geoambiental e Avaliação de Risco à Saúde Humana para a Refinaria Paulínea – REPLAN;
- **Transpetro:** Coordenação dos serviços de captação de imagens aéreas de faixa de dutos operadas e mantidas pela Transpetro nas regiões Nordeste, Sudeste e Sul do Brasil.
- **Petrobras:** Coordenação dos Serviços de Interpretação de Imagens Orbitais Oceânicas, Geoprocessamento e GIS;
- **BRK Ambiental:** Coordenação do Plano Básico Ambiental (PBA) do Sistema de Disposição Oceânica Jaguaribe.

ANO: 2018

- **PROGEN/VALE:** Elaboração de Projeto conceitual e básico para implantação do Sistema de Tratamento de Efluentes Industriais e pluviais gerados no Pier IV do Terminal de Produtos Diversos – TPD do Porto de Tubarão, incluindo modelagem matemática de transporte de constituintes dos pátios pelas águas pluviais.
- **BRK Ambiental:** Coordenação dos serviços de elaboração do Termo de Referência para Avaliação da Qualidade Ambiental dos Corpos Hídricos da Bacia da lagoa Imboassica.
- **Petrobras:** Coordenação do Programa de Monitoramento do Desembarque Pesqueiro e do Programa de Espacialização da Pesca nos estados do Rio Grande do Norte e Ceará;
- **Petrobras:** Coordenação das atividades de monitoramento de efluentes, corpo receptor e águas de entorno da Fábrica de Fertilizantes Nitrogenados (FAFEN-SE);
- **Andrade Gutierrez:** Coordenação de coleta de amostras de água para realização de ensaios de potabilidade em canteiro de obras no interior do Porto do Açu;
- **Ubuntu:** Coordenação do Licenciamento Ambiental do campo de petróleo maduro Rio Mariricu, em São Mateus-ES;
- **Samarco:** Elaboração do Programa de Avaliação de Ocorrência Natural de Metais em sedimentos de lagoas e solos da região costeira Litoral Sul e Litoral Extremo Sul do Espírito Santo;
- **GNA – Gás Natural Açu:** Coordenação dos serviços de análise de amostras de água do mar no Molhe Norte do Porto do Açu.
- **Petrobras:** Coordenação das atividades de monitoramento da qualidade da água, sedimento e efluentes na Refinaria Landulpho Alves (RLAM);

ANO: 2018

- **Petrobras:** Coordenação das atividades de embarque em FPSO de petróleo para realização de serviços de Análise de Amostras Ambientais na UO-SEAL (FPSO Piranema e Emissário Atalaia);
- **Porto do Açu Operações Portuárias:** Coordenação da execução dos programas de monitoramento de emissões sonoras dos empreendimentos Terminal Sul e Canal de Navegação no Porto do Açu;
- **Porto do Açu Operações Portuárias:** Coordenação do Projeto de Monitoramento Integrado de Depósitos de Areia do Porto do Açu;
- **Porto do Açu Operações Portuárias:** Coordenação do Programa de Monitoramento de Áreas Alagáveis do Porto do Açu;
- **Porto do Açu Operações Portuárias:** Coordenação das atividades de elaboração de relatórios técnicos límnicos dos ambientes aquáticos do entorno do Porto do Açu;
- **Porto do Açu Operações Portuárias:** Coordenação das atividades de elaboração de relatórios técnicos marinhos da área de influência do Porto do Açu;
- **Porto do Açu Operações Portuárias:** Coordenação das atividades de elaboração dos relatórios técnicos das águas subterrâneas da área de influência do Porto do Açu;
- **Petrobras:** Coordenação dos serviços de análises de amostras ambientais de unidades da UO-SEAL em Aracaju-SE: FPSO Piranema e Emissário Atalaia.
- **Petrobras:** Coordenação dos serviços de análise da qualidade de águas, sedimento e efluentes da RLAM-BA, incluindo estudos ecotoxicológicos de efluente.
- **Petrobras:** Coordenação do Inventário de Emissões Atmosféricas de Belo Horizonte em atendimento à Licença de Operação da Refinaria Gabriel Passos (REGAP);

ANO: 2017

- **Imetame.** Realização de Diagnóstico de Biota Aquática Continental – Área de Bota Fora no município de Aracruz-ES.
- **Petrobras.** Estudo de Caracterização da Lagoa Ibirité, localizada na área de influência da Refinaria Gabriel Passos (REGAP) com proposição de medidas, ações e políticas públicas para a melhoria de sua qualidade ambiental, municípios de Betim-MG e Ibirité-MG.
- **Porto Central.** Assessoria Técnica para Investigação Complementar de Contaminação dos Sedimentos na Área de Drenagem do Porto Central, município de Presidente Kennedy-ES.
- **ENEVA.** Medição de Vazão e Batimetria do Rio Mearim Área de Captação – Complexo Parnaíba no município de Pedreiras-MA.
- **Porto do Açu Operações Portuárias:** Execução dos programas de monitoramento de emissões sonoras dos empreendimentos Terminal Sul e Canal de Navegação no Porto do Açu;
- **Porto do Açu Operações Portuárias.** Elaboração dos Relatórios Consolidados do Programa de Monitoramento de Água Subterrânea dos empreendimentos denominados Terminal Sul, Canal de Navegação, Depósitos de Areia 2 e 7 e Pátio Logístico, integrantes do Porto do Açu no município de São João da Barra-RJ.
- **Porto do Açu Operações Portuárias.** Elaboração dos Relatórios Consolidados do Programa de Monitoramento Límnico dos empreendimentos denominados Terminal Sul e Pátio Logístico, integrantes do Porto do Açu no município de São João da Barra-RJ.

ANO: 2017

- **Porto do Açu Operações Portuárias.** Elaboração dos Relatórios Consolidados do Programa de Monitoramento Marinho dos empreendimentos denominados Terminal Sul e Pátio Logístico, integrantes do Porto do Açu no município de São João da Barra-RJ.
- **ELECNOR.** Obtenção de outorga de captação de água no rio Mearim para realização de Teste Hidrostático no gasoduto Gavião Caboclo no município de Pedreiras-MA junto a SEMA-MA, incluindo a elaboração do Estudo Hidrológico.
- **Paranaíba Gás Natural – PGN.** Acompanhamento técnico da equipe de campo de topografia e permissoria referente ao projeto de Execução de Cadastro Ambiental Rural da Parnaíba Gás Natural (PGNSA)/ENEVA.
- **Parnaíba Gás Natural – PGN.** Investigação de solos na área de influência do acidente da Estação de Tratamento de Efluentes Industriais da UTG – Unidade de Tratamento de Gás de Santo Antônio dos Lopes-MA.
- **Parnaíba Gás Natural – PGN.** Execução do Programa de Monitoramento de Qualidade da Água (PMQA) do Gasoduto Chicote (GVC) nos municípios de Pedreiras-MA e Trizidela do Vale-MA.
- **Geopark.** Execução do Plano de Monitoramento de Águas Subterrâneas dos poços de petróleo 1-PRE-1-BA e 1-PRF-1-BA, incluindo coleta de amostras e elaboração de relatório técnico.

ANO: 2016

- **Petrobras.** Serviços monitoramento da qualidade ambiental do solo e da água subterrânea da área da Refinaria Duque de Caxias (REDUC), incluindo a modelagem numérica hidrogeológica tridimensional de fluxo e transporte de contaminantes.
- **Parnaíba Gás Natural – PGN**. Plano de Controle Ambiental da Atividade de Pesquisa Sísmica Terrestre Bidimensional nos Blocos PN-T-146 e PN-T-163, Bacia do Paranaíba, Maranhão, com foco no Diagnóstico do Meio Físico e Socioeconômico.
- **Parnaíba Gás Natural – PGN**. Plano de Controle Ambiental da Atividade de Pesquisa Sísmica Terrestre Bidimensional nos Blocos PN-T-69, PN-T-87, PN-T-101 e PN-T-103, Bacia do Paranaíba, Maranhão, com foco no Diagnóstico do Meio Físico e Socioeconômico.
- **Gás Natural Açu - GNA.** Serviços de levantamento das faixas de servidão dos gasodutos GASOG e GASINF, somando ~150 km de traçado, com atuação na supervisão de equipes de topografia e permissoria, organização de documentação dos permissionários, elaboração de relatórios técnicos e gerenciais.
- **Geopark.** Diagnóstico de Solos para fins de Investigação (Resolução CONAMA 420/2009) nas áreas de construção das bases de perfuração de poços de petróleo da Geopark na bacia do Recôncavo Baiano no município de Alagoinhas-BA, incluindo sondagem, amostragem do perfil do solo e interpretação dos resultados físico-químicos.
- **Novapol.** Elaboração de Plano de Coleta de Solos e Plano de Monitoramento de Águas Subterrâneas para a Novapol, unidade Serra-ES.
- **Petrobras.** Diagnóstico Geoambiental para Investigação do subsolo do campo de Fazenda Belém, Ceará, incluindo sondagens, estudos geológicos, geotécnicos, hidrogeológicos, incluindo a qualidade da água.
- **Parnaíba Gás Natural – PGN.** Mapeamento Social na Área de Influência Direta dos Empreendimentos da Parnaíba Gás Natural.
- **Technip.** Execução de sondagens ambientais e elaboração do relatório técnico de investigação de passivos ambientais na base Technip Jardim Asteca em Vila Velha-ES.

.

ANO: 2015

- **Vitória Ambiental.** Elaboração de Estudo Hidrológico, Projeto de Tratamento de Efluentes e Estudo de Autodepuração para obtenção de outorga de recursos hídricos para lançamento de efluente sanitário e industrial no Rio Peritoró, município de Peritoró-MA.

Geopark. Elaboração do Estudo de Médio Impacto (EMI) para licenciamento de base de perfuração de poços de petróleo da Geopark na bacia do Recôncavo Baiano no município de Alagoinhas-BA.

- **Petrobras.** Desenvolvimento do Estudo de Impacto Ambiental do Oleoduto FSRxFAL da Petrobras com aproximadamente 40 km nos municípios de Linhares, São Mateus e Jaguaré, Estado do Espírito Santo, com foco no diagnóstico ambiental do meio físico (climatologia, geologia, geomorfologia, solos, recursos hídricos e ruídos), delimitação de áreas de influência, prognóstico, avaliação de impactos ambientais e proposição de medidas mitigadoras.
- **Petrobras.** Acompanhamento de equipe para perfuração e construção de 10 poços de monitoramento de águas subterrâneas localizados nos campos de produção da Petrobras, Córrego Dourado e Fazenda Alegre, localizados respectivamente nos municípios de Linhares e Jaguaré, Estado do Espírito Santo, elaboração do relatório construtivo dos poços e dos estudos de fluxo subterrâneo para a Petrobras.
- **Rio Energy.** Execução e gestão do Programa de Preservação de Recursos Hídricos e Paisagísticos e do Programa de Monitoramento e Controle de Processos Erosivos da Linha de Transmissão 230 kV, entre Acaraú e Itarema, Estado do Ceará.

ANO: 2014

- **SEDUB-ES.** Estudo Hidrológico e Hidráulico, incluindo modelagem hidrodinâmica e proposição de cenários de controle de cheias e dimensionamento hidráulico de obras, da macrodrenagem dos municípios de Vila Velha-ES e Cariacica-ES, contemplando o sistema de canais das bacias de drenagem do Canal da Costa, Canal Guaranhuns, Canal Aribiri, Rio Marinho e Córrego Campo Grande.
- **SEAG-ES**. Desenvolvimento de Planos de Controle Ambiental (PCA), Estudos Hidrológicos e Hidráulicos para as obras de pavimentação de estradas rurais do projeto Caminhos do Campo nos municípios de Alfredo Chaves e Bom Jesus do Norte, Estado do Espírito Santo, totalizando, 36 km de projeto para a SEAG.
- **SEDURB-ES.** Estudos Hidrológicos e Hidráulicos para reconstrução de 60 pontes e travessias destruídas na região Noroeste do Espírito Santo durante as enchentes de dezembro/2013, para o Instituto de Obras Públicas do Estado do Espírito Santo.
- **DER-ES.** Desenvolvimento de Relatório de Controle Ambiental (RCA), Estudos Hidrológicos e Hidráulicos para as obras de construção da rodovia do contorno de Fundão (ES-261) totalizando 5 km de extensão, para o DER-ES.

ANO: 2013

- **SEDURB-ES.** Desenvolvimento de Planos Diretores de Águas Pluviais/Fluviais, Planos Municipais de Redução de Risco Geológico e Projetos de Engenharia de 17 municípios do Estado do Espírito Santo, com foco nas obras de drenagem e contenção de cheias, totalizando um total de 120 km de calhas fluviais e linhas de drenagem planejadas e projetadas, incluindo todos os estudos hidrológicos, orçamento de obras e planejamento do uso e ocupação do solo das bacias hidrográficas contempladas.
- **LLX.** Estudo de Caracterização da Qualidade da Água em ponto de adução do rio Paraíba do Sul, no município de Campos dos Goytacazes-RJ, para a LLX incluindo a avaliação de contaminantes emergentes não previstos na legislação brasileira e que afetam a saúde humana.

ANO: 2012

- **Arcelor Mittal Tubarão.** Desenvolvimento do Estudo de Caracterização do Sedimento da área marinha adjacente à Arcelor Mittal Tubarão, avaliando o teor de metais pesados no sedimento praial com emissão de parecer técnico.
- **Arcelor Mittal Tubarão.** Elaboração de relatórios técnicos do Programa de Monitoramento Hidrobiológico das lagoas internas à Arcellor Mittal Tubarão com foco em qualidade da água e limnologia.
- **Estaleiro Jurong Aracruz.** Elaboração de relatório técnicos do Programa de Monitoramento da Qualidade das Águas Superficiais da AID do Estaleiro Jurong Aracruz, em Aracruz-ES
- **Petrobras.** Mapeamento de pesqueiros e rotas de pesca no âmbito do Programa de Monitoramento do Desembarque Pesqueiro da UO-ES, incluindo a aplicação da metodologia de mapas mentais, processamento de dados de pesqueiros, aplicação da metodologia de quadrados equivalentes e distribuição temporal e espacial na costa capixaba.

ANO: 2011/2010

- **Linhares Geração.** Elaboração do Programa de Monitoramento do Lençol Freático da UTE Linhares 2 para a Linhares Geração no município de Linhares-ES.
- **Vale.** Execução do estudo de modelagem hidrológica da AID da Companhia Siderúrgica de Ubu com objetivo de quantificar o impacto das modificações de uso e ocupação do solo sobre balanço hídrico das bacias hidrográficas do Rio Salinas, Rio Parati e Lagoa Maebá, em Anchita-ES.
- **Vale.** Execução e elaboração de relatórios técnicos do Programa de Monitoramento de Recursos Hídricos Superficiais Interiores na bacia hidrográfica do rio Benevente para a Companhia Siderúrgica de Ubu, em Anchita-ES.
- **Vale.** Desenvolvimento do estudo de disponibilidade hídrica da bacia hidrográfica do rio Benevente para a Companhia Siderúrgica de Ubu, nos municípios de Alfredo Chaves, Guarapari e Anchieta, Estado do Espírito Santo, consistindo no censo dos consumidores de água da bacia, monitoramento de vazões em 4 estações fluviométricas, estudos hidrológicos para obtenção de vazões de referência e regionalização de vazões, estudo de viabilidade de reuso de águas de outras fontes que não sejam o Rio Benevente e estudo de viabilidade construção de barragens de regularização de vazões com modelagem de deposição de sedimentos.

CURSOS E EVENTOS RECENTES

- Encontro de usuários Eu ESRI, São Paulo-SP, 2017.
- I Seminário Nacional de Recursos Hídricos (ABES), Vitória-ES, 2016.
- I Encontro de Profissionais de do Saneamento – Espírito Santo (ABES), Vitória-ES, 2016.
- Seminário MundoGEO Connect / DroneShow, São Paulo-SP, 2016.
- Curso de Segurança de Barragens de Rejeito (UFES), Vitória-ES, 2012.
- Curso de Meteorologia por Satélite aplicado à Hidrologia (INPE), Cachoeira Paulsita-SP, 2011.
- Curso de Licenciamento Ambiental (UFES), Vitória-ES, 2009.

PREMIAÇÕES E TRABALHOS PUBLICADOS

Dissertação de Mestrado

- Dissertação de Mestrado como requisito para o grau de Mestre em Engenharia Ambiental: **Avaliação da produção de sedimentos em estradas não pavimentadas com o emprego do modelo *Soil and Water Assessment Tool*** (2015).

Artigos publicados em congressos

- TESCH, F.; CAIADO, M.A.C.; MACHADO K.P.; PEREIRA, F.Z.; MAJESK, M.; BARROS, M.L.; DE SOUZA, T.C.T. **Use of hydrologic and hydraulic models for flood management in Viana,** *ES*, Brazil. In: 6th International Conference on Flood

Management, 2014, São Paulo. 6th International Conference on Flood Management Proceedings, 2014.

- TESCH, F.; CAIADO, M. A. C. . **Avaliação de modelos computacionais para a verificação da eficiência de restrições pelo código florestal na redução do aporte de sedimentos a cursos d'água.** *In:* XX Simpósio Brasileiro de Recursos Hídricos, 2013, Bento Gonçalves. Anais do XX Simpósio Brasileiro de Recursos Hídricos, 2013.
- TESCH, F.; CAIADO, M. A. C.. **Avaliação de Modelos de Poluição Difusa para verificação da eficácia da aplicação do Código Florestal na melhoria da qualidade da água de bacias hidrográficas**. *In:* IV Jornada de Iniciação Científica do IFES e II Jornada de Iniciação em Desenvolvimento Tecnológico e Inovação do IFES, 2009, Vitória. Caderno de Resumos, 2009.

Trabalho de Conclusão de Curso

- Trabalho de Conclusão de Curso como requisito para o grau de Tecnólogo em Saneamento Ambiental: **Avaliação de modelos computacionais para verificação da eficiência da aplicação do Código Florestal na redução do aporte de sedimentos a cursos d'água** (2010).

GIOVANI DAMBROZ

FORMAÇÃO

Formação Acadêmica:	• Graduação em Ciências Biológicas Bacharelado - Faculdade de Ciências Aplicadas Sagrado Coração, Unilinhares, Brasil.
Idioma:	• Inglês nível básico.
Informática:	• Nível intermediário.
Conselho de Classe	• CRBio/02: 60.030/02-D

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Centro nacional de reabilitação da ave de rapina. – CENAR.
Cargo:	• Estágio nível superior.
Período:	• Jun/2006 - Jun/2006
Principais Atividades:	• Atuação na Sede da Instituição no distrito de Itaúnas, Conceição da Barra/ES. (Atividades desenvolvidas: realização de treinamentos de voo, alimentação, manutenção das instalações, observações comportamentais das aves, etc.).
Empresa:	• CTA – Centro Tecnológico de aquicultura e meio ambiente.
Cargo:	• Estagio de nível superior.
Período:	• Jan/2005 - Dez/2005
Principais Atividades:	• Atuação em projeto de conservação da flora. (Atividades desenvolvidas: monitoramento da flora nativa em remanescente florestal de mata atlântica de restinga arbórea após abertura de picadas para realização de atividades de sísmica 3D).
Empresa:	• TAMAR - Centro Brasileiro de Proteção e Pesquisa das Tartarugas Marinhas.
Cargo:	• Estágio nível superior.
Período:	• Jan/2005 – Jan/2005
Principais Atividades:	• Desenvolvimento de atividades ligadas a conservação das tartarugas marinhas na base de apoio de Pontal do Ipiranga em Linhares-ES. (Atividades desenvolvidas: realização de trabalho de campo como a biometria, marcação, monitoramento das áreas de desova como a marcação de ninhos, soltura de filhotes, bem como a realização de atividades de educação ambiental na comunidade).

Empresa:	• Petróleo Brasileiro S/A - BR.
Cargo:	• Estágio nível superior.
Período:	• Set/2004 – Jan/2005
Principais Atividades:	• Desenvolvimento de trabalhos de localização, planejamento, interpretação e estruturação de trilhas ecológicas interpretativas através do curso de Ciências Biológicas da Unilinhares, em parceria com o Projeto EcoCidadania e Instituto Capixaba de Ecoturismo, nas comunidades de Regência, Povoação e Pontal do Ipiranga, Linhares-ES.
Empresa:	• CEISC – Faculdade de Ciências Aplicadas Sagrado Coração.
Cargo:	• Estágio nível médio.
Período:	• Mar/2003 – Dez/2006
Principais Atividades:	• Atuação na Sede da Instituição no Município de Linhares/ES. (Atividades desenvolvidas: apoio as atividades realizadas nos laboratórios de informática, salas de aulas, palestras e eventos (manipulação de equipamentos e aparelhos audiovisuais).
Empresa:	• FLONA – Floresta Nacional de Goytacazes.
Cargo:	• Estágio nível superior.
Período:	• Abr/2006 – Out/2006
Principais Atividades:	• Atuação na Sede da Instituição no Município de Linhares/ES. (Atividades desenvolvidas: Realização de atividades científicas em projeto de pesquisa para obtenção do título de bacharel em ciências biológicas. Confecção e manutenção de mudas nativas no viveiro da instituição).
Empresa:	• CTA - Serviços em Meio Ambiente e Engenharia LTDA.
Cargo:	• Coordenador de Campo.
Período:	• Abr/2008 – Mar/2010
Principais Atividades:	• Atuação no subprograma de resgate de fauna silvestre durante o empreendimento de instalação, montagem e construção da linha tronco do gasoduto Cacimbas – Catu. (Atividades desenvolvidas: Elaboração de relatórios, aplicação de DDSMS, resgate de fauna silvestre, treinamentos e palestras ambientais). Atuação no projeto de levantamento geofísico 2D no Município de Conceição da Barra/ES. (Atividades desenvolvidas: Elaboração de relatórios, acompanhamento da fauna silvestre, treinamentos e palestras ambientais, aplicação de DDSMS, acompanhamento e gerenciamento de resíduos).

Empresa:	• SINOPEC – Sinopec International Petroleum Service do Brasil LTDA.
Cargo:	• Inspetor Ambiental Júnior.
Período:	• Abr/2010 – Jan/2011.
Principais Atividades:	• Atuação no projeto de instalação, montagem e construção da linha tronco do gasoduto Cacimbas-Catu, durante as fases de recomposição mecânica e vegetal da faixa de domínio do empreendimento. (Atividades realizadas: vistorias de campo nas frentes de obra, palestras de integração, treinamentos e aplicação de DDSMS, elaboração de relatórios e gerenciamento de resíduos).

Empresa:	• CTA - Serviços em Meio Ambiente LTDA.
Cargo:	• Executor de Campo.
Período:	• Fev/2011 – abr/2011
Principais Atividades:	• Atuação no programa do meio socioeconômico do projeto de construção da linha de transmissão de energia elétrica de 500Kv do Cluster termelétrico de Linhares/ES a subestação de Viana/ES. Apresentação do projeto aos proprietários de terra nas áreas de influência direta do empreendimento).

Empresa:	• CTA - Serviços em Meio Ambiente LTDA.
Cargo:	• Coordenador de Campo.
Período:	• Mai/2011 – Ago/2011
Principais Atividades:	• Atuação no Plano de Execução do Cinturão Verde da Unidade de Tratamento de Gás (UTG) Sul Capixaba no Município de Anchieta/ES. (Atividades desenvolvidas: Elaboração de relatórios, aplicação de DDSMS e coordenação das atividades executadas em campo como: roçada seletiva, plantio, controle de formigas, irrigação, coroamento e poda).

Empresa:	• CTA - Serviços em Meio Ambiente LTDA.
Cargo:	• Analista Ambiental.
Período:	• Ago/2011 – Fev/2012
Principais Atividades:	• Atuação na Sede da empresa em Vitória/ES. (Atividades desenvolvidas: Elaboração de relatórios, vistorias de campo, acompanhamento e execução de projetos ambientes voltados ao manejo, pesquisa e conservação da fauna e flora silvestre).

Empresa:	• CTA - Serviços em Meio Ambiente LTDA.
Cargo:	• Coordenador Técnico.
Período:	• Fev/2011 – Jul/2022
Principais Atividades:	• Atividades desenvolvidas: Elaboração de relatórios, participação de reuniões com clientes, vistorias de campo, acompanhamento e execução de projetos (monitoramentos, resgates, diagnósticos, inventários (EIA, RCA, PCA, etc.) ambientais voltados ao manejo, pesquisa e conservação da fauna e flora silvestre.

Empresa:	• Ambipar Response Fauna e Flora.
Cargo:	• Coordenador Técnico.
Período:	• Jul/2022 – atual.
Principais Atividades:	• Atividades desenvolvidas: Elaboração de relatórios, participação de reuniões com clientes, vistorias de campo, acompanhamento e execução de projetos (monitoramentos, resgates, diagnósticos, inventários (EIA, RCA, PCA, etc.) ambientais voltados ao manejo, pesquisa e conservação da fauna e flora silvestre.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2022/atual	• Elaboração do programa de afugentamento e salvamento da fauna terrestre na área de influência da ferrovia de integração Pará norte-sul – FEPAN.
ANO: 2022/2022	• Diagnóstico do grupo de avifauna na área de influência da empresa P4 Mineradora Eireli visando compor documentação para licenciamento ambiental da atividade de extração de rochas ornamentais, elaboração de relatório técnico e planilha de dados brutos.
ANO: 2022/2022	• Realização de estudo de campo do grupo avifauna na área de influência da empresa CVX mineradora Ltda visando compor documentação para licenciamento ambiental da atividade de extração de rochas ornamentais. coleta de dados em campo por meio do uso da metodologia pontos fixos de escuta, busca ativa e registros fortuitos e apresentação de dados brutos.
ANO: 2022/2022	• Responsável Técnico pelo levantamento de campo realizado na área de influência da pedreira Marbrasa, Baixo Guandú/ES. Realização de amostragem da fauna silvestre (anfíbios, répteis, aves e mamíferos) com uso do método de estudo por pontos fixos de escuta (aves), registros fortuitos e busca ativa diurna e noturna. registro da ocorrência das espécies nas áreas do empreendimento e no entorno, coleta de dados, compilação de listas de espécies, composição, riqueza e abundância (IPA - aves) das comunidades. identificação de espécies raras, ameaçadas de extinção, endêmicas, migratórias, exóticas e/ou invasoras.

ANO: 2021/2022	• Responsável Técnico pela elaboração do diagnóstico da fauna (herpetofauna, avifauna e mastofauna) e flora silvestre, com base na compilação de dados primários (levantamento de campo) e secundários (bibliografia); caracterização e classificação taxonômica da fauna e flora silvestre; identificação e atualização das listas de espécies; classificação das espécies quanto ao hábito de vida, guilda trófica, status de ocorrência (residentes, vagantes, endêmicas do bioma mata atlântica e do brasil, etc.); classificação das espécies ameaçadas de extinção com base nas listas estadual (INMA, 2019), nacional (MMA, 2014) e internacional (IUCN, 2021); classificação das espécies exóticas e invasoras; na área direta do empreendimento e seu entorno para extração de granito e beneficiamento associado. elaboração de relatório técnico (fauna e flora) com base na coleta de dados de campo.
ANO: 2021/2022	• Diagnóstico da fauna (herpetofauna, avifauna e mastofauna) silvestre na área de extração de granito para produção de blocos de rocha ornamental, Iúna/ES.
ANO: 2021/atual	• Participação no Censo Espaço-temporal de Aves de Ecossistemas Costeiros e Migratórias, na região costeira do Amapá.
ANO: 2021/2021	• Elaboração de estudo com base em levantamento bibliográfico na literatura, para Licenciamento Ambiental do Aeródromo Privado Xuri (processo IEMA 72040173), considerando a abrangência de rota migratória e áreas de concentração de aves, áreas de sensibilidade de espécies ameaçadas de extinção e distribuição restrita, áreas de alto potencial atrativo à fauna, áreas em estado crítico de conservação, identificação de possíveis impactos e medidas mitigadoras, considerando a área de segurança aeroportuária em acordo a legislação vigente.
ANO: 2021/2021	• Diagnóstico da avifauna (com uso da metodologia de ponto fixo de escuta e registros fortuitos) para compor o estudo de impacto ambiental (EIA) e seu respectivo relatório de impacto ambiental (RIMA) da fazenda Paulista/Quimetal, para expansão de plantio de eucalipto, município de pinheiros/ES. realização da coleta de dados primários por meio de duas campanhas de campo (período seco e chuvoso), preparação e destinação de material zoológico e elaboração de relatório técnico.
ANO: 2021/2021	• Diagnóstico da avifauna (com uso da metodologia por ponto fixo de escuta e registros fortuitos), para compor o estudo de impacto ambiental (EIA) e seu respectivo relatório de impacto ambiental (RIMA) da fazenda São Lucas, para expansão de plantio de eucalipto, município de Pinheiros/ES. Realização da coleta de dados primários por meio de duas campanhas de campo (período seco e chuvoso), preparação e destinação de material zoológico e elaboração de relatório técnico.
ANO: 2020/2021	• Diagnóstico da fauna (herpetofauna, avifauna e mastofauna) silvestre na área pretendida para extração de granito para produção de blocos de rocha ornamental, Laranja da Terra/ES.
ANO: 2020/atual	• Coordenação das atividades de manejo, coleta, transporte e soltura da Biodiversidade Aquática, para os organismos Zooplanctons, Macroinvertebrados Bentônicos (Zoobentos), Malacofauna e Ictiofauna (Transposição de Peixes), na

PCH Mucuri, localizada no município de Carlos Chagas, Minas Gerais, com vistas ao atendimento às condicionantes nº 18 e 22 da Licença de Operação n.°7299/2007/005/2012, concedida ao referido empreendimento, pela Superintendência Regional de Regularização Ambiental do Leste Mineiro SUPRAM – Leste Mineiro. Elaboração de relatórios técnicos referente a Transposição de Peixes, com apresentação de dados taxonômicos, ecológicos, biométricos, marcação e análise gonadal.

ANO: 2020/atual

- Realização do Monitoramento da Avifauna (utilização do método de estudo por ponto fixo de escuta e registros fortuitos) na área de influência do empreendimento da Mineração Thomazini LTDA, no município de Itinga/MG. Elaboração de relatório técnico com base no estudo realizado a campo mediante à coleta de dados qualitativos e quantitativos da avifauna local.

ANO: 2020/2021

- Realização de estudo de caracterização/diagnóstico da fauna terrestre (herpetofauna, avifauna e mastofauna) e aquática (ictiofauna, fitoplâncton, zooplâncton e bentos) a compor o estudo de impacto ambiental do terminal de granéis líquidos da navegantes logística. Os serviços contemplam o levantamento de dados primários (fauna terrestre) e secundários (fauna terrestre e aquática) para área de estudo; classificação das espécies quanto ao habitat, hábito, origem (nativa e exótica), endemismo e grau de ameaça (em nível estadual, nacional e global), vítimas de xerimbabo e cinegéticas, além da proposição de práticas e/ou programas e/ou técnicas que possam auxiliar na mitigação de possíveis impactos.

ANO: 2020/2020

- Responsável técnico pela compilação de dados secundários referentes a caracterização ambiental, análise integrada, identificação e avaliação dos impactos ambientais e dos planos e programas ambientais de controle, de monitoramento e medidas mitigadoras, referente ao meio biótico – fauna terrestre (anfíbios, répteis, aves e mamíferos) e aquática (peixes), do relatório ambiental simplificado (RAS), da adequação II da UTGCA. caracterização e classificação taxonômica das espécies da fauna terrestre e aquática, avaliação do status de conservação quanto a identificação das espécies indicadoras da qualidade ambiental; importância ecológica e econômica; classificação com base na convenção sobre comércio internacional de espécies em perigo fauna selvagem e flora (cites); espécies cinegéticas; espécies visadas para utilização como xerimbabos; endemismo e as ameaçadas de extinção segundo a lista estadual, nacional e internacional; avaliação do status de ocorrência quanto as espécies raras; migratórias; residentes e exóticas; presentes na área do empreendimento e seu entorno. serviço prestado a Petrobras - Petróleo Brasileiro S.A., CNPJ: 33.000.167/0121-18, na UTGCA de Caraguatatuba/SP.

ANO: 2020/2021

- Responsável Técnico pelo Monitoramento da avifauna na área de influência da Izimex Pedras do Brasil, Diamantina/MG. Realização de amostragem em campo com uso do método de estudo por pontos fixos de escuta, registros fortuitos e busca ativa diurna e noturna. Registro da ocorrência das espécies de aves nas áreas do empreendimento e no entorno, coleta de dados, compilação de listas de espécies, composição, riqueza e abundância (IPA) das comunidades. Identificação de espécies raras, ameaçadas de extinção, endêmicas, migratórias, exóticas e/ou invasoras. Detecção e avaliação de possíveis alterações sofridas pela ornitofauna e proposição de medidas de controle ou de manejo para mitigar possíveis impactos sobre a comunidade de aves.

ANO: 2020/2020	• Monitoramento da avifauna (utilização do método de estudo por ponto fixo e registros fortuitos) em área de preservação permanente (APP) e silvicultura de propriedade da empresa Caravelas Florestal, Município de Ibirapuã/BA.
ANO: 2020/2021	• Coordenação das ações para controle de população por meio de estratégias de captura, manejo, transporte, esterilização e devolução de gatos domésticos (*Felis catus domesticus*) nos terminais aquaviários da baía de Guanabara (TABG).
ANO: 2019/2019	• Responsável Técnico pela elaboração do Diagnóstico da Fauna (herpetofauna, avifauna e mastofauna) e Flora Silvestre com base na compilação de dados primários (levantamento de campo) e secundários (estudos realizados na região); caracterização e classificação taxonômica da fauna e flora silvestre; identificação e atualização das listas de espécies; classificação das espécies quanto ao hábito de vida; guilda trófica, status de ocorrência (residentes, vagantes, endêmicas do bioma mata atlântica e do brasil, etc.); classificação das espécies ameaçadas de extinção com base nas listas estadual (IPEMA, 2005; 2007), nacional (MMA, 2014) e internacional (IUCN, 2019); classificação das espécies exóticas e invasoras; a compor o plano de controle ambiental - PCA para licenciamento das novas células da CGRI - Vitória Ambiental, localizada no distrito de Putiri, zona rural do município de Serra/ES.
ANO: 2019//2020	• Levantamento e caracterização da fauna silvestre (herpetofauna, avifauna e mastofauna) presente na área do empreendimento e seu entorno (compilação de dados primários e secundários), com base na utilização de metodologia de campo não interventiva. identificar a ocorrência das espécies da fauna incluindo a listagem taxonômica indicando a forma de registro com ênfase nas espécies indicadoras da qualidade ambiental, ameaçadas de extinção, raras, migratórias, de importância econômica, ecológica e exóticas, presentes na área do empreendimento e seu entorno, de acordo com listas oficiais estaduais, nacionais e internacionais existentes. apresentar propostas e medidas de mitigação dos impactos para as espécies ameaçadas de extinção, caso registradas para a área do empreendimento e seu entorno.
ANO: 2019/2020	• Coordenação das ações para controle de população por meio de estratégia de captura, transporte e destinação de cães domésticos (*Canis lupus familiaris*) do terminal de Campos Elíseos (TECAM).
ANO: 2019/2020	• Coordenação dos serviços de manejo de fauna silvestre, em específico a capivaras (*Hydrochoerus hydrochaeris*) nos terminais aquaviários da baía de Guanabara (TABG), considerando a captura, transporte e a destinação dos indivíduos em local ecologicamente semelhante.
ANO: 2019/2021	• Coordenação do estudo de diagnóstico ambiental em área de manguezal. Elaboração de plano de trabalho e relatório do diagnóstico dos danos ambientais da ocorrência no km 176+000 do OSDUC.
ANO: 2018/2019	• Execução do Programa de Monitoramento da Avifauna para a fase de instalação do empreendimento Usina Termelétrica (UTE) Presidente Kennedy e Usina

Termelétrica (UTE) Presidente Kennedy I, Distrito de Jaqueira, município de Presidente Kennedy/ES, em atendimento a condicionante número 12, respectivamente, referente à licença prévia número 057/2018, emitida pelo IEMA. O Monitoramento da Avifauna será executado mediante ao uso da metodologia de pontos fixos de escuta, redes de neblina e registros fortuitos, a serem amostrados em sete pontos amostrais localizados em ambientes de restinga, floresta ombrófila densa e alagados.

ANO: 2018/2018

- Realização do diagnóstico da fauna vertebrada (herpetofauna, avifauna e mastofauna) nas áreas de intervenção da Rodovia Contorno de Aracruz, com aproximadamente 16,7 km, compreendendo as áreas de empréstimo, bota-fora, jazida e canteiro de obras, no município de Aracruz/ES, por meio de dados primários (sem captura) e secundários; análise dos impactos decorrentes da implantação e operação da rodovia sobre a fauna local nas áreas de intervenção; indicação dos locais propícios a ocorrência de atropelamento de fauna e instalação de equipamentos e mecanismos para travessia de fauna e outros mecanismos para redução de atropelamento; e proposição de ações de mitigação e controle dos impactos com relação a fauna. Contratante: Imetame Logística LTDA, CNPJ: 11.415.956/0001-70. Contratada: Elementus soluções ambientais EIRELI, CNPJ: 21.566.736/0001-00.

ANO: 2018/2018

- Realização de estudo de caracterização/diagnóstico da fauna silvestre (anfíbios, répteis, aves, mamíferos e invertebrados peçonhentos) a compor o estudo de elaboração do plano de manejo do Parque Municipal David Victor Farina, com área aproximada de 44 hectares, localizado no município de Aracruz/ES. Os serviços contemplam levantamento de dados primários e secundários para área de estudo; classificação das espécies quanto ao habitat, hábito, origem (nativa e exótica), endemismo e grau de ameaçada (espirito santo e brasil), vítimas de xerimbabo e cinegéticas, além da proposição de práticas e/ou programas e/ou técnicas que possam auxiliar a gestão do Parque no manejo destas espécies.

ANO: 2018/2021

- Participação como integrante da equipe técnica do Monitoramento da Ictiofauna na área de influência da UHE Funil, localizada no município de Lavras, Perdões e demais municípios de influência no sul de Minas Gerais, com vistas ao atendimento da Licença de Operação Nº 045/2017, emitida pela Superintendência Regional de Meio Ambiente e Desenvolvimento Sustentável de Minas Gerais – SUPRAM/SUL.

ANO: 2017/atual

- Executor Técnico (Coordenador do trecho 3B nos municípios de Serra, Vitória e Vila Velha/ES) do Projeto de Monitoramento de Praias na área de influência da bacia de Campos e do Espírito Santo. Contrato 5400.014911.17.2 celebrado entre o CTA - Serviços em Meio Ambiente LTDA e a Petrobras - Petróleo Brasileiro S/A.

ANO: 2017/2018

- Levantamento da ictiofauna (amostragens em seis pontos pré-definidos, utilizando redes de emalhar, rede de arrasto, tarrafa, peneira e espinhel, para análise qualitativa e quantitativa da comunidade) na área de influência da Pequena Central Hidrelétrica (PCH) Cachoeira do Inferno, no município de São Mateus/ES. Compilação de dados obtidos de duas campanhas de campo realizadas no período seco e chuvoso e elaboração de relatório técnico.

ANO: 2017/2017

- Revisão dos capítulos relacionados ao Estudo do Meio Biótico (fauna e flora) e da Análise de Impactos, Proposição de Medidas e Programas Ambientais, a compor o Plano de Controle Ambiental – PCA célula 2 aterro “C” – FIBRIA Aracruz/ES.

ANO: 2017/2017

- Elaboração de Diagnóstico da Fauna Silvestre (anfíbio, répteis, aves e mamíferos) com base na compilação de dados secundários de estudos realizados na região, a compor o Relatório de Controle Ambiental (RCA) para aterro industrial classe II para lama abrasiva de rochas ornamentais, visando requerer a Licença Prévia e de Instalação da Empresa Toledo Mineração Ltda, para instalação de aterro industrial classe II, a ser implantado no Município de Barra de São Francisco/ES.

ANO: 2017/2017

- Realização do monitoramento da avifauna através do método de busca ativa (visual, auditiva e playback) e contagem de aves por censo ao longo de 13 km lineares da rede elétrica que interliga a subestação da UHE cachoeira caldeirão a subestação da UHE Ferreira Gomes. A linha de transmissão passa por ambientes composto por floresta amazônica, cerrado, transição Amazônia/Cerrado e alagados.

ANO: 2017/2017

- Monitoramento da avifauna (utilização do método de estudo por ponto fixo e registros fortuitos) em área de preservação permanente (APP) de propriedade da empresa Caravelas Florestal, Município de Ibirapuã/BA.

ANO: 2017/2017

- Elaboração de Plano de Reflorestamento e Recuperação de Área Degradada, visando recompor área total de 10.804 m², em atendimento ao Projeto de Compensação Ambiental referente às obras de construção do trecho da rodovia es-391, entre os distritos de Santo Antônio de Muqui e Conceição do Muqui, no Município de Mimoso do Sul/ES.

ANO: 2017/2017

- Realização de estudo de caracterização/diagnóstico da fauna silvestre (mastofauna, avifauna e herpetofauna) presente na Reserva Particular do Patrimônio Natural (RPPN) Uruçu Capixaba, localizada no município de Domingos Martins – ES. Os serviços contemplam levantamento de dados primários e secundários para área de estudo; classificação das espécies quanto ao habitat, hábito, origem (nativa e exótica), endemismo e grau de ameaçada (Espirito Santo e Brasil). contratante: IBRAMAR – Instituto Brasileiro do Mar, CNPJ: 10.468.208/0001-93. contratada: Elementus Soluções Ambientais Eireli EPP, CNPJ: 21.566.736/000100.

ANO: 2017/2017

- Realização do diagnóstico da fauna (herpetofauna, avifauna e mastofauna) e flora silvestre na área de influência do empreendedor, a compor o Plano de Controle Ambiental (PCA) do Terminal Portuário do Espírito Santo.

ANO: 2016/2016

- Elaboração de Plano de Manejo e Recuperação de Área Degradada, Município da Serra/ES.

ANO: 2016/2016

- Estudo da Fauna Silvestre (Herpetofauna, Avifauna e Mastofauna) a compor o Diagnóstico Ambiental em atendimento a condicionante nº 10, da Licença de

	Instalação nº 38/2016, concedida pelo Instituto Estadual de Meio Ambiente e Recursos Hídricos (IEMA) ao Empreendimento Nova Era Mineração Ltda.
ANO: 2015/2015	• Execução e Elaboração do Diagnóstico Ambiental do Meio Biótico - Fauna (Herpetofauna, Avifauna e Mastofauna), a compor o Relatório de Controle Ambiental da Atividade de Extração Mineral de Granito (Processo DNPM 869.003/2007) visando atender a obra do empreendimento Itaoca Terminal Marítimo.
ANO: 2015/2018	• Gestão do Projeto de Monitoramento da Ictiofauna na área de influência da UHE Aimorés, Aimorés/MG e UHE Funil, Perdões/MG.
ANO: 2015/2015	• Elaboração de Programa de Monitoramento da Fauna Terrestre e Aquática no trecho do rio Doce nos Municípios de Baixo Guandú a Linhares/ES.
ANO: 2015/2015	• Execução do Programa de Resgate de Fauna e do Programa de Prevenção e Remediação de Acidentes com a Fauna.
ANO: 2015/2016	• Coordenação de Estudo de Impacto Ambiental, Meio Biótico - Fauna (Entomofauna, Herpetofauna, Avifauna, Mastofauna e Ictiofauna) para Implantação de Silvicultura no Bloco VI, Fazenda São Joaquim da Água Preta e Fazenda Dourada Una, nos Municípios de Pedro Canário e Conceição da Barra/ES.
ANO: 2014/2015	• Coordenação do Resgate da Fauna durante a supressão da vegetação na área do reservatório da UHE Cachoeira Caldeirão.
ANO: 2014/2014	• Elaboração de Plano de Recuperação de Área Degradada do Rancho Kabaleiro, Bicanga, Serra/ES.
ANO: 2014/2016	• Monitoramento da Fauna Terrestre (Avifauna, Herpetofauna, Mamíferos) no Porto Sudeste, Itaguaí/RJ.
ANO: 2014/2014	• Coordenador Técnico do Programa de Resgate de Fauna Terrestre durante as obras de implantação do Itaoca Terminal Marítimo, município de Itapemirim/ES.
ANO: 2014/2014	• Coordenador Técnico do Programa de Mitigação do Impacto da Fauna.
ANO: 2014/2015	• Elaboração do diagnóstico da fauna (herpetofauna, avifauna e mastofauna) e flora, para o licenciamento ambiental da atividade de perfuração de um poço exploratório terrestre de hidrocarbonetos na Concessão BT-PN-3, na Bacia do Parnaíba.
ANO: 2014/2014	• Coordenação técnica em atendimento condicionante 16 - Programa de Implantação de Cortina Vegetal - Licença Prévia nº 136/2017.

ANO: 2014/2017	• Coordenação técnica durante a execução do Programa de Recuperação de Área Degradada no Terminal Terrestre de Guararema - São Paulo.
ANO: 2014/2014	• Participação nos Estudos Florísticos para implantação das LD 138kV Jaguaré – São Mateus e LD 138kV Ramal Jurong.
ANO: 2014/2015	• Execução e Elaboração do Diagnóstico Ambiental do Meio Biótico - Fauna, a compor o Relatório de controle Ambiental da Atividade de Extração Mineral de Granito (Processo DNPM 869.003/2007) visando o atender a Obra do Empreendimento Itaoca Terminal Marítimo.
ANO: 2014/2014	• Elaboração do Programa de incentivo à pesquisa envolvendo espécies ameaçadas de extinção e educação ambiental nas comunidades da área de influência da CGA Linhares.
ANO: 2014/2018	• Participação no Monitoramento da Ictiofauna na área de Influência da Usina de Aimorés/MG.
ANO: 2014/2014	• Elaboração do Programa de Monitoramento do Resgate de Fauna Terrestre na área de implantação do Itaoca Terminal Marítimo, município de Itapemirim/ES.
ANO: 2014/2014	• Coordenação do Programa de Resgate de Vegetação Nativa durante as obras de implantação do Itaoca Terminal Marítimo, Itapemirim/ES.
ANO: 2014/2018	• Coordenação Técnica do Monitoramento de Ictiofauna e Transposição Manual de Peixes na UHE Mascarenhas.
ANO: 2014/2017	• Monitoramento da Fauna Resgatada e das Espécies Ameaçadas de Extinção (Ouriço-preto/ *Chaetomys subspinosus*), em atendimento a Condicionante 23 da LP 267/2012.
ANO: 2014/2017	• Coordenação e execução do Monitoramento da Fauna Terrestre (Herpetofauna, Avifauna, Mastofauna) para atendimento da Condicionante nº 23 da LP 267/ 2012.
ANO: 2014/2014	• Elaboração do Programa de Resgate de Fauna Terrestre durante as obras de implantação da CGA Linhares.
ANO: 2014/2014	• Elaboração do Programa de Monitoramento da Fauna Terrestre e Monitoramento da Atração da Fauna causada pela disposição dos resíduos na área da CGA Linhares.

ANO: 2014/2015	• Elaboração de Cadastro Ambiental Rural (CAR), nas Propriedades Rurais Fazenda Santa Helena, Sítio Nossa Senhora da Penha, Sítio Ani, Fazenda Boa Esperança, Sítio São Geraldo, Sítio Desengano e Sítio Sant'Ana, Linhares/ES.
ANO: 2014/2018	• Coordenação Técnica do Projeto de Recuperação de Área Degradada do Terminal Cabiúnas, Carapebus/RJ.
ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor Fazenda Santa Luzia, Linhares/ES.
ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor de Ibiribas/ES.
ANO: 2013/2013	• Elaboração de estudo relativo ao meio biótico (herpetofauna, avifauna e mastofauna) do plano de controle ambiental referente ao licenciamento ambiental para locação e perfuração do poço exploratório de hidrocarboneto, Fazenda Cajá, Paulo Ramos/MA.
ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor Lagoa Bonita, Linhares/ES.
ANO: 2013/2013	• Elaboração de estudo relativo ao meio biótico do relatório de controle ambiental para licenciamento da atividade de perfuração exploratória na concessão BT-PN-2, bacia do Parnaíba/MA.
ANO: 2013/2013	• Elaboração de estudo relativo ao meio biótico a compor o RCA referente ao licenciamento ambiental da atividade de perfuração de poços terrestres exploratórios de hidrocarbonetos na concessão BT-PT-03, da bacia do Parnaíba, Maranhão, e PCA Lagoa do Meio.
ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3DHD, no campo produtor Fazenda Alegre, Jaguaré e São Mateus/ES
ANO: 2013/2013	• Elaboração de estudo relativo ao meio biótico, a compor o relatório de controle ambiental para licenciamento da atividade de perfuração do poço estratigráfico 2-ANP-5MA, bacia de São Luiz, Maranhãozinho/MA.
ANO: 2013/2013	• Elaboração de estudo relativo ao meio biótico, relatório ambiental simplificado para licenciamento da área de empréstimo de cascalho, Fazenda Cajá, Paulo Ramos/MA.

ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor Rio Itaúnas, Conceição da Barra/ES.
ANO: 2013/2013	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor Fazenda Queimadas, Linhares, Jaguaré e São Mateus/ES.
ANO: 2013/2014	• Coordenação Técnica do Programa de resgate de fauna terrestre e gestão ambiental durante o levantamento geofísico – sísmica 3D, no campo produtor Barra do Ipiranga, Linhares/ES.
ANO: 2013/2014	• Coordenação Técnica do Monitoramento da Vegetação Ciliar na área de influência da PCH São Pedro, Domingos Martins/ES.
ANO: 2013/2013	• Elaboração do diagnóstico meio biótico (herpetofauna, avifauna, mastofauna) a compor o RCA para licenciamento da pedreira Facilita Cred, Itapemirim/ES.
ANO: 2013/2014	• Coordenação do Resgate e salvamento de peixes nas turbinas durante a parada de manutenção da UHE Mascarenhas, UHE Suíça, PCH São João, PCH Viçosa e PCH Francisco Gros.
ANO: 2013/2017	• Coordenação Técnica referente a execução do Plano de Recuperação de Áreas Degradadas na área de influência da PCH Fruteiras e PCH Viçosa.
ANO: 2013/2013	• Coordenação Técnica referente a elaboração do PRAD do Loteamento Aracruz.
ANO: 2013/2013	• Coordenação Técnica e elaboração do estudo da fauna terrestre (herpetofauna, avifauna, entomofauna, ictiofauna e mastofauna) a compor o Relatório de Controle Ambiental (RCA) para licenciamento da Volare Veículos.
ANO: 2013/2013	• Elaboração do Programa de Resgate de Fauna Vertebrada Terrestre do empreendimento da Volare Veículos Ltda.
ANO: 2013/2013	• Análise de Viabilidade Ambiental para instalação de um empreendimento imobiliário, no município de Vila Velha – ES.
ANO: 2013/2013	• Coordenação Técnica referente a elaboração do Programa de Prevenção e Remediação de Acidentes com a Fauna.
ANO: 2013/2013	• Elaboração do Programa de Resgate de Fauna Silvestre durante as obras de implantação da unidade industrial da Carta Fabril, município de Aracruz/ES.

ANO: 2013/2013	• Coordenação Técnica referente a elaboração Programa de Supressão Vegetal e Resgate de Flora Silvestre durante as obras de implantação da unidade industrial da Carta Fabril, município de Aracruz/ES.
ANO: 2013/2013	• Coordenação Técnica referente a elaboração Projeto de Recuperação de Áreas Degradadas para atividade de implantação da unidade industrial da Carta Fabril, município de Aracruz/ES.
ANO: 2013/2015	• Coordenação Técnica referente a execução do Programa de Recuperação de Área Degradada do Condomínio Residencial Jardins Veneza, localizada no município de Vila Velha/ES.
ANO: 2013/2013	• Execução do resgate e salvamento de peixes durante o deplecionamento do reservatório da PCH Jucu, Alfredo Chaves/ES.
ANO: 2013/2013	• Elaboração do Programa de Resgate de Vegetação Nativa na Área de Influência Direta da Base de Apoio Logístico Offshore da C-Port, Itapemirim/ES.
ANO: 2013/2013	• Elaboração do Programa de Monitoramento do Resgate de Fauna Terrestre na área de implantação da Base de Apoio Logístico Offshore, Itapemirim/ES.
ANO: 2013/2013	• Elaboração do Programa de Resgate de Fauna Terrestre e Programa de Monitoramento do Resgate de Fauna na área de implantação da Base de Apoio Logística Offshore de propriedade da C-Port Brasil Logística Offshore Ltda, município de Itapemirim/ES.
ANO: 2013/2013	• Coordenação Técnica na elaboração PRAD no Entorno das áreas de Proteção Permanente da Lagoa de Ubu, Anchieta/ES.
ANO: 2013/2015	• Coordenação Técnica na execução do Programa de Resgate de Ictiofauna durante os Desvios do Rio na fase da Construção da UHE Cachoeira Caldeirão, Porto Grande/AP.
ANO: 2013/2016	• Coordenação Técnica na execução do Monitoramento de Fauna, Flora e Vetores de Doenças na área de influência da UHE Cachoeira Caldeirão, Porto Grande/AP.
ANO: 2013/2014	• Coordenação Técnica na execução do Resgate de Fauna silvestre das obras de Implantação da Fábrica Volare Veículos Ltda.
ANO: 2013/2014	• Coordenação Técnica e execução do diagnóstico meio biótico (herpetofauna, avifauna, mastofauna) a compor o RCA para licenciamento da pedreira Locatran, Itapemirim/ES.

ANO: 2013/2015	• Coordenação Técnica referente a execução do Plano de Monitoramento, Manutenção e Controle das Espécies Exóticas Invasoras, nos fragmentos de nativas no entorno da Samarco – Ubú, Anchieta/ES.
ANO: 2012/2013	• Coordenação Técnica referente a execução de atualização do inventário florestal/florístico em área de influência da CSU, em Anchieta.
ANO: 2012/2014	• Coordenação Técnica referente a Manutenção e Monitoramento do PRAD da PCH Francisco Gros.
ANO: 2012/2012	• Coordenação Técnica referente a Consolidação dos dados referente ao Monitoramento da Ictiofauna da PCH Francisco Gros realizado antes e depois do barramento.
ANO: 2012/2014	• Elaboração do estudo da avifauna a compor o EIA/RIMA Usina Alcooleira Bioenergética Boa Esperança e da Usina Termoelétrica, Boa Esperança/ES.
ANO: 2012/2013	• Coordenação Técnica referente a execução do Monitoramento da ictiofauna na área de influência da UHE Mascarenhas, rio Doce, Baixo Guandu/ES e Aimorés/MG.
ANO: 2012/2017	• Coordenação Técnica referente a execução do Monitoramento Ambiental na Área de Implantação do Projeto de Recuperação de Área Degradada da Portocel.
ANO: 2012/2012	• Elaboração do diagnóstico ambiental meio biótico (herpetofauna, avifauna e mastofauna) para elaboração do RCA influência de instalação da Indústria Metalúrgica da Paranapanema S.A.
ANO: 2012/2012	• Coordenação Técnica referente a Transposição e peixamento na UHE Mascarenhas.
ANO: 2012/2012	• Coordenação Técnica referente a execução do Reforço do Estoque Pesqueiro na Área de Influência da UHE Mascarenhas.
ANO: 2012/2013	• Coordenação Técnica referente a execução do Resgate da Fauna Silvestre da Linha de Transmissão 230 kV – Santo Antônio do Jari/Amapá.
ANO: 2012/2012	• Execução do Resgate e salvamento de peixes durante o deplecionamento do reservatório da UHE Suíça.
ANO: 2012/2012	• Avaliação Ambiental Estratégica em área pré-selecionada para instalação de Terminal de Barcaças no distrito de Regência.

ANO: 2012/2012	• Coordenação Técnica referente a elaboração de Programa de Recuperação de áreas Degradadas na área do Aterro Controlado da CODIN.
ANO: 2011/2012	• Coordenação Técnica referente a execução do Resgate da fauna silvestre continental durante as obras de instalação do Estaleiro Jurong Aracruz Ltda.
ANO: 2011/2013	• Coordenação Técnica referente a execução do Monitoramento da ictiofauna na área de influência da PCH Francisco Gros, rio Itapemirim, Alegre/ES.
ANO: 2011/2013	• Coordenação Técnica referente a execução do Execução do Programa de Recuperação de Áreas Degradadas – Valão, em Cachoeiro de Itapemirim/ES.
ANO: 2011/2015	• Coordenação Técnica referente a execução do Monitoramento da fauna continental na área de influência do empreendimento.
ANO: 2011/2016	• Coordenação Técnica referente a execução do plano de recuperação de áreas degradadas do Estaleiro Jurong Aracruz – EJA, Aracruz/ES.
ANO: 2011/2014	• Coordenação Técnica referente a execução do Resgate e monitoramento da flora silvestre resgatada durante as obras de construção do Estaleiro Jurong Aracruz - EJA.
ANO: 2011/2012	• Coordenação Técnica referente a execução do Projeto de Identificação e Marcação de Árvores Matrizes de Espécies Nativas na FLONA Goytacazes, Linhares/ES.
ANO: 2011/2016	• Coordenação Técnica referente a execução do Projeto de Recuperação Ambiental na FLONA Goytacazes, Linhares/ES.
ANO: 2011/2012	• Coordenação Técnica referente a execução do Execução do Programa de Recuperação de Áreas Degradadas da PCH Rio Bonito– Cond nº 04 da LO 249/2006.
ANO: 2011/2014	• Coordenação Técnica referente a execução do Execução do Programa de Recuperação de Áreas Degradadas das UHEs Mascarenhas e Suíça.
ANO: 2011/2011	• Execução do Programa de Recuperação de Áreas Degradadas do projeto de cinturão verde na UTG-Sul Capixaba, Anchieta/ES.
ANO: 2010/2010	• Execução do programa de comunicação com os moradores e proprietários rurais sobre a implantação da Linha de Transmissão de 500 kv ligando a SE do Cluster Termelétrico Linhares à SE Viana 2.

ANO: 2010/2010	• Gestão ambiental e execução do resgate de fauna silvestre durante a execução da sísmica 2D no bloco ES-T-318.
ANO: 2008/2010	• Execução do Programa de Resgate de Fauna Terrestre durante as obras de construção da linha tronco do gasoduto Cacimbas/ES a Catu/BA – GASCAC.

CURSOS E EVENTOS RECENTES

Nome do curso

- Curso de curta duração em Treinamento ICS 100 (ISC – Incident Command System) – Nível Introdutório (Carga horária: 16h). Emergency Management Institute (EMI) Course, FEMA, Estados Unidos. Vitória/ES, 2020.
- Curso de curta duração em Treinamento ICS 200 (ISC – Incident Command System) – Nível básico (Carga horária: 16h). Emergency Management Institute (EMI) Course, FEMA, Estados Unidos. Vitória/ES, 2020.
- Curso de curta duração em Capacitação Teórica sobre Desencalhe de Grandes Cetáceos. (Carga horária: 8h). CTA - Serviços em Meio Ambiente LTDA, CTA, Brasil. Vitória/ES, 2020.
- Curso de curta duração em Organização e análise de dados de inventário e monitoramento de avifauna. (Carga horária: 6h). Sociedade Brasileira de Ornitologia, SBO, Brasil. Vila Velha/ES, 2019.
- Curso de curta duração em Capacitação Teórica e Prática sobre Desencalhe de Grandes Cetáceos. (Carga horária: 8h). CTA - Serviços em Meio Ambiente LTDA, CTA, Brasil. Cabo Frio/RJ, 2018.
- Curso de anilhamento de aves silvestres - CEMAVE. (Carga horária: 40h). Instituto Chico Mendes de Conservação da Biodiversidade, ICMBIO, Brasil. Florianópolis/SC, 2017.
- Curso de curta duração em Telemetria por VHF ou convencional. (Carga horária: 4h). CTA - Serviços em Meio Ambiente LTDA, CTA, Brasil. Aracruz/ES, 2011.
- Curso de curta duração em Sensoriamento remoto e SIG para conservação. (Carga horária: 8h). Sociedade Brasileira de Ornitologia, SOB e Faculdade de Tecnologia FAESA, CET-FAESA, Vitoria, Brasil. Aracruz/ES, 2009.
- Curso de curta duração em Como obter e analisar dados de populações de aves. (Carga horária: 8h). Sociedade Brasileira de Ornitologia, SOB e Faculdade de Tecnologia FAESA, CET-FAESA, Vitoria, Brasil. Aracruz/ES, 2009.

ISABELA FADINI CASTIGLIONI

FORMAÇÃO

Formação Acadêmica:	• Engenheira Ambiental – UFES – 2008/2013. • Engenheira de Segurança do Trabalho – USP – 2014/2016. • MBA em Gerenciamento de Projetos – FGV – 2017/2018.
Idioma:	• Inglês fluente. • Francês básico.
Informática:	• Pacote Office, AutoCAD (básico).
Conselho de Classe	• CREA-ES-033105/D.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Control Ambiental Sustentabilidade e Meio Ambiente S.A.
Cargo:	• Coordenadora de projetos.
Período:	• Novembro/2017 – Atual
Principais Atividades:	• Gerenciamento de projetos; revisão e aprovação de relatórios, estudos, programas e planos ambientais; planejamento e acompanhamento de equipes e projetos; interface e articulação com clientes.

Empresa:	• Control Ambiental Sustentabilidade e Meio Ambiente S.A.
Cargo:	• Analista ambiental.
Período:	• Outubro/2013 – Outubro/2017.
Principais Atividades:	• Gestão ambiental; elaboração de relatórios, estudos, programas e planos ambientais; planejamento, acompanhamento e execução de projetos, estudos ambientais e inspeções ambientais; gerenciamento de condicionantes; interface e articulação com clientes.

Empresa:	• Control Ambiental Sustentabilidade e Meio Ambiente Ltda.
Cargo:	• Estagiária.
Período:	• Maio/2012 – Outubro/2013.
Principais Atividades:	• Apoio no desenvolvimento e discussão de relatórios técnicos; acompanhamento de condicionantes ambientais; confecção de mapas e gráficos.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2020	• Coordenação técnica dos serviços de monitoramento, amostragem e análises laboratoriais de água, efluente e resíduos da Refinaria Isaac Sabbá, Manaus-AM, da Petrobras. • Coordenação técnica da gestão ambiental e execução dos programas do Plano Básico Ambiental do Complexo Eólico Serra da Babilônia Fase 3, Morro do Chapeu-BA, da Rio Energy.
ANO: 2019	• Coordenação técnica do gerenciamento de condicionantes e elaboração de relatórios para licenciamento ambiental das obras e operação da rodovia BR-101 RJ, da Autopista Fluminense.

- Coordenação técnica dos serviços de planejamento, execução de análises laboratoriais, controle e acompanhamento das atividades relacionadas aos Projetos de Monitoramento Ambiental Marinho do entorno das Unidades Marítimas na área de atuação da UO-ES, da Petrobras.
- Coordenação técnica dos serviços de monitoramento e resgate de flora e fauna e gerenciamento de obras no Porto do Açu, da Gás Natural Açu.
- Coordenação técnica dos serviços de consultoria em Meio Ambiente para Licenciamento Ambiental de Empreendimentos do Porto do Açu, da Porto do Açu Operações S.A.
- Coordenação técnica da execução dos Programas Ambientais (PBA) de operação do Complexo Eólico Serra da Babilônia e Linha de Transmissão associada, da Rio Energy.
- Coordenação técnica da elaboração e execução de estudos em atendimento à condicionantes ambientais das Licenças LAR, da Brametal.
- Coordenação técnica da elaboração do Programa de Conscientização Pública e Prevenção de danos Causados por Terceiros, da Celse.
- Coordenação técnica do serviço de observadores de bordo para a supervisão ambiental da atividade de dragagem do canal de acesso ao terminal 2 do Porto do Açu.
- Coordenação técnica dos serviços para realização de Auditoria Ambiental de Controle ou de Acompanhamento no âmbito da DZ-56-R.3-Diretriz para realização de auditoria ambiental e Resolução CONAMA n 306/2002 (DOME e T-MULT), da Porto do Açu Operações S.A.
- Coordenação técnica do Levantamento dos Bens Imateriais e Arqueológicos da UTE São Marcos, em São Luís, da ENEVA.
- Coordenação técnica da Assessoria para o Processo de Licenciamento Ambiental da Fábrica de Café Solúvel da OLAM, em Linhares-ES.
- Coordenação técnica da elaboração de Plano Ambiental de Dragagem para o Terminal GNL no Porto do Açu, da Gás Natural Açu.

ANO: 2018

- Gerenciamento de condicionantes e elaboração de relatórios para licenciamento ambiental das obras e operação da rodovia BR-101 RJ, da Autopista Fluminense.
- Gerenciamento ambiental e elaboração de relatórios das obras de implantação da Linha de Transmissão Serra da Babilônia, da Rio Energy.
- Planejamento das atividades e revisão de documentos para licenciamento ambiental de poço exploratório de petróleo na Bahia, da GeoPark.
- Coordenação técnica dos Serviços de coleta, análises laboratoriais de amostras de água dos poços de monitoramento, e coleta de amostras, análise de caracterização e monitoramento dos efluentes sanitários e industriais da Transpetro S/A, em Jequié, Itabuna e Itagibá/BA.
- Coordenação técnica dos serviços de coleta de amostras, análise de caracterização e monitoramento dos efluentes sanitários, industriais e corpos hídricos receptores de efluentes tratados nas unidades da Transpetro S.A, em Manaus/AM, Coari/AM, Juaruna/AM e Belém/PA.
- Coordenação técnica da implementação de Programas Ambientais (PEAT, PPEI, PAC, PRB e PAE) durante a atividade de perfuração de poços de petróleo e gás natural na Bacia do Parnaíba, nos estados do Piauí e do Maranhão, da Ouro Preto.

ANO: 2017

- Gerenciamento ambiental dos empreendimentos de exploração e produção de gás natural na Bacia do Parnaíba, MA, da ENEVA.

- Elaboração / revisão de documentos diversos (PCA, RCA, relatórios de atendimento a condicionantes, Memoriais Descritivos, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais dos empreendimentos da ENEVA.
- Elaboração de documentos diversos (Memoriais Descritivos, relatórios de atendimento a condicionantes e execução de programas ambientais, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais da Base de Apoio da Brasil Port, grupo Edison Chouest.
- Elaboração / revisão de relatórios/ estudos (Plano de Gestão de Crises, Plano de Prevenção e Combate a Incêndios Florestais, PCE, Manual de Meio Ambiente, procedimentos operacionais) para a Porto do Açu.
- Elaboração de relatórios para licenciamento ambiental das obras e operação da rodovia BR-101 RJ, da Autopista Fluminense.
- Gerenciamento ambiental e elaboração de relatórios das obras de implantação da Linha de Transmissão Serra da Babilônia, da Rio Energy.

ANO: 2016

- Gerenciamento ambiental dos empreendimentos de exploração e produção de gás natural na Bacia do Parnaíba, MA, da Parnaíba Gás Natural S.A.
- Elaboração de documentos diversos (PCA, RCA, relatórios de atendimento a condicionantes, Memoriais Descritivos, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais dos empreendimentos da Parnaíba Gás Natural S.A.
- Planejamento e coordenação das atividades de gerenciamento ambiental da instalação e operação da Base de Apoio a Operações Portuárias da Brasil Port, grupo Edison Chouest, no Complexo Portuário do Açu, São João da Barra, RJ.
- Elaboração de documentos diversos (Memoriais Descritivos, relatórios de atendimento a condicionantes e execução de programas ambientais, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais da Base de Apoio da Brasil Port, grupo Edison Chouest.
- Elaboração de procedimentos operacionais / meio ambiente do Sistema de Gestão da Prumo Logística Global no Porto do Açu.

ANO: 2015

- Gerenciamento ambiental dos empreendimentos de exploração e produção de gás natural na Bacia do Parnaíba, MA, da Parnaíba Gás Natural S.A.
- Elaboração de documentos diversos (PBA, PCA, RCA, relatórios de atendimento a condicionantes, Memoriais Descritivos, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais dos empreendimentos da Parnaíba Gás Natural S.A.
- Planejamento e coordenação das atividades de gerenciamento ambiental da instalação e operação da Base de Apoio a Operações Portuárias da Brasil Port, grupo Edison Chouest, no Complexo Portuário do Açu, São João da Barra, RJ.
- Elaboração de documentos diversos (Memoriais Descritivos, relatórios de atendimento a condicionantes e execução de programas ambientais, etc.) para licenciamento ambiental e gerenciamento de licenças ambientais da Base de Apoio da Brasil Port, grupo Edison Chouest.
- Apoio técnico em relatórios de execução de Programas de Monitoramento Ambiental da Implantação do Reassentamento da Comunidade da Demanda, MA, da ENEVA.
-

- Elaboração de Programa de Comunicação Social (PCS) e Programa de Educação Ambiental (PEA) para a fase de operação da Base de Apoio Portuário da Zemax Log Soluções Marítimas, em Vitória, ES.

- Apoio na elaboração de Relatório de Monitoramento Ambiental de Água Subterrânea na Área do Posto de Gasolina da Refinaria Duque de Caxias – REDUC, RJ, da Petrobras.

ANO: 2014

- Elaboração de procedimento operacional para Galpão de Armazenamento Temporário de Resíduos e Produtos Químicos no Complexo Parnaíba, MA, e compilação de Memorial Descritivos dos projetos executivos do galpão, da ENEVA.
- Elaboração de relatórios de atendimento a condicionantes de licenças ambientais de Usinas Termoelétricas do Complexo Parnaíba, MA, da ENEVA.
- Auxílio na elaboração de documentos do Sistema de Saúde, Segurança e Meio Ambiente (HSE) da Parnaíba Gás Natural S.A., incluindo Manual de HSE, procedimentos e formulários.
- Inspeções ambientais nas unidades da Husqvarna do Brasil localizadas em São Carlos, Barueri e Cajamar, SP, e elaboração de relatório de não conformidades.
- Coordenação da execução do Programa de Educação Ambiental da Flexibrás Açu / Technip do ano de 2014, voltado aos alunos de escolas públicas municipais e comunidade, em São João da Barra, RJ.
- Gerenciamento ambiental das obras da Fábrica de Tubos Flexíveis da Flexibrás no Complexo Portuário do Açu, São João da Barra, RJ, compreendendo inspeções de campo, gerenciamento de documentação, acompanhamento de condicionantes, elaboração de relatórios técnicos.

ANO: 2013

- Apoio na execução do Programa de Educação Ambiental da Flexibrás Açu / Technip do ano de 2013, com acompanhamento de visita com alunos de escolas municipais e apresentações na Semana do Meio Ambiente de São João da Barra, RJ.
- Apoio na elaboração de relatórios técnicos do Plano Básico Ambiental (PBA) da Fábrica de Tubos Flexíveis da Flexibrás Açu / Technip no Complexo Portuário do Açu.
- Apoio no tratamento de dados do Programa de Monitoramento das Características dos Perfis de Praia do Estaleiro Jurong Aracruz, ES.
- Apoio no tratamento de dados e na elaboração de Relatório de Monitoramento Ambiental de Unidades FPSO da Petrobras nas bacias do Espírito Santo e de Campos.

ANO: 2012

- Apoio no tratamento de dados do Plano de Gerenciamento das Atividades de Dragagem para a Implantação do Canal de Acesso da Unidade de Construção Naval (UCN) do Açu e de Observação de Bordo e de Terra de Quelônios Marinhos durante as Operações de Dragagem da UCN, da LLX Açu Operações Portuárias.
- Apoio no tratamento de dados de Programas do Plano Básico Ambiental (PBA) do Pátio Logístico no Porto do Açu, São João da Barra, RJ, da LLX Açu Operações Portuárias.

CURSOS E EVENTOS RECENTES

Nome do curso	• Curso de Interpretação das normas ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007 e formação de Auditor Interno conforme NBR ISO 19011:2012 – Simpla Assessoria, Consultoria e Auditoria Ltda. – 2017.

PREMIAÇÕES E TRABALHOS PUBLICADOS

Artigo em Congresso	• Artigo apresentado no 27º Congresso Brasileiro de Engenharia Sanitária e Ambiental: "Estudo da Capacidade de Assimilação de Cargas Orgânicas na Porção Superior do Rio Santa Maria da Vitória" – 2013.
Projeto de Graduação	• Projeto de graduação em engenharia ambiental: "Análise Regional de Vazões para a Bacia Hidrográfica do Rio Itapemirim" – 2013.

LILIA CASTIGLIONI PEREIRA PASCHOAL

FORMAÇÃO

Formação Acadêmica:	• Engenheira Ambiental, Pós-graduada em Educação Ambiental e em Gestão Ambiental de Resíduos Sólidos, Mestre em Ecologia Humana e Problemas Sociais Contemporâneos.
Idioma:	• Português nativo, Inglês e Italiano Intermediário.
Informática:	• Pacote Office completo;
Conselho de Classe	• CREA ES 024565/D.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S.A.
Cargo:	• Analista Ambiental Master
Período:	• Abril/2022 até a presente data
Principais Atividades:	• Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA); • Coordenação meio socioeconômico; Levantamento de dados primários e secundários, e tratamento dos dados; • Elaboração e Execução de Programas Socioambientais (Ex: Comunicação Social, Educação Ambiental, Educação Ambiental para Trabalhadores, dentre outros). Atendimento à condicionante ambiental – Plano Básico Ambiental. • Responsável pelo acompanhamento de processos de licenciamento ambiental, atendimento de condicionantes, coordenação e execução de trabalhos de campo (meio socioeconômico) e elaboração de relatório para os Órgãos Ambientais e clientes.
Empresa:	• Associação Ambiental Italiana – Legambiente Prato
Cargo:	• Assistência Técnica – Projeto ERASMUS+
Período:	• novembro 2020 a novembro/2021.
Principais Atividades:	• Co-gestão do Refúgio “Le Cave”, imerso na Reserva Natural “Acquerino Cantagallo” localizada na Toscana. Apoio às atividades de educação ambiental realizadas no Centro de Educação Ambiental do Refúgio. Realização de oficinas educativas com temas ambientais. Organização e elaboração de atividades de conscientização ambiental juntamente com a Câmara e Prefeitura Municipal de Prato, e envolvimento com projetos de educação inclusiva e mobilidade sustentável.
Empresa:	• Control Ambiental e Sustentabilidade Ltda
Cargo:	• Analista Ambiental Sênior
Período:	• outubro/2014 a março/2019.
Principais Atividades:	• Coordenadora de Projetos Socioambientais. Responsável pelo acompanhamento de processos de licenciamento ambiental, atendimento de condicionantes, coordenação e execução de trabalhos de campo (socioeconomia) e elaboração de relatório para os Órgãos Ambientais e clientes. • Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA); • Coordenação meio socioeconômico; Levantamento de dados primários e secundários, e tratamento dos dados.
Empresa:	• Prefeitura Municipal de Vila Velha/ES.
Cargo:	• Coordenadora de Educação Ambiental da Secretaria de Meio Ambiente.

Período:	• janeiro/2014 a outubro/2014.
Principais Atividades:	• Coordenadora de Projetos de Educação Ambiental voltados à comunidade do Município, processos de licenciamento referentes às condicionantes e Programas de Educação Ambiental (PEA), Projetos Técnicos Sociais (PTTS) de Macrodrenagem do Canal do Congo e Canal da Costa. Coordenação e organização de ações de mobilização e sensibilização ambiental que teve como público-alvo a comunidade, alunos e professores da rede municipal do ensino infantil e fundamental. Articulação, elaboração e execução de palestras e capacitações com temas ambientais. Membro dos Conselhos Municipais de Economia Solidária e de Cultura.
Empresa:	• Control Ambiental Engenharia e Planejamento Ltda
Cargo:	• Analista Ambiental Pleno.
Período:	• fevereiro/2013 a junho/2013.
Principais Atividades:	• Atendimento ao PBA da Technip – Nova fábrica da Flexibrás no Complexo Portuário do Açu – São João da Barra/RJ e a condicionante de execução do Programa de Educação Ambiental para trabalhadores da Transpetro – Petrobras no município de Barra Nova/ São Mateus – ES.
Empresa:	• Elo Consultoria em Meio Ambiente Ltda
Cargo:	• Engenheira Ambiental Júnior.
Período:	• maio/2011 a julho/2012.
Principais Atividades:	• Participação no *Due Diligence* de Antecipação de Riscos e Incertezas Ambientais para a ICAL, empresa de mineração. Através de Levantamento, análise e consolidação de dados secundários no capítulo de Avaliação dos Disciplinadores de Uso do Solo. Tais como: Comunidades Quilombolas e/ou Indígenas, Patrimônio Histórico-cultural, Títulos DNPM, Área de preservação ambiental, análise do Plano Diretor e Lei Orgânica do município, entre outros.
Empresa:	• Cepemar Serviços de Consultoria e Meio Ambiente Ltda.
Cargo:	• Estagiária.
Período:	• setembro/2008 a agosto/2009
Principais Atividades:	• Elaboração de Propostas técnicas e comerciais. Detalhando a logística e os custos de estudos como: Avaliação Prévia Ambiental, EIV, Monitoramentos Ambientais (Efluente, Atmosférico, IQA, Ruído), PBA, RCA, PRAD, EIA/RIMA e suas respectivas licenças (LP, LI e LO), entre outros. • Análise dos Termos de referência, bem como as condicionantes exigidas pelo órgão ambiental. • Implementação de planilhas para controles internos, detalhando o fluxo das propostas, identificando melhorias no processo. • Auxílio em processos de Auditoria, comprovação através dos atestados de execução dos serviços e registro dos responsáveis técnicos.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2022/2023	• Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) no Estado do Amazonas (ENEVA, Termoelétrica) - Coordenação meio socioeconômico; • Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) no Estado do Amazonas (ATEM, Termoelétrica) - Coordenação meio socioeconômico;

- Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) no Estado do Pará (ATEM, Termoelétrica) - Coordenação meio socioeconômico;
- Elaboração de Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) no Estado do Rio de Janeiro (Porto do Açu (PDA), Hub de Hidrogênio e derivados de baixo Carbono) - Coordenação meio socioeconômico;
- PETROBRAS: Elaboração de Diagnóstico Socioambiental no Estado do Espírito Santo - Coordenação meio socioeconômico;
  Elaboração de Diagnóstico Socioambiental no Estado do Amapá - Coordenação meio socioeconômico;
  Campanha de Esclarecimento e Conscientização Sobre Atividades Sísmicas Terrestres Passadas (COSIS) no Estado do Mato Grosso do Sul – Coordenação de equipe de campo (socioambiental) e planejamento das atividades.
- 3R PETROLEUM: Auxílio na elaboração do Relatório Técnico do PMST (Programa de Monitoramento Socioespacial dos Trabalhadores) no Estado do Espírito Santo, licenciado pelo IBAMA.
- WOOD: Elaboração de Estudo Hidrológico na área do Porto de Pecém, no Estado do Ceará.
- Porto do Açu (PDA): Elaboração de Programa de Educação Ambiental Integrado contemplando as novas estruturas da Reserva Particular do Patrimônio Natural (RPPN) Caruara;
- VALE: Plano Básico Ambiental - Elaboração e Execução de Programa de Educação Ambiental para Trabalhadores (PEAT) no Estado do Rio de Janeiro – Mangaratiba/RJ;
- WWC: Plano Básico Ambiental - Elaboração e coordenação de equipe (socioeconomia) para execução de Programa de Comunicação Social voltados à Pequenas Centrais de Tratamento de Resíduos (PCTR) no Estado da Bahia e Rio Grande do Norte.

ANO: 2020/2021

- LEGAMBIENTE: Elaboração e Execução de Programa de Educação Ambiental para a Reserva Natural “Acquerino Cantagallo” localizada na Toscana, Itália;
- PREFEITURA MUNICIPAL DE PRATO: Elaboração e Execução de Campanhas Educativas com temáticas ambientais, utilizando metodologias participativas.

ANO: 2019

- PETROBRAS: Planejamento, logística e coordenação das equipes de campo para a execução de serviços de comunicação preventiva relacionada ao Projeto de Comunicação Social (PCS) voltado para comunidades da área de influência do empreendimento Manati na UO-BA.
- HUSQVARNA DO BRASIL: Realização de vistoria técnica na fábrica localizada na Serra/ES, planejamento e execução de treinamento de educação ambiental para trabalhadores, elaboração de relatórios técnicos, assessoria técnica e executiva para as fábricas localizadas em São Paulo, acompanhamento de renovação das licenças ambientais junto à CETESB - SP.

ANO: 2018

- TRANSPETRO: Planejamento e supervisão do Programa de Educação Ambiental, Programa de Educação Ambiental para Trabalhadores e Programa de Comunicação Social no Nordeste do Brasil abrangendo os Estados de Rio Grande do Norte, Ceará, Paraíba, Pernambuco e Alagoas. Os empreendimentos envolvidos foram: OPMAC, GASMEL, TA Mucuripe, TA Guamaré, TA Cabedelo, TA Suape, TA Maceió, Ramal Termope, Petroflex, Santa Rita, Aracati, GASALP/ GASPIL, Nordestão, GNL, GASFOR e GASCAP. O público-alvo desse projeto eram as comunidades do entorno dos empreendimentos.
  Preposto do contrato e responsável pela elaboração final dos relatórios técnicos para atendimento de condicionante junto ao IBAMA.

ANO: 2017

- ENEVA: Planejamento, execução e coordenação de equipe de campo para execução de atividades de Educação Ambiental para trabalhadores e comunidade nos municípios de Santo Antônio dos Lopes, Pedreiras, Lima Campos, Trizidela do Vale e Capinzal do Norte, no Estado do Maranhão. Elaboração de Relatório Final para cumprimento de condicionante. Criação de jogos educacionais interativos, material informativo e participação em capacitação dos professores municipais em Oficina de Instrumentalização de Teatro, utilizando metodologias participativas.
- PETROBRAS: Planejamento e coordenação técnica da execução do Programa de Projetos Integrados (PIPP) do Manati. O PIPP é um projeto de educação ambiental e de compensação ambiental que abrange 11 municípios e 42 localidades distribuídos na região do Baixo Sul e Recôncavo, no estado da Bahia. O público-alvo inclui pescadores e marisqueiras. Na execução do projeto são realizadas capacitações, oficinas e dinâmica utilizando métodos participativos.
- OURO PRETO ÓLEO E GÁS: Execução de serviços de comunicação para realização de duas Audiências Públicas com abrangência em 16 municípios no Estado do Piauí. As Audiências tiveram em média a participação de 800 pessoas. Dentre os serviços realizados, foram feitos contatos com as prefeituras municipais e principais Stakeholders da área de influência do empreendimento.

ANO: 2016

- GEOPARK: Planejamento, execução e coordenação de equipe de campo para execução de Programa de Comunicação Social (PCS) nas comunidades do entorno do empreendimento localizado no município de Alagoinhas/BA. Plano Básico Ambiental – Atendimento à condicionante.
- TECHNIP: elaboração do material didático e suporte técnico na execução de Treinamento do Plano de Emergência Individual (PEI) do Terminal Flexibrás no Porto de Vitória/ES.
- HKM Metais: Elaboração de Plano Básico Ambiental (PBA), PGRS e PGRCC para indústria metal mecânica com atividade de produção de anodos no município da Serra/ES;
- PARNAÍBA GÁS NATURAL (PGN): Planejamento, execução e coordenação de equipe de campo para mapeamento social de comunidades do entorno do gasoduto nos municípios de Lima Campos, Pedreiras, Santo Antônio dos Lopes e Capinzal do Norte/MA. Realização de Diagnóstico Social com base em dados secundários e primários, elaboração de Relatório Final. Apoio em ações e atividades de Educação Ambiental para trabalhadores e comunidade.

ANO: 2015

- RIO ENERGY (Eólicas Itarema): Planejamento e execução das atividades do Programa de Comunicação Social e Educação Ambiental (Plano Básico Ambiental – Atendimento à condicionante) em obra de licenciamento ambiental de Linha de Transmissão do Complexo Eólico Itarema nos municípios de Itarema e Acaraú/CE;
- PETROBRAS: Coordenação meio socioeconômico - Capítulo do Meio Socioeconômico do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) no Estado do Espírito Santo para implantação de oleoduto no município de Linhares/ES.

ANO: 2014

- PRUMO LOGÍSTICA GLOBAL, antiga LLX. Plano Básico Ambiental – Atendimento à condicionantes. Coordenação e execução de Projetos Socioambientais da empresa. Nos projetos foram contemplados: Programa de Educação Ambiental, Comunicação Social, Programa de Monitoramento Socioeconômico do Entorno e Apoio ao Planejamento Urbano, Saúde Ocupacional, Programa de Pesca e Turismo Sustentáveis. O público-alvo foram os trabalhadores da Prumo e a comunidade civil e pesqueira do município de São João da Barra/RJ. Planejamento, execução e coordenação de equipe de campo, aplicação de questionários e realização do Diagnóstico Social da pesca local.

ANO: 2013

- TECHNIP: Plano Básico Ambiental - Responsável pelos Programas de Educação Ambiental, Comunicação Social, supervisionando os Programas de Capacitação de mão de obra local e de Desenvolvimento de Fornecedores da Technip – Nova fábrica da Flexibrás no Complexo Portuário do Açu – São João da Barra/RJ. Implantação dos 5S´s; Diálogo Diário de Segurança, treinamento dos colaboradores, principalmente no que diz respeito aos resíduos de construção civil gerados, buscando melhorias na segregação e destinação final dos mesmos.
- TRANSPETRO: Plano Básico Ambiental - Execução do Programa de Educação Ambiental para Trabalhadores (PEAT) da Transpetro – Petrobras no município de Barra Nova/ São Mateus – ES. Planejamento e elaboração de palestras com temáticas de cunho ambiental, atendimento a condicionante.

LUCIANO AZEVEDO VIEIRA

FORMAÇÃO

Formação Acadêmica:	• 2004 – 2006: Mestrado em Ciências Biológicas (área de concentração em Biologia Animal) - Universidade Federal do Espírito Santo, UFES. • 1998 – 2002: Graduação em Ciências Biológicas – Escola Superior do Educandário Seráfico São Francisco de Assis, ESFA.
Idioma:	• Inglês básico
Informática:	• Pacote Office
Conselho de Classe	• 32.933/02Def. – 32.933/06Sec.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting
Cargo:	• Especialista de Fauna I
Período:	• Novembro 2021 - atual
Principais Atividades:	• Coordenação, análise, elaboração e revisão de documentos técnicos.

Empresa:	• Ambipar Response Control Environmental Consulting
Cargo:	• Analista Ambiental
Período:	• Abril 2021 – Novembro 2021
Principais Atividades:	• Coordenação, análise, elaboração e revisão de documentos técnicos.

Empresa:	• CONTROL AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2010 - 2021
Principais Atividades:	• Realização de estudos e projetos envolvendo o Meio Biótico

Empresa:	• LVS AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2019 - 2021
Principais Atividades:	• Coordenação, execução de estudos e elaboração de relatórios

Empresa:	• COMUNIDADE CATÓLICA COLO DE DEUS
Cargo:	• Voluntário / Missionário
Período:	• 2016 - Atual
Principais Atividades:	• Atividades socioculturais em comunidades carentes e comunidades eclesiais

Empresa:	• PRUMO LOGÍSTICA GLOBAL
Cargo:	• Consultor de fauna
Período:	• 2014 - 2017
Principais Atividades:	• Coordenação, execução de estudos e elaboração de planos e relatórios

Empresa:	• CPMAIS SOLUÇÕES EM MEIO AMBIENTE
Cargo:	• Consultor de fauna
Período:	• 2015 - 2015
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• FUNDAÇÃO ESPÍRITO-SANTENSE DE TECNOLOGIA – FEST
Cargo:	• Pesquisador convidado / Bolsista
Período:	• 2013 - 2014
Principais Atividades:	• Responsável pela parte de vertebrados terrestres e aquáticos (continentais e marinhos) na revisão das cartas de sensibilidade em acidentes com óleo (Cartas SAO) entre a Bahia e o Espírito Santo

Empresa:	• LLX OPERAÇÕES PORTUÁRIAS
Cargo:	• Consultor de fauna
Período:	• 2011 - 2014
Principais Atividades:	• Coordenação, execução de monitoramentos, estudos e elaboração de documentos técnicos

Empresa:	• PETROBRAS S. A.
Cargo:	• Consultor de fauna
Período:	• 2011 - 2013
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• SAMARCO MINERAÇÃO S.A.
Cargo:	• Consultor de fauna
Período:	• 2011 - 2014
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• SCI ESTUDOS EM FAUNA & FLORA
Cargo:	• Sócio / Diretor técnico
Período:	• 2010 - 2018
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ÁPICE CONSULTORIA AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2011 - 2011
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ATOL CONSULTORIA AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2010 - 2013
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ECOÁGUAS ENGENHARIA DO MEIO AMBIENTE LTDA
Cargo:	• Consultor de fauna
Período:	• 2009 - 2010
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• FUNDAÇÃO CECILIANO ABEL DE ALMEIDA
Cargo:	• Consultor de fauna
Período:	• 2009 - 2010
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• INSTITUTO CHICO MENDES DE CONSERVAÇÃO DA BIODIVERSIDADE – ICMBIO
Cargo:	• Pesquisador convidado
Período:	• 2007 -2008
Principais Atividades:	• Estudos no entorno da Reserva Biológica Augusto Ruschi, Santa Teresa - ES

Empresa:	• BUREAU VERITAS BRASIL
Cargo:	• Consultor de fauna
Período:	• 2008 - 2008
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• BOURSCHEID ENGENHARIA E MEIO AMBIENTE LTDA
Cargo:	• Consultor de fauna
Período:	• 2008 - 2021
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ENVIRONLINK CONSULTORIA AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2010 - 2014
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• INSTITUTO DE ENSINO, PESQUISA E PRESERVAÇÃO AMBIENTAL MARCOS DANIEL
Cargo:	• Pesquisador associado / Responsável técnico
Período:	• 2009 - 2013
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• INSTITUTO DA BIODIVERSIDADE – IBIO
Cargo:	• Consultor de fauna
Período:	• 2006 - 2006
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• UNIVERSIDADE FEDERAL DO ESPÍRITO SANTO, UFES
Cargo:	• Estudante de Mestrado / Pesquisador associado ao laboratório de vertebrados
Período:	• 2004 - 2008
Principais Atividades:	• Projetos de pesquisa com aves da Mata Atlântica

Empresa:	• BIÓTICA ESTUDOS E PROJETOS AMBIENTAIS
Cargo:	• Sócio / Biólogo
Período:	• 2005 - 2010
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• INSTITUTO DE PESQUISAS DA MATA ATLÂNTICA, IPEMA
Cargo:	• Consultor de fauna
Período:	• 2005 - 2006
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• SOCIEDADE DE AMIGOS DO MUSEU DE BIOLOGIA MELLO LEITÃO, SAMBIO
Cargo:	• Presidente e vice-presidente
Período:	• 2005 - 2008
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• APROMAI REBIO AUGUSTO RUSCHI, APROMAI
Cargo:	• Pesquisador associado / bolsista Petrobrás Ambiental e Fundação O Boticário
Período:	• 2004 - 2008
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• CENTRO NACIONAL DE PESQUISA PARA CONSERVAÇÃO DE AVES SILVESTRES, CEMAVE
Cargo:	• Pesquisador associado/ Anilhador Sênior
Período:	• 2004 - Atual
Principais Atividades:	• Projetos de manejo e conservação da avifauna brasileira

Empresa:	• BIOMA CONSULTORIA AMBIENTAL,
Cargo:	• Consultor de fauna
Período:	• 2003 - 2021
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• CTA MEIO AMBIENTE E ENGENHARIA
Cargo:	• Consultor de fauna
Período:	• 2001 - 2015
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• RHEA ESTUDOS E PROJETOS EM ARQUEOLOGIA E MEIO AMBIENTE
Cargo:	• Consultor de fauna / Responsável Técnico
Período:	• 2000 - 2017
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• MUSEU DE BIOLOGIA PROFESSOR MELLO LEITÃO
Cargo:	• Pesquisador associado
Período:	• 1999 - 2008
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• PSG DO BRASIL
Cargo:	• Consultor de fauna
Período:	• 2011 - 2014
Principais Atividades:	• Coordenação, coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• PLAN CONSULTORIA AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2004 - 2004
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• FUNDAÇÃO PRÓ-NATUREZA, FUNATURA
Cargo:	• Pesquisador convidado / bolsista
Período:	• 2002 - 2003
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• EQUILIBRIUM ENGENHARIA E MEIO AMBIENTE
Cargo:	• Consultor de fauna
Período:	• 2002 - 2003
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• OCEAN MANAGER CONSULTORIA EM MEIO AMBIENTE LTDA
Cargo:	• Consultor de fauna
Período:	• 2002 - 2003
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ECOLAND CONSULTORIA E PLANEJAMENTO AMBIENTAL LTDA
Cargo:	• Consultor de fauna
Período:	• 2002 – 2003
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• ECOLOG CONSULTORIA AMBIENTAL
Cargo:	• Consultor de fauna
Período:	• 2002 - 2002
Principais Atividades:	• Coleta e compilação de dados de fauna, elaboração de relatórios, estudos, programas, acompanhamento de projetos

Empresa:	• MRS CONSULTORIA AMBIENTAL LTDA
Cargo:	• Auxiliar Técnico
Período:	• 2000 - 2000
Principais Atividades:	• Trabalho de campo

Empresa:	• ACERT CONSULTORIA E PROJETOS LTDA
Cargo:	• Auxiliar Técnico
Período:	• 2000-2000
Principais Atividades:	• Trabalho de campo

Empresa:	• ASSOCIAÇÃO VILA-VELHENSE DE PROTEÇÃO AMBIENTAL - AVIDEPA
Cargo:	• Estagiário
Período:	• 1997 - 1998
Principais Atividades:	• Trabalho de campo

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2023	• Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Central de Armazenamento e Transferência de GNL – Gás Natural Açu, Porto do Açu, RJ. • Coordenação Técnica (Meio Biótico) para elaboração do EIA/RIMA do HUB de Hidrogênio Verde e Produtos Derivados, Prumo Logística, Porto do Açu, RJ. • Coordenação do Meio Biótico para elaboração do Relatório Ambiental Simplificado (RAS) da Usina Termelétrica (UTE) Azulão II - Silves/AM • Coordenação Técnica (Meio Biótico) para elaboração do EIA/RIMA – Projeto de produção e escoamento de hidrocarbonetos do Complexo Azulão e adjacências, Bacia do Amazonas • Coordenação Técnica do Monitoramento de Fauna para Projeto Complexo Fotovoltaico Arinos – UFV Arinos, Arinos – MG. • Coordenação Técnica (Meio Biótico) Estudo de Impacto Ambiental (EIA/RIMA) da Usina Termelétrica (UTE) Azulão III - Silves/AM
ANO: 2022	• Coordenação Técnica do Inventário de Fauna da Área Vegetada Remanescente do Terreno Correspondente à Matrícula 892 (Azulão I), Silves, AM. • Coordenação Técnica da fase II do Monitoramento de Fauna Atropelada e Malha Viária da Rodovia AM-330, Silves, AM.

- Coordenação Técnica (Meio Biótico) para elaboração do EIA/RIMA – Projeto de Produção, Escoamento e Tratamento de Gás Natural do Campo de Gavião Belo – Bacia do Parnaíba, Maranhão
- Coordenação Técnica (Meio Biótico) para elaboração do Estudo de Impacto Ambiental (EIA) da Usina Termelétrica (UTE) Manaus, Manaus -AM
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado (RAS) da Usina Termelétrica (UTE) Belém I e II - PA
- Coordenação Técnica (Meio Biótico) para elaboração Relatório de Controle Ambiental (RCA) da Usina Termelétrica (UTE) Santarém - PA

ANO: 2021

- Coordenação Técnica da fase I do Monitoramento de Fauna Atropelada e Malha Viária da Rodovia AM-330, Silves, AM.
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Jandaíra Ventos, Jandaíra, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Milagres, Jandaíra, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Jandaíra II Ventos, Jandaíra, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Boa Vista I, Jandaíra, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Bonsucesso I, Jandaíra, Pedra Preta e Lajes RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Santo Expedito, Jandaíra, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Boa Vista II, Pedra Preta, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Pau Branco, Pedra Preta, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Pedra Rosada, Pedra Preta, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Pau D'arco, Pedra Preta, RN
- Coordenação Técnica (Meio Biótico) para elaboração do Relatório Ambiental Simplificado – (RAS) da Parque Eólico Santa Benvinda II, Pedra Preta, RN
- Coordenação Técnica do Inventário de Fauna para Licenciamento do Poço de Gás Natural AZU-7 e seu Acesso, Silves - AM
- Coordenação Técnica do Inventário de Fauna para Licenciamento do Poço de Gás Natural LEAD AM-T-85-E e seu Acesso, Silves - AM
- Coordenação Técnica do Inventário de Fauna para Licenciamento do Poço de Gás Natural LEAD AM-T-85-F e seu Acesso, Itapiranga - AM
- Coordenação Técnica do Inventário de Fauna para Licenciamento do Poço de Gás Natural - LEAD AM-T-85-B e seu Acesso, Silves - AM
- Coordenação Técnica do Inventário de Fauna para Licenciamento do Poço de Gás Natural - LEAD AM-T-84-C e seu Acesso, Silves - AM

ANO: 2020

- Coordenação do Técnica (Meio Biótico) para elaboração do EIA/RIMA condomínio Industrial Dalton Heringer, Viana - ES
- Atividades socioculturais em comunidades carentes
- Estudos com aves da Mata Atlântica no Vale do Paraíba estado de SP
- Responsável pela formação de missionários junto ao Movimento Eclesial Comunidade Colo de Deus

ANO: 2019

- Responsável pela formação de missionários junto ao Movimento Eclesial Comunidade Colo de Deus
- Estudos com aves da Mata Atlântica no estado de SP

ANO: 2018

- Responsável técnico pelo Monitoramento de Fauna Terrestre apresentado nos Planos de Manejo de Conservação de Fauna para as espécies *Anhinga anhinga*, *Mimus gilvus* e *Sporophila collaris* para a RPPN Caruara, no Município de São João da Barra/RJ. Entre 2015 e 2018
- Conservação e Manejo de aves no Sudeste do Brasil:

ANO: 2017

- Coordenação e responsabilidade técnica do monitoramento de aves e mamíferos em plantios de eucalipto da empresa Fibria Celulose no Vale do Mucuri em Minas Gerais entre os anos 2004 e 2017
- Realização de monitoramentos de fauna
- Coordenação da caracterização do Meio Biótico e Consultor de Avifauna para Monitoramento de Fauna na Área de Influência da Linha de Transmissão Assú – Milagres, localizada entre os estados do Ceará e do Rio Grande do Norte.
- Inventário da avifauna para elaboração de EIA/RIMA da ampliação do Canal Caboclo Bernardo, Aracruz e Linhares - ES.

ANO: 2016

- Monitoramento de espécies ameaçadas de extinção na RPPN Caruara, São João da Barra-RJ
- Monitoramento da Avifauna na área de influência dos depósitos 2 e 7 do Super Porto do Açu, São João da Barra – RJ.
- Monitoramento da Avifauna na área de influência do Pátio Logístico do Super Porto do Açu, São João da Barra – RJ
- Coordenação do Monitoramento de fauna na área da Termelétrica Bahia II, Cruz das Almas, BA.
- Detalhamento dos PBAs referentes a Linha de Transmissão Xingu – Parauapebas – Miracema, localizada entre os estados do Pará e do Tocantins.
- Coordenação dos estudos de fauna e inventário da mastofauna e da ornitofauna para o processo de licenciamento ambiental do sistema de distribuição de gás natural do município de Linhares - ES.

ANO: 2015

- Monitoramento da Avifauna na Área de Influência da Linha de Transmissão 345 kV do Super Porto do Açu, São João da Barra – RJ.
- Inventario de fauna para certificação florestal de áreas de alto valor de conservação (AAVC) em 10 fazendas destinadas ao plantio comercial de eucalipto no estado de São Paulo. Contratante: Suzano Papel e Celulose S/A.
- Coordenação Técnica (Meio Biótico) e Consultor de Avifauna para Monitoramento de Fauna na Área de Influência da Linha de Transmissão Xingu – Parauapebas – Miracema, localizada entre os estados do Pará e do Tocantins.
- Coordenação do Monitoramento de fauna na área de influência do Estaleiro Jurong Aracruz-EJA, Aracruz – ES. Entre 2010 e 2015
- Coordenação Técnica e execução do Monitoramento da Mastofauna na área de influência do projeto de silvicultura das fazendas Cavalo Grande, Lagoa Santa e Floresta, Nanuque/Carlos Chagas – MG. Entre 2010 e 2015

ANO: 2014

- Monitoramento de espécies ameaçadas de extinção na RPPN Caruara, São João da Barra-RJ
- Revisão dos dados biológicos do projeto Cartas de Sensibilidade Ambiental ao Óleo da Zona Costeira e Marinha do Espírito Santo – Cartas SAO. Convênio DERN-UFES/Petrobrás/FEST.
- Elaboração do Plano de Manejo e Conservação da espécie de ameaçada de extinção *Anhinga anhinga*, Mimus *gilvus*, *Sporophila collaris* e *Ameivula littoralis* na área da RPPN Fazenda Caruara
- Monitoramento da Avifauna na RPPN Caruara em cumprimento a condicionante ambiental referente ao processo de licenciamento do Pátio Logístico do Super Porto do Açu, São João da Barra – RJ. Entre 2012 e 2015
- Coordenação da caracterização do Meio Biótico para elaboração de EIA/RIMA referente à construção do Terminal Privativo Braskem, Baía do Aratú, BA.
- Coordenação e responsabilidade técnica pelo Meio Biótico na elaboração do RCA para o processo de licenciamento Ambiental do aerogerador da Samarco Mineração, Anchieta, ES.
- Coordenação e Responsabilidade Técnica do acompanhamento de obras e resgate de fauna na área da SubSea 7, Superporto do Açu, São João da Barra – RJ.
- Coordenação do Inventário da fauna terrestre para o Plano de Manejo da Área de Proteção Ambiental do Morro do Moreno, Vila Velha – Espírito Santo.
- Coordenação do Monitoramento de Fauna (mamíferos, anfíbios, répteis e peixes) na área de influência da linha 3 do mineroduto que liga a mina de Germano em Mariana, MG a Unidade de Ponta Ubu em Anchieta, ES.

ANO: 2013

- Monitoramento de espécies ameaçadas de extinção na RPPN Caruara, São João da Barra-RJ
- Coordenação do monitoramento de fauna na área do TABR – etapa 2013
- Responsável Técnico pelo monitoramento da avifauna durante o monitoramento de fauna na área do TABR – etapa 2013.
- Inventário da Avifauna como subsídio a revisão do Processo de Licenciamento Ambiental das obras de ampliação do Aeroporto de Farol de São Tomé, Farol de São Tomé, Rio de Janeiro.
- Elaboração do livro de divulgação científica: As aves da Baixada Norte-Fluminense.
- Coordenação do Monitoramento de Fauna na área de influência Quarta Usina de Pelotização (P4P) Unidade de Ponta Ubú em Anchieta, ES.
- Execução do programa de monitoramento da avifauna na área de influência da Linha de Transmissão Tijuco Preto, Jundiaí, São Paulo.
- Coordenação do Programa de monitoramento da Maria-da-restinga (*Philoscartes kronnei*) na área de influência do estaleiro P2. Itajaí, Santa Catarina.
- Coordenação da caracterização da Avifauna e Herpetofauna para elaboração de EIA/RIMA referente à construção da Termelétrica Bahia II, Cruz das Almas, BA.
- Coordenação do Meio Biótico (fauna) para a elaboração do RCA do condomínio Alphavile Marabá, Marabá - Pará.
- Coordenação do Meio Biótico (fauna) para elaboração do EIA/RIMA do Projeto de Silvicultura nas cidades de Pinheiros, Montanha, Mucurici, Pedro Canário e Ecoporanga, Região Noroeste do Espírito Santo.
- Coordenação da caracterização da Avifauna e Herpetofauna para elaboração de EIA/RIMA referente à construção da Termelétrica Bahia II, Cruz das Almas, BA.
-

ANO: 2012

- Monitoramento de espécies ameaçadas de extinção na RPPN Caruara, São João da Barra-RJ

- Inventário da Avifauna como subsídio a elaboração do EIA/RIMA do projeto ETO, São Mateus – ES.
- Monitoramento da avifauna na área de influência da Linha de Transmissão Furnas – Pimenta, MG.
- Coordenação do Meio Biótico para o Plano de Manejo da Área de Proteção Ambiental do Mestre Álvaro, Serra – Espírito Santo.
- Coordenação do inventário de fauna e elaboração da adequação do RCA referente ao processo de licenciamento ambiental da Fábrica de Papel Tissue Carta Fabril, Aracruz – ES.
- Responsável Técnico pelo resgate de fauna terrestre referente às obras de instalação do Estaleiro Jurong Aracruz-EJA, Aracruz – ES.
- Elaboração do Programa de Manejo de Fauna da Unidade de Tratamento de Óleo de Fazenda Alegre, Jaguaré - ES.

ANO: 2011

- Monitoramento de espécies ameaçadas de extinção na RPPN Caruara, São João da Barra-RJ
- Coordenação do Monitoramento de Fauna na área de influência da linha 3 do mineroduto que liga a mina de Germano em Mariana, MG a Unidade de Ponta Ubú em Anchieta, ES.
- Inventário da avifauna para elaboração do Plano de Manejo da Reserva Florestal Cachoeira do Rio Pardo, Muniz Freire – ES.
- Coordenação da elaboração e execução do Plano de Manejo de Fauna (PMFA) do Aeroporto Orlando Bezerra de Menezes, (SBJU) – Juazeiro do Norte, Ceará.
- Coordenação da elaboração e execução do Plano de Manejo de Fauna (PMFA) do Aeroporto Senador Nilo Coelho, (SBPL) – Petrolina, Pernambuco.
- Coordenação da elaboração e execução do Plano de Manejo de Fauna (PMFA) do Aeroporto Senador Petrônio Portella, (SBTE) – Teresina, Piauí.
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção Terminal de Regaseificação da Barra do Riacho, Aracruz, ES.
- Monitoramento da avifauna na área de influência da Linha de Transmissão Guarita – Foz do Chapecó – Xanxerê, Estados de Santa Catarina e Rio Grande do Sul.
- Coordenação dos trabalhos de campo para a caracterização da fauna de vertebrados da UTE Linhares 2 e III como subsídio a elaboração de EIA/RIMA
- Coordenação dos trabalhos de campo para a caracterização da fauna de vertebrados da Reserva Ecológica Municipal Mata Paludosa, Vitória - ES.
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção Terminal de Regaseificação da Barra do Riacho, Aracruz, ES.
- Coordenação Técnica para a caracterização da fauna de vertebrados do Cluster Termelétrico Linhares como subsídio à elaboração de EIA/RIMA
- Coordenação Técnica da caracterização da fauna para elaboração de EIA/RIMA referente às obras de instalação e operação das Usinas Termelétricas Cacimbaes e Escolha, Linhares - ES.

ANO: 2010

- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção da fábrica de fertilizantes nitrogenados UFN-IV, Linhares – ES.
- Coordenação Técnica da caracterização da fauna para elaboração de EIA/RIMA referente às obras de instalação e operação do Estaleiro Jurong Aracruz-EJA, Aracruz – ES.
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção do novo Píer de São Sebastião, municípios de São Sebastião e Ilhabela, São Paulo
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à instalação do Complexo Petroquímico do Rio de Janeiro – COMPERJ, Rio de Janeiro.

- Monitoramento da avifauna pós-instalação do GASENE – GASCAV Gasoduto Cabiúnas/Vitória -. Trecho Cabiúnas, RJ – Vitória, ES.
- Monitoramento da avifauna durante as obras de instalação do GASENE – GASCAC Gasoduto Cacimbas-Catu. Trecho Cacimbas, ES – Catu, BA.
- Coordenação da elaboração e execução do Plano de Manejo de Fauna (PMFA) do Aeroporto Senador Petrônio Portella, (SBTE) – Teresina, Piauí.
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção Terminal de Regaseificação da Barra do Riacho, Aracruz, ES.
- Monitoramento da avifauna na área de influência da Linha de Transmissão Guarita – Foz do Chapecó – Xanxerê, Estados de Santa Catarina e Rio Grande do Sul.
- Coordenação dos trabalhos de campo para a caracterização da fauna de vertebrados da UTE Linhares 2 e III como subsídio a elaboração de EIA/RIMA
- Coordenação dos trabalhos de campo para a caracterização da fauna de vertebrados da Reserva Ecológica Municipal Mata Paludosa, Vitória - ES.
- Caracterização da Avifauna para elaboração de EIA/RIMA referente à construção Terminal de Regaseificação da Barra do Riacho, Aracruz, ES.

FORMAÇÃO

Formação Acadêmica:	• Geólogo;
CREA	• 0049338/D ES
Idioma:	• Inglês Intermediário;
Informática:	• Pacote Office completo, ArcGis, Corel Draw;

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S/A
Cargo:	• Analista Ambiental Sênior
Período:	• Maio/2022 até a presente data.
Principais Atividades:	• Fiscalização e execução de atividades de campo (levantamento topográfico, sondagem manual e mecanizada, Instalação de poços de monitoramento e bombeamento, levantamento geofísico, levantamento hidrogeólogico, amostragem de solo e água subterrânea), responsável técnico pelas investigações de áreas contaminadas, elaboração de relatório e documentos técnicos, gestão de equipes, processos de licenciamento, gerenciamento de obras e execução de programas de monitoramento ambiental.
Empresa:	• Ambipar Response Control Environmental Consulting S/A
Cargo:	• Analista Ambiental Pleno
Período:	• Abril/2021 até Maio/2022
Principais Atividades:	• Fiscalização e execução de atividades de campo (levantamento topográfico, sondagem manual e mecanizada, Instalação de poços de monitoramento e bombeamento, levantamento geofísico, levantamento hidrogeólogico, amostragem de solo e água subterrânea), elaboração de relatório e documentos técnicos; gestão de equipes, processos de licenciamento, gerenciamento de obras e execução de programas de monitoramento ambiental.
Empresa:	• Control Ambiental Sustentabilidade e Meio Ambiente
Cargo:	• Analista Ambiental Junior
Período:	• Novembro/2018 até Abril/2021
Principais Atividades:	• Fiscalização e execução de atividades de campo (levantamento topográfico, sondagem manual e mecanizada, Instalação de poços de monitoramento e bombeamento, levantamento geofísico, levantamento hidrogeólogico, amostragem de solo e água subterrânea), elaboração de relatório e documentos técnicos.
Empresa:	• Natugeo Soluções Geológicas e Ambientais LTDA
Cargo:	• Estagiário
Período:	• Setembro/2017 a Agosto/2018
Principais Atividades:	• Consultoria e prestação de serviços nas áreas de Mineração, Meio Ambiente, Geotecnia, Hidrogeologia e Geotecnologias. Preparação de Relatórios e Planos para o DNPM, como relatório final de pesquisa e plano de pesquisa mineral. Elabolação de relatório de investigação de passivos ambientais para empreendimentos potencialmente poluidores.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2022

- **ENEVA**. Elaboração de Relatório de Controle Ambiental (RCA) para Licenciamento Ambiental dos Poços Exploratórios de Gás Natural AZU-7, AZU-11 e AZU-9, nos municípios de Silves-AM e Itapiranga-AM.
- **Ambipar Environment.** Responsável pela realização de vistorias de campo e elaboração de Relatórios Técnicos de Avaliação Preliminar na base da Ambipar Environment Waste Logistic Ltda, no município de Duque de Caxias-RJ**.**
- **ATEM.** Responsável pela caracterização do meio físico para elaboração de Relatório Ambiental Simplificado (RAS) para obtenção de licença previa da UTE Santarém, município de Manaus-AM.
- **ATEM.** Responsável pela elaboração do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) para obtenção de licença previa da UTE Manaus, município de Manaus-AM.
- **ENEVA.** Responsável pelo Elaboração de Plano de Recuperação de Área Degradada (PRAD) das áreas degradadas já consolidadas da propriedade onde está perfurado o Poço LEAD AM-T-85-E, município de Silves-AM.
- **ENEVA.** Responsável pelo Elaboração de Estudos de Impactos Ambiental (EIA) para obtenção das licenças previas das unidades termoelétricas (UTEs) Azulão II e Azulão III, município de Itapiranga-AM.
- **Prumo Logistica S.A.** Responsável pela sondagem e instalação de 03 poços de monitoramento na área do TMULT, no Complexo Logístico e Industrial do Porto do Açu, no município de São João da Barra/RJ**.**
- **Ecovias do Araguaia** Elaboração de Relatório de Controle Ambiental (RCA) e Projeto de Controle Ambiental (PCA) com Finalidade de Licenciamento de Jazida Mineral Pétrea, localizada em São Luiz do Norte-GO.
- **Açu Petróleo S.A.** Responsável pela realização de vistorias de campo e elaboração de Relatórios Técnicos de Avaliação Preliminar e Confirmatória na área do Complexo Logístico e Industrial do Porto do Açu, no município de São João da Barra/RJ**.**
- **Seacrest Pretróleo S.A.** Elaboração de estudos ambientais para atendimento de condicionantes da Licença de Operação do Polo Cricaré, São Mateus-ES.

ANO: 2021

- **Prumo Logistica S.A.** Responsável pela sondagem e instalação de 19 poços de monitoramento multiníveis nos depósitos 2 e 4 localizados na área do Complexo Logístico e Industrial do Porto do Açu, no município de São João da Barra/RJ**.**
- **ENEVA**. Elaboração de estudos para licenciamento ambiental de atividades de estimulação com uso de fraturamento hidráulico em reservatório não convencional na Bacia do Parnaíba, Maranhão.
- **ENEVA**. Responsável pela caracterização geológica, geomorfológica, pedológica e hidrogeológica da região estudada para Elaboração do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) do Complexo Eólico Santo Espedito, município de Jandaíra-RN.
- **PetroReconcavo** Responsável pela realização de vistorias de campo para avaliação do status das unidades operacionais existentes nos 17 campos de produção na Bacia do Recôncavo – BA.
- **AMBIPAR.** Responsável pela realização de vistorias de campo e elaboração de Relatórios Técnicos de Avaliação Preliminar e Confirmatória da Base de Operação Ambipar, localizada nas dependências da Votorantim Laranjeiras, no município de Laranjeiras – SE**.**
- **TRANSPETRO**. Responsável pela realização de vistorias de campo e elaboração de Relatórios Técnicos de Avaliação Preliminar Ambiental para as Área de Influência do Oleoduto TEVOL-CSN - OSVOL 8, no município de Volta Redonda – RJ.
- **ENEVA**. Elaboração de Relatório de Controle Ambiental (RCA) para Licenciamento Ambiental dos Poços Exploratórios de Gás Natural LEAD AM-T-85_B, LEAD AM-T-84_C, LEAD AM-T-85_F, LEAD AM-T-85_E e AZU-7, nos municípios de Silves-AM e Itapiranga-AM.

- **VIX Logistica** Responsável pela realização de vistorias de campo, realização de campanhas de amostragem de solo e elaboração de Relatórios Técnicos de Avaliação de Passivo Ambiental para área operacional localizada na área do Porto do Açu, no município de São João da Barra-RJ.
- **ENEVA**. Responsável pela Elaboração de Estudos Hidrogeológicos afim de subsidiar a obtenção de Outorga de Captação de Água Subterrânea nas áreas dos Clusters GBSE e GVC#3, nos municípios de Lima Campos e Trizidela do Vale, MA.
- **CTG Brasil.** Responsável pela realização das campanhas de monitoramento e elaboração de relatórios técnicos para Estudo e Levantamento de Processos Erosivos e Levantamento Hidrossedimentométrico das Usinas Hidrelétricas (UHEs) de Ilha Solteira e Jupiá, localizada na divisa dos estados São Paulo, Mato Grosso do Sul, Goiás e Minas Gerais.

ANO: 2020

- **PetroReconcavo** Responsável pela realização de vistorias de campo e elaboração de Relatório Técnico de Avaliação Ambiental Distrito Recôncavo, nos municípios de Mata de São João e Pojuca-BA.
- **SuperVia** Responsável pela realização de vistorias de campo e elaboração de Relatórios Técnicos de Avaliação Preliminar Ambiental para as Áreas de Influência da SuperVia, na região metropolitana do estado do Rio de Janeiro - RJ
- **Porto do Açu** Responsável pela realização de campanhas de amostragem de água subterrânea e interpretação de resultados de análises físico-químicas da qualidade água subterrânea para Programa de Monitoramento de Águas Subterrâneas, nas dependências da Porto do Açu, no município de São João da Barra-RJ.
- **Petrobrás** Responsável pela realização de campanhas de amostragem e interpretação de resultados de análises físico-químicas para monitoramento de parâmetros ambientais dos efluentes, corpo receptor e águas do entorno da Fábrica de Fertilizantes Nitrogenados - FAFEN, no município de Aracaju-SE.
- **PetroReconcavo.** Responsável pela caracterização geológica e pedológica, acompanhamento de sondagem manual e mecanizada para amostragem de solo, instalação e desenvolvimento de poços de monitoramento, amostragem da água subterrânea, elaboração de perfis litológicos-construtivos de poços de monitoramento, interpretação de dados hidrogeológicos e interpretação de resultados de análises físico-químicas da qualidade de solo e água subterrânea para obtenção da Licença de Operação, nas dependências da Pequena Central de Tratamentos Resíduos – PCTR, no município de Mossoró-RN.
- **ENEVA**. Responsável pela caracterização geológica, hidrológica e hidrogeológica para Estudo Hidrogeológico afim de subsidiar a obtenção da Autorização para a Perfuração de Poços de Captação de Água Subterrânea nas áreas dos Clusters EPGVB, GBSE e GVC#3, nos municípios de Lima Campos e Trizidela do Vale, MA.
- **CTG Brasil.** Responsável pela realização de Campanha de Monitoramento Hidrossedimentométrico e elaboração de Relatório Técnico em Atendimento aos Programas de Meio Físico da Usina Hidrelétrica (UHE) Jurumirim, no município de Pirajú-SP.

ANO: 2018/2019

- **OLAM COFFEE**. Elaboração de Relatório de Controle Ambiental (RCA) para Licenciamento Ambiental da Fábrica de Café Solúvel, da Olam Coffee, no município de Linhares-ES.
- **ENEVA**. Responsável pela caracterização geológica, geomorfológica, pedológica, hidrogeológica e amostragem de solo da região estudada para Elaboração do Estudo de Impacto Ambiental (EIA) e Relatório de Impacto Ambiental (RIMA) da UTE São Marcos, município de São Luís-MA.
- **ENEVA**. Responsável pela caracterização geológica, geomorfológica e pedológica da região estudada para Relatório Ambiental Simplificado (RAS) referente ao Complexo Eólico, Projeto Ventos Jandaíra I e II, município de Jandaíra-RN.

- **ENEVA**. Responsável pela caracterização geológica e hidrogeológica para Estudo Hidrogeológico afim de subsidiar a obtenção da Autorização para a perfuração de Poço de Captação de Água Subterrânea na área do Cluster GVR-7, no município de Santo Antônio dos Lopes, MA.
- **Porto Central.** Elaboração do Relatório para Investigação Complementar de Contaminação dos Sedimentos na Área de Dragagem do Porto Central (Diagnóstico e Prognóstico), município de Presidente Kennedy-ES.
- **Petrobrás.** Responsável pela caracterização geológica e pedológica, com atribuição no planejamento de atividades, acompanhamento de sondagem manual e mecanizada para amostragem de solo, instalação e desenvolvimento de poços de monitoramento e piezômetros, amostragem água subterrânea, elaboração de perfis litológicos-construtivos de poços de monitoramento, interpretação de dados hidrogeológicos e interpretação de resultados de análises físico-químicas da qualidade de solo e água subterrânea para Diagnóstico Geoambiental e Avaliação de Risco à Saúde Humana , nas dependências da Refinaria de Paulínia – REPLAN – PETROBRAS S.A**.**

ANO: 2018

- **Natugeo.** Elaboração de estudos e relatórios de Investigação Preliminar, Detalhada e de Risco a Saúde Humana, visando a identificação de possíveis contaminações em solo e água subterrânea por hidrocarbonetos oriundos do sistema de armazenamento e abastecimento de autopostos na região norte do estado do Rio de Janeiro, para obtenção de licenciamento ambiental junto ao Instituto Estadual de Ambiental (INEA)

ANO: 2017

- **Natugeo.** Auxílio na preparação de relatório final de pesquisa e plano de pesquisa mineral para o Departamento Nacional de Pesquisa Mineral (DNPM) e elaboração de Plano de Controle Ambiental (PCA) para órgãos ambientais estaduais.

MICHEL ROSSINI CORADINI

FORMAÇÃO

Formação Acadêmica:	• **Ciências Biológicas – UFES – 1996/2000** • **Especialização em Avaliação de Sistemas Ambientais – UFES – 2002/2003**
Idioma:	• **Inglês intermediário**
Informática:	• **Pacote Office, ArcGis (básico)**
Conselho de Classe	• **CRBio2 – 32327-D**

EXPERIÊNCIA PROFISSIONAL

Empresa:	• **Control Ambiental Sustentabilidade e Meio Ambiente S.A.**
Cargo:	• **Analista Ambiental Sênior**
Período:	• **Julho/2021 - Atual**
Principais Atividades:	• Revisão de relatórios, estudos, programas e planos ambientais; planejamento e acompanhamento de equipes e projetos; interface e articulação com clientes.

Empresa:	• **Imetame Logística**
Cargo:	• **Especialista em Sustentabilidade**
Período:	• **Junho/2019 – Julho/2021**
Principais Atividades:	• Revisão e elaboração de estudos ambientais (EIA/RIMA, RCA, PCA, etc) de empreendimentos portuário, termelétrica, estradas, posto de abastecimento de combustíveis e indústria metalmecânica; controle e atendimento de condicionantes e autorizações ambientais; implementação dos programas de monitoramento ambientais marinhos e terrestres; elaboração de especificações técnicas, gestão e medição de contratos; resposta a pareceres técnicos; apoio na gestão de resíduos nas áreas operacionais; elaboração e revisão de relatórios técnicos; obtenção e renovação de licenças ambientais.

Empresa:	• **Terceirizado Petrobras – UO-ES**
Cargo:	• **Biólogo**
Período:	• **Fevereiro/2006 – Maio/2019**
Principais Atividades:	• Elaboração e revisão de Estudos de Impacto Ambiental – EIA/RIMA e estudos ambientais de plataformas, gasodutos, sondas e sísmica marítima; atendimento a condicionantes de licenças prévias, de instalação e de operação; elaboração de resposta a pareceres técnicos; elaboração e acompanhamento de cronogramas de de estudos ambientais e de atendimento a condicionantes; realização de inspeções e acompanhamento de requisitos legais e auditorias; realização de Avaliação de Impacto Ambiental (AIA); esclarecimento de dúvidas de áreas operacionais; elaboração de relatórios de instalação, operação e desativação; revisão de relatórios de monitoramento ambiental marinho; atendimento a compromissos de Termo de Ajustamento de Conduta TAC e Participação em Análises Preliminares de Riscos (APR).

Empresa:	• **Elementus Soluções Ambientais**
Cargo:	• **Consultor**
Período:	• **Junho/2018 – Janeiro/2019**
Principais Atividades:	• Coordenação e elaboração dos capítulos Zoneamento e Planejamento da Unidade de Conservação do Plano de Manejo do Parque Natural Municipal David Vitor Farina – Aracruz- ES.

MICHEL ROSSINI CORADINI

Empresa:	• **Fundação Promar - Cepemar**
Cargo:	• **Consultor**
Período:	• **Fevereiro/2016**
Principais Atividades:	• Proposta de criação de Unidade de Conservação na região das Pedras do Frade e da Freira – Cachoeiro de Itapemirim – ES.

Empresa:	• **SEAMA/IEMA - Instituto Estadual de Meio Ambiente e Recursos Hídricos do Estado do Espírito Santo – Analista ambiental**
Cargo:	• **Biólogo**
Período:	• **Março/2001 – Dezembro/2005**
Principais Atividades:	• Avaliação e aprovação de EIA/RIMA, DIA, PCA, PRAD; acompanhamento de monitoramentos ambientais de fauna e flora; elaboração de termos de referência para estudos ambientais; analista de processos e condicionantes de licenciamento ambiental de estradas, portos, estações de tratamento de água e efluentes, loteamentos, linhas de transmissão e industrias; gerência do Unidade de Conservação (UC), analista Zoneamento Ecológico Econômico e plano de manejos de UC Estaduais; elaboração de pareceres e laudos para o Ministério Público Estadual e Federal; atendimento a denúncias e acidentes ambientais

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2021/2019	• Licenciamento Ambiental do Projeto de Produção, Escoamento e Tratamento de Gás Natural do Campo de Gavião Belo – Bacia do Parnaíba, Maranhão; • Licenciamento ambiental e atendimento a condicionantes da Rodovia do Contorno de Aracruz-ES • Atendimento a condicionantes da Imetame Logística Porto; • Licenciamento ambiental da Termelétrica Imetame Energia I; • Licenciamento ambiental da central de abastecimento de combustíveis na área da Imetame Logística Porto
ANO: 2019/2006	• Atendimento a condicionantes da Imetame Logística Porto; • Licenciamento ambiental da Plataforma FPSO P-58 - Ampliação dos Projetos de Produção e Escoamento de Petróleo e Gás na Área Denominada Parque das Baleias, Bacia de Campos • Licenciamento ambiental da aquisição de dados sísmicos 4D no Campo de Jubarte, Bacia de Campos; • Licenciamento ambiental e atendimento a condicionantes da Plataforma FPSO Capixaba - Desenvolvimento Integrado da Produção de Petróleo e Gás nos Campos de Cachalote e Baleia Franca - Fase 1 • Aquisição de Dados Sísmicos 4D nos Campos de Jubarte, Cachalote e Baleia Franca – Bacia de Campos; • Licenciamento ambiental e atendimento da Plataforma FPSO P-57 - Fase 2 do Desenvolvimento da Produção de Petróleo e Gás no Campo de Jubarte; • Licenciamento ambiental e atendimento a condicionantes Parque das Baleias e Gasoduto Sul Capixaba; • Atendimento a condicionantes da plataforma FPSO P-57, Capixaba e Cidade de Anchieta; FPSO P-34 e FPSO Seillean; • Plano de Manejo do Parque Natural Municipal David Vitor Farina – Aracruz- ES.

ANO:
2006/2001

MICHEL ROSSINI CORADINI

- Gerencia do Parque Estadual Paulo Cesar Vinha, Guarapari-ES;
- Analista do plano de manejo dos Parques Estaduais de Itaúnas - ES e Zoneamento Ecológico Econômico da Reserva Ecológica Estadual de Jacarenema (Vila Velha - ES);
- Analista de estudos relacionados a levantamento de fauna da APA de Proteção Ambiental de Conceição da Barra/ES e de projetos de pesquisa nas Unidades de Conservação administradas pelo IEMA
- Analista de Estudo de Impactos Ambientais – EIA/RIMA, Declarações de Impacto Ambiental – DIA, Plano de Controle Ambiental – PCA, Plano de Recuperação de Áreas Degradadas – PRAD e Estudos de pesquisa sísmicas terrestres de empreendimentos de E&P, ETE e ETA e empreendimentos diversos;

CURSOS E EVENTOS RECENTES

Nome do curso	Norma ISO 14001 - 2015 - Curso de Interpretação e Implementação - em andamento Instituto Ecológico Aqualung – 2021.

MICHELI ANASTÁCIA WELBERT MOSCON

FORMAÇÃO

Formação Acadêmica:	• Tecnologia em Saneamento Ambiental (IFES) e Geografia (UFES).
Idioma:	• Português.
Informática:	• Pacote Office completo.
Conselho de Classe	• CREA ES-038289/D.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S/A.
Cargo:	• Analista Ambiental Master.
Período:	• Fevereiro/2019 até a presente data.
Principais Atividades:	• Coordenar e elaborar estudos ambientais - EIA/RIMA, RCA, Diagnóstico Ambiental e Programas/Planos de Monitoramento Ambiental.

Empresa:	• PRETOP - Serviços de Topografia, Geoprocessamento, Geodésia e Florestal.
Cargo:	• Desenhista Cartográfico.
Período:	• Março/2016 a Fevereiro/2019.
Principais Atividades:	• Realizar análise de prospecção de terras para aquisição, identificando áreas potenciais para atuação da empresa Fibria Celulose S.A.; analisar e mapear riscos e impactos sociais, econômicos e ambientais para subsidio à decisão de aquisição de terras; identificar e conferir os limites físicos da base fundiária da empresa Fibria Celulose S.A., subsidiando o processo de certificação dos imóveis no SIGEF; elaborar mapas temáticos utilizando bases cartográficas, sensoriamento remoto e fotointerpretação para manutenção de relatórios institucionais e informações gerenciais; gestão e manutenção dos dados e bases geográficas.

Empresa:	• Elementus Soluções Ambiental.
Cargo:	• Gestora de Projetos.
Período:	• Março/2015 a Março/2016.
Principais Atividades:	• Gestão de projetos, elaborar estudos ambientais (EIA/RIMA, RCA, Diagnóstico ambiental e Programas/Planos de Monitoramento Ambiental); Realizar campanhas de monitoramento; articular com órgãos governamentais; e elaborar mapas para dar suporte aos Projetos Ambientais por análise e modelagem espacial em ambiente SIG.

Empresa:	• CTA - Serviços em Meio Ambiente.
Cargo:	• Analista de Projetos.
Período:	• Março/2013 a Março/2015.
Principais Atividades:	• Executar análise hidrológica utilizando sistema de informação geográfica (SIG) e modelos hidrológicos para elaboração de estudos técnicos de outorga de direito de uso de água e vazão de projeto de uma determinada seção; analisar espacialmente atributos biofísicos e perceptivos da paisagem; e elaborar mapas para dar suporte aos Projetos Ambientais por análise e modelagem espacial em ambiente SIG.

Empresa:	• CP+ Serviços de Consultoria em Meio Ambiente/ CEPEMAR Serviços de Consultoria em Meio Ambiente.
Cargo:	• • Bolsista.
Período:	• • Agosto/2010 a Julho/2011.
Principais Atividades:	• Elaborar mapas para dar suporte aos Projetos Ambientais por análise e modelagem espacial em ambiente SIG; atualizar e alimentar a base cartográfica com dados georreferenciados; georreferenciar, mosaicar e utilizar técnicas de processamento digital em imagens de satélite; interpretar e classificar imagens de satélite, usar técnicas estatísticas para interpolação de dados geográficos e criação de superfícies contínuas em formato raster para análises diversas; elaborar e corrigir plantas cartográficas no software Auto-Cad; e importar e exportar dados de campo usando GPS (Global Positioning System).

Empresa:	• Conselho Nacional de Desenvolvimento Científico e Tecnológico.
Cargo:	• Técnico Ambiental.
Período:	• Novembro/2011 a Março/2013.
Principais Atividades:	• Desenvolver Projeto de Iniciação Científica por meio de aplicação de técnicas de sistema de informação geográfica e modelos hidrológicos; apropriar tempo de concentração de uma bacia hidrográfica; determinar equações de intensidade-duração-frequência de chuvas intensas; determinar vazão de projeto de uma determinada seção; delimitar extensão de áreas de alagamento de barragem; e analisar a variação do custo de construção de barragens utilizando diferentes metodologias para o cálculo de vazão.

Empresa:	• CTA - Serviços em Meio Ambiente.
Cargo:	• Estágio.
Período:	• Janeiro/2010 a Julho/2010.
Principais Atividades:	• Desenvolver análises hidrológicas utilizando sistema de informação geográfica (SIG); avaliar vazões mínimas de referência (Q7,10, Q90 e Q95); determinar equações de intensidade-duração-frequência de chuvas intensas; e delimitar extensão de áreas de alagamento de barragem.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2023	• Coordenação do Estudo de Impacto Ambiental e Relatório de Impacto Ambiental (EIA/RIMA) do Hub de Hidrogênio Verde e Produtos Derivados do Porto do Açu Operações S.A.
ANO: 2022	• Relatório Técnico do Monitoramento Anual dos Recursos Hídricos (pluvial e fluvial) no entorno da Fábrica da CNC. • Coordenação do Projeto de Avaliação Ambiental Preliminar para Investigação de passivo Ambiental (IPA) no Terminal Aquaviário de Guamaré/RN, da Unidade Operacional do Nordeste Setentrional (UO-NES), da Petrobras Transporte S.A. (TRANSPETRO), localizado no município de Guamaré – RN. • Relatório de Controle Ambiental (RCA) da Usina Termelétrica (UTE) Santarém - PA: Elaboração do Estudo das Alternativas Locacionais, Definição das Áreas de Influência, Diagnóstico do Meio Físico, Análise Integrada e Prognóstico Ambiental. • Relatório Ambiental Simplificado (RAS) da Usina Termelétrica (UTE) Belém I e II – PA: Elaboração do Estudo das Alternativas Locacionais, Definição das Áreas de Influência, Diagnóstico do Meio Físico, Análise Integrada e Prognóstico Ambiental. • Estudo de Impacto Ambiental (EIA) - Usina Termelétrica (UTE) Manaus - AM: apoio e revisão técnica do estudo.

- Relatório de Controle Ambiental da Atividade de Perfuração do Poço Exploratório de Gás Natural Poço EXT-ANEBÁ-1, localizado em Silves/AM.
- Estudo de Impacto Ambiental (EIA) - Usina Termelétrica (UTE) Azulão II, localizado em Silves/AM: apoio técnico no Diagnóstico do Meio Socioeconômico (Dinâmica Populacional, Aspectos Econômicos, Uso e Ocupação do Solo, Zoneamento Municipal, Equipamentos e Serviços Públicos, Recursos Históricos e Engajamento Público).
- Elaboração da apresentação das Atividades de Estimulação com uso de Fraturamento Hidráulico em Reservatório Não Convencional dos Poços 3-ENV-20-MA, 7-GVC-7D, 7-GVR-27- MA e BL67A E, localizados na Bacia do Parnaíba, Maranhão.
- Relatório Anual (2022) do Plano Básico Ambiental (PBA) Integrado da Fase de Operação do Complexo Termelétrico Parnaíba.
- Apoio Técnico ao Relatório de Posicionamento ESG do Porto Sudeste do Brasil S.A.
- Execução de Programas Ambientais (PBA) previstos no âmbito da Licença de Operação do Porto Sudeste e da Licença de Operação da Pedreira: Programa Mensal de Controle de Ruídos, Programa Trimestral de Monitoramento do Manguezal e Auditoria Ambiental no Porto Sudeste do Brasil (PSB) conforme a DZ-56-R.3 e Conama n° 306/02.
- Estudo de Impacto Ambiental (EIA) - Projeto de Produção e Escoamento e Tratamento de Gás Natural do Campo de Gavião Belo – Bacia do Parnaíba, Maranhão: elaboração do Diagnóstico do Meio Socioeconômico (Dinâmica Populacional, Aspectos Econômicos, Uso e Ocupação do Solo, Zoneamento Municipal, Equipamentos e Serviços Públicos, Recursos Históricos e Engajamento Público) e do Relatório de Impacto Ambiental (RIMA).

ANO: 2021

- Parecer Técnico das Condicionantes da LO n° IN028508 - Cumprimento face à evolução das atividades para operar o Terminal Marítimo de movimentação de cargas de granéis sólidos e líquidos de petróleo e seus derivados através de transbordo e contrabordo atracado, além de dragagem de manutenção do Terminal Aquaviário do Porto Sudeste Brasil S/A.
- Estudo Ambiental Complementar - Renovação com Alteração de Escopo da LI n° IN032141: Ampliação da operação para 50 milhões de toneladas/ano de granéis sólidos e 50 milhões de toneladas de granéis líquido, e construção de dolphins de atracação.
- Serviços de Consultoria para Avaliação Ambiental Estratégica - Unidade de Processamento de Gás Natural (UPGN) no estado do Rio Grande do Norte.
- Relatório Ambiental Simplificado (RAS) para Ampliação da UFV Tauá - Usina Fotovoltaica Tauá II - CE.
- Estudo de Impacto Ambiental (EIA) - Complexo Eólico Santo – RN: elaboração das Alternativas Locacionais, Diagnóstico do Meio Físico e Socioeconômico, Prognóstico Ambiental e Audiência Pública.
- Instalação das Estações Fluviométricas para Monitoramento Hídrico na área de influência da fábrica de cimento da Companhia Nacional de Cimento (CNC).
- Parecer Técnico e Plano Básico Ambiental (PBA) para renovação da LI Nº IN042068 do Canal de Navegação do T2 – Porto do Açu.
- Plano de Controle Ambiental (PCA) do Poço de Exploração e Desenvolvimento de Gás Natural no Campo de Gavião Preto – Trizidela do Vale/MA.
- Relatório Ambiental Simplificado (RAS) para Atividade de Perfuração de Poços Exploratórios de Gás Natural no Campo de Azulão - Manaus.
- Estudo de Impacto Ambiental (EIA) - Projeto Gasoduto Gavião Branco Norte – Lima Campos/MA: elaboração do Diagnóstico do Meio Físico, Identificação e Avaliação dos Impactos Ambientais relacionados ao Meio Físico e

Socioeconômico, Planos e Programas relacionados ao Meio Físico e Socioeconômico.

ANO: 2020

- Relatório Ambiental Simplificado (RAS) da Unidade de Liquefação de Gás Natural do Complexo Parnaíba - Santo Antônio dos Lopes/MA.
- Relatório Ambiental Simplificado (RAS) da Usinas Fotovoltaicas (UFVs) Maranhão IV e V - Santo Antônio dos Lopes/MA.
- Relatório para Atendimento às Condicionantes da LI N° IN042068 do Canal de Navegação T2 do Porto do Açu.
- Plano Amostral e Memorial Descritivo da Dragagem de Manutenção do Canal de Acesso e Berços de Atracação do Terminal Portuário Ilha Guaíba (TIG) – Mangaratiba/RJ.
- Auditoria Ambiental baseada nas Resoluções CONAMA nº 306 de 05/07/2002 e Resolução CONAMA nº 381 de 14/12/2006 para o Terminal Marítimo de Ubu e Mineroduto da Samarco Mineração S.A.
- Plano de Trabalho para execução do Monitoramento Hídrico na área de influência da fábrica de cimento da Companhia Nacional de Cimento (CNC).
- Licenciamento Ambiental da Unidade de Compostagem do Porto do Açu.
- Relatório Ambiental Simplificado (RAS) do Centro Náutico do Canal de Navegação do Terminal 2 do Porto do Açu.
- Estudo Preliminar de Alternativas Locacionais do Gasoduto – São Luís a Santo Antônio dos Lopes, Maranhão.
- Relatório Ambiental Simplificado (RAS) da Usina Solar Fotovoltaica Ceará.
- Relatório Ambiental Simplificado (RAS) para Atividade de Perfuração de Poços Exploratórios de Gás Natural na Bacia do Parnaíba, Maranhão: Bloco PN-T-47, Bloco PN-T-66, Bloco PN-T-67, Bloco PN-T-68, Bloco PN-T-102 e Bloco PN-T-133.
- Monitoramento Ambiental da Qualidade da Água no Igarapé Carrapato, Boa Vista, Roraima.

ANO: 2019

- Relatório Ambiental Simplificado (RAS) da Linha de 230kV SE Jaguatirica II - SE Boa Vista.
- Licenciamento Ambiental da Usina Termelétrica Jaguatirica II: Elaboração do Estudo das Alternativas Locacionais, Diagnóstico do Meio Físico, Análise Integrada, Identificação e Avaliação dos Impactos Ambientais relacionados ao Meio físico, Elaboração de Planos e Programas Ambientais relacionados ao Meio físico, e Apresentação de Audiência Pública.
- Assessoria Técnica para Processo de Licenciamento Ambiental da Fábrica de Café Solúvel da OLAM:
- Avaliação Hidrológica Preliminar para Fábrica de Café Solúvel da OLAM COFFEE, no município de Linhares-ES.
- Avaliação das Alternativas Locacionais para a Fábrica de Café Solúvel da OLAM COFFEE, no município de Linhares-ES.
- Caracterização do Terreno para Fábrica de Café Solúvel da OLAM COFFEE, no município de Linhares-ES.
- Relatório Ambiental Simplificado (RAS) do Parque Eólico Jandaíra I e II:
- Elaboração do Diagnóstico do Meio Socioeconômico (Dinâmica Populacional, Aspectos Econômicos, Uso e Ocupação do Solo, Zoneamento Municipal, Equipamentos e Serviços Públicos, Recursos Históricos e Engajamento Público), Identificação e Avaliação dos Impactos Ambientais relacionados ao Meio Socioeconômico, Planos e Programas Ambientais relacionados ao Meio Socioeconômico.

ANO: 2018

- Prospecção de terras para atuação da empresa Fibria Celulose S.A., analisando e mapeando os riscos e impactos sociais, econômicos e ambientais para subsídio à decisão de aquisição de terras.

ANO: 2016

- Licenciamento Ambiental da Usina Termelétrica Presidente Kennedy:
  Elaboração do Diagnóstico da Capacidade Suporte dos Possíveis Locais de Destinação Final dos Resíduos Sólidos do empreendimento;
  Elaboração do estudo das áreas suscetíveis à erosão no traçado da adutora de água;
  Elaboração do Plano de Gerenciamento de Efluentes (PGE) do empreendimento;
  Elaboração do estudo de Caracterização Físico-Química e Microbiológica dos Recursos Hídricos Superficiais adjacentes à UTE Presidente Kennedy.

ANO: 2015

- Licenciamento Ambiental da mineradora Orobó Mineração: Elaboração de estudo de análise de paisagem para o Relatório de Controle Ambiental para licenciamento ambiental da atividade de mineração (extração de granito gnaisse), no município de Itapemirim/ES.
- Licenciamento Ambiental da pedreira Locatran: Elaboração de estudo de análise de paisagem para o Relatório de Controle Ambiental para licenciamento ambiental da atividade de mineração (extração de granito gnaisse), no município de Piúma/ES.
- Outorga de Captação de Água Superficial: Elaboração do Relatório Técnico para Outorga de Captação de Água Superficial para Locação do Poço Exploratório de Hidrocarboneto Fazenda Cajá, em Paulo Ramos / MA.
- Outorga de Travessia em Bueiros: Elaboração do Relatório Técnico para Outorga de Travessia em Bueiros, em Paulo Ramos/MA.

ROBERTA CARDOSO LOUZADA

FORMAÇÃO

Formação Acadêmica:	• ENGENHEIRA AMBIENTAL E SEGURANÇA DO TRABALHO
Idioma:	• Português e Inglês
Informática:	• Pacote Office, MS-Project e Power B
Conselho de Classe	• CREA-ES 017164/D

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S.A
Cargo:	• Gerente Técnico
Período:	• Agosto de 2023 até o momento
Principais Atividades:	• Gerenciamento das atividades nas áreas de licenciamento ambiental, execução de programas ambientais, gerenciamento de cronogramas, gerenciamento de contratos e custos, mobilização e gestão de QSMS.

Empresa:	• Ambipar Response Control Environmental Consulting S.A
Cargo:	• Analista Ambiental Master
Período:	• Janeiro de 2023 até Julho de 2023
Principais Atividades:	• Elaboração de Estudos Técnicos para atendimento de condicionantes ambientais (Ex: EIA/RIMA, RAS, RCA, etc). Coordenação de equipe técnica, compilação de dados secundários e primários.

Empresa:	• Vitoria Ambiental Engenharia e Tecnologia S/A
Cargo:	• Coordenadora de Meio Ambiente
Período:	• Junho de 2007 até Maio de 2017
Principais Atividades:	• Responsável pelo Gerenciamento de Resíduos Industriais (Coleta, Transporte e Destinação Final, incluindo rastreabilidade de documentos e atendimento de requisitos legais pertinentes à este processo); Monitoramento Ambiental; Responsável pelo licenciamento das atividades de exploração e produção de petróleo onshore (Atividades de campo, análise de dados, licenciamento e elaboração de relatório); Manutenção e implantação de Sistema Integrado de Gestão (ISO 9001 e ISO 14001); e gerenciamento e controle de QSMS.

Empresa:	• Magnum Tires
Cargo:	• Assistente de Meio Ambiente
Período:	• Janeiro de 2007 a Maio de 2007
Principais Atividades:	• Responsável pelo Gerenciamento Ambiental da empresa, englobando aspectos e passivos ambientais decorrentes do processo produtivo da indústria

Empresa:	• Centro de Tecnologia em Aqüicultura e Meio Ambiente
Cargo:	• Estagiária de Meio Ambiente
Período:	• Janeiro de 2005 a Dezembro de 2007
Principais Atividades:	• Auxilio na pesquisa Técnica, Monitoramento Ambiental, Relatórios Técnicos Ambientais, Tratamento de Dados e Treinamentos de Educação Ambiental.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2023	• Elaboração do Projeto de Monitoramento Socioespacial dos Trabalhadores Sistema de Produção e Escoamento de Gás Natural - Campos de Peroá e Cangoá, Bacia do Espírito Santo • Elaboração do Projeto de Monitoramento do Transporte e da Destinação de Insumos e Resíduos do Sistema de Produção e Escoamento de Gás Natural - Campos de Peroá e Cangoá, Bacia do Espírito Santo • Elaboração do Projeto de Controle de Poluição do Sistema de Produção e Escoamento de Gás Natural - Campos de Peroá e Cangoá, Bacia do Espírito Santo • Elaboração do Relatório Ambiental Simplificado da Central de Armazenamento e Transferência de GNL • Licenciamento Ambiental das Pequenas Centrais de Tratamento de Resíduos da Ambipar Response Control Environmental Consulting S.A
ANO: 2007 a 2017	• Coordenação do licenciamento ambiental dos Campos de Petróleo Onshore da Vipetro Petróleo Ltda no Estado do Espírito Santo. • Coordenação do licenciamento ambiental da Central de Gerenciamento de Resíduos Industriais da Vitória Ambiental Engenharia e Tecnologia S/A.

CURSOS E EVENTOS RECENTES

- Programa de Desenvolvimento de Dirigentes - PDD/PAEX - Fundação Dom Cabral (ES).
- Formação de Auditor Interno de Sistema de Gestão da Qualidade e Ambiental - ProActive Consultoria Ltda (ES).
- Gestão, Legislação Ambiental Brasileira e Responsabilidade Judicial - Associação Brasileira de Engenharia Sanitaria e Ambiental (ES).
- Sistema de Gestão Integrado - SGI (ISO 9001, 14001 e 18001) - Bureau Veritas Sociedade Classificadora e Certificadora (ES).

PREMIAÇÕES E TRABALHOS PUBLICADOS

Eficiências nas ETAs:	• Comparação das Eficiências de Estações de Tratamento de Águas Captadas no Rio Santa Maria da Vitória que Utilizam Diferentes Tecnologias. In: 25o Congresso Brasileiro de Engenharia Sanitária e Ambiental, 2009, Recife. Comparação das Eficiências de Estações de Tratamento de Águas Captadas no Rio Santa Maria da Vitória que Utilizam Diferentes Tecnologias.

RÔMULO NASCIMENTO

FORMAÇÃO

Formação Acadêmica:	• Técnico em Meio Ambiente • Bacharelado e licenciatura em Geografia – Universidade Federal do Espírito Santo – UFES (2007 – 2015) • Especialização em Educação Ambiental (2015) • Especialização em Metodologia no Ensino de Geografia (2016) • Especialização em Geoprocessamento (2015)
Informática:	• Pacote Office, ArcGis, Toporgaph, AutoCad.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Control Ambiental Sustentabilidade e Meio Ambiente Ltda.
Cargo:	• Analista em Geoprocessamento
Período:	• Março/2017 - Atual
Principais Atividades:	• Executar levantamentos geodésicos e topo hidrográficos, por meio de levantamentos altimétricos e planimétricos; • Implantar no campo pontos de projeto, locando obras de sistemas de transporte, obras civis, industriais, rurais e delimitando glebas; • Planejar trabalhos em geomática; • Analisar documentos e informações cartográficas, interpretando fotos terrestres, fotos aéreas, imagens orbitais, cartas, mapas, plantas, identificando acidentes geométricos e pontos de apoio para georeferenciamento e amarração, coletando dados geométricos; • Efetuar cálculos e desenhos e elaborar documentos cartográficos, definindo escalas e cálculos cartográficos, efetuando aerotriangulação, restituindo fotografias aéreas; • Executar outras tarefas de mesma natureza e nível de complexidade associadas ao ambiente organizacional; • Elaboração de relatórios técnicos; • Organização do setor de produção cartográfica - GIS

Empresa:	• Prefeitura Municipal de Viana
Cargo:	• Diretor do Departamento de Meio Ambiente
Período:	• Maio/2014 – Fevereiro/2015
Principais Atividades:	• Coordenação de projetos ambientais e projetos de educação ambiental.

Empresa:	• SESI – Campo Grande
Cargo:	• Professor
Período:	• Outubro/2014 – Dezembro/2014
Principais Atividades:	• Ministrar aulas para alunos do ensino profissionalizante (PRONATEC).

Empresa:	• INOVATES – Instituto de Inovações e Tecnologias Sustentáveis
Cargo:	• Consultor em Geoprocessamento
Período:	• Agosto/2013 – Maio/2014
Principais Atividades:	• Levantamento de propriedades para a elaboração do Cadastro Ambiental Rural - CAR.

RÔMULO NASCIMENTO

Empresa:	• PRETOP, Serviços de Topografia, Geoprocessamento, Geodésia e Florestal
Cargo:	• Desenhista Técnico Cartográfico III
Período:	• Junho/2012 – Agosto/2013
Principais Atividades:	• Elaboração de relatórios, mapas temáticos e demais produtos cartográfico em ambiente virtual ArcGis 10.1, AutoCad, Topograph e entre outros.
Empresa:	• Prefeitura Municipal de Cariacica – PMC - Secretaria Municipal de Desenvolvimento Urbano - Gerência de Planejamento Urbano
Cargo:	• Coordenador de Informações Técnicas
Período:	• Fevereiro/2010 – Junho/2012
Principais Atividades:	• Responsável pelo gerenciamento do Setor de Topografia, levantamentos territoriais e cadastrais, analise ambientais e sociais, identificação e caracterização dos parques urbanos e áreas de risco, gerenciamento do banco de dados geográfico da CIT – Coordenação de Informações Técnicas e principalmente pela Coordenação do POT (Plano de Organização Territorial do Município de Cariacica).
Empresa:	• Laboratório de Geomática e Geotecnologia – Departamento de Geografia – UFES
Cargo:	• Bolsista
Período:	• 2008 - 2009
Principais Atividades:	• Ação: auxiliar em monitoria e pesquisa na área de geoprocessamento e cartografia • digital.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2010	• Execução do Plano de Organização Territorial – POT para o Município de Cariacica/ES; • Revisão do Zoneamento Urbano do município de Cariacica/ES.
ANO: 2012	• Delimitação da Área Autorizada de produção da identificação de procedência do inhame São Bento “Alfredo Chaves / ES”; • Delimitação da Área Autorizada de produção da identificação de procedência do Socol para “Venda Novas do Imigrante / ES”; • Delimitação da Área Autorizada de produção da identificação de procedência da Carne de Sol para o “Vale do Rio Ituanas- Extremo Norte Capixaba”.
ANO: 2013	• Levantamento de propriedades das propriedades produtoras de Inhame São Bento para elaboração do Cadastro Ambiental Rural – CAR; • Levantamento de propriedades das propriedades produtoras do Socol para elaboração do Cadastro Ambiental Rural – CAR.
ANO: 2014	• Delimitação para a Indicação de Procedência “Região de Uarini” para Farinha de Mandioca – Alvares, Maraã, Tefé e Uarini – AM / BRASIL; • Mapeamento das atividades licenciadas no município de Viana/ES.
ANO: 2015	• Programa de Coleta Seletiva da óleos e gorduras de origem animal e vegetal do Município de Viana-ES.

RÔMULO NASCIMENTO

ANO: 2015

- Delimitação para a denominação de origem “Baía da Ilha Grande” para as Vieiras, nos municípios de Angra dos Reis e Paraty - RJ/Brasil;
- Delimitação para a Indicação de Procedência “Região de Novo Remansso” para o abacaxi nos municípios de Itacoatiara, Rio Preto da Eva e Manaus – AM/Brasil.

ANO: 2017

- Execução de campo de topografia e permissoria referente ao projeto de Execução de Cadastro Ambiental Rural da Parnaíba Gás Natural (PGNSA)/ENEVA, referente ao período de abril/2017 a julho/2017;
- Execução de campo de topografia e permissoria referente ao projeto de Serviços de Levantamento das Faixas de Servidão dos Gasodutos TECAB e GASCAV – Projeto Porto do Açu, referente a junho de 2017 a outubro/2017**;**
- Execução de serviços de organização de rede e relatórios de implantação da rede do setor de sustentabilidade - Projeto - Porto do Açu, referente a outubro de 2017 a janeiro/2018**;**
- Elaboração de relatório técnico de atendimento a condicionantes ambientais - Projeto – Açu Petróleo/RJ, referente a novembro de 2017 a dezembro/2017**;**
- Execução de campo de monitoramento de ruídos – Projeto - Porto do Açu/RJ, referente a novembro de 2017 a junho/2018**.**

ANO: 2018

- Responsável pela execução de campo de topografia nos levantamentos dos poços de monitoramento - Projeto – REDUC/RJ, referente a fevereiro de 2018 a marco/2018;
- Responsável pela execução de campo de topografia nos levantamentos dos poços de monitoramento - Projeto – REPLAM/SP, referente a fevereiro de 2018 a marco/2018;
- Responsável pela execução de campo: Locação de marco topográfico e elaboração de *As-built* de estação coletora de linhas de produção de óleo – Projeto - UBUTUM, referente a fevereiro de 2018 a marco/2018;
- Responsável pela execução de serviços de delimitação, locação e levantamento de área de poços de exploração de óleo e de área de acesso – Projeto – GEOPARK, referente a junho 2018 a julho/2018;
- Responsável pela execução de campo de levantamento social – Projeto – GEOPARK, referente a setembro de 2018 a outubro de 2019;
- Execução de campo do monitoramento de ruído – Projeto – GEOPARK, referente a setembro de 2018 a outubro de 2019. – CASM-356;
- Responsável pelos serviços leitura e interpretação de equipamentos de monitoramento de Taludes – Projeto – RPBC/SP, referente a junho de 2018 a dezembro/2018;
- Responsável pela mobilização de equipe e equipamento para serviços de topografia - Projeto – REPLAM/SP, referente a novembro de 2018 a dezembro/2018.

ANO: 2019

- Responsável pela execução de vistoria aérea através imageamento por drones em faixas de dutos da Transpetro (gás, óleo e combustível) – Projeto – Transpetro, referente a janeiro de 2019 a junho de 2019;
- Responsável pela execução de vistoria nos campos de exploração de petróleo (Poços e estações) e elaboração de relatórios – Projeto – Potiguar Gás, referente a junho de 2019 a julho/2019;
-

- Execução de campo de topografia referente ao projeto de Serviços de Levantamento das Faixas de Servidão dos Oleoduto ASIO – Projeto – Açu Petróleo, referente a junho de 2019 (em andamento);

ANO: 2020

- Responsável pela execução da implantação de régua liminimétrica na Lagoa do Veiga– Projeto – Prumo Logística, referente a janeiro de 2020;
- Responsável pela execução de campo dos levantamentos cadastrais do diagnóstico sócio ambiental do minério duto Minas x Rio. – Projeto – Anglo American, referente a março de 2020 a abril/2020;
- Elaboração e processamento de dados das áreas de tratamento, estocagem e transporte da UTP para solicitação de DUP e AC na ANP. – Projeto – Açu Petróleo, referente a abril de 2020;
- Responsável pela produção cartográfica do setor de desenvolvimento – Prumo Logística, referente a abril de 2020, em andamento;
- Responsável pelo setor de produção cartográfica (GIS) – Control ambiental – referente a abril de 2020, em andamento.

CURSOS E EVENTOS RECENTES

- Regularização Fundiária – Fundação Vale (18 h).
- Cartografia Digital – Pacote Arcgis, Kosmo – UFES (120 h).
- Arcgis 10.1 Avançado – Tecnomapas (40 h).
- Topografia – Teoria e Prática com Estação Total – CPE Tecnologia (16 h).
- Capacitação para o Cadastro Ambiental Rural – UFL (78 h).
- Gerenciamento de Resíduos Sólidos – SENAC (80 h).

Stephania Nascimento Lyra

FORMAÇÃO

Formação Acadêmica:	• Engenheira Sanitarista e Ambiental (Instituto Federal do Espírito Santo - IFES)
Idioma:	• Inglês (Avançado)
Informática:	• Pacote Office; ArcGIS; Google Earth.

EXPERIÊNCIA PROFISSIONAL

Empresa:	• Ambipar Response Control Environmental Consulting S/A
Cargo:	• Analista Ambiental Júnior
Período:	• 2022 - Atual
Principais Atividades:	• Revisão e elaboração de estudos ambientais estudos ambientais, elaboração de Fichas de Caracterização de Atividade (FCA), acompanhamento de monitoramentos ambientais, planejamento de atividades de campo e logística, acompanhamento de atendimento de condicionantes ambientais, negociação e contratação de fornecedores.

Empresa:	• Ambipar Response Control Environmental Consulting S/A
Cargo:	• Estagiária Ambiental
Período:	• 2020 - 2022
Principais Atividades:	• Apoio no planejamento de projetos; suporte no procedimento de compras e solicitação de orçamento para fornecedores, suporte em pesquisas bibliográficas; Auxílio na elaboração e desenvolvimento de programas e projetos ambientais; Participação em discussões sobre escopo de projetos ambientais.

PRINCIPAIS TRABALHOS REALIZADOS

Abril/2021:	• Apoio na elaboração do Estudo de Impacto Ambiental do Projeto de Produção e Escoamento de Gás Natural do Campo de Gavião Branco Norte – Lima Campos, MA.
Fevereiro/2022	• Apoio na elaboração do Estudo de Impacto Ambiental – Projeto de Produção e Escoamento e Tratamento de Gás Natural do Campo de Gavião Belo – Bacia do Parnaíba, Maranhão. • Elaboração e revisão dos estudos arqueológicos para licenciamento do Projeto de Produção e Escoamento e Tratamento de Gás Natural do Campo de Gavião Belo – Bacia do Parnaíba, Maranhão.
Julho/2022	• Apoio na elaboração do Relatório Ambiental Simplificado (RAS) da Usina Termelétrica (UTE) Belém I e II – PA • Revisão do estudo de dispersão atmosférica da Usina Termelétrica (UTE) Belém I e II – PA • Apoio na elaboração do Estudo de Impacto Ambiental (EIA) da Usina Termelétrica (UTE) Manaus -AM • Revisão do estudo de dispersão atmosférica da Usina Termelétrica (UTE) Manaus - AM • Apoio na elaboração do Relatório Ambiental Simplificado (RAS) Usina Termoelétrica (UTE) Santarém – PA; • Revisão do estudo de dispersão atmosférica da Usina Termelétrica (UTE) Santarém – PA

Julho/2022	• Elaboração do Relatório Ambiental (RAS) Simplificado da Unidade de Regaseificação de Gás Natural Liquefeito (GNL) a ser implantada nas instalações da Suzano no município de Imperatriz, estado do Maranhão; • Elaboração do Programa de Gerenciamento de Risco (PGR) da Unidade de Regaseificação de Gás Natural Liquefeito (GNL) a ser implantada nas instalações da Suzano no município de Imperatriz, estado do Maranhão;
Dezembro/2022	• Apoio na elaboração do Relatório de Monitoramento Ambiental Consolidado das Campanhas de Monitoramento Ambiental do Sistema de Produção e Escoamento de Gás Natural dos Campos de Peroá e Cangoá, Bacia do Espírito Santo
Janeiro/2023	• Estudo de Pluviometria e sua Influência sobre o Rio São Miguel, em São Miguel dos Campos - AL
Março/2023	• Elaboração do Plano de Contingência e Emergência (PCE) da Seção do KM ferroviário 208+360 m, travessia com o Rio Monjolinho, município de São Carlos/SP
Junho/2023	• Organização da Audiência Pública para apresentação do Terminal de Granéis Líquidos (TGL) da Navegantes Logística, no município de Vila Velha, Espírito Santo

CURSOS E EVENTOS RECENTES

Pilotagem de Drone	• Introdução aos Objetivos do Desenvolvimento Sustentável da Agenda 2030 e sua aplicabilidade; • Excel e Power Bi

PREMIAÇÕES E TRABALHOS PUBLICADOS

Nome da premiação ou trabalho publicado:	• Use of microbiology applied to water quality as an environmental education tool for high school students – XXIV Congresso Latinoamericano de Microbiologia 2018. • “Laboratório Natural: Qualidade da água do rio Reis Magos“- 2º Lugar no Prêmio Ecologia 2018 na categoria: “Educacional” - Subcategoria: “Médio”

Empresa: Ambipar Response Environmental Consulting S/A
Cargo: Diretor de Projetos
Período: Atualmente
Principais Atividades:

Projetos/Meio Ambiente

- Gestor e Especialista (Responsável Técnico) de estudos de Monitoramento, Diagnóstico, EIA/RIMA, Declaração de Impacto Ambiental, PCA, RCA, PRAD na área de Recursos Hídricos;
- Gestor de Processos de licenciamento ambiental (LP, LI, LO);
- Coordenação do Sistema de Gestão Ambiental (ISO 14001:2004);
- Gerenciamento de Projetos de Controle de Poluição (Gestão de Resíduos e Efluentes);
- Realização de Auditórias Ambientais – Identificação de passivos ambientais;
- Coordenação nos processos de formatação final e ajustes técnicos de Relatórios Ambientais;
- Coordenação de Atividade de Campo em Programas de Monitoramento Ambiental;
- Treinamentos/Palestras junto a equipe técnica e parceiros (clientes e órgãos ambientais);

Gerenciamento de Resíduos

- Elaboração de Processos e Fluxogramas – Atividades desenvolvidas na Central de Gerenciamento de Resíduos Industriais (Aterro Industrial);
- Desenvolvimento e aprovação de projetos (Galpões, Células Disposição Final, Estações de Tratamento de Efluentes);
- Avaliação dos processos de controle ambiental implementados na área;
- Controle de Frota (Monitoramento e avaliação de materiais e equipamentos necessários para realização de transporte de resíduos perigosos);
- Treinamento de pessoal;

Supply Base

- Gerenciamento de movimentação de resíduos gerados em atividades offshore;
- Gerenciamento planta de armazenamento temporário de resíduos;
- Supervisão atividades de limpeza de locais confinados;

Atividades Desenvolvidas em Gerenciamento de Contratos

- Composição custos e cronogramas físico-financeiro de Projetos/Programas
- Elaboração de relatórios, previsão pagamentos/folha pagamentos/medição consultores e diárias.
- Elaboração de propostas técnica/financeira – comercial para concorrências
- Programação mensal/semanal/diária de atividades com acompanhamento
- Adequação de cronogramas de execução e desembolso
- Gerenciamento de contrato junto a Empresa x Cliente

- Acompanhamento e execução de medição mensal de serviços
- Capacitação para fechamento de orçamentos, editais e analise custos.

Empresa: CEFETES/ES
Cargo: Professor para o Curso de Tecnólogo em Saneamento Ambiental.
Período: 2004 - 2005.
Principais Atividades: Aulas ministradas presencialmente para a disciplina de Ecologia Aplicada (Limnologia).

Empresa: ESFA
Cargo: Professor de Pós-Graduação em Gestão Ambiental.
Período: 2005 - 2007
Principais Atividades: Aulas ministradas presencialmente para a disciplina de Planejamento Ambiental (Sistema de Gestão Ambiental, Norma ISSO 14000, Auditoria Ambiental, Certificação Ambiental).

Empresa: FAESA
Cargo: Professor de Pós-Graduação em Gestão Ambiental.
Período: 2006-2008
Principais Atividades: Aulas ministradas presencialmente para a disciplina de Sistema de Gestão Ambiental (ISSO 14001/2004, Auditoria Ambiental, Certificação Ambiental).

Empresa: FAESA
Cargo: Professor de Pós-Graduação em Gestão Ambiental.
Período: 2007
Principais Atividades: Aulas ministradas presencialmente para a disciplinas de Auditoria Ambiental, Gerenciamento de Resíduos e Planejamento Ambiental/Sistemas Ambientais.

PRINCIPAIS TRABALHOS REALIZADOS

ANO: 2017

- Serviço de Comunicação para Realização de Audiências Públicas no Estado do Piauí referente à Atividade de Perfuração de Poços nos Blocos PN-T-137, PN-T-151 e PN-T-165 (Ouro Preto)
- Vistoria Ambiental de Obras e Investigação de Passivos Ambientais no Pólo de Metalmecânica (HKM Indústria e Comércio).
- Elaboração de Relatório de Acompanhamento e Monitoramento Ambiental – RAMA (2017) - Operação da Linha de Transmissão – LT – 230 kV Itarema (Rio Energy).
- Serviços de Monitoramento e Resgate da Biota Terrestre (PMRBT) Projeto da PGN/Gavião Caboclo (GVC) (Elecnor Brasil).
- Monitoramento Ambiental do Sistema de Disposição Oceânica do Jaguaribe - Inverno/2017 - Verão/2018 (Odebrecht Ambiental).
- Serviços de Operacionalização, Inspeção e Analise Critica do Sistema Integrado de Gerenciamento de Resíduos (SIGRE) no âmbito da UO-RNCE (Petrobras).
- Assessoria Técnica para Investigação Complementar de Contaminação dos Sedimentos na Área de Dragagem do Porto Central (Porto Central).
- Prestação de serviços especializados de gestão de SMSQ (Segurança, Meio Ambiente, Saúde Ocupacional e Qualidade) e gestão de contingência, com base nas normas NBR ISO 14001, OHSAS 18001, NBR ISO 9001 (Petrobras).

- Serviços de Coleta de Amostras, Análise e Avaliação da Potabilidade da Água nas Unidades da TRANSPETRO na Região Norte (Transpetro).
- Serviços de serviço continuidade do programa de monitoramento da mastofauna do Mineroduto visando detectar possíveis variações na abundância das populações de mamíferos ao longo do mineroduto (Samarco).
- Análises ambientais de imagens marinhas para os projetos e atividades de monitoramento ambiental de ecossistemas sensíveis (Petrobras).
- Elaboração de Relatórios de Avaliação e Controle Ambiental – RDA para renovação das Licenças de Operação das Usinas Parnaíba II, III e IV (Eneva)

ANO: 2016

- Monitoramento do cinturão verde implantado no entorno da Estação de Compressão de Aracruz, atendendo a condicionante da Licença de Operação (Transpetro)
- Gerenciamento Operação Viveiro - Porto do Açu (Prumo Logística)
- Caracterização da Biota Bentônica em Substrato Inconsolidado de Praias Arenosas no Entorno do Porto do Açu, São João da Barra/ São João da Barra - RJ Janeiro (Prumo Logística Global).
- Prestação da manutenção, limpeza, coleta e caracterização da água subterrânea (com base na resolução CONAMA 420/2009) de poços de monitoramento das centrais de resíduos do Rio Grande do Norte (Petrobras)
- Realização de treinamento do Plano de Emergência Individual – PEI (Tecnip do Brasil)
- Serviços de Monitoramento e Resgate da Biota Terrestre (PMRBT) Projeto Gavião Branco Oeste Fase II – PGNSA (SARPAF)
- Serviços de Elaboração dos Relatórios de Monitoramento Ambiental para Atendimento ao Projeto de Controle da Poluição (PCP), Gestão de SMES em Novos Empreendimentos e Avaliação da Eficácia dos Sistemas de Controle da Poluição em Atividades Terrestres e Marítimas no âmbito da UO-RNCE com Atividades nos Estados do Ceará e Rio Grande do Norte (Petrobras).
- Serviços de Análises de Amostras Ambientais UO-SEAL - FPSO Piranema e Emissário Atalaia (Petrobras).
- Serviços de Monitoramento Ambiental na área de influência do Sistema de Disposição Oceânica do Jaguaribe Campanhas (Odebrecht Ambiental).
- Assessoria Técnica Demanda na Obtenção da Licença de Alteração do Projeto do Parque Eólico Serra da Babilônia e Obtenção da Autorização de Supressão de Vegetação – ASV do Acesso Externo ao Parque (Rio Energy).
- Serviços de Levantamento das Faixas de Servidão dos Gasodutos TECAB e GASCAV - Projeto Porto do Açu (Prumo Logística).
- Serviço elaboração e execução dos Planos de Monitoramento de Água Subterrânea e Solos (Novapol).
- Serviços de coleta, análises laboratoriais de amostras de água dos poços de monitoramento, e coleta de amostras, análise de caracterização e monitoramento dos efluentes sanitários e industriais (Transpetro).
- Serviços técnicos especializados em arqueologia para levantamentos sísmicos 3D denominado Rio Betume para atender a condicionantes do Instituto do Patrimônio Histórico e Artístico Nacional – IPHAN (Petrobras).
- Elaboração de Relatório de Acompanhamento e Monitoramento Ambiental – RAMA Operação da Linha de Transmissão – LT – 230 kV Itarema (Rio Energy).
- Elaboração de Projeto de Recomposição Florestal Demandado pelo Parque Eólico Itarema VII (Rio Energy).
- Serviço de gestão de resíduos radioativos e descarte de resíduos oleosos gerados nas atividades da Empresa Petróleo Brasileiro S/A.

- Elaboração de Relatório de Desempenho Ambiental (RDA) para renovação da LO 559/2012 da Parnaíba I Geração de Energia S/A (Eneva).
- Execução do Projeto de Reposição Florestal do Parque Eólico Itarema VII (Rio Energy).
- Elaboração de Procedimentos Operacionais – Sistema de Gestão Prumo Logística, Porto do Açu, Munícipio de São João da Barra – RJ (Prumo Logística Global).
- Projeto de Tamponamento de Poço Tubular de Abastecimento nº 01, Localizado Lote 115 (Vila da Terra), Porto do Açu – RJ (Prumo Logística Global).
- Execução dos serviços de coleta de amostras, análise de caracterização e monitoramento dos efluentes sanitários, industriais e corpos hídricos receptores de efluentes tratados nas unidades da Transpetro S.A.
- Execução do Resgate de Fauna Silvestre - Obras do Acesso Externo e Parque Eólico de Serra da Babilônia (Rio Energy).
- Serviço de amostragem de biota aquática no Porto do Açu (CPEA)
- Atualização do cadastro do CNARH da PRUMO junto a ANA (Prumo Logística Global)
- Elaboração de estudos ambientais para a renovação das Licenças de Operação da REGAP (Petrobras).
- Levantamento de Passivos Ambientais nas Instalações da White Martins localizada na Arcelor Mittal (White Martins).
- Serviços de monitoramento da qualidade das águas lançadas (efluente sanitário e industrial), água superficiais (recursos hídricos), análises físico-químico-biológicas, caracterização de resíduos provenientes de atividades das bases da PETROBRAS.
- Serviços técnicos especializados para execução de Programa de Monitoramento de Recursos Hídricos decorrente da licença de instalação da Autopista Fluminense (Rodovia Gov. Mário Covas) (Autopista Fluminese).
- Serviços de Execução de Programa de Educação Ambiental para Comunidades em Cumprimento de Condicionantes de Licenciamento Ambiental do empreendimento Manati (Petrobras)
- Implantação de Sistema Integrado de Gerenciamento Ambiental (SIGA) - Meio Físico - Porto do Açu (Prumo Logística Global).
- Serviços de Monitoramento ambiental de coleta e preservação de amostras de água (corpos hídricos superficiais), sedimento e biota, análises de características físicas, químicas e biológicas – TEDUT (Transpetro).

ANO: 2015

- Execução da Campanha de Campo nas Áreas Adjacentes ao TPAR para Coleta e análise de amostras de água, sedimento e Elaboração de relatórios e laudos técnicos (Technip do Brasil).
- Execução dos serviços referentes ao Programa de Prospecção Arqueológica, Monitoramento Arqueológico, e Programa de Educação Patrimonial, do empreendimento denominado levantamento geofísico terrestre 3D Jacutinga (Jaguaré e São Mateus – ES) (Petrobras)
- Monitoramento das Águas Superficiais, Sedimentos e da Limnologia do Gasoduto Cernambi Tecab – trecho terrestre (Petrobras).
- Elaboração de PBAs – Processo de Licenciamento Ambiental demandado na implantação do Gasoduto – GVB (PGN S.A)
- Prestação de serviços referentes à avaliação e preenchimento online de inventários estaduais de resíduos, Relatório Anual de Atividades Potencialmente Poluidoras e Utilizadoras de Recursos Ambientais – RAPP e outras informações das Unidades da Samarco Mineração (Samarco).

- Elaboração de PCA - Barros & Barros Centro de Prótese Odontológica Ltda ME (Barros & Barros)
- Elaboração de Planos de Controle Ambiental e Plano de Gerenciamento de Resíduos da Construção Civil (PGRCC) para Licenciamento do ed. Costa Maggiore, município de Vila Velha/ES (Barbosa Barros).
- Elaboração de PCS e do PEA da Operação e Execução de Diagnósticos (Vitória Base Terminais Portuários).
- Elaboração dos relatórios semestrais (evidencias de cumprimentos de condicionantes) para as licenças de PAR I 559/11 E PAR II 55/13 (Eneva)
- Elaboração Resposta Técnica a Ação Cível Publica MPF E MEP – Processo 15-129-13.2015.4.013700 (Eneva).
- Análises Ecotoxicológicas em efluentes, no âmbito da Unidade de Operações de Exploração e Produção do Rio Grande do Norte e Ceará (UO-RNCE) (Petrobras).
- Gerenciamento Ambiental das Obras de Implantação da Linha de Transmissão 230 KV SE ITAREMA V / SE ACARAÚ II (Rio Energy).
- Sondagem para recolhimento de amostras de solos das Centrais de Resíduos do Rio Grande do Norte (Petrobras).
- Elaboração de Programas Básicos Ambientais previsto no processo de Licenciamento Ambiental da Algadermis Indústria e Comércio Ltda.
- Monitoramento de Qualidade da Água, Sedimentos, Ictiofauna, Comunidades Planctônicas e Comunidades Bentônicas, previstos para fase de operação do Sistema de Disposição Oceânica do Jaguaribe, Salvador-BA (Odebrecht Ambiental).
- Elaboração, implementação e acompanhamento de Estudos e Programas Básicos Ambientais e demais documentos necessários para auxiliar no processo de licenciamento ambiental das atividades da Parnaiba Gás Natural S.A – PGNSA.
- Elaboração de Estudo de Impacto Ambiental – EIA e Relatório de Impacto Ambiental – RIMA para Licenciamento Ambiental de Óleoduto (Petrobras)
- Assessoria Técnica Ambiental demandada nos processos de licenciamento da 1ª etapa do Projeto Citri Vitória Ambiental UN-NORTE.
- Investigação de passivos ambientais na unidade de tratamento de resíduos – UTR, da Bital Soluções Ambientais, Peritoró-MA.
- Renovação Licença de Operação da base de apoio a operação de E&P de Petróleo Offshore, Caju, Centro – RJ (G-Comex Óleo e Gás).
- Realização de bloqueio minerário nas áreas do Complexo Eólico Santapape, em Santana do Seridó e Equador – RN (Renova).
- Monitoramento de Águas, Efluentes e Sedimentos na UTE Porto do Itaqui, São Luís – MA.
- Serviços de Monitoramento e Resgate da Biota Terrestre (PMRBT) (SERPAF).
- Avaliação das Alterações do Projeto da Bacia de Águas Pluviais para Viabilizar a Reutilização de Água nos Processos Existentes na UTE PARNAIBA (Eneva).
- Serviços Técnicos Ambientais previsto nos processos de licenciamento das atividades desenvolvidas pela Geopark.
- Programa de Monitoramento Marinho - Água, Sedimento e Biota Aquática (CANAL ONSHORE) (Prumo Logística Global)
- Serviços Técnicos de Sondagem Mecanizada RNCE, Mossoró-RN. (Petrobras).
- Execução do Programa de Resgate de Fauna e Flora - Projeto Gavião Branco – PGNSA (Elecnor).
- Execução do Programa de Resgate de Fauna e Flora - Projeto Santa Vitória – PGNSA (SERPAF).
- Execução do Programa de Monitoramento da Qualidade dos Sedimentos na Baía de Vitória (Tecnip Brasil).
- Realização de Auditoria conforme Resolução Conama 306/2002 (Vitória Base Terminais Portuários)

- Execução de Planos Básicos Ambientais (Algadermis Indústria e Comércio).
- Serviços técnicos especializados em arqueologia para levantamentos sísmicos 3D denominado Norte de Coruripe e Sinimbu para atender a condicionantes do Instituto do Patrimônio Histórico e Artístico Nacional – IPHAN (Petrobras).
- Inspeções para Avaliação da Ocorrência de Coral Sol na Baía de Guanabara e adjacências (Petrobras).
- Serviços de Levantamento de Passivos Ambientais - Amostras de Água e Sedimento, Base Vila Velha –ES (Technip do Brasil).

ANO: 2014

- Implementação e Monitoramento do Programa de Educação Ambiental dos Trabalhadores – PEAT (Petrobras).
- Monitoramento de Ruído na área de instalação do pátio logístico (Prumo Logística Global).
- Elaboração dos Relatórios Técnicos Semestrais para Atendimento às Condicionantes das Licenças da UTE Parnaíba I e UTE Parnaíba II e Detalhamento dos Programas Ambientais, Santo Antônio dos Lopes - MA (Eneva)
- Avaliação Socioambiental (ASA) Terminal Offshore-RJ (Petrobras).
- Elaboração do Programa de Gerenciamento de Riscos-PGR de CPVV.
- Execução do Programa de Educação Ambiental da Flexibras em Açu, contemplando a comunidade (Technip do Brasil).
- Locação de Estação de Tratamento de Efluentes (Vitória Ambiental).
- Monitoramento Ambiental na área de influência do Sistema de Disposição Oceânica de Jaguaribe, Salvador - BA (Odebrecht Ambiental).
- Licenciamento Ambiental e Gerenciamento de HSE dos empreendimentos e projetos da Parnaíba Gás Natural S.A (PGNSA).
- Serviços da Campanha COSIS (Petrobras)..
- Relatório de devolução de áreas para 23 poços/locações localizados em 8 blocos distintos da Parnaíba Gás Natural S.A, conforme diretrizes estabelecidas pela resolução ANP 013 2011.
- Licenciamento Ambiental de Regularização da estação elevatória do saboeiro, Salvado r- BA (Odebrecht Ambiental).
- Serviço de Coleta de Água de Poço Tubular profundo da UTE Itaqui, Santo Antônio dos Lopes – MA (Eneva).
- Serviços Monitoramento da Qualidade Ambiental do Solo e da Água Subterrânea da Área da Refinaria Duque de Caxias (REDUC), incluindo a modelagem numérica hidrogeológica tridimensional de fluxo e transporte de contaminantes (Petrobras).
- Serviços de Monitoramento de Águas, Efluentes e Sedimentos na UTE de Itaqui, São Luís – MA (Eneva).
- Elaboração do Programa de Monitoramento da Dragagem e Área de Bota Fora do Projeto Básico Ambiental (PBA) do empreendimento Mineroduto Morro do Pilar (MG) – Linhares (ES) e Porto Norte Capixaba (Manabi)
- Elaboração do Programa de Monitoramento de Tartarugas Marinhas do Projeto Básico Ambiental (PBA) do empreendimento Mineroduto Morro do Pilar (MG) – Linhares (ES) e Porto Norte Capixaba (Manabi).
- Elaboração de Relatório de Controle Ambiental (RCA) – Levantamento Geofísico Terrestre (Petrobras).
- Prestação de Serviços para realização da Auditoria CONAMA 306 no Terminal Marítimo da unidade industrial de Ubu (Samarco).
- Assessoria Técnica de implantação da base de prontidão para atendimento a emergências no Complexo Portuário do Açu, São João da Barra – RJ (BPAE).
- Execução de Monitoramento de Ruído Ambiental na Implantação do Gasoduto Terrestre Rota Cabiúnas 2 Analisando Espacialmente e Temporalmente os Dados Obtidos (Petrobras)

- Elaboração de Planos de Controle Ambiental e Assessoria Técnica para licenciamento (Barbosa Barros).
- Elaboração de Projetos para Licenciamento Ambiental no site Jucu, Viana – ES (Technip do Brasil).
- Serviços de Geoprocessamento – Elaboração de Plantas e Mapas Demandados no processo de Licenciamento Ambiental – Base de Teste Jucu (Technip do Brasil)
- Monitoramento Ambiental na área de influência do Sistema de Disposição Oceânica de Jaguaribe, Salvador/BA (Odebrecht Ambiental).
- Monitoramento de Cetáceos na Área de Influência do TABR (Transpetro).
- Realização de Coleta e Análise de parâmetros ambientais dos efluentes, corpo receptor da FAFEN/SE e águas adjacentes a Unidade no Rio Sergipe, com emissão de relatórios de monitoramento (Petrobras).
- Serviços de Elaboração de Projetos de Controle Ambiental para base do guidaste no Porto do Açu (Technip Brasil).
- Monitoramento de Ruído Ambiental na implantação do projeto gasoduto cernambi - TECAB trecho terrestre (rota – 2) (Petrobras).
- Assessoria Técnica para resposta ao paracer técnico junto ao ICMBio referente ao Programa de Monitoramento de Tartarugas Marinhas previsto dos empreendimentos Mineroduto Morro do Pilar/MG – Linhares/ES e Porto Norte Capixaba (Manabi)
- Serviços de Consultoria Ambiental para elaboração do Plano de Manejo da Arie do Degredo (Manabi).
- Elaboração do Projeto Galpão de Armazenamento Temporário de Resíduos e Produtos Químicos, Parque Termoelétrico Parnaíba (Eneva).
- Serviços de Apoio Técnico referente avaliação de uso e ocupação do solo demandados nos processos de permissoria dos projetos da PGN S.A.
- Especificação Técnica para Análise da Qualidade de Águas, Sedimento e Efluentes da RLAM (Petrobras).
- Revisão de Plano de Controle Ambiental, CIVT, Serra/ES (Husqvarna do Brasil).
- Elaboração de Memorial Descritivo – Sistema de Tratamento de Efluentes Industrias e Sanitários da Usina de Itaqui (Eneva).
- Estudo de Impacto de Vizinhança – EIV (Prysmian).
- Monitoramento de Fauna e Flora de Atividades Sismica no Norte Capixaba (Petrobras).
- Gerenciamento de Obras de Reassentamento - UTE PARNAIBA (Eneva)
- Elaboração dos Relatórios Semestrais de Execução do PBA e Atendimento de Condicionantes - UTE I e UTE IV (Eneva).
- Execução de Programas Sócio Ambientais – Porto de Uçu (Prumo Logística Global).
- Supervisão Ambiental das Operações de Dragagem – Porto de Uçu (Prumo Logística Global).
- Apoio as Atividades Pesqueiras e do Programa de Turismo e Atividades Desportivas Náuticas Sustentáveis - Porto de Uçu (Prumo Logística Global).
- Monitoramento Geoambiental no Campo de Produção Fazenda Belém (Petrobras).
- Monitoramento de Quelônios Área de Influência Porto Manabi.
- Monitoramento de Fauna (Prumo Logística Global).
- Elaboração de Parecer Técnico – Proposta de Reestruturação do Programa de Monitoramento do Emissário da UTE Itaqui (Eneva).
- Atualização das Informações sobre Compensação Ambiental - Resposta ao Ofício nº 503-2014 -GRN/DT/IEMA (Nova Holanda Terminais).
- Programa de Monitoramento Marinho - Água, Sedimento e Biota Aquática (Prumo Logística Global).

- Elaboração de Plano de Contingência e Emergência para a Central de Materiais Descartáveis da Samarco Unidade Ubu (Samarco).
- Programa de Monitoramento Limnológico (Prumo Logística Global).
- Licenciamento e Gerenciamento Ambiental das Etapas de Planejamento e Implantação (LI IN028059) da Brasil Port Logística Offshore e Estaleiro Naval no Complexo Do Açu, Munícipio de São João da Barra – RJ (Edison Chouest Offshor)
- Elaboração de Projeto de Reposição Florestal Gasoduto Rota Cabiúnas (Petrobras).

ANO: 2013

- Elaboração de Estudos Complementares: Estudo de Análise de Riscos (EAR), do Plano de Gerenciamento de Riscos (PGR) e do Plano de Emergência Local (PEL) – realizado para a Unidade de Tratamento de Gás de Cacimbas (UTGC) (Petrobras).
- Inventário Florestal (LLX AÇU – Operações Portuárias S.A).
- Revisão do Plano de Emergência Individual (CPVV)
- Planos de Manejo para fauna silvestre (LLX AÇU – Operações Portuárias S.A).
- Elaboração dos Relatórios Técnicos Gerenciamento Ambiental (Atendimento as Condicionante - LI 003-12; LI 273/2011; LI-274/2011; LI-111/2012) e da LO-559/2012) e Detalhamento dos Programas Ambientais (MPX - UTE Parnaíba).
- Revisão de Plano de Emergência Individual, Vitória/ES (Codesa).
- Elaboração de Plano de Emergência Individual, São João da Barra/RJ (Technip do Brasil)
- Elaboração do Plano Básico Ambiental (PBA) do Monitoramento e Controle de Tráfego - Projeto Carnalita - Vale Fertilizantes (Dialog)
- Elaboração e execução de projeto de prospecção e monitoramento arqueológico e educação patrimonial – Levantamentos Sísmicos 3D Lagoa Sabiá, Jacupemba e Saíra (Petrobras).
- Elaboração de Programa Integrado referente aos PBAs do meio sócio economico dos empreendimentos da LLX em fase de implantação (Prumo Logística Global).
- Elaboração de Parecer Técnico demandado nos processos de licenciamento do Complexo Parnaíba LI (003-12; 273/2011; 274/2011; 111/2012) e da LO (559-2012) (Eneva).
- Elaboração de Plano de Emergência Individual, Estudo de Análise de Risco – EAR, Memorial Descritivo – MD (FCC TARRIO).
- Elaboração do Plano Ambiental de Conservação e Uso do Entorno do Reservatório (PACUERA) da UHE Muniz Freire, conforme Termo de Referência IEMA e Resolução CONAMA N° 302/02 – Anchieta/ES (Samarco).
- Elaboração de Plano de Controle Ambiental para a atividade de manejo de Eucalipto nas áreas da Samarco – atividade de Silvicultura, Anchieta/ES (Samarco).
- Elaborar Relatório para Requerimento de Averbação da LO 336/13 – Parnaíba III (Eneva).
- Revisão dos programas socioambientais contemplados nos Planos Básicos Ambientais – PBAS elaborados para fim de licenciamento dos empreendimentos da ENEVA no Complexo Termoelétrico de Parnaíba/MA (Eneva).
- Monitoramento de Ruído na área de instalação do pátio logístico (LLX AÇU – Operações Portuárias S.A).
- Monitoramento de Fauna - Terminal Aquaviário de Barra do Riacho – TABR (Transpetro).
- Avaliação de Ruído Ambiental nas Áreas Circunvizinhas às Instalações da Malha de Gasodutos do ES (Transpetro).
- Campanhas de Esclarecimento sobre Atividades Sísmicas Terrestres - COSIS 2013 (Petrobras).

- Serviço de Diagnóstico Ambiental da Qualidade das Águas Subterrâneas na Estação de Barra do Furado - Município de Quissamã/RJ (Transpetro).
- Prestação de serviço de levantamento e modelagem de ruído ambiental para ampliação das Unidades no Terminal de Cabiúnas – Macaé/RJ (Petrobras).
- Execução de Sensibilização Ambiental dos Trabalhadores da Petrobras Através de Exposição Fotográfica Interativa (Petrobras).
- Elaboração de RCA - Sismica 3D São Mateus (Petrobras).
- Elaboração de RCA - Sismica 3D Rio Preto (Petrobras).
- Elaboração de RCA - Sismica 3D Saíra (Petrobras).
- Elaboração de RCA - Sismica 3D Jacupemba (Petrobras).
- Plano de Controle Ambiental (PCA) Aerogerador (Samarco)
- Elaboração de RCA - Sismica 3D Lagoa Sabiá (Petrobras).
- Avaliação de Sistema de Tratamento de Efluente do alojamento da MPX - UTE Parnaíba.

ANO: 2012

- Blitz educativa (LLX AÇU – Operações Portuárias S.A).
- Elaboração de Projeto Conceitual de Galpão de Armazenamento de Residuos Perigosos - UFNV – Petrobras (Technip do Brasil).
- Monitoramento Ambiental Marinho do entorno das Unidades Marítimas na área de atuação da UO-ES (Petrobras).
- Integração dos programas de monitoramento de água, biota e sedimentos marinhos; previstos para os empreendimentos em fase de Instalação no Complexo do Açu (LLX AÇU – Operações Portuárias S.A).
- Resgate de Fauna e Flora do depósito 3 (LLX AÇU – Operações Portuárias S.A).
- Identificação de Especies Vegetais (Transpetro).
- Execução do Programa de Gerenciamento da Dragagem - Obras Canal de Acesso da UCN-OSX (LLX AÇU – Operações Portuárias S.A).
- Integração do Programa de Monitoramento da Dinâmica Sedimentologia Marinha e Erosões Costeiras (LLX AÇU – Operações Portuárias S.A).
- Serviços de Organização de Diretório Meio Ambiente (LLX AÇU – Operações Portuárias S.A).
- Programa de Monitoramento de Perfil de Praia (Estaleiro Jurong).
- Elaboração do Projeto e Construção de poço tubular profundo (poço artesiano), para o Projeto Nova Fábrica, Porto de Açú/RJ. (Technip do Brasil).
- Construção de Poço Pizometros, UTGSUL (Petrobras).
- Estudo Hidrológico – Outorga Fazenda Palacete ((LLX AÇU – Operações Portuárias S.A).
- Estudo de Conformidade Ambiental – Pedreira Sapucaia (LLX AÇU – Operações Portuárias S.A).
- Programa de Avistagem de Cetáceos e Quelônios (LLX AÇU – Operações Portuárias S.A).
- Licenciamento e Elaboração do Programa de Resgate/Manejo de Fauna Linha de Transmissão (LLX AÇU – Operações Portuárias S.A).
- Resgate de Flora da Linha de Transmissão (LLX AÇU – Operações Portuárias S.A).
- Plano de Emergência para Operações de Abastecimento e Transferência de Resíduo Oleoso durante a Dragagem Onshore (LLX AÇU – Operações Portuárias S.A).
- Medição de Ruído Ambiental na área do Entreposto de Pesca – São João da Barra/RJ (LLX AÇU – Operações Portuárias S.A).
- Execução e Assessoramento à Gestão Minerária e Ambiental nas Atividades de Extração Mineral para o Complexo Gás-Químico - UFN-IV (Petrobras).

- Integração dos programas de monitoramento de áreas alagáveis previstos para os empreendimentos em fase de Instalação no Complexo do Açu (LLX AÇU – Operações Portuárias S.A).
- Execução do Resgate de Fauna e Flora do Depósitos 02 e 07 – OSX (LLX AÇU – Operações Portuárias S.A).
- Monitoramento Marinho do Emissário de Jaguaribe (Odebrecht Ambiental).
- Cadastro da Zenith no CRCC da Petrobras (Zenith Marítima Ltda)
- Gerenciamento Ambiental e Implantação de PBAs - Fábrica de Tubos Flexiveis – Açu (Technip do Brasil).
- Programa de Educação Ambiental para Trabalhadores do Terminal Norte Capixaba - Condicionante 30 da LO 439/10 (Transpetro).
- Executar o Programa de Resgate e Manejo de Fauna na Área da Linha de Transmissão da UTE Porto do Açu Energia S.A. - MPX (LLX AÇU – Operações Portuárias S.A).
- Monitoramento de Recursos Hídricos Superficiais e Subterrâneos nas Áreas de Influência da Fibria Celulose S.A.
- Execução dos Programas Básicos Ambientais – PBA´s - Monitoramento da Qualidade dos Sedimentos e das Águas Superficiais Continentais, Monitoramento da Qualidade das Águas e dos Sedimentos Marinhos, Monitoramento da Qualidade das Águas Subterrâneas, Monitoramento do Complexo Lagunar e das Áreas Alagáveis, e Monitoramento Limnológico (MPX – UTE Porto Uçu I).
- Elaboração de RCA - Sismica 3D Fazenda Santa Luzia (Petrobras).
- Execução do Programa para Acompanhamento Assoreamento no Reservatório Artificial da PCH Calheiros. (Brasil PCH)
- Programa de Monitoramento de Fauna (MPX – UTE Porto de Uçu I).
- Elaboração de RCA - Sismica 3D Barra do Ipiranga (Petrobras).
- Análises Laboratoriais das amostras da Campanha de Caracterização Pós-Perfuração dos Poços 8JUB32H-GLR/PROD14 (Bioensaios).
- Elaboração de Relatório de supressão de vegetação referente a UTE Porto do Açu Energia (Marpem).
- Elaboração de Relatório de supressão de vegetação referente ao depósito 2 e 7 (Marpem).
- Monitoramento de ruídos na Linha de Transmissão da UTE Porto do Açu Energia (LLX AÇU – Operações Portuárias S.A).
- Estudo de Análise de Risco (EAR) e Plano de Gestão de Risco (PGR) Demandados para as Obras de Implantação do Complexo Portuário do Açu (LLX AÇU – Operações Portuárias S.A).
- Laudo de auditoria ambiental para devolução total de bloco exploratório à ANP (Petrobras).
- Revisão do Programa de Gerenciamento de Resíduos Sólidos da fase de operação e Elaboração dos Procedimentos Operacionais (MPX - UTE Parnaíba)
- Elaboração de Estudo Hidrogeológico e Execução de Teste de Vazão 24 horas/escalonamento para poço instalado no Canteirópolis (LLX AÇU – Operações Portuárias S.A).
- Executar o Programa de Resgate e Manejo de Fauna e Flora em área de 14,28 hectares – implantanção da Fábrica da SUBSEA7 (LLX AÇU – Operações Portuárias S.A).
- Gestão Ambiental e Mineral de Processos MBS (órgãos ambientais e DNPM) (MBS Tecnologia Marinha).
- Monitoramento Ambiental de Água Potável, Água e Sedimento Continental, Água e Sedimento Marinho e Água Subterrânea na Área de Influência (LLX AÇU – Operações Portuárias S.A).
- ETAPA 01 – Implantação do Sistema de Gestão Ambiental conforme diretrizes estabelecidas pela ISO 14001 (LLX AÇU – Operações Portuárias S.A).

ANO: 2011

- Pesquisa Sísmica Marítima 4D nas Áreas dos Campos de Golfinho (Petrobras).
- Monitoramento Dragagem - Bota Fora (Prysmian).
- Licenciamento Ambiental Jazidas Rio Santa Maria (Control Ambiental).
- Monitoramento Poço Rubular Profundo – TNC (Transpetro).
- Gerenciamento Ambiental Projetos - Jazidas Minerais Norte Capixaba (Petrobras).
- Levantamento de Passivos Ambientais - Estudo de Impacto Ambiental Porto de Águas profundas, Petrobrás Ubu (DTA – Engenharia).
- Elaboração de Programas de Levantamento, Caracterização e Monitoramento Ambiental (Transpetro).
- Elaboração dos Programas de Monitoramento da Atividade Pesqueira e Sócioeconômica (Transpetro).
- Campanha de Monitoramento de Recursos Hidricos TNC (Transpetro).
- Revisão do PCA da Ampliação da Fábrica de Linhares/ES (Brametal).
- Elaboração do Plano de Gerenciamento dos Resíduos Sólidos gerados nas atividades do terminal portuário de Angra dos Reis, em atendimento a resolução RDC 56 da Agência Nacional de Vigilância Sanitária – ANVISA (Technip do Brasil).
- Implantação do Projeto de Revegetação de 2,5 hectares de restinga na Praia de Guriri/ES (Transpetro).
- Monitoramento e Manutenção da Cortina Vegetal e Recomposição da Faixa de Restinga e Manguezal existente ao longo do TNC (Transpetro).
- Monitoramento dos Recifes Artificiais Marinhos, Rios das Ostras/RJ (Petrobras).
- Elaboração de Análise de Risco do Sistema de Tancagem de HCl (Brametal).
- Campanha Preliminar para Caracterização Faciológica da área de empréstimo de recursos minerais (areia) previsto no projeto de aterro hidráulico do Porto de Angra/RJ (Technip do Brasil).
- Assessoria Técnica Administrativa demandada no processo de requerimento de pesquisa mineral para uma área de interesse da Technip, Angra dos Reis/RJ.
- Diagnóstico Ambiental da área de bota – fora, unidade de construção naval do Açu (OSX – Unidade de Construção Naval).
- Caracterização de Sedimentos (CONAMA 344/04) - Estudo Complementar do canal de acesso (OSX – Unidade de Construção Naval).
- Diagnóstico Complementar da Biota Marinha do canal de acesso (OSX – Unidade de Construção Naval).
- Campanha de Monitoramento de Recursos Hídricos TNC (Transpetro).
- Elaboração de Programa de Monitoramento de Recursos Hídricos Área de Influência – CSU (Auditech Ambiental)
- Elaboração do Plano de Controle Ambiental e Plano de Proteção Individual (Marina Canal).
- Levantamento de Passivos Ambientais – TPAR (Technip do Brasil).
- Campanha Preliminar para Caracterização Faciológica da área de empréstimo de recursos minerais (areia) previstos para Fase I do Projeto de Expansão do TPAR (Technip do Brasil).
- Diagnóstico Ambiental Preliminar – proposta de área de bota-fora para descarte de sedimentos da Nova Holanda Terminais Portuários.
- Programa de Resgate e Manejo de Fauna Terrestre na Infraestrutura da Zipa, incluindo sistema viário, canais de drenagem e unidades de apoio em áreas onde ocorrerá a supressão de vegetação (LLX UÇU – Operações Portuárias S.A).
- Monitoramento Ambiental da unidade FPSO Rio de Janeiro/RJ, Campo de Espadarte, Bacia de Campos (Petrobras).
- Supervisão e Execução dos Programas Ambientais e atendimento às condicionantes (LLX UÇU – Operações Portuárias S.A).

- Serviços de Monitoramento da Morfodinâmica Praial da Região da Praia de Cacimbas (Petrobras).
- Levantamento Batimétrico - Berço 103 - Canal da Baída de Vitória/ES (Technip do Brasil).
- Resgate de Fauna Biguá x SM-08 (Petrobras).
- Monitoramento e Manutenção do PRAD da Restinga da Praia de Guriri/ES (Traspetro).
- Monitoramento e Manutenção da cortina vegetal e recomposição da faixa de restinga e manguezal existente ao longo do TNC (Transpetro).
- Programa de Educação Ambiental – TNC (Transpetro).
- Medição de ruído ambiental na área da Fazenda Palacete, São João da Barra/ RJ (LLX UÇU – Operações Portuárias S.A).
- Elaboração de Plano de Recuperação de Áreas Degradadas – PRAD, Fazenda Palacete, São João da Barra/RJ (LLX UÇU – Operações Portuárias S.A).
- Avaliação Integração dos PBAs - Empreendimentos em Fase de Instalção Complexo do Açu (LLX UÇU – Operações Portuárias S.A).
- Monitoramento de Quelônios - Obras de Dragagem Canal de Acesso UCN-OSX
- Monitoramento de Fauna - Pátio Logistico do Açu (LLX UÇU – Operações Portuárias S.A).
- Levantamento Fisiográfico da Lagoa do Veiga (LLX UÇU – Operações Portuárias S.A).
- Monitoramento ambiental e estrutural do Sistema de Recifes Artificiais de Rio das Ostras (RARO) e elaboração de relatório com a interpretação e discussão dos resultados (Petrobras).
- Elaboração de relatório consolidado dos resultados das campanhas de monitoramento ambiental do Sistema de Recifes Artificiais de Rio das Ostras (RARO) (Petrobras).
- Estudo Complementar referente ao diagnóstico ambiental previsto no processo de licenciamento da área de empréstimo de recursos minerais (jazida sul), Projeto de Aterro Hidráulico – Fase I Expansão Porto de Angra e Diagnósticos Ambientais da Ictiofauna em área marinha adjacente a Baía de Ilha Grande (área de bota fora, docas) (Technip do Brasil).
- Campanha de Monitoramento de Recursos Hídricos e Monitoramento de Efluente Sanitário da ETE do terminal norte capixaba TNC (Transpetro).
- Relatório de Controle Ambiental – RCA, Estudo Ambiental previsto no processo de licenciamento junto ao Instituto de Meio Ambiente e Recursos Hídricos (IEMA), para execução das obras de aterro demandadas no projeto de expansão da BAVIT (Technip do Brasil).
- Estudo Hidrológico da Bacia do Rio Benevente (Anchieta/ES) (Petrobras).
- Integração dos Programas de Monitoramento de Fauna, Complexo de Uçu (LLX UÇU – Operações Portuárias S.A).
- Elaboração dos relatórios de Controle Ambinetal - RCA, previsto no processo de licenciamento de sísmica terrestre 3D (lagoa Bonita e Fazenda Queimadas) (Petrobras).
- Estudo de Impacto Ambiental (EIA) para licenciamento da atividade de Extração Mineral de Areia em Leito Marinho - Expansão do Porto de Angra – TPAR (Technip do Brasil).
- Caracterização de Sedimentos (CONAMA 344/04) e Estudo Complementar do canal de acesso (OSX – Unidade de Construção Naval).
- Caracterização Faciológica das jazidas identificada como área de empréstimo de recurso mineral (areia), implantação da Base Portuária E&P de Ubú/ES (Petrobras).
- Caracterização da Salinidade das áreas internas e externas dos diques norte e sul implantados na Lagoa Veiga no periodo de dragagem da linha de costa (Break-in)

prevista para implantação do canal de acesso da Unidade de Construção Naval do Açu – UCN (OSX – Unidade de Construção Naval).
- Parecer Técnico da obra do emissário do emissário submarino de Jaguaribe (Odebrecht Ambiental).
- Gerenciamento Ambiental Obra - Fabricação de Módulos, Porto do Forno (Acciona) (LLX UÇU – Operações Portuárias S.A).
- Levantamento Fitofisionômico da Fazenda Caroara (LLX UÇU – Operações Portuárias S.A).
- Blitz educativa nos sites de implantação dos empreendimentos da LLX Operações Portuárias, LLX Minas-Rio e OSX Construção Naval.
- Monitoramento de Qualidade de Água na Lagoa Mundaú, Maceió/AL (ANA – Agência Nacional das Águas).
- Assessoria Técnica e Administrativa para Licenciamento Mineral - Pesquisa de Areia UFN-IV (Complexo Gasquímico) (Petrobras).
- Assessoria Técnica e Administrativa para Licenciamento Mineral - Pesquisa de Rocha UBU (Porto) (Petrobras).
- Execução do Programa de Tráfego Viário (OSX - Unidade de Construção Naval do Açu).
- Diagnóstico Ambiental Marinho na região do bota fora demandado no Projeto de Implantação da base de apoio a atividade de Exploração e Produção de Petróleo Offshore (Nova Holanda Terminais Portuários)
- Realização de Passivos Ambientais Referente a Desmobilização da Área da Desparafinação – BAVIT (Technip do Brasil).

ANO: 2010

- Programa de Educação Ambiental - Florestal para resíduos (Fíbria Papel e Celulose).
- Coordenação do EIA/RIMA UTE Escolha e Cacimbaes (Grupo Spectrum Energy).
- Relatório Controle Ambiental - RCA UTE Escolha 02 e Cacimbaes 02 (Grupo Spectrum Energy).
- Plano de Controle Ambiental (Arruela Nacional).
- Consolidação do EIA/RIMA (Nova Holanda Terminais Portuários).
- Licenciamento Fábrica Refrigerantes Campos Goytacazes (Refrigerantes Coroas).
- Relatórios IBAMA (Husqvarna Brasil).
- Assessoria Técnica Demandada no Processo de Licenciamento Ambiental, Unidade Campos/RJ (Refrigerantes Coroa).
- Monitoramento Ambiental TNC Rio Barra Nova/ES Campanha 1 (Transpetro).
- Caracterização, Estudo de Tratabilidade, Projeto de Implantação, Operação e Monitoramento de um Sistema Modular de Tratamento para o Efluente Pluvial do Pier IV do Terminal de Produtos Diversos – TPD (Vale).
- ETEI SCIENTECH GCOMEX (Control Ambiental).
- Elaboração do PGRS, conforme diretrizes estabelecidas pela RDC 56 - Anvisa - Terminais de Vitória, Regência e TNC (Transpetro).
- Gerenciamento Ambiental (Empreendimentos - Refrigerantes Coroa, KBF Refrigerantes, Renascer Industria de Bebidas, Cerverjaria Coroa)
- Elaboração Plano de Controle Ambiental - PCA Obras de Aterramento Lagoa 20 – TPM (Vale).
- Elaboração Plano de Controle Ambiental - PCA Posto de Gasolina - Jerônimo Monterio/ES (Arara Azul Rede de Postos).
- Elaboração Plano de Controle Ambiental - PCA - Premoldados (Site HKM).
- Monitoramento Ambiental TNC Rio Barra Nova/ES Campanha 2 (Transpetro).
- Campanhas Oceanograficas (Oceanog. Química e Biologica) - Diagnóstico Ambiental do EIA-RIMA - Unidade de Construção Naval do Açu – OSX.
- Revisão Plano de Controle Ambiental (Brametal).

- Execução dos previstos para Coleta de Amostras de Sedimentos e Elaboração de Relatório Técnico previsto para Caracterização dos Sedimentos conforme diretrizes estabelecidas pela resolução CONAMA 344/04 - Elaboração de Relatório Técnico – Avaliação de Metais Pesados, Ictiofauna Marinha e Lagoas Costeiras - Diagnóstico Ambiental do EIA/RIMA - Unidade de Construção Naval do Açu – OSX.
- Elaboração de Estudo para Licença de Instalação e Licença de Operação complementar ao EIA/RIMA do Parque das Baleais e Campo de Catuá e outras condições (Petrobras).
- Gerenciamento Obras de Implantação - Base de Apoio a Atividade de Exploração & Produção de Petróleo Offshore - G-COMEX.
- Limpeza do Terreno da Base de Apoio/ES G-Comex.
- Programas de Acompanhamento das Obras, Orientação dos Trabalhadores e Resgate de Fauna para a implantação dos oleodutos BIGUÁ x SM-08 e RPO-01 x RP-02, São Mateus/ES (Petrobras).
- ETE Scientech HKM – Darly Santos (Control Ambiental)
- Programa de Monitoramento da Qualidade de Água do Córrego do Gordo (Grupo Refrigerantes Coroa).
- Monitoramento Ambiental da área atingida pelo descontrole do poço 7-CNC-3-ES, Campo de Cancã (Petrobras).
- Gerenciamento Ambiental (Husqvarna do Brasil).
- Assessoria Técnica Ambiental - Obra Terminal Barra do Riacho (Mendes Junior).
- Serviços especializados de Monitoramento e Proteção Ambiental na Reserva Biológica de Sooretama/ES (Petrobras).
- Elaboração e Monitoramento de Projeto de Pesquisa (projeto Piloto) de Derrocagem (Technip do Brasil).
- Caracterização do Sedimento CONAMA 344/04 Novo Projeto Canal de Acesso – OSX.
- Elaboração de Plano de Contingência e Emergência (PCE) para transporte de Produtos Químicos Perigosos (Schlumberger).
- Execução de mudança de Regime de Autorização de Pesquisa para Regime de Licenciamento de jazidas (Petrobras).
- Análise dos Efluentes da Unidade de Tratamento de Gás Sul Capixaba (UTG SUL - Petrobras).
- Analise de Passivo Ambiental, Área Nova (Vale).
- Coordenação do EIA/RIMA UTE CLUSTER (Grupo Spectrum Energy).
- Analise de Ruído e Vibração atividades de derrocagem (Technip).
- Diagnóstico da Biota Aquática EIA/RIMA, Porto Baia Sepetiba (DTA Engenharia).
- Monitoramento Ambiental Projeto Dragagem Baia de Vitória (CODESA)
- 4ª Campanha de Monitoramento Recursos Hídricos Área de Influência TNC (Transpetro).
- Serviços de caracterização acústica de disparos sísmicos e de ruído ambiente e irradiado (Petrobras).
- Auditoria de Devolução de Poço Maritimo - Bloco BM-ES-26 (Petrobras).

ANO: 2010

- EIA/RIMA (Algadermis Indústria e Comércio).
- Elaboração do Plano de Controle Ambiental PCA-Fabrica (Algadermis Indústria e Comércio).
- Elaboração de Estudos e Programas Ambientais - ETE (Refrigerantes Coroa).
- Gerenciamento Ambiental - Grupo HKM Indústria e Comércio.
- Licenciamento de Transporte Control.
- Licenciamento Ambiental da Fábrica Husqvarna.
- Programa de Monitoramento Marinho - Investigação de Hidrocarbonetos e Analise Crítica (Transpetro).

- Licenciamento da Base de Apoio G-COMEX/ES.
- EIV para a Base de Apoio G-COMEX/ES.
- Limpeza do Terreno da Base de Apoio G-COMEX/ES.
- Levantamento Topográfico da Base de Apoio G-COMEX/ES.
- Estudo Geotécnico do Terreno Base de Apoio G-COMEX/ES.
- Programa de Terraplanagem no Terreno da Base de Apoio G-COMEX/ES.
- Levantamento de Passivo Ambiental na Base de Apoio G-COMEX/ES.
- Projeto de Engenharia da Base de Apoio G-COMEX/ES.
- Projeto de Drenagem do Terreno da Base de Apoio G-COMEX/ES.
- Elaboração do Projeto do galpão de armazenamento de móveis (Moveis RIMO).
- Plano de Controle Ambiental – Estaleiro (Zenith Marítimo Ltda).
- Plano de Controle Ambiental – Flutuante (Zenith Marítimo Ltda).

CURSOS E EVENTOS RECENTES

Gestão Ambiental em Empresas de Médio e Pequeno Porte	Descrição: A importância da Gestão Ambiental; Introdução à Ecologia; Introdução à Legislação Ambiental; Meio Ambiente e Segurança do Trabalho/Gestão Integrada; Gestão de Águas, Ar e Solos; Avaliação de Impacto Ambiental (AIA); Licenciamento Ambiental; Auditoria Ambiental; Certificação Ambiental; Relações com Partes Interessadas; Responsabilidade Ambiental e Social das Empresas. Local: Instituto Elvaldo Lodi - IEL , Espírito Santo. Data: Início em 2004 (81 horas)
Classificação de Resíduos – NBR 1004/2004	Descrição: Revisão da Norma; Classificação de Resíduos; Métodos de Classificação; Novos Métodos de Lixiviação; Aulas Práticas. Local: CETREL – Arcelor Mital, Unidade Tubarão, Vitória, Espírito Santo. Data: Início em 2004 (40 horas).
Auditor Lider Ambiental Sistema de Gestão Ambiental	Descrição: Critérios de Acreditação – SGA; Introdução ao EMAS; Negócios e Meio Ambiente; Legislação Internacional; Legislação Nacional; Técnicas de Auditoria; Avaliação Ambiental Inicial; Aspectos e Impactos Ambientais; Estabelecendo Objetivos e Metas; Auditoria Ambiental. Local: BVQI – Hotel Ilha do Boi, Vitória, Espírito Santo. Data: Início em 2007 (42 horas)
Mecanismos de Desenvolvimento Limpo – MDL	Descrição: Cenário MDL no Brasil; Elaboração de Projetos MDL; Aprovação de Projetos de MDL (MCT e ONU); Comercialização do Créditos de Carbono. Local: Canal Executivo, Ministério da Ciência e Tecnologia – São Paulo. Data: Início 2007 (20 horas)

Formação acadêmica/titulação

1996 - 1998 Mestrado em Botânica.
Universidade Federal de Viçosa, UFV, Vicosa, Brasil
Título: Composição florística e estrutura do estrato arbóreo de uma muçununga na Reserva Florestal de Linhares, Espírito Santo, Ano de obtenção: 1998
Orientador: Agostinho Lopes de Souza
Bolsista do(a): Conselho Nacional de Desenvolvimento Científico e Tecnológico
Palavras-chave: FLORÍSTICA, FITOSSOCIOLOGIA, mata atlântica, MUÇUNUNGA, reserva florestal de Linhares, Espírito Santo
Áreas do conhecimento : Florística e Fitossociologia,Fitossociologia,Taxonomia de Fanerógamos
Setores de atividade : Produtos e Serviços Voltados Para A Defesa e Proteção do Meio Ambiente, Incluindo O Desenvolvimento Sustentado, Outro, Educação Superior

1991 - 1995 Graduação em Ciências Biológicas.
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

Formação complementar

2009 - 2009 Curso de curta duração em Recuperação de Bacias Hidrográficas Urbanas. (Carga

horária: 6h).
Faculdades Integradas São Pedro, FAESA, Brasil
Palavras-chave: conservação, ecologia da paisagem, Recuperação de áreas degradadas

2007 - 2007 Curso de curta duração em Formação pedagógica. (Carga horária: 8h).
Faculdade Católica Salesiana do Espírito Santo - Vitória, UNISALES, Vitoria, Brasil

2007 - 2007 Curso de curta duração em formação permanente. (Carga horária: 12h).
Faculdade Católica Salesiana do Espírito Santo - Vitória, UNISALES, Vitoria, Brasil

2006 - 2006 Curso de curta duração em Avaliação da Aprendizagem. (Carga horária: 4h).
Faculdade de Saúde e Meio Ambiente, FAESA, Brasil

2006 - 2006 Curso de curta duração em Morfometria. (Carga horária: 15h).
Sociedade Botânica do Brasil, SBB, Brasil

2004 - 2004 Curso de curta duração em Metodologias de pesquisa em ecologia de populações. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

2003 - 2003 Curso de curta duração em Vegetação nos estudos de impacto ambiental. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

2002 - 2002 Curso de curta duração em O uso do GPS na coleta e organização de informaçõe. (Carga horária: 6h).
Sociedade Botânica do Brasil, SBB, Brasil

2002 - 2002 Curso de curta duração em Diversidade Morfológica de Macroalgas Marinhas. (Carga horária: 12h).
Sociedade Brasileira de Ficologia, SBF, Brasil

2002 - 2002 Curso de curta duração em Agenda 21 Local. (Carga horária: 8h).
Companhia Siderúrgica de Tubarão, CST*, Serra, Brasil

2001 - 2001 Curso de curta duração em Capacitação para a experimentoteca. (Carga horária: 8h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1996 - 1996 Curso de curta duração em Ecologia e Taxonomia de Leguminosas da Mata. (Carga horária: 8h).
Pontifícia Universidade Católica de Minas Gerais, PUC Minas, Belo Horizonte, Brasil

1996 - 1996 Curso de curta duração em Inflorescência. (Carga horária: 90h).
Universidade Federal do Rio de Janeiro, UFRJ, Rio De Janeiro, Brasil

1995 - 1995 Curso de curta duração em Classificação, Distribuição e Ecologia das Palmeir. (Carga horária: 40h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1995 - 1995 Curso de curta duração em Fungos Liquenizados. (Carga horária: 30h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1995 - 1995 Curso de curta duração em Biomas do Brasil. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1994 - 1994 Curso de curta duração em Reprodução de Plantas da Região dos Cerrados. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1994 - 1994 Curso de curta duração em Uso de Plantas Medicinais Em Saúde Pública. (Carga horária: 3h).

Universidade Federal do Ceará, UFC, Fortaleza, Brasil

1993 - 1993 Curso de curta duração em Educação Ambiental. (Carga horária: 8h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1993 - 1993 Curso de curta duração em Plantas Medicinais. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1993 - 1993 Extensão universitária em Ecologia Humana: Uma Visão Etnobiológica. (Carga horária: 30h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1993 - 1993 Curso de curta duração em Bioindicadores de Poluição. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1993 - 1993 Curso de curta duração em Evolução dos Vertebrados. (Carga horária: 20h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1992 - 1992 Curso de curta duração em Métodos Fitossociológicos Aplicados à Florestas Tr. (Carga horária: 6h).
Sociedade Botânica do Brasil, SBB, Brasil

1992 - 1992 Curso de curta duração em Introdução ao Uso do Geoprocessamento em Planejame. (Carga horária: 20h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1992 - 1992 Curso de curta duração em Morfologia de Frutos e Sementes. (Carga horária: 6h).
Sociedade Botânica do Brasil, SBB, Brasil

1991 - 1991 Curso de curta duração em Biologia Floral das Plantas de Restinga. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1991 - 1991 Curso de curta duração em A Polinização das Flores. (Carga horária: 8h).
Sociedade Botânica do Brasil, SBB, Brasil

1991 - 1991 Curso de curta duração em Fotografia de Ecossistemas e Plantas. (Carga horária: 10h).
Sociedade Botânica do Brasil, SBB, Brasil

1991 - 1991 Extensão universitária em Manguezal: Caracterização e Metodologia de Estudo. (Carga horária: 10h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

1991 - 1991 Curso de curta duração em Educação Ambiental. (Carga horária: 10h).
Universidade Federal do Espírito Santo, UFES, Vitoria, Brasil

Atuação profissional

1. Instituto Federal de Educação, Ciência e Tecnologia do Espírito Santo - IFES

Vínculo institucional

2010 - Atual Vínculo: Servidor público , Enquadramento funcional: Professor , Carga horária: 40, Regime: Integral

Atividades

07/2013 - Atual Graduação, Engenharia Sanitaria e Ambiental
Disciplinas ministradas:
Ecossistemas do Espírito Santo

2. Faculdades Integradas São Pedro - FAESA

Vínculo institucional

2001 - 2015 Vínculo: Celetista formal , Enquadramento funcional: Professor de Graduação e Pós-graduação , Carga horária: 16, Regime: Parcial

Atividades

02/2005 - 07/2015 Graduação, Engenharia Ambiental
Disciplinas ministradas:
Biologia Vegetal

02/2005 - 07/2015 Pós-graduação, Gestão Ambiental
Disciplinas ministradas:
Recuperação de áreas degradadas

11/2004 - 11/2004 Especialização
Especificação:
Desenvolvimento sustentável

02/2002 - 02/2003 Graduação, Agronomia
Disciplinas ministradas:
Botânica

02/2002 - 07/2015 Graduação, Ciências Biológicas
Disciplinas ministradas:
Ecossistemas do Espírito Santo , Estágio supervisionado , Anatomia de plantas Vasculares , Biologia de plantas Avasculares , Biologia de plantas Vasculares , Biologia Social

08/2001 - 08/2006 Graduação, Enfermagem
Disciplinas ministradas:
Saúde Ambiental

3. Instituto de Pesquisa Jardim Botânico do Rio de Janeiro - IP/JBRJ

Vínculo institucional

2006 - 2009 Vínculo: Pesquisador , Enquadramento funcional: Sub-Coordenador do Projeto CORES, Regime: Parcial

Atividades

01/2006 - 01/2008 Pesquisa e Desenvolvimento, Unidade de Botanica Sistematica
Linhas de pesquisa:
Projeto CORES (Conservação das Orquídeas em Riscos de Extinção)

4. Conservação Internacional - CI-BRASIL/MG

Vínculo institucional

2007 - 2008 Vínculo: Projeto de pesquisa , Enquadramento funcional: Pesquisador , Carga horária: 20, Regime: Parcial
Outras informações:
Desenvolvimento do projeto de pesquisa: CARACTERIZAÇÂO INICIAL DA DIVERSIDADE DA FLORA NOS CORREDORES ECOLÓGICOS BURARAMA-PACOTUBA-CAFUNDÓ E CÓRREGO DO VEADO NO ESTADO DO ESPÍRITO SANTO

5. Instituto de Pesquisas da Mata Atlântica - IPEMA

Vínculo institucional

2003 - 2003 Vínculo: Colaborador , Enquadramento funcional: Consultor, Regime: Parcial
Outras informações:
Elaboração da lista das espécies ameaçadas de extinção do Espírito Santo

6. Faculdades Integradas Cristo Rei - UNILINHARES

Vínculo institucional

2000 - 2005 Vínculo: Celetista , Enquadramento funcional: Professor titular , Carga horária: 5, Regime: Parcial

Atividades

06/2005 - 06/2005 Especialização
Especificação:
Ecossistemas do Espírito Santo

06/2002 - 06/2002 Especialização
Especificação:
Ecossistemas do Espírito Santo

09/2000 - 06/2005 Graduação, Ciências Biológicas
Disciplinas ministradas:
Taxonomia de plantas avasculares , Taxonomia de plantas vasculares

7. Universidade Federal do Espírito Santo - UFES

Vínculo institucional

2001 - 2001 Vínculo: Professor visitante , Enquadramento funcional: professor de pós-graduação , Carga horária: 0, Regime: Parcial

Atividades

02/2001 - 02/2001 Especialização
Especificação:
Ecologia terrestre

8. Faculdade Católica Salesiana do Espírito Santo - Vitória - UNISALES

Vínculo institucional

2006 - 2008 Vínculo: Professor , Enquadramento funcional: Professor de nível superior , Carga horária: 12, Regime: Parcial

Atividades

08/2006 - 12/2008 Graduação, Ciências Biológicas
Disciplinas ministradas:
Biogeografia , Biologia de plantas vasculares , Ecossistemas do Espírito Santo

9. Sociedade Educacional de Viana - FESAV

Vínculo institucional

2001 - 2003 Vínculo: Celetista , Enquadramento funcional: Professor titular , Carga horária: 4, Regime: Parcial

Atividades

02/2001 - 02/2006 Graduação, Pedagogia
Disciplinas ministradas:
Biologia educacional , Metodologia de ensino de ciências

10. Centro Federal de Educação Tecnológica do Espírito Santo - CEFET

Vínculo institucional

1998 - 1999 Vínculo: Outro , Enquadramento funcional: Professor substituto , Carga horária: 40, Regime: Integral

Atividades

05/1998 - 12/1999 Ensino médio
Especificação:
Biologia

11. Centro Universitário de Vila Velha - UVV

Vínculo institucional

2001 - 2001 Vínculo: Outro , Enquadramento funcional: Professor substituto , Carga horária: 6, Regime: Parcial

Atividades

09/2001 - 12/2001 Graduação, Zootecnia
Disciplinas ministradas:
Botânica e fisiologia vegetal

12. E P G Jardim Bela Vista - E.P.G.JARDIMBELA

Vínculo institucional

1994 - 1998 Vínculo: Outro , Enquadramento funcional: Professor substituto , Carga horária: 20, Regime: Parcial

Atividades

03/1994 - 12/1998 Ensino fundamental
Especificação:
Ciências

13. CTA - Serviços em Meio Ambiente - CTA

Vínculo institucional

2008 - 2014 Enquadramento funcional: Coordenador Técnico , Carga horária: 8, Regime: Parcial

14. Fundação Ceciliano Abel de Almeida - FCAA

Vínculo institucional

2010 - 2010 Vínculo: Celetista formal , Enquadramento funcional: Biólogo , Carga horária: 20, Regime: Parcial

15. O Instituto Ambiental - OIA

Vínculo institucional

2007 - 2010 Vínculo: Pesquisador , Enquadramento funcional: Pesquisador, Regime: Parcial

16. Centro de Desenvolvimento do Agronegócio - CEDAGRO

Vínculo institucional

2012 - 2014

Linhas de pesquisa

1. Projeto CORES (Conservação das Orquídeas em Riscos de Extinção)
Palavras-chave: conservação, ecologia, Orchidaceae

Projetos

Projetos de pesquisa

2017 - Atual "Laboratório Natural": Caracterização Fitossociológica da bacia do rio Reis Magos
Descrição: Realizar a caracterização fitossociológica na bacia do rio Reis Magos
Situação: Em andamento Natureza: Projetos de pesquisa
Integrantes: Marcelo Simonelli (Responsável); ;

Financiador(es): Instituto Federal de Educação, Ciência e Tecnologia do Espírito Santo-IFES
.
2016 - 2017 Avaliação do potencial de efeito tóxico existente na água e no sedimento da APA/RVS de Santa Cruz.
Descrição: Determinar o efeito tóxico existente na água e nosedimento da APA/RVS de Santa Cruz.
Situação: Concluído Natureza: Projetos de pesquisa
Integrantes: Marcelo Simonelli (Responsável); ; José Marcos Stelzer Entringer; tatiana Heid Furley
Financiador(es): RECEPAC-RECEPAC
.
2016 - Atual Laboratório Natural': Qualidade da água do rio Reis Magos
Descrição: O projeto visa analisar a qualidade da água do Rio Reis Magos sob os aspectos físico-químicos, microbiológicos e mutagênicos
Situação: Em andamento Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (2);
Integrantes: Marcelo Simonelli (Responsável); ; Adriana Marcia Nicolau korres; Alex dos Santos Borges; Aline Gonçalves Louzada; Breno Lima Rodriguez; Cristina Dornelas de Andrade Nogueira Massariol ; Fernanda Magri de Carvalho; Gilcemara Ferreira Malaquias Alves ; Jailson do Nascimento de Oliveira; João Gilberto Zanotelli Piccin; Jorge Eduardo Martins Cassani; José Marcos Stelzer Entringer; Michell Pedruzzi Mendes Araújo
Financiador(es): Fundo de Amparo a Pesquisa do Estado do Espírito Santo-FAPES
.
2016 - 2017 "Laboratório Natural": Caracterização botânica da bacia do rio Reis Magos
Descrição: Realizar a caracterização botânica da bacia do rio Reis Magos
Situação: Concluído Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (1);
Integrantes: Marcelo Simonelli (Responsável); ; Lucas Balbino Mazzini
Financiador(es): Instituto Federal de Educação, Ciência e Tecnologia do Espírito Santo-IFES
.
2012 - 2014 LEVANTAMENTO DO POTENCIAL DE REGENERAÇÃO NATURAL DE FLORESTAS NATIVAS NAS DIFERENTES REGIÕES DO ESTADO DO ESPÍRITO SANTO
Descrição: O projeto visou identificar a capacidade que as diferentes regiões do Espírito Santo têm de formarem uma cobertura florestal através dos processos de regeneração natural, bem como prover os técnicos de uma ferramenta para o diagnóstico local da viabilidade de uma determinada área se regenerar naturalmente.
Situação: Concluído Natureza: Projetos de pesquisa
Alunos envolvidos: Mestrado acadêmico (1);
Integrantes: Marcelo Simonelli (Responsável); ; Sebastião Venâncio Martins; frederico L. R. Filho; Mario Sartiri; Marcos Lima Pereira; Gilmar Gusmão Dadalto
.
2009 - 2010 LEVANTAMENTO FLORÍSTICO E FITOSSOCIOLÓGICO DE UMA ÁREA DE MATA ATLÂNTICA DO CENTRO DE DESENVOLVIMENTO SUSTENTÁVEL GUAÇÚ-VIRÁ (VENDA NOVA DO IMIGRANTE, ES)
Situação: Em andamento Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (1);
Integrantes: Marcelo Simonelli (Responsável); ; FLÁVIO FERNANDES DE DEUS
Financiador(es): Fundação de Amparo à Pesquisa do Espírito Santo-FAPES/ES
.
2009 - 2012 EFEITO DA FRAGMENTAÇÃO NA COMUNIDADE ARBÓREA DE MATA ATLÂNTICA DE TABULEIRO NO ESPÍRITO SANTO
Descrição: Projeto de pesquisa submetido ao “Edital MCT/CNPq N º 14/2009 – Universal” disponibilizado pelo Ministério da Ciência e Tecnologia – MCT e o Conselho Nacional de Desenvolvimento Científico e Tecnológico – CNPq.Aprovado em novembro de 2009 - Processo 477780/2009-1
Situação: Em andamento Natureza: Projetos de pesquisa

Alunos envolvidos: Doutorado (1);
Integrantes: Marcelo Simonelli; Luiz Fernando Silva Magnago; Sebastião Venâncio Martins (Responsável); José Marinaldo Gleriane
Financiador(es): Conselho Nacional de Desenvolvimento Científico e Tecnológico-CNPq
.

2009 - 2012 Caracterização e identificação de matérias-primas vegetais com potencial econômico para produção de óleo e produtos fitoterápicos
Descrição: Projeto de pesquisa submetido ao EDITAL FAPES Nº 008/2009 – INOVAÇÃO TECNOLÓGICA e aprovado em dezembro de 2009
Situação: Em andamento Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (4);
Integrantes: Marcelo Simonelli; José Ayres Ventura (Responsável); Fabiana Gomes Ruas; Ricardo Machado Kuster; Maria Rebeca Amaral Ganhoto; Maria Diana Cerqueira Sales; Hildegardo Seibert França; Sérgio Mendonça Lima; Afonso Carlos Valentim; Patrícia Machado Bueno Fernandes; Hélcio Costa
Financiador(es): Fundação de Amparo à Pesquisa do Espírito Santo-FAPES/ES
.

2007 - 2010 Projeto Caxixe: Resgate da qualidade de vida de uma comunidade rural:sub-bacia do córrego Caxixe, ES
Situação: Concluído Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (3);
Integrantes: Marcelo Simonelli (Responsável); ;
Financiador(es): Faculdade de Saúde e Meio Ambiente-FAESA, PROGRAMA PETROBRAS AMBIENTAL-PETROBRAS
.

2007 - Atual Criação de novas unidades de conservação no Espírito Santo: Um processo participativo integrando comunidades locais
Situação: Em andamento Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (2); Mestrado acadêmico (1);
Integrantes: Marcelo Simonelli (Responsável); ;
Financiador(es): Ministério do Meio Ambiente e da Amazonia Legal-MMA
.

2007 - 2008 Caracterização inicial da diversidade da flora nos corredores Burarama-Pacotuba-Cafundó e Córrego do Veado
Situação: Concluído Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (1); Mestrado acadêmico (1);
Integrantes: Marcelo Simonelli (Responsável); ; Luiz Fernando Silva Magnago; Ludô; Geanna G. S. Correia
Financiador(es): Instituto Estadual de Meio Ambiente e Recursos Hídricos-IEMA
Número de produções C,T & A: 9/ .

2007 - 2008 Composição florística e estrutura do estrato arbóreo em uma área restaurada no Morro do Cruzamento, município de Vitória, ES
Situação: Em andamento Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (1);
Integrantes: Marcelo Simonelli (Responsável); ;
Financiador(es): Fundo de apoio a ciência e tecnologia de Vitória-ES-FACITEC
.

2006 - 2006 Projeto Plantas do Futuro
Situação: Concluído Natureza: Projetos de pesquisa
Alunos envolvidos: Graduação (1);
Integrantes: Marcelo Simonelli (Responsável); ;
Financiador(es): Ministério do Meio Ambiente e da Amazonia Legal-MMA
.

2003 - 2005 Elaboração da lista das espécies ameaçadas de extinção do Espírito Santo
Situação: Concluído Natureza: Projetos de pesquisa
Integrantes: Marcelo Simonelli (Responsável); ;

Financiador(es): Critical Ecosystem Partnership Fund-CEPF
.

Projetos de desenvolvimento tecnológico

2010 - 2010 Plano de Desenvolvimento Local sustentável
Descrição: Elaboração do PDLS dos municípios de Águia Branca, Iconha, Governador Lindemberg, Jaguaré, Mantenópolis, Marilândia, Rio Bananal, Rio Bananal, Rio Novo do Sul, São Domingos do Norte
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Integrantes: Marcelo Simonelli (Responsável); ;
.
2010 - 2010 ESTUDO DAS ALTERNATIVAS DE REQUALIFICAÇÃO URBANA E RECUPERAÇÃO AMBIENTAL PARA O CÓRREGO LARIPE, SERRA, ES
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Integrantes: Marcelo Simonelli (Responsável); ; Geanna G. S. Correia
.
2010 - 2010 Programa de Recuperação Ambiental do Loteamento São Patricio, Serra, ES
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Integrantes: Marcelo Simonelli (Responsável); ; Geanna G. S. Correia
.
2010 - 2010 PLANO DE PROTEÇÃO DE RECURSOS NATURAIS DAS LAGOAS JUARA, JACUNÉM, CARAPEBUS E MARINGÁ E DAS ORLAS COSTEIRAS SOB SUAS INFLUÊNCIAS
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Integrantes: Marcelo Simonelli (Responsável); ;
.
2010 - 2010 Estudo das Alternativas de Requalificação Urbana e Recuperação Ambiental para o Bairro Cantinho do Céu, Serra, ES
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Integrantes: Marcelo Simonelli (Responsável); ; Geanna G. S. Correia
.
2009 - 2012 Caracterização e identificação de matérias-primas vegetais com potencial econômico para produção de óleo e produtos fitoterápicos
Situação: Concluído Natureza: Projetos de desenvolvimento tecnológico
Alunos envolvidos: Graduação (5);
Integrantes: Marcelo Simonelli; José Ayres Ventura (Responsável); Fabiana Gomes Ruas; Ricardo Machado Kuster; Maria Rebeca Amaral Ganhoto; Maria Diana Cerqueira Sales; Hildegardo Seibert França
Financiador(es): Fundação de Amparo à Pesquisa do Espírito Santo-FAPES/ES
.

Revisor de periódico

1. Agrotrópica (Itabuna)

Vínculo

2013 - Atual Regime: Parcial

2. Revista Científica FAESA

Vínculo

2009 - Atual Regime: Parcial

Membro de comitê de assessoramento

1. Conselho Estadual de Recursos Hídricos - CERH

Vínculo

2018 - Atual Regime: Parcial

Revisor de projeto de agência de fomento

1. Instituto Federal do Espírito Santo - IFES

Vínculo

2017 - 2017 Regime: Parcial

Áreas de atuação

1. Ecologia de Ecossistemas
2. Florística e Fitossociologia
3. Fitogeografia
4. Etnobotânica
5. Taxonomia Vegetal
6. Recuperação de Areas Degradadas

Idiomas

Inglês Compreende Pouco , Fala Pouco , Escreve Pouco , Lê Pouco

Espanhol Compreende Razoavelmente , Fala Pouco , Escreve Pouco , Lê Razoavelmente

Português Compreende Bem , Fala Bem , Escreve Bem , Lê Bem

Prêmios e títulos

2009 Honra ao Mérito pelos relevantes serviços prestados à Sociedade Serrana em defesa do meio ambiente, Câmara Municipal da Serra-ES

2007 Honra ao mérito, Conselho Regional de Biologia

1994 Concurso ARACRUZ/UFES para estudante Universitário, ARACRUS CELULOSE/UFES

Producão

Produção bibliográfica

Áreas do conhecimento : Ecologia,Botânica,Ecologia de Ecossistemas
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso
Participação na elaboração dos textos sobre a vegetação das áreas potenciais para criação de Unidades de Conservação no Espírito

Santo.

2. Merçon, Leonardo; **SIMONELLI, Marcelo**
Últimos Refúgios: Parque estadual Paulo César Vinha. Livro. Vitória:Leonardo Merçon, 2009. (Outra produção bibliográfica)
Palavras-chave: conservação
Áreas do conhecimento : Ecologia de Ecossistemas
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso
Elaboração de textos para o referido livro

Produção técnica
Assessoria e consultoria

1. **SIMONELLI, Marcelo**
Revisão do Plano Diretor Municipal Participativo do Município de São Mateus, 2012

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

2. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; PAGOTTO, R. V.
Execução do programa de monitoramento da vegetação dos ambientes naturais no entorno do estaleiro Jurong Aracruz, 2011

Palavras-chave: ecologia, FITOSSOCIOLOGIA, FLORÍSTICA, monitoramento ambiental
Áreas do conhecimento : Florística e Fitossociologia,Ecologia
Referências adicionais : Brasil/Português.

3. SIMONELLI, Marcelo; Correia, G. G. S.; Borges, R.; SARTORI, M.
Responsável técnico pela execução de Recuperação Ambiental (65 ha) e Marcação de matrizes na FLONA Goytacazes, localizada no Município de Linhares, Espírito Santo, 2011

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

4. SIMONELLI, Marcelo; Correia, G. G. S.; DAMBROZ, Giovani; ALTOE, R. E.
Responsável técnico pela execução do plano de reabilitação de área degradadas no bairro valão, Cachoeiro de Itapemirim, ES, 2011

Palavras-chave: Recuperação de áreas degradadas, ecologia
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

5. SIMONELLI, Marcelo; Correia, G. G. S.; DAMBROZ, Giovani; ALVES, A. S. A.
Responsável técnico pela execução do Plano de Recuperação de Áreas Degradadas (57 ha) do Estaleiro Jurong Aracruz, 2011

Palavras-chave: Recuperação de áreas degradadas, ecologia
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

6. SIMONELLI, Marcelo; PAGOTTO, R. V.
Responsável técnico pelos estudos de meio biótico/Flora do estudo de impacto ambiental (EIA) e relatório de impacto ambiental (RIMA) da usina termelétrica Sudeste I, 2011

Palavras-chave: FITOSSOCIOLOGIA, FLORÍSTICA, fitogeografia, Fitofisionomia
Áreas do conhecimento : Botânica,Florística e Fitossociologia,Ecologia de Ecossistemas
Referências adicionais : Brasil/Português.

7. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Caracterização botânica na área das locações Jabuticabeira e Bananeira, São Mateus, ES, 2010

Palavras-chave: Fitofisionomia, FLORÍSTICA
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

8. SIMONELLI, Marcelo; Moreira, A. C. P.

Coordenação e Responsabilidade Técnica pela execução do projeto de recuperação de áreas degradadas do gasoduto terrestre sul capixaba DN 12", 2010

Palavras-chave: Recuperação de áreas degradadas, ecologia
Áreas do conhecimento : Ecologia de Ecossistemas,Ecologia Aplicada,Botânica
Referências adicionais : Brasil/Português.

9. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
EIA do Cluster Termelétrico de Linhares, 2010

Palavras-chave: FITOSSOCIOLOGIA, FLORÍSTICA, Fitofisionomia
Áreas do conhecimento : Botânica,Florística e Fitossociologia,Ecologia
Referências adicionais : Brasil/Português.

10. **SIMONELLI, Marcelo**
Execução do PRAD da PCH Rio Bonito, 2010

Palavras-chave: Recuperação de áreas degradadas, mata atlântica
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

11. **SIMONELLI, Marcelo**
Execução do projeto de implantação do cinturão verde da UTG Sul Capixaba, Anchieta, ES., 2010

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

12. **SIMONELLI, Marcelo**
Execução do projeto de recuperação de áreas degradadas do gasoduto terrestre sul Capixaba DN 12", 2010

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

13. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Responsável técnico pelos estudos do meio biótico/flora do estudo de impacto ambiental (EIA) e relatório de Impacto ambiental (RIMA) das Usinas Termelétricas (UTE) Escolha e Cacimbaes, 2010

Palavras-chave: RESTINGA, FLORÍSTICA, FITOSSOCIOLOGIA, Fitofisionomia
Áreas do conhecimento : Botânica,Ecologia,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

14. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Elaboração do RCA para implantação do Parque Eólico de Linhares, 2009

Palavras-chave: ecologia, fitogeografia, FLORÍSTICA, Fitofisionomia
Áreas do conhecimento : Ecologia Aplicada,Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

15. SIMONELLI, Marcelo; MATOS, F. R.
Execução do Plano de Recuperação de Áreas Degradadas e ações de intervenção na área da sub-estação Lamerão, Guarapari, ES, 2009

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia de Ecossistemas,Botânica
Referências adicionais : Brasil/Português.

16. SIMONELLI, Marcelo; MATOS, F. R.
Execução do Plano de Recuperação de àreas Degradadas LD 138 KV Verona-Nova Venécia, 2009

Palavras-chave: Recuperação de áreas degradadas, ecologia
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

17. SIMONELLI, Marcelo; MATOS, F. R.
Execução dos programas de banco de sementes; salvamento de espécies vegetais e

enriquecimento/recuperação da Reserva Ecológica Municipal de Camburi, 2009

Palavras-chave: Recuperação de áreas degradadas, RESTINGA
Áreas do conhecimento : Ecologia,Botânica
Referências adicionais : Brasil/Português.

18. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
R.C.A. Linha de transmissão sub-estação São Silvano a sub-estação Ângelo Frechiani, 2009

Palavras-chave: FLORÍSTICA, Fitofisionomia
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

19. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
R.C.A. Pequena Central Hidrelétrica Córrego Alto, 2009

Palavras-chave: Fitofisionomia, FLORÍSTICA
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

20. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; MATOS, F. R.
Responsável técnico pelo estudo do meio biótico/flora e Unidades de Conservação do EIA/RIMA para implantação do Estaleiro Jurong, 2009

Palavras-chave: FLORÍSTICA, FITOSSOCIOLOGIA, RESTINGA, TABULEIRO
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Botânica
Referências adicionais : Brasil/Português.

21. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; Repossi, Larissa Fazolo; BARBOSA, N.
Elaboração o plano de manejo da Reserva Ecológica dos Manguezais Piraquê-Açú e Piraquê-Mirim (Aracruz, ES)., 2008

Palavras-chave: Manguezal, Plano de manejo
Áreas do conhecimento : Florística e Fitossociologia,Ecologia,Ecologia Aplicada
Referências adicionais : Brasil/Português.

22. SIMONELLI, Marcelo; Coser, Thiago dos Santos; VALENTIM, L. F. D.
Execução do Programa de salvamento de Germoplasma do Terminal Aquaviário de Barra do Riacho, 2008

Palavras-chave: Resgate de Flora
Referências adicionais : Brasil/Português.

23. **SIMONELLI, Marcelo**
Caracterização botânica e elaboração do plano de resgate das espécies da flora da área de influência direta do ramal entre a estação coletora Lagoa Parda (ECLP) e o Gasoduto denominado GASENE (Cacimbas/Vitória), 2007

Referências adicionais : Brasil/Português.

24. **SIMONELLI, Marcelo**
Caracterização botânica para elaboração do PCA do projeto de duplicação da ponte sobre o Rio Aribirí - Acesso Rodoviário ao cais de Capuaba, 2007

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

25. SIMONELLI, Marcelo; MATOS, F. R.
Caracterização da vegetação na área do centro de formação unificada de Inhanguetá, Vitória, ES, 2007

Referências adicionais : Brasil/Português.

26. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; MATOS, F. R.; SONEGHETTI, Gabriel Pitanga
Elaboração do plano de manejo da APA da Lagoa Jacuném - Vegetação, 2007

Referências adicionais : Brasil/Português.

27. SIMONELLI, Marcelo; MAGEVSK, Tarcísio
Monitoramento das espécies vegetais resgatadas da área de influência direta do ramal entre a estação coletora de Lagoa Parda e o Gasoduto Gasene, 2007

Referências adicionais : Brasil/Português.

28. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; MATOS, F. R.
PCA Vila Santa Luzia Bristol Resort & Condomínio, 2007

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

Relatório de Controle Ambiental (RCA) do Levantamento Geofísico Terrestre 3D, no Campo de Saíra, Jaguaré/São Mateus ES (Meio Biótico - Vegetação), 2013

Referências adicionais : Brasil/Português.

18. SIMONELLI, Marcelo; Correia, G. G. S.
Relatório de Controle Ambiental (RCA) do Levantamento Geofísico Terrestre 3D, no Campo de São Mateus, São Mateus/Conceição da Barra ES (Meio Biótico - Vegetação), 2013

Referências adicionais : Brasil/Português.

19. **SIMONELLI, Marcelo**
Responsável pelo Meio Biótico (Flora) no relatório de Controle Ambiental (RCA), levantamento Geofísico Terrestre 3D Lagoa Sabiá, 2013

Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

20. **SIMONELLI, Marcelo**

Responsável Técnico pela elaboração do diagnóstico (Flora) do PCA de um aerogerador na área da SAMARCO, 2013

Palavras-chave: FLORÍSTICA
Referências adicionais : Brasil/Português.

21. **SIMONELLI, Marcelo**
Responsável Técnico pela execução do PRAD da pCH Fruteiras, 2013

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

22. **SIMONELLI, Marcelo**
responsável Técnico pela execução do PRAD da PCH Viçosa, 2013

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

23. **SIMONELLI, Marcelo**
Responsável técnico pela execução do programa de monitoramento dos fragmentos de matas no entorno da SAMARCO - Ubú, Anchieta - ES, 2013

Palavras-chave: monitoramento ambiental
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

24. **SIMONELLI, Marcelo**
Responsável técnico pela execução do programa de recuperação de áreas degradadas do condomínio Jardins Veneza, 2013

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia
Referências adicionais : Brasil/Português.

25. **SIMONELLI, Marcelo**
Responsável técnico pelos estudos do meio biótico/flora do EIA/RIMA da ligação entre Vitória e Cariacica (Quarta ponte), 2013

Referências adicionais : Brasil/Português.

26. **SIMONELLI, Marcelo**
Atualização do inventário florestal/florístico em área de influência da companhia siderúrgica de Ubu (CSU) em Anchieta, ES, 2012

Referências adicionais : Brasil/Português.

27. **SIMONELLI, Marcelo**
Elaboração do PRAD na área do aterro controlado da CODIN, Campos dos Goytacazes, RJ, 2012

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia
Referências adicionais : Brasil/Português.

28. **SIMONELLI, Marcelo**
Estudos complementares de flora para a unidade de papel Tissue, Aracruz, ES, 2012

Referências adicionais : Brasil/Português.

29. **SIMONELLI, Marcelo**
Levantamento Cadastral das espécies de flora exótica da BR 101, 2012

Palavras-chave: FLORÍSTICA
Referências adicionais : Brasil/Português.

Perícia técnica Processo 04808012874-6, 2012

Referências adicionais : Brasil/Português.

31. **SIMONELLI, Marcelo**
Responsável técnico pela execução do PRAD da PCH Francisco Gross, 2012

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

32. **SIMONELLI, Marcelo**
Elaboração do plano de recuperaçãod e áreas degradadas do Estaleiro Jurong Aracruz, 2011

Palavras-chave: Recuperação de áreas degradadas, TABULEIRO
Áreas do conhecimento : Ecologia Aplicada,Botânica
Referências adicionais : Brasil/Português.

33. **SIMONELLI, Marcelo**
Elaboração do projeto de cinturão verde do cluster de termelétrica de Linhares, 2011

Palavras-chave: Recuperação de áreas degradadas, RESTINGA
Áreas do conhecimento : Ecologia Aplicada,Botânica
Referências adicionais : Brasil/Português.

34. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Elaboração do Pograma de Recuperação de Áreas Degradadas PORTOCEL, 2010

Palavras-chave: Recuperação de áreas degradadas, mata atlântica
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

35. SIMONELLI, Marcelo; Correia, G. G. S.
Elaboração do PRAD da PCH São Pedro, 2010

Palavras-chave: Recuperação de áreas degradadas, mata atlântica
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

36. **SIMONELLI, Marcelo**
Elaboração do Programa de Recuperação de Áreas Degradadas (PRAD) da Usina Termoelétrica de Linhares III, 2010

Palavras-chave: Recuperação de áreas degradadas, mata atlântica
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

37. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; Correia, G. G. S.; OLIVEIRA, L. B.
Plano de Manejo da RPPN Restinga de Aracruz: Caracterização botânica da área da Reserva Particular do Patrimônio Natural (RPPN) Restinga de Aracruz, ES, 2009

Palavras-chave: ARACRUZ, RESTINGA, FITOSSOCIOLOGIA, conservação, FLORÍSTICA
Áreas do conhecimento : Botânica,Ecologia de Ecossistemas,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

38. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Plano de Recuperação de Áreas Degradadas na área de Influência direta da LD 138KV Vila Pavão-Paulista, 2009

Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

39. SIMONELLI, Marcelo; MAGNAGO, L. F. S.
Plano de Recuperação de área degradada (PRAD) de 2,3 ha inseridos na Floresta Nacional de Goytacazes, 2008

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

40. **SIMONELLI, Marcelo**
Plano de resgate de vegetação nativa a ser suprimida na área de influência direta do "Complexo Turístico e Hoteleiro Vila Santa Luzia", 2008

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

41. **SIMONELLI, Marcelo**
Atualização do Plano de Recuperação de Áreas Degradadas na Área de Influência Direta da UHE Suiça, 2007

Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

Educação e Popularização de C&T

Capítulos de livros publicados

1. SIMONELLI, Marcelo; Correia, G. G. S.; ROCHA NETO, M.; LAPORTI, J.
Flora In: Diagnóstico científico do Rio Doce.1, 2015, v.01, p. 273-319.
Palavras-chave: conservação, Fitofisionomia, ecologia
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português. ISBN: 9788569160007

Apresentação de trabalho e palestra

1. DIAS, T. P.; **SIMONELLI, Marcelo**; ROCHA NETO, M.; AMMON, R. A.
Avaliação do desenvolvimento de espécies arbóreas nativas utilizadas para reposição florestal de uma APP no assentamento Rural João Batista Soares, Carapebus, RJ, 2018. (Congresso,Apresentação de Trabalho)
Referências adicionais : Brasil/Espanhol; Local: Vitória; Cidade: VITÓRIA; Evento: V Congresso Brasileiro de Reflorestamento Ambiental; Inst.promotora/financiadora: cedagro

2. ROCHA NETO, M.; **SIMONELLI, Marcelo**; DIAS, T. P.; DAMBROZ, Giovani
Avaliação do desenvolvimento do projeto de restauração florestal implantado na PCH Fruteiras, no Município de Cachoeiro de Itapemirim, ES, 2018. (Congresso,Apresentação de Trabalho)
Referências adicionais : Brasil/Espanhol; Local: Vitória; Cidade: VITÓRIA; Evento: V Congresso Brasileiro de Reflorestamento Ambiental; Inst.promotora/financiadora: CEDAGRO

3. **SIMONELLI, Marcelo**; MAZZINI, L.
Laboratório Natural: Caracterização Botânica da Bacia do Rio Reis Magos, ES, Brasil, 2018. (Congresso,Apresentação de Trabalho)
Referências adicionais : Brasil/Português. Meio de divulgação: Meio digital; Local: Cuiabá; Cidade: Cuiabá; Evento: 69 Congresso Nacional de Botânica; Inst.promotora/financiadora: SBB

Organização de eventos, congressos, exposições e feiras e olimpíadas

1. **SIMONELLI, Marcelo**
Semana de Meio Ambiente, 2017. (Congresso, Organização de evento)
Referências adicionais : Brasil/Espanhol.

Participação em eventos, congressos, exposições, feiras e olimpíadas

1. Moderador no(a) **Semana de Meio Ambiente**, 2017. (Congresso)
Mata Atlântica: Biodiversidade, Fragmentação, Recuperação.

Orientações e Supervisões

Orientações e supervisões

Orientações e supervisões concluídas

Monografias de conclusão de curso de aperfeiçoamento/especialização

1. Tatiana Pizetta Dias. **Avaliação do banco de sementes de um remanescente de Mata Atlântica visando a recuperação de áreas degradadas**. 2010. Monografia (Especialização em Gestão e Educação Ambiental) - Faculdade Espírito Santense
Palavras-chave: Recuperação de áreas degradadas, ecologia, dispersão
Referências adicionais : Brasil/Português.

2. Jonas Gonçalves de aguiar e Luciano Campista Salles. **Produtor florestal**. 2009. Monografia (Especialização em Gestão e Educação Ambiental) - Faculdade Espírito Santense
Palavras-chave: Recuperação de áreas degradadas, conservação
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

3. Grazieli Pndolffi e Raquel Almeida Ventura. **Proposta de adequação ambiental da fazenda lapinha (Itamaraju - BA) visando o cumprimento da legislação ambiental referente às Áreass de Preservação Permanente (APPs) e Reserva Legal (RL)**. 2009. Monografia (Especialização em Gestão e Educação Ambiental) - Faculdade Espírito Santense
Palavras-chave: Recuperação de áreas degradadas, TABULEIRO
Áreas do conhecimento : Ecologia de Ecossistemas,Ecologia Aplicada
Referências adicionais : Brasil/Português.

4. Júlio Demuner Ferreira. **Recuperação de áreas degradadas e planejamento da pequena propriedade rural para um uso sustentável de seus recursos naturais**. 2009. Monografia (Especialização em Gestão e Educação Ambiental) - Faculdade Espírito Santense
Palavras-chave: Recuperação de áreas degradadas, conservação
Áreas do conhecimento : Ecologia Aplicada,Botânica,Recursos Florestais e Engenharia Florestal
Referências adicionais : Brasil/Português.

Trabalhos de conclusão de curso de graduação

1. Maciele Leal da Silva e Thamires de Souza Moreira Andrade. **COMPOSIÇÃO FLORÍSTICA DA VEGETAÇÃO VASCULAR SOBRE UM AFLORAMENTO ROCHOSO NO PARQUE ESTADUAL DA FONTE GRANDE, VITÓRIA/ES-BRASIL**. 2013. Curso (Ciências Biológicas) - Faculdades Integradas São

Pedro
Palavras-chave: FLORÍSTICA
Referências adicionais : Brasil/Português.

2. MATHEUS VIEIRA CAMPOREZ. **INFLUÊNCIA DA ESPÉCIE EXÓTICA TRADESCANTIA ZEBRINA HEYNH NA REGENERAÇÃO DE ESPÉCIES NATIVAS ARBÓREAS NO PARQUE DA FONTE GRANDE VITÓRIA – E.S**. 2013. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

3. NAGILA R. MOSA MAÇÃO e RAIZA DALVI NERY. **MONITORAMENTO PÓS – CONTROLE DE ESPÉCIES ARBÓREAS EXÓTICAS DE Acacia spp. NO MUNICIPIO DE ARACRUZ, EPIRITO SANTO**. 2013. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

4. Paulo Henrique Pimenta Borges. **MONITORAMENTO PÓS-PLANTIO DE UMA ÁREA RESTAURADA EM BAIXO GUANDU, ES**. 2013. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

5. Tayla Martins Gomes da Silva. **MONITORAMENTO PÓS-PLANTIO DE UMA ÁREA RESTAURADA NA FLORESTA NACIONAL DE GOYTACAZES, LINHARES, ESPÍRITO SANTO, BRASIL**. 2013. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

6. CAIQUE DE OLIVEIRA SOARES e IVANA GOZZER FERREIRA. **DE RECUPERAÇÃO DA VEGETAÇÃO DE RESTINGA DA PRAIA DA CASTANHEIRA – ILHA DO FRADE, VITÓRIA, ES**. 2012. Curso (Engenharia Ambiental) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

7. BIANCA NUNES DOS REIS. **MONITORAMENTO PÓS-PLANTIO DE UMA ÁREA DE MATA ATLÂNTICA RESTAURADA, EM SANTA MARIA DE JETIBÁ, ESPÍRITO SANTO, BRASIL**. 2012. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

8. Bianca Nunes dos Reis. **Monitoramento Pós-Plantio de uma área de Mata Atlântica Restaurada, em Santa Maria de Jetibá, Espírito Santo, Brasil**. 2012. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Referências adicionais : Brasil/Português.

9. LUANNA BASTOS OLIVEIRA e MARIANA GATTI BASTOS. **POTENCIAL DE APROVEITAMENTO DE PLANTAS JOVENS TRANSPLANTADAS DE ÁREA DE PLANÍCIE DE TABULEIRO COSTEIRO PARA PRODUÇÃO DE MUDAS EM VIVEIRO**. 2012. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Ecologia Aplicada
Referências adicionais : Brasil/Português.

10. Luanna Bastos Oliveira e Mariana Gatti Bastos. **Potencial de Aproveitamento de Plântulas Transplantadas de Área de Planície de Tabuleiro Costeiro para Produção de Mudas em Viveiro**. 2012. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Referências adicionais : Brasil/Português.

11. Roberta Pessotti Mendes. **Estrutura de um fragmento de floresta ombrófila densa montana, em Alto Caxixe, Venda Nova do Imigrante, ES.**. 2011. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FITOSSOCIOLOGIA, FLORÍSTICA, Fitofisionomia
Áreas do conhecimento : Florística e Fitossociologia
Referências adicionais : Brasil/Português.

12. PALOMA THIARA NUNES DAS NEVES. **IDENTIFICAÇÃO DAS PLANTAS MEDICINAIS DO VIVEIRO DO CENTRO DE EDUCAÇÃO AMBIENTAL DE JUCURUABA CEAJ/INCAPER, VIANA/ES**. 2011. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: ETNOBOTÂNICA
Áreas do conhecimento : Botânica Aplicada
Referências adicionais : Brasil/Português.

13. BERNARDO PRETTI BECACICI MACIEIRA e JULIANA CAETANO MULLER D. **LEVANTAMENTO FLORÍSTICO E FITOSSOCIOLÓGICO DO MANGUEZAL DA UNIVERSIDADE FEDERAL DO ESPÍRITO SANTO (UFES), VITÓRIA – ES**. 2011. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FLORÍSTICA, FITOSSOCIOLOGIA
Referências adicionais : Brasil/Português.

14. JULIÉTTY ANGIOLETTI TESCH. **MONITORAMENTO DO REFLORESTAMENTO DE UMA ÁREA DEGRADADA DE MATA ATLÂNTICA EM**. 2011. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: ecologia, Recuperação de áreas degradadas
Referências adicionais : Brasil/Português.

15. Janine Candeias Balbino. **Acompanhamento pós-plantio de espécies nativas em uma mata ciliar em Alto Caxixe, Venda Nova do Imigrante - ES**. 2010. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas, ecologia
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

16. Alan D. Mattedi. **Composição florística da vegetação ciliar de um remanescente de Mata Atlântica na localidade de Alto Caxixe, Venda Nova do Imigrante, ES, Brasil**. 2010. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FLORÍSTICA, mata atlântica
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

17. NELSON BARCELOS PEREIRA. **FITOSSOCIOLOGIA E FLORÍSTICA DA RESERVA DOS MANGUEZAIS DOS RIOS PIRAQUÊ-AÇU E PIRAQUÊ-MIRIM EM ARACRUZ - ES**. 2010. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FLORÍSTICA, FITOSSOCIOLOGIA
Referências adicionais : Brasil/Português.

18. Franthely Villa Coutinho Lamartine e Giovana Freitas Sala. **Fitossociologia e ´florística no Manguezal de Barra Nova, São Mateus, ES.**. 2010. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Manguezal, FITOSSOCIOLOGIA, FLORÍSTICA
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

19. Flavio Fernandes de Deus. **Levantamento florístico e fitossociológico de uma área de Mata Atlântica do Centro de Desenvolvimento Sustentável Guaçú-Virá, Venda Nova do Imigrante, ES.**. 2010. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FLORÍSTICA, FITOSSOCIOLOGIA
Áreas do conhecimento : Florística e Fitossociologia
Referências adicionais : Brasil/Português.

20. Thamiris Montoanelli Lopes. **LEVANTAMENTO FLORÍSTICO DE PTERIDOPHYTA EM FRAGMENTOS DE MATA ATLÂNTICA NO CORREDOR ECOLÓGICO CÓRREGO DO VEADO, ESPÍRITO SANTO – BRASIL**. 2009. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Corredores ecológicos, FLORÍSTICA, Pteridófitas
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

21. Olgmara Fátima Caliman. **Riqueza de espécies arbóreas nativas produzidas em viveiros do Espírito Santo**. 2009. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: Recuperação de áreas degradadas, mata atlântica, conservação, mudas
Áreas do conhecimento : Botânica,Ecologia Aplicada
Referências adicionais : Brasil/Português.

22. Jaely Rosa Merlim. **Composição florística e estrutura do estrato arbóreo e regeneração natural em uma área restaurada no Morro do Cruzamento, município de Vitória, ES**. 2008. Curso (Ciências Biológicas) - Faculdade Católica Salesiana do Espírito Santo - Vitória

Palavras-chave: ecologia, Recuperação de áreas degradadas, FLORÍSTICA, FITOSSOCIOLOGIA, regeneração natural
Referências adicionais : Brasil/Português.

23. Kaio Almeida Brahim. **Distribuição geográfica de Cattleya xanthina Lindl. no Estado do Espírito Santo, Brasil**. 2008. Curso (Ciências Biológicas) - Escola Superior São Francisco de Assis
Palavras-chave: Orchidaceae, fitogeografia
Áreas do conhecimento : Fitogeografia,Botânica
Referências adicionais : Brasil/Português.

24. Carla da Penha Volkers. **Estado atual das espécies tipo coletadas por Roberto Anselmo Kautsky**. 2008. Curso (Ciências Biológicas) - Faculdade Católica Salesiana do Espírito Santo - Vitória
Palavras-chave: tipificação, sistemática
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

25. Rafael Espósito Altoé. **Florística e fitossociologia de Orchidaceae Juss. epifíticas em ilhas fluviais no município de Alegre, ES**. 2008. Curso (Ciências Biológicas) - Faculdade Católica Salesiana do Espírito Santo - Vitória
Palavras-chave: Orchidaceae, FITOSSOCIOLOGIA, FLORÍSTICA
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

26. Marcos Thiago Gáudio Gomes. **Florística e fitossociologia em um afloramento rochoso no Parque Estadual Paulo César Vinha, Guarapari, ES**. 2008. Curso (Ciências Biológicas) - Faculdades Integradas São Pedro
Palavras-chave: FITOSSOCIOLOGIA, FLORÍSTICA, Afloramentos rochosos, ecologia
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

27. Livia Zocatelli Salvador e Raquel Almeida Ventura. **Avaliação de banco de sementes de Restinga visando sua restauração através da transposição do solo, Regência, Linhares-ES**. 2007. Curso (Ciências Biológicas) - Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

.

2. **V Congresso Brasileiro de Reflorestamento Ambiental**, 2018. (Congresso)
.

3. Apresentação de Poster / Painel no(a) **Encontro Capixaba de Química**, 2017. (Encontro)
Laboratório Natural: Qualidade da água do Rio Reis Magos.

4. **II Encontro de Educadores Ambientais do Ifes**, 2017. (Encontro)
.

5. Moderador no(a) **Semana de Meio Ambiente**, 2017. (Congresso)
Mata Atlântica: Biodiversidade, Fragmentação, Recuperação.

6. **Semana de Meio Ambiente**, 2017. (Congresso)
Conectando pessoas a Mata Atlântica.

7. Apresentação de Poster / Painel no(a) **III Congresso Brasileiro de Reflorestamento Ambiental**, 2014. (Congresso)
Regeneração natural em áreas em processo de restauração na Floresta Nacional de Goytacazes, Linhares, Espírito Santo..

8. Apresentação de Poster / Painel no(a) **64 Congresso Nacional de Botânica**, 2013. (Congresso)
Caracterização florística das áreas regeneradas do estado do Espírito Santo.

9. Apresentação de Poster / Painel no(a) **II Congresso Brasileiro de Reflorestamento Ambiental**, 2012. (Congresso)
Potencial de Aproveitamento de Plântulas Transplantadas de Área de Planície de Tabuleiro Costeiro para Produção de Mudas em Viveiro.

10. **II Congresso Brasileiro de Reflorestamento Ambiental**, 2012. (Congresso)
.

11. Apresentação de Poster / Painel no(a) **62 Congresso Nacional de Botânica**, 2011. (Congresso)
Avaliação do potencial da transposição do banco de sementes de um remanescente de Mata Atlântica para restauração florestal em áreas degradadas.

12. Apresentação de Poster / Painel no(a) **I Congresso Brasileiro de Reflorestamento Ambiental**, 2011. (Congresso)
Acompanhamento do crescimento pós-plantio de espécies nativas, Baixo Guandú, ES, Brasil.

13. **Encontro Regional de Botânica**, 2010. (Congresso)
.

14. Apresentação de Poster / Painel no(a) **VIII Simpósio nacional sobre recuperação de áreas degradadas**, 2010. (Simpósio)
Acompanhamento pós-plantio do crescimento de espécies nativas em uma mata ciliar em Alto Caxixe, Venda Nova do Imigrante-ES.

15. Apresentação de Poster / Painel no(a) **60 Congresso Nacional de Botânica**, 2009. (Congresso)
Grupos ecológicos e similaridade florística em fragmentos de Mata Atlântica so sul do Espírito Santo.

16. **IV Simpósio de Engenharia Ambiental do Espírito Santo**, 2009. (Simpósio)
.

17. Apresentação Oral no(a) **VIII Jornada Cintífica da FAESA**, 2009. (Outra)
Projeto Caxixe.

18. Apresentação de Poster / Painel no(a) **59 Congresso Nacional de Botânica**, 2008. (Congresso)
Produção de serapilheira em uma Floresta de Restinga no Parque Estadual Paulo César Vinha, Guarapari (ES).

19. **Workshop Plano de ação para Orquídeas ameaçadas do Brasil**, 2008. (Outra)
.

20. Apresentação de Poster / Painel no(a) **XXVIII Encontro Regional de Botânicos**, 2008. (Encontro)
Fitossociologia da vegetação arbórea de seis fragmentos florestais no corredor córrego do veado, ES.

21. **Ciclo de palestras da XIV Exposição de Orquídeas**, 2007. (Outra)
.

22. **IV Simpósio de Recuperação de Áreas Degradadas**, 2007. (Simpósio)
.

23. **Seminário Mata Atlântica**, 2007. (Seminário)
.

24. Avaliador no(a) **VI Workshop do projeto Biotupé**, 2007. (Outra)
VI Workshop do projeto Biotupé.

25. Apresentação de Poster / Painel no(a) **57 Congresso Nacional de Botânica**, 2006. (Congresso)
57 Congresso Nacional de Botânica.

26. **Oficina de apresentação e discussão de parâmetros técnicos para recuperação de áreas degradadas no estado do Espírito Santo**, 2006. (Oficina)
.
Palavras-chave: Recuperação de áreas degradadas
Áreas do conhecimento : Botânica,Ecologia Aplicada,Recursos Florestais e Engenharia Florestal

27. **Terceiro Seminário Inter-Estadual sobre Reflorestamento Ambiental**, 2006. (Seminário)
.

28. Simposiasta no(a) **reunião para atualização das áreas prioritárias para conservação, uso sustentável e repartição dos benefícios da biodiversidade da mata atlântica**, 2006. (Seminário)
reunião para atualização das áreas prioritárias para conservação, uso sustentável e repartição dos benefícios da biodiversidade da zona costeira e marinha e da mata atlântica.

29. Apresentação de Poster / Painel no(a) **56º Congresso Nacional de Botânica**, 2005. (Congresso)
56º Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

30. Apresentação de Poster / Painel no(a) **55º Congresso Nacional de Botânica e XXVI Encontro Regional de Botânicos**, 2004. (Congresso)
55º Congresso Nacional de Botânica e XXVI Encontro Regional de Botânicos.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

31. **I SIMPLAM Simpósio de Plantas Medicinais da FAESA**, 2003. (Simpósio)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

32. **III Seminário de Meio Ambiente e Comunicação da CST**, 2003. (Seminário)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

33. Apresentação de Poster / Painel no(a) **XXV Encontro Regional de Botânicos**, 2003. (Encontro)
XXV Encontro Regional de Botânicos.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

34. **Biologia da FAESA: A biologia e suas multiplicidades**, 2002. (Simpósio)
.

35. **IX Reunião Brasileira de Ficologia**, 2002. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

36. **Workshop Internacional de Educação Global Ambiental**, 2002. (Outra)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

37. Apresentação Oral no(a) **X Semana Pedagógica da UNILINHARES**, 2002. (Congresso)
X Semana Pedagógica da UNILINHARES.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

38. Apresentação de Poster / Painel no(a) **XXIV Encontro Regional de Botânicos**, 2002. (Encontro)
XXIV Encontro Regional de Botânicos.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

39. **I Jornada Científica da FAESA**, 2001. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

40. **II Encontro Pedagógico da FESAV**, 2001. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

41. **II Semana de Biologia da UNILINHARES**, 2001. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

42. **V Simpósio de Ecossistemas do Brasil: Conservação**, 2000. (Simpósio)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

43. Apresentação de Poster / Painel no(a) **XLIX Congresso Nacional de Botânica**, 1998. (Congresso)
XLIX Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

44. Apresentação de Poster / Painel no(a) **XLVIII Congresso Nacional de Botânica**, 1997. (Congresso)
XLVIII Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

45. Apresentação de Poster / Painel no(a) **XLVII Congresso Nacional de Botânica**, 1996. (Congresso)
XLVII Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

46. Apresentação de Poster / Painel no(a) **XVIII Encontro Regional de Botânicos**, 1996. (Encontro)
XVIII Encontro Regional de Botânicos.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

47. Apresentação de Poster / Painel no(a) **V Jornada de Iniciação Científica e Extensão da UFES**, 1995. (Outra)
V Jornada de Iniciação Científica e Extensão da UFES.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

48. Apresentação de Poster / Painel no(a) **XLVI Congresso Nacional de Botânica**, 1995. (Congresso)
XLVI Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

49. Apresentação de Poster / Painel no(a) **46ª Reunião Anual da SBPC**, 1994. (Congresso)
46ª Reunião Anual da SBPC.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

50. **XIII Simpósio de Plantas Medicinais do Brasil**, 1994. (Simpósio)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

51. Apresentação de Poster / Painel no(a) **XLV Congresso Nacional de Botânica**, 1994. (Congresso)
XLV Congresso Nacional de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

52. Apresentação de Poster / Painel no(a) **XVI Encontro Regional de Botânicos**, 1994. (Encontro)
XVI Encontro Regional de Botânicos.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

53. Apresentação (Outras Formas) no(a)**II Feira Estadual de Meio Ambiente**, 1993. (Outra)
II Feira Estadual de Meio Ambiente.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

54. **III Semana de Biologia**, 1993. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

55. **Terceiro Ciclo de Palestras Sobre Metodologia de Pesquisa**, 1993. (Outra)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

56. **XV Encontro Regional de Botânicos**, 1993. (Encontro)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

57. **XV Reunião Anual Sobre Evolução, Sistemática e Ecologia Micromoleculares e II Jornada de Iniciação Científica em Biodiversidade**, 1993. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

58. **II Semana de Biologia**, 1992. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

59. **III Encontro Regional de Estudantes de Biologia**, 1992. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

60. **XIV Encontro Regional de Botânicos**, 1992. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

61. **I Semana de Biologia**, 1991. (Congresso)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

62. **I Seminário Sobre a Conservação da Mata Atlântica e Sua Reserva da Biosfera**, 1991. (Seminário)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

63. **I Simpósio Sobre História dos Vertebrados (Eventos Evolutivos)**, 1991. (Simpósio)
.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

64. Apresentação de Poster / Painel no(a) **XI Jornada Fluminense de Botânica**, 1991. (Congresso)
XI Jornada Fluminense de Botânica.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

65. **XIII Encontro Regional de Botânicos**, 1991. (Congresso)

.
Áreas do conhecimento : Florística e Fitossociologia,Fitogeografia,Ecologia de Ecossistemas

Organização de evento

1. **SIMONELLI, Marcelo**
Semana de Meio Ambiente, 2017. (Congresso, Organização de evento)
Referências adicionais : Brasil/Espanhol.

2. **SIMONELLI, MARCELO**
Semana de Meio Ambiente do Ifes 2016, 2016. (Outro, Organização de evento)
Referências adicionais : Brasil/Português. Meio de divulgação: Impresso

3. **SIMONELLI, MARCELO**
67 Congresso Nacional de Botânica, 2016. (Congresso, Organização de evento)
Referências adicionais : Brasil/Português.
Atuação como Vice-Presidente do Congresso

4. SIMONELLI, Marcelo; Thomaz, L. D.
III Jornada Capixaba de Botânica, 2011. (Congresso, Organização de evento)
Referências adicionais : Brasil/Português.

5. **SIMONELLI, Marcelo**
IX Jornada Cinentífica da FAESA, 2010. (Congresso, Organização de evento)
Referências adicionais : Brasil/Português.

6. **SIMONELLI, Marcelo**
XXX Encontro Regional de Botânicos e II Jornada Capixaba de Botânica, 2010. (Congresso, Organização de evento)
Referências adicionais : Brasil/Português.

7. **SIMONELLI, Marcelo**
Workshop plano de ação para Orquídeas ameaçadas do Brasil, 2008. (Outro, Organização de evento)
Referências adicionais : Brasil/Português.

8. SIMONELLI, Marcelo; PEREIRA, Oberdan José; LUCAS, N. M. C.
XXV Encontro Regional do Botânicos, 2003. (Outro, Organização de evento)
Referências adicionais : Brasil/Português.

9. **SIMONELLI, Marcelo**
III Semana de Biologia, 1993. (Outro, Organização de evento)
Referências adicionais : Brasil/Português.

10. **SIMONELLI, Marcelo**
II Semana de Biologia, 1992. (Outro, Organização de evento)
Referências adicionais : Brasil/Português.

Bancas

Bancas
Participação em banca de trabalhos de conclusão

Graduação

1. **SIMONELLI, Marcelo**; APOLINARIOI, F. B.; MATHIAS, H. M. S.
Participação em banca de Karolini Bonadoman Agrizzi. **Reserva Biológica de Duas Bocas (Cariacica-ES): Caracterização Geral e Percepção Ambiental de Moradores do Entorno acerca da Geração e Destinação Final de Resíduos Sólidos**, 2019
(Engenharia Sanitária e Ambiental) Instituto Federal do Espírito Santo
Referências adicionais : Brasil/Português.

2. **SIMONELLI, Marcelo**; APOLINARIOI, F. B.; MATHIAS, H. M. S.
Participação em banca de Thais Dalvi Souza. **Diagnóstico e potencialidade turística do Parque Estadual da Fonte Grande em Vitória - ES**, 2018
(Engenharia Sanitária e Ambiental) Instituto Federal do Espírito Santo
Referências adicionais : Brasil/Português.

3. GATTI, A.; SIMOES, A. C.; **SIMONELLI, Marcelo**
Participação em banca de Gabryelle Aline N. Silva e Mariana M. Tourino. **Dieta de Tapirus terrestris na Reserva Biológica de Sooretama, norte do Espírito Santo.**, 2012
(Ciências Biológicas) Faculdades Integradas São Pedro
Referências adicionais : Brasil/Português.

4. SIMONELLI, Marcelo; CRUZ, C.; Correia, G. G. S.
Participação em banca de Bianca Nunes dos Reis. **Monitoramento Pós-Plantio de uma área de Mata Atlântica Restaurada, em Santa Maria de Jetibá, Espírito Santo, Brasil**, 2012
(Ciências Biológicas) Faculdades Integradas São Pedro
Referências adicionais : Brasil/Português.

5. SIMONELLI, Marcelo; BARROSO, Alessandra Delazari; KAMKE, C.
Participação em banca de Luanna Bastos Oliveira e Mariana Gatti Bastos. **Potencial de Aproveitamento de Plântulas Transplantadas de Área de Planície de Tabuleiro Costeiro para Produção de Mudas em Viveiro**, 2012
(Ciências Biológicas) Faculdades Integradas São Pedro
Referências adicionais : Brasil/Português.

6. Castro, P. R. A.; **SIMONELLI, Marcelo**
Participação em banca de Auryelle Silva Correa e Rafaela Ferreira Soares. **Uso extrativista da Aroeira na região de Vila do Riacho, Aracruz-ES**, 2010
(Engenharia Ambiental) Faculdade Espírito Santense
Palavras-chave: Schinus, RESTINGA
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

7. BARROSO, Alessandra Delazari; SIMONELLI, Marcelo; BARROSO, G. F.
Participação em banca de Bianca de Oliveira Galeti e Claudia Aparecida Palauro de Oli. **Diagnóstico de lagoas costeiras usando fitoplâncton como bioindicador - litoral sul do Espírito Santo**, 2009
(Ciências Biológicas) Faculdades Integradas São Pedro
Palavras-chave: bioindicadores, ecologia, FITOPLÂNCTON
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

8. SIMONELLI, Marcelo; BARROSO, Alessandra Delazari; AGUIJE, M. G. V.
Participação em banca de Thamiris Montoanelli Lopes. **Levantamento florístico de Pteridophyta em fragmentos de Mata Atlântica no Corredor Ecológico Córrego do Veado, Espírito Santo, Brasil**, 2009
(Ciências Biológicas) Faculdades Integradas São Pedro
Palavras-chave: Corredores ecológicos, FLORÍSTICA
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

9. PEREIRA, A. P. V.; BARROSO, Alessandra Delazari; **SIMONELLI, Marcelo**
Participação em banca de Mayara Rosario Casotto. **Levantamento taxonômico de algas marinhas bentônicas na praia da baleia, Jacaraípe, Serra, ES**, 2009
(Ciências Biológicas) Faculdades Integradas São Pedro
Palavras-chave: FLORÍSTICA, Algas bentônicas
Áreas do conhecimento : Florística e Fitossociologia,Botânica
Referências adicionais : Brasil/Português.

10. PIASSI, M.; SIMONELLI, Marcelo; SCHNEIDER, S. Z.
Participação em banca de Lorena Tereza da Penha Silva. **Briófitas da formação brejo herbáceo do Parque Estadual Paulo César Vinha, Setiba, Guarapari, ES, Brasil**, 2008
(Ciências Biológicas) Universidade Vila Velha
Referências adicionais : Brasil/Português.

11. MARTINS, Rodrigo Lemes; SIMONELLI, Marcelo; SAITER, Felipe Zamborlini
Participação em banca de Priscila Figueira de Souza e Talita da Costa e Siqueira. **Composição florística, análise estrutural e padrões de riqueza em uma área de afloramentos rochosos, Espírito Santo,**

Brasil, 2008
(Ciências Biológicas) Faculdades Integradas São Pedro
Palavras-chave: Afloramentos rochosos, ecologia, FITOSSOCIOLOGIA, FLORÍSTICA
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

12. SIMONELLI, Marcelo; GOMES, J. M. L.; ALMEIDA, R.
Participação em banca de Jaely Rosa Merlin. **Composição florística e estrutura do estrato arbóreo em uma área restaurada no Morro do Cruzamento, município de Vitória, ESo**, 2008
(Ciências Biológicas) Faculdade Católica Salesiana do Espírito Santo - Vitória
Referências adicionais : Brasil/Português.

13. SIMONELLI, Marcelo; SAITER, Felipe Zamborlini; FRANCO, B. K. S.
Participação em banca de Kaio Almeida Brahim. **Distribuição geográfica de Cattleya xanthina Lindl. no Estado do Espírito Santo, Brasil**, 2008
(Ciências Biológicas) Escola Superior São Francisco de Assis
Palavras-chave: fitogeografia, Orchidaceae
Áreas do conhecimento : Fitogeografia,Botânica
Referências adicionais : Brasil/Português.

14. SIMONELLI, Marcelo; FRAGA, Claudio Nicoletti de; SIMON, J. E.
Participação em banca de Carla da Penha Volkers. **Estado atual das espécies tipo coletadas por Roberto Anselmo Kautsky**, 2008
(Ciências Biológicas) Faculdade Católica Salesiana do Espírito Santo - Vitória
Palavras-chave: tipificação, sistemática
Áreas do conhecimento : Botânica
Referências adicionais : Brasil/Português.

15. GASPARINI JUNIOR, A. J.; SIMONELLI, Marcelo; Marinato, C. S.
Participação em banca de Heitor Scarpati Liuth. **Estudos Fenológicos reprodutivos e tipificação de frutos de espécies zoocóricas em um fragmento de mata de restinga na localidade de Degredo Linhares, ES**, 2008
(Ciências Biológicas) Faculdade Pitágoras de Linhares
Palavras-chave: dispersão, ecologia
Áreas do conhecimento : Ecologia,Botânica
Referências adicionais : Brasil/Português.

16. MENDES, S. L.; SIMONELLI, Marcelo; SANTOS, A. R.
Participação em banca de Luana D´ávila Centoducatte. **Evolução da paisagem no campus da Universidade Federal do Espírito Santo, ES**, 2008
(Ciências Biológicas) Universidade Federal do Espírito Santo
Palavras-chave: ecologia da paisagem, conservação
Áreas do conhecimento : Ecologia
Referências adicionais : Brasil/Português.

17. SAITER, Felipe Zamborlini; SIMONELLI, Marcelo; FRANCO, B. K. S.
Participação em banca de Allan Camatta Mônico. **Fitossociologia de um trecho de floresta secundária na Estação Biológica de Santa Lúcia, Santa Teresa-ES**, 2008
(Ciências Biológicas) Escola Superior São Francisco de Assis
Palavras-chave: FITOSSOCIOLOGIA, mata atlântica
Áreas do conhecimento : Florística e Fitossociologia,Botânica,Ecologia
Referências adicionais : Brasil/Português.

18. SIMONELLI, Marcelo; COUTO, D.; ALMEIDA, R.
Participação em banca de Rafael Espósito Altoé. **Florística e fitossociologia de Orchidaceae Juss. epifíticas em ilhas fluviais no município de Alegre, ES**, 2008
(Ciências Biológicas) Faculdade Católica Salesiana do Espírito Santo - Vitória
Palavras-chave: Orchidaceae, FITOSSOCIOLOGIA, FLORÍSTICA, ilhas fluviais
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

19. SIMONELLI, Marcelo; MARTINS, Rodrigo Lemes; MAGNAGO, L. F. S.
Participação em banca de Marcos Thiago Gáudio Gomes. **Florística e fitossociologia em um afloramento rochoso no Parque Estadual Paulo César Vinha, Guarapari, ES**, 2008
(Ciências Biológicas) Faculdades Integradas São Pedro
Palavras-chave: FITOSSOCIOLOGIA, FLORÍSTICA, ecologia, RESTINGA, Afloramentos rochosos
Áreas do conhecimento : Ecologia,Botânica

Referências adicionais : Brasil/Português.

20. GASPARINI JUNIOR, A. J.; SIMONELLI, Marcelo; Marinato, C. S.
Participação em banca de Ana Clara Corona Marchiori Salaroli. **Myrtaceae Juss. na Restinga de Degredo, Linhares, ES**, 2008
(Ciências Biológicas) Faculdade Pitágoras de Linhares
Palavras-chave: FLORÍSTICA
Áreas do conhecimento : Botânica,Florística e Fitossociologia
Referências adicionais : Brasil/Português.

21. ALMEIDA, R.; SIMONELLI, Marcelo; ALVES, A. G.
Participação em banca de Patricia Stur. **Unidade de conservação dos Pontões Capixabas: qual a opinião da comunidade?**, 2008
(Ciências Biológicas) Faculdade Católica Salesiana do Espírito Santo - Vitória
Referências adicionais : Brasil/Português.

22. SIMONELLI, Marcelo; MAGNAGO, L. F. S.; HEBLING, S. A.
Participação em banca de Livia Zocatelli Salvador e Raquel Almeida Ventura. **Avaliação de banco de sementes de Restinga visando sua restauração através da transposição do solo, Regência, Linhares-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

23. BARROSO, Alessandra Delazari; SIMONELLI, Marcelo; Marques, Maria Alice Moreno
Participação em banca de Daniela Patrícia Loyola e Jaqueline de oliveira. **Cianobactérias de lagos ornamentais urbanos: parques municipais de Vitória-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

24. SIMONELLI, Marcelo; LEMES, Rodrigo; ALMEIDA, R.
Participação em banca de Roberta Del Piero Fracalossi. **Ecologia de Couepia schottii Fritsch (Chrysobalanaceae) em um fragmento de floresta de Restinga em Linhares-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

25. ASSIS, A. M.; **SIMONELLI, Marcelo**
Participação em banca de Sandriane Kuster. **Estrutura fitossociológica da vegetação arbustivo-arbórea no sub-bosque de remanescente de Mata Atlântica e em sub-bosque de clones de Eucaliptus grandis no município de Santa Teresa (ES)**, 2007
(Ciências Biológicas) Escola Superior São Francisco de Assis
Referências adicionais : Brasil/Português.

26. Marques, Maria Alice Moreno; SIMONELLI, Marcelo; Oliveira, Fabrícia Fafá
Participação em banca de Gustavo Silva Coser e Paulo Sérgio de Assis. **Estudo de viabilidade do potencial agronômico do lodo de esgoto da estação de tratamento da Arcelor/Mittal/Tubarão-ES**, 2007
(Engenharia Ambiental) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

27. LEMES, Rodrigo; SIMONELLI, Marcelo; ALMEIDA, R.
Participação em banca de Jordana Neri. **Evidência de crescimento clonal de Cupania emarginata Cambess (Sapindaceae) na Restinga de Interlagos, Vila Velha-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

28. **SIMONELLI, Marcelo**
Participação em banca de Juliana Menezes Bregonci e Polyana Vieira polycarpo. **Galhas entomológicas em uma formação aberta não inundável de Restinga no Parque Estadual Paulo César Vinha, município de Guarapari-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

29. SIMONELLI, Marcelo; Machado, Simone; CO, W.
Participação em banca de Anderson Lanusse Vaccari Sant'Anna e Lucimar Kosanke. **Mapeamento participativo como ferramenta e diagnóstico socioambiental para a conservação de orquídeas em**

risco de extinção, 2007
(Ciências Biológicas) Escola Superior São Francisco de Assis
Referências adicionais : Brasil/Português.

30. SIMONELLI, Marcelo; BARROSO, Alessandra Delazari; ALMEIDA, R.
Participação em banca de Luis Felipe Oliveira Fiorotti e Luiz Felipe Dagostini Valen. **Produção de serapilheira em uma floresta de Restinga no Parque Estadual Paulo César Vinha-ES**, 2007
(Ciências Biológicas) Faculdade de Saúde e Meio Ambiente
Referências adicionais : Brasil/Português.

31. SIMONELLI, Marcelo; STANZANI, L. M. A.; BARROSO, Alessandra Delazari
Participação em banca de Diego Moraes de Resende Muchuli. **avaliação das populações de Ulva faciata (Chlorophyta, Ulvophyceaea) como bioindicadora de poluição orgânica na região costeira das ilhas do boi e do frade, Vitória - ES.**, 2006
(Ciencias Biologicas) Faculdades Associadas do Espírito Santo
Palavras-chave: biomassa, macrófitas aquáticas, bioindicadores
Áreas do conhecimento : Botânica,Ecologia
Referências adicionais : Brasil/Português.

32. FRAGA, Claudio Nicoletti de; SIMONELLI, Marcelo; ASSIS, A. M.
Participação em banca de Ludovic Jean Charles Kollmann. **Begoniacae do município de Santa Teresa, Espírito Santo**, 2006
(Ciências Biológicas) Escola Superior São Francisco de Assis
Referências adicionais : Brasil/Português.

33. SIMONELLI, Marcelo; ASSIS, A. M.; PEREIRA, Oberdan José

Outras informações relevantes

1 Atualmente atuo como professor universitário em disciplinas de graduação e pós-graduação nas áreas de botânica e ecologia. Atuo ainda esporadicamente em trabalhos de consultorias para diversas empresas do Espírito Santo e outros Estados. Também sou membro da Sociedade Botânica do Brasil (SBB) e conselheiro do Instituto de Pesquisas da Mata atlântica (IPEMA) onde coordenei projetos relevantes para o Espírito Santo como a elaboração da lista das espécies ameaçadas de extinção e do projeto plantas do futuro do Estado.

FORMAÇÃO ACADÊMICA

Graduação em Design de Produtos
Instituição: Universidade Vila Velha – UVV. Conclusão em 2013.

Técnico Profissionalizante em Automação e Controle Industrial.
Instituição: Centro Universo de Educação e Desenvolvimento. Conclusão em 2009.

INFORMÁTICA

Capacitação em Comunicação Visual – Corel Draw, Illustrator, Indesign, Photoshop
Instituição: Data Control. Conclusão em 2003.

Capacitação em AutoCAD 2D
Instituição: Data Control. Conclusão em 2003.

Capacitação em WebDesign – Fireworks, Dreamweaver, HTML, CSS 3, Java Script, Wordpress
Instituição: Data Point. Conclusão em 2016.

EXPERIÊNCIA PROFISSIONAL

RG Comunicação (junho/2018 – atual)
Cargo: Diretor de Arte / Criação
rg.ppg.br.
Resumo das Atividades:

- Desenvolvimento de campanhas, marcas, estratégia de comunicação, conteúdo para mídias sociais.
- Desenvolvimentos de campanhas de varejo, folhetos de supermercados, farmácias, etc.

Thons Comunicação (2018)
Cargo: Web designer
thons.com.br
Resumo das Atividades:

- Desenvolvimento de websites para os clientes e parceiros da agência.

É! Design (janeiro/2016 – atual)
Cargo: Diretor de Arte / Criação
eagenciadesign.com.br
Resumo das Atividades:

- Liderança de projetos de identidade de marcas, web design, editoriais.
- Responsável por supervisionar projetos.
- Relacionamento com clientes para a criação de design.
- Especialista em diagramação de documentos técnicos na área de Consultoria Ambiental.

Control Ambiental – Sustentabilidade e Meio Ambiente Ltda. (junho/2012 – dezembro/2015)
Cargo: Diagramador
Telefone: (27) 3134-5350 | www.controlambiental.com.br.
Resumo das Atividades:

- Editoração e diagramação de apresentações, relatórios técnicos, EIA/RIMAs, PRADs e RCAs de diversas empresas, como Petrobras, ArcelorMittal, VALE, EBX, entre outras.
- Criação de material gráfico impresso e eletrônico, como folders, folhetos, cartilhas, conteúdo para Programas de Educação Ambiental;
- Administração de conteúdo e programação do site da empresa.

CTA – Serviços em Meio Ambiente LTDA (outubro/2009 – maio/2012)
Cargo: Diagramador
Telefone: (27) 3345-4222 | www.cta-es.com.br.
Resumo das Atividades:

- Editoração e diagramação de apresentações, relatórios técnicos, EIA/RIMAs, PRADs e RCAs de diversas empresas, como Petrobras, ArcelorMittal, VALE, EBX, entre outras.
- Criação de material gráfico impresso e eletrônico, como folders, folhetos, cartilhas, conteúdo para Programas de Educação Ambiental.

COOPEVES – Cooperativa de Pesca de Vila Velha (fevereiro/2009 – setembro/2009)
Cargo: Auxiliar Administrativo
Telefone: (27) 3329-1230
Resumo das Atividades: Execução de tarefas específicas e rotinas administrativas, financeiras e logísticas; auxiliar no controle e gestão dos recursos financeiros e logísticos da Unidade.
COOPEVES – Cooperativa de Pesca de Vila Velha (setembro/2006 – dezembro/2008)
Cargo: Auxiliar Administrativo
Telefone: (27) 3329-1230
Resumo das Atividades: Execução de tarefas específicas e rotinas administrativas, financeiras e logísticas; auxiliar no controle e gestão dos recursos financeiros e logísticos da Unidade.

Quiosque Fortaleza (março/2005 – janeiro/2006)
Cargo: Consultor de Turismo
Telefone: (27) 3319-1222
Resumo das Atividades: Controle de fluxo de caixa; recebimento de pagamentos, mercadorias; atendimento de balcão.

Maori Turismo (outubro/2004 – dezembro/2004)
Cargo: Consultor de Turismo
Telefone: (27) 3319-1222

Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA

Código CBO	Ocupação	Área de Atividade
2140-05	Engenheiro Ambiental	Prestar consultoria, assistência e assessoria

Conforme dados disponíveis na presente data, CERTIFICA-SE que a pessoa física está em conformidade com as obrigações cadastrais do CTF/AIDA.

A inscrição no Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA constitui declaração, pela pessoa física, do cumprimento de exigências específicas de qualificação ou de limites de atuação que porventura sejam determinados pelo respectivo Conselho de Fiscalização Profissional.

O Certificado de Regularidade emitido pelo CTF/AIDA não desobriga a pessoa inscrita de obter licenças, autorizações, permissões, concessões, alvarás e demais documentos exigíveis por instituições federais, estaduais, distritais ou municipais para o exercício de suas atividades, especialmente os documentos de responsabilidade técnica, qualquer o tipo e conforme regulamentação do respectivo Conselho de Fiscalização Profissional, quando exigíveis.

O Certificado de Regularidade no CTF/AIDA não produz qualquer efeito quanto à qualificação e à habilitação técnica da pessoa física inscrita.

CEP: 29052-110 UF: ES

Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA

Código CBO	**Ocupação**	**Área de Atividade**
2149-15	Engenheiro de Segurança do Trabalho	Supervisionar sistemas, processos e métodos produtivos
2144-05	Engenheiro Mecânico	Assessorar atividades técnicas
2144-05	Engenheiro Mecânico	Elaborar documentação técnica

Conforme dados disponíveis na presente data, CERTIFICA-SE que a pessoa física está em conformidade com as obrigações cadastrais do CTF/AIDA.

A inscrição no Cadastro Técnico Federal de Atividades e Instrumentos de Defesa Ambiental – CTF/AIDA constitui declaração, pela pessoa física, do cumprimento de exigências específicas de qualificação ou de limites de atuação que porventura sejam determinados pelo respectivo Conselho de Fiscalização Profissional.

O Certificado de Regularidade emitido pelo CTF/AIDA não desobriga a pessoa inscrita de obter licenças, autorizações, permissões, concessões, alvarás e demais documentos exigíveis por instituições federais, estaduais, distritais ou municipais para o exercício de suas atividades, especialmente os documentos de responsabilidade técnica, qualquer o tipo e conforme regulamentação do respectivo Conselho de Fiscalização Profissional, quando exigíveis.

O Certificado de Regularidade no CTF/AIDA não produz qualquer efeito quanto à qualificação e à habilitação técnica da pessoa física inscrita.

Anexo 5

Dados geográficos dos mapas, plantas e imagens apresentados no estudo.

ANEXO 5

Em atenção a Instrução Técnica COOEAM/PRES nº 02/ 2023, os dados geográficos serão apresentados em formato digital vetorial shapefile (.shp), acompanhados por projetos (*.mdx), arquivos layer.lyr (cores/classes/legenda) e arquivo de extensão Keyhole Markup Language (.kmz) do projeto. Os arquivos raster, como imagens de satélite, ortofotos, fotografias aéreas e modelos digitais de relevo, serão apresentados no formato TIFF, GeoTIFF ou ECW. Adicionalmente, todos os mapas, plantas e imagens serão apresentados em formato de apresentação (.pdf e .jpeg).
